#	ARTICLE	IF	CITATIONS
1	Experiences of using the ISBAR tool after an intervention: A focus group study among critical care nurses and anaesthesiologists. <i>Intensive and Critical Care Nursing</i> , 2022, 70, 103195.	2.9	3
2	Factor analysis of the Chinese version of the Self-Care Ability Scale for the Elderly: A multi-centre cross-cultural validation study. <i>International Journal of Nursing Practice</i> , 2022, , e13060.	1.7	1
3	Loneliness Among Older Home-Dwelling Persons: A Challenge for Home Care Nurses. <i>Journal of Multidisciplinary Healthcare</i> , 2021, Volume 14, 435-445.	2.7	6
4	Intensive care nurses' implicit and explicit attitudes and their behavioural intentions towards obese intensive care patients. <i>Journal of Advanced Nursing</i> , 2019, 75, 3631-3642.	3.3	13
5	A sense of belonging: A meta-ethnography of the experience of patients with chronic obstructive pulmonary disease receiving care through telemedicine. <i>Journal of Advanced Nursing</i> , 2019, 75, 3219-3230.	3.3	18
6	Reflections on communication of disease prognosis and life expectancy by patients with colorectal cancer undergoing palliative care: a qualitative study. <i>BMJ Open</i> , 2019, 9, e023463.	1.9	9
7	Unlocking the limitations: Living with chronic obstructive pulmonary disease and receiving care through telemedicine – A phenomenological study. <i>Journal of Clinical Nursing</i> , 2018, 27, 132-142.	3.0	22
8	Intensive care nurses' experiences of caring for obese intensive care patients: A hermeneutic study. <i>Journal of Clinical Nursing</i> , 2018, 27, 386-395.	3.0	22
9	Design and psychometric testing of instruments to measure qualified intensive care nurses' attitudes toward obese intensive care patients. <i>Research in Nursing and Health</i> , 2018, 41, 525-534.	1.6	12
10	Perceived stress and depression amongst older stroke patients: Sense of coherence as a mediator?. <i>Archives of Gerontology and Geriatrics</i> , 2018, 79, 164-170.	3.0	26
11	Psychometric properties of the Persian version of the nutritional form for the elderly (NUFFE) in nursing home residents. <i>Medical Journal of the Islamic Republic of Iran</i> , 2018, 32, 610-617.	0.9	1
12	Reliability and validity of the Chinese version of the Self-Care Ability Scale for the Elderly. <i>Journal of Clinical Nursing</i> , 2017, 26, 4489-4497.	3.0	15
13	Who often feels lonely? A cross-sectional study about loneliness and its related factors among older home-dwelling people. <i>International Journal of Older People Nursing</i> , 2017, 12, e12162.	1.3	38
14	To be a trained and supported volunteer in palliative care – a phenomenological study. <i>BMC Palliative Care</i> , 2017, 16, 18.	1.8	25
15	Testing and comparing two self-care-related instruments among older Chinese adults. <i>PLoS ONE</i> , 2017, 12, e0182792.	2.5	9
16	Advancing beyond the system: telemedicine nurses' clinical reasoning using a computerised decision support system for patients with COPD – an ethnographic study. <i>BMC Medical Informatics and Decision Making</i> , 2017, 17, 181.	3.0	13
17	Nutritional screening of patients at a memory clinic – association between patients' and their relatives' self-reports. <i>Journal of Clinical Nursing</i> , 2016, 25, 760-768.	3.0	3
18	Reliability and validity of the Chinese version of the Nutritional Form For the Elderly. <i>Public Health Nutrition</i> , 2015, 18, 2559-2564.	2.2	10

#	ARTICLE	IF	CITATIONS
19	Nutritional self-care among a group of older home-living people in rural Southern Norway. <i>Journal of Multidisciplinary Healthcare</i> , 2015, 8, 67.	2.7	6
20	Psychometric properties of Antonovsky's 29-item Sense of Coherence scale in research on older home-dwelling Norwegians. <i>Scandinavian Journal of Public Health</i> , 2015, 43, 867-874.	2.3	15
21	Evaluation of ethical reflections in community healthcare. <i>Nursing Ethics</i> , 2015, 22, 194-204.	3.4	33
22	Self-care telephone talks as a health-promotion intervention in urban home-living persons 75+ years of age: a randomized controlled study. <i>Clinical Interventions in Aging</i> , 2014, 9, 95.	2.9	15
23	Testing two self-care-related instruments among older home-dwelling people in Norway. <i>International Journal of Older People Nursing</i> , 2013, 8, 189-198.	1.3	16
24	The meaning of actualization of self-care resources among a group of older home-dwelling people: A hermeneutic study. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2013, 8, 20592.	1.6	19
25	Nutritional self-care in two older Norwegian males: a case study. <i>Clinical Interventions in Aging</i> , 2013, 8, 609.	2.9	6
26	Life situation and identity among single older home-living people: A phenomenological-hermeneutic study. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2012, 7, 18456.	1.6	33
27	Psychometric properties of the Norwegian version of the General Health Questionnaire (GHQ-30) among older people living at home. <i>Psychology Research and Behavior Management</i> , 2012, 5, 151.	2.8	12
28	Tools to identify nutritional risk for older people in the home. <i>British Journal of Community Nursing</i> , 2012, 17, S26-S29.	0.4	1
29	Self-care ability among home-dwelling older people in rural areas in southern Norway. <i>Scandinavian Journal of Caring Sciences</i> , 2012, 26, 113-122.	2.1	52
30	Psychometric testing of the Norwegian version of the Nutritional Form For the Elderly among older home-dwelling people. <i>Journal of Multidisciplinary Healthcare</i> , 2012, 5, 121.	2.7	10
31	Ability for self-care in urban living older people in southern Norway. <i>Journal of Multidisciplinary Healthcare</i> , 2012, 5, 85.	2.7	30
32	Lived experiences of self-care among older, home-dwelling individuals identified to be at risk of undernutrition. <i>Journal of Multidisciplinary Healthcare</i> , 2012, 5, 319.	2.7	6
33	Nutritional screening of older home-dwelling Norwegians: a comparison between two instruments. <i>Clinical Interventions in Aging</i> , 2012, 7, 383.	2.9	33
34	Living alone, receiving help, helplessness, and inactivity are strongly related to risk of undernutrition among older home-dwelling people. <i>International Journal of General Medicine</i> , 2012, 5, 231.	1.8	34
35	Factors associated with nutritional risk in 75-year-old community living people. <i>International Journal of Older People Nursing</i> , 2012, 7, 3-10.	1.3	17
36	Narrated lived experiences of self-care and health among rural-living older persons with a strong sense of coherence. <i>Psychology Research and Behavior Management</i> , 2011, 4, 151.	2.8	26

#	ARTICLE	IF	CITATIONS
37	Perceived health and risk of undernutrition: a comparison of different nutritional screening results in older patients. <i>Journal of Clinical Nursing</i> , 2011, 20, 2162-2171.	3.0	12
38	A successful way for performing nutritional nursing assessment in older patients. <i>Journal of Clinical Nursing</i> , 2009, 18, 431-439.	3.0	12
39	Norwegian version of the Nutritional Form for the Elderly: sufficient psychometric properties for performing institutional screening of elderly patients. <i>Nutrition Research</i> , 2009, 29, 761-767.	2.9	23
40	Nutritional form for the elderly is a reliable and valid instrument for the determination of undernutrition risk, and it is associated with health-related quality of life. <i>Nutrition Research</i> , 2008, 28, 59-65.	2.9	29
41	Nutritional screening and perceived health in a group of geriatric rehabilitation patients. <i>Journal of Clinical Nursing</i> , 2007, 16, 1997-2006.	3.0	26
42	Reliability and validity of the nutritional form for the elderly (NUFFE). <i>Journal of Advanced Nursing</i> , 2002, 37, 28-34.	3.3	44
43	Developing and testing the Nutritional Form For the Elderly. <i>International Journal of Nursing Practice</i> , 2001, 7, 336-341.	1.7	35
