## Marco Maglionico

List of Publications by Year in descending order

Source: https://exaly.com/author-pdf/4639159/publications.pdf Version: 2024-02-01

#	Article	IF	CITATIONS
1	Combined Application of Real-Time Control and Green Technologies to Urban Drainage Systems. Water (Switzerland), 2020, 12, 3432.	2.7	14
2	Modeling for sustainability: Life cycle assessment application to evaluate environmental performance of water recycling solutions at the dwelling level. Sustainable Production and Consumption, 2019, 17, 47-61.	11.0	19
3	Sewer Flow Prediction at a Large Urban Scale: Influence of Radar Rainfall Spatial Resolution. Green Energy and Technology, 2019, , 794-798.	0.6	0
4	Exploring the performances of a new integrated approach of grey, green and blue infrastructures for combined sewer overflows remediation in high-density urban areas. Journal of Agricultural Engineering, 2018, 49, 233-241.	1.5	15
5	Decentralized Water Management: Rainwater Harvesting, Greywater Reuse and Green Roofs within the GST4Water Project. Proceedings (mdpi), 2018, 2, 673.	0.2	11
6	SYSTEMS FOR RAINWATER HARVESTING AND GREYWATER REUSE AT THE BUILDING SCALE: A MODELLING APPROACH. Environmental Engineering and Management Journal, 2018, 17, 2349-2360.	0.6	5
7	A long-term hydrological modelling of an extensive green roof by means of SWMM. Ecological Engineering, 2016, 95, 876-887.	3.6	157
8	Experimental Infiltration Tests on Existing Permeable Pavement Surfaces. Clean - Soil, Air, Water, 2016, 44, 89-95.	1.1	18
9	Water consumption in a public swimming pool. Water Science and Technology: Water Supply, 2015, 15, 1304-1311.	2.1	5
10	Heat Recovery from Urban Wastewater: Analysis of the Variability of Flow Rate and Temperature in the Sewer of Bologna, Italy. Energy Procedia, 2014, 45, 288-297.	1.8	45
11	Evaluation of Reliability Indicators for WDNs with Demand-Driven and Pressure-Driven Models. Water Resources Management, 2014, 28, 1201-1217.	3.9	22
12	Heat recovery from urban wastewater: Analysis of the variability of flow rate and temperature. Energy and Buildings, 2014, 69, 122-130.	6.7	79
13	ANALYSIS OF THE PERFORMANCE RESPONSE OF OFFLINE DETENTION BASINS TO INLET STRUCTURE DESIGN. Irrigation and Drainage, 2013, 62, 449-457.	1.7	5
14	Water consumption in public schools for the city of Bologna, Italy. Water Science and Technology: Water Supply, 2013, 13, 257-264.	2.1	7
15	The role of settling velocity formulation in the determination of gully pot trapping efficiency: comparison between analytical and experimental data. Water Science and Technology, 2012, 65, 15-21.	2.5	6
16	Stormwater treatment: examples of computational fluid dynamics modeling. Frontiers of Environmental Science and Engineering, 2012, 6, 638-648.	6.0	3
17	Water consumptions in public schools. Procedia Engineering, 2011, 21, 929-938.	1.2	16
18	Water management in local development plans: the case of the old Fruit and Vegetable Market in Bologna. Procedia Engineering, 2011, 21, 1110-1117.	1.2	10

#	Article	IF	CITATIONS
19	Development of flood probability charts for urban drainage network in coastal areas through a simplified joint assessment approach. Hydrology and Earth System Sciences, 2011, 15, 3115-3122.	4.9	25
20	Toxicity and pollutant impact analysis in an urban river due to combined sewer overflows loads. Water Science and Technology, 2010, 61, 207-215.	2.5	32
21	Comparison between a detailed and a simplified integrated model for the assessment of urban drainage environmental impact on an ephemeral river. Urban Water Journal, 2008, 5, 87-96.	2.1	17
22	Simulation of a storm sewer network in industrial area: Comparison between models calibrated through experimental data. Environmental Modelling and Software, 2007, 22, 1221-1228.	4.5	35
