#	ARTICLE	IF	CITATIONS
1	The need for quality self-management support in cancer care. <i>BMJ Quality and Safety</i> , 2022, 31, 1-4.	3.7	7
2	<i>It feels itâ€™s wasting whatever time Iâ€™ve got left</i>: A qualitative study of living with treatable but not curable cancer during the COVID-19 pandemic. <i>Palliative Medicine</i> , 2022, 36, 152-160.	3.1	12
3	Knowledge and insights from a maturing international clinical quality registry. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2022, 29, 964-969.	4.4	1
4	â€œA fascinating time to be involved with researchâ€™ exploring the impact of COVIDâ€œ19 on postgraduate psychoâ€œoncology researchers. <i>Psycho-Oncology</i> , 2022, , .	2.3	2
5	Self-management by older people living with cancer and multi-morbidity: a qualitative study. <i>Supportive Care in Cancer</i> , 2022, 30, 4823-4833.	2.2	9
6	Modifiable pre-treatment factors are associated with quality of life in women with gynaecological cancers at diagnosis and one year later: Results from the HORIZONS UK national cohort study. <i>Gynecologic Oncology</i> , 2022, 165, 610-618.	1.4	5
7	Implementing a Health Care Professionalâ€œSupported Digital Intervention for Survivors of Cancer in Primary Care: Qualitative Process Evaluation of the Renewed Intervention. <i>JMIR Cancer</i> , 2022, 8, e36364.	2.4	3
8	Quality of life and health status in older adults (â‰¥65 years) up to five years following colorectal cancer treatment: Findings from the ColoRECTal Wellbeing (CREW) cohort study. <i>PLoS ONE</i> , 2022, 17, e0270033.	2.5	3
9	Management of Cancer and Health After the Clinic Visit: A Call to Action for Self-Management in Cancer Care. <i>Journal of the National Cancer Institute</i> , 2021, 113, 523-531.	6.3	110
10	Establishing a global quality of care benchmark report. <i>Health Informatics Journal</i> , 2021, 27, 146045822110157.	2.1	7
11	The cultural and structural influences that â€œhideâ€™ information from women diagnosed with breast cancer in Ghana: an ethnography. <i>BMC Women's Health</i> , 2021, 21, 364.	2.0	5
12	Nutritional care in colorectal cancerâ€œwhat is the state of play?. <i>Colorectal Disease</i> , 2021, 23, 3227-3233.	1.4	4
13	Prevalence and determinants of depression up to 5Â¥years after colorectal cancer surgery: results from the ColoRECTal Wellbeing (CREW) study. <i>Colorectal Disease</i> , 2021, 23, 3234-3250.	1.4	6
14	A novel exploration of the support needs of people initiating insulin pump therapy using a social network approach: a longitudinal mixedâ€œmethods study. <i>Diabetic Medicine</i> , 2020, 37, 298-310.	2.3	8
15	The experience of persistent pain in adult cancer survivors: A qualitative evidence synthesis. <i>European Journal of Cancer Care</i> , 2020, 29, e13192.	1.5	13
16	â€œNo turning backâ€œPsychoâ€œoncology in the time of <sc>COVID</sc>â€œ19: Insights from a survey of <sc>UK</sc> professionals. <i>Psycho-Oncology</i> , 2020, 29, 1430-1435.	2.3	31
17	Prevalence and predictors of poor sexual well-being over 5 years following treatment for colorectal cancer: results from the ColoRECTal Wellbeing (CREW) prospective longitudinal study. <i>BMJ Open</i> , 2020, 10, e038953.	1.9	8
18	Selfâ€œmanagement in older people living with cancer and multiâ€œmorbidity: A systematic review and synthesis of qualitative studies. <i>Psycho-Oncology</i> , 2020, 29, 1452-1463.	2.3	30

#	ARTICLE	IF	CITATIONS
19	The ENABLE study protocol: Understanding and characterising the value and role of self-management support for people living with cancer that is treatable but not curable. <i>European Journal of Cancer Care</i> , 2020, 29, e13217.	1.5	4
20	Letter to the Editor – RE: Cuthbert et al (2019) Self-management interventions for cancer survivors: A systematic review and evaluation of intervention content and theories. <i>Psycho-Oncology</i> , 28, 2119-2140. <i>Psycho-Oncology</i> , 2020, 29, 804-805.	2.3	0
21	Does quality of life return to pre-treatment levels five years after curative intent surgery for colorectal cancer? Evidence from the ColoRECTal Wellbeing (CREW) study. <i>PLoS ONE</i> , 2020, 15, e0231332.	2.5	21
22	Exploring maintenance of physical activity behaviour change among people living with and beyond gastrointestinal cancer: a cross-sectional qualitative study and typology. <i>BMJ Open</i> , 2020, 10, e037136.	1.9	11
23	Planning and optimising CHAT&PLAN: A conversation-based intervention to promote person-centred care for older people living with multimorbidity. <i>PLoS ONE</i> , 2020, 15, e0240516.	2.5	10
24	A Facilitated Web-Based Self-Management Tool for People With Type 1 Diabetes Using an Insulin Pump: Intervention Development Using the Behavior Change Wheel and Theoretical Domains Framework. <i>Journal of Medical Internet Research</i> , 2020, 22, e13980.	4.3	9
25	Developing a web-based patient decision aid for gastrostomy in motor neurone disease. <i>Clinical Nutrition ESPEN</i> , 2020, 35, 235.	1.2	0
26	Title is missing!. , 2020, 15, e0231332.		0
27	Title is missing!. , 2020, 15, e0231332.		0
28	Title is missing!. , 2020, 15, e0231332.		0
29	Title is missing!. , 2020, 15, e0231332.		0
30	Development of Breast Cancer Choices: a decision support tool for young women with breast cancer deciding whether to have genetic testing for BRCA1/2 mutations. <i>Supportive Care in Cancer</i> , 2019, 27, 297-309.	2.2	11
31	Developing a digital intervention for cancer survivors: an evidence-, theory- and person-based approach. <i>Npj Digital Medicine</i> , 2019, 2, 85.	10.9	29
32	Supportive care needs of patients following treatment for colorectal cancer: risk factors for unmet needs and the association between unmet needs and health-related quality of life – results from the ColoRECTal Wellbeing (CREW) study. <i>Journal of Cancer Survivorship</i> , 2019, 13, 899-909.	2.9	36
33	Follow-up care after treatment for prostate cancer: evaluation of a supported self-management and remote surveillance programme. <i>BMC Cancer</i> , 2019, 19, 368.	2.6	47
34	Systematic review and meta-analysis of maintenance of physical activity behaviour change in cancer survivors. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019, 16, 37.	4.6	127
35	Renewed: Protocol for a randomised controlled trial of a digital intervention to support quality of life in cancer survivors. <i>BMJ Open</i> , 2019, 9, e024862.	1.9	10
36	HORIZONS protocol: a UK prospective cohort study to explore recovery of health and well-being in adults diagnosed with cancer. <i>BMJ Open</i> , 2019, 9, e029662.	1.9	6

#	ARTICLE	IF	CITATIONS
37	Developing a web-based patient decision aid for gastrostomy in motor neuron disease: a study protocol. <i>BMJ Open</i> , 2019, 9, e032364.	1.9	4
38	A five year longitudinal study of people living with and beyond colorectal cancer: key findings from the ColoRECTal Well-being (CREW) study. <i>European Journal of Surgical Oncology</i> , 2019, 45, 2226-2227.	1.0	0
39	Implementation of self-management support in cancer care and normalization into routine practice: a systematic scoping literature review protocol. <i>Systematic Reviews</i> , 2019, 8, 37.	5.3	29
40	“œtâ™s Like We Donâ™t Exist”: Tailoring Education for Young Women Undergoing Surgery for Early-Stage Breast Cancer. <i>Oncology Nursing Forum</i> , 2018, 45, 165-175.	1.2	5
41	Strategies to facilitate shared decision-making about pediatric oncology clinical trial enrollment: A systematic review. <i>Patient Education and Counseling</i> , 2018, 101, 1157-1174.	2.2	27
42	Exploring cancer survivors' views of health behaviour change: “œ<i>Where do you start, where do you stop with everything?”</i>. <i>Psycho-Oncology</i> , 2018, 27, 1816-1824.	2.3	100
43	The process of incorporating insulin pumps into the everyday lives of people with Type 1 diabetes: A critical interpretive synthesis. <i>Health Expectations</i> , 2018, 21, 714-729.	2.6	21
44	Systematic review of the empirical investigation of resources to support decision-making regarding BRCA1 and BRCA2 genetic testing in women with breast cancer. <i>Patient Education and Counseling</i> , 2018, 101, 779-788.	2.2	21
45	Quality Indicators for Global Benchmarking of Localized Prostate Cancer Management. <i>Journal of Urology</i> , 2018, 200, 319-326.	0.4	11
46	Understanding acceptability of and engagement with Web-based interventions aiming to improve quality of life in cancer survivors: A synthesis of current research. <i>Psycho-Oncology</i> , 2018, 27, 22-33.	2.3	68
47	CO-creating and adapting a self-management program for breast cancer Survivors integrated in the clinical pathway of breast centers in Switzerland (COSS pilot study). <i>European Journal of Cancer</i> , 2018, 92, S37.	2.8	0
48	Improving the lives of people living with and beyond cancer: Generating the evidence needed to inform policy and practice. <i>Journal of Cancer Policy</i> , 2018, 15, 92-95.	1.4	44
49	Comorbidities are associated with poorer quality of life and functioning and worse symptoms in the 5Âyears following colorectal cancer surgery: Results from the ColoRECTal Well-being (CREW) cohort study. <i>Psycho-Oncology</i> , 2018, 27, 2427-2435.	2.3	39
50	Conceptualisation of the “good” self-manager: A qualitative investigation of stakeholder views on the self-management of long-term health conditions. <i>Social Science and Medicine</i> , 2017, 176, 25-33.	3.8	61
51	MA13.11 Investigating the Feasibility of Establishing a Prospective Cohort of Lung Cancer Patients Following Radiotherapy with Curative Intent. <i>Journal of Thoracic Oncology</i> , 2017, 12, S421.	1.1	0
52	Optimization of Quantitative Dynamic Postgadolinium MRI Technique Using Normalized Ratios for the Evaluation of Temporomandibular Joint Synovitis in Patients with Juvenile Idiopathic Arthritis. <i>American Journal of Neuroradiology</i> , 2017, 38, 2344-2350.	2.4	11
53	Social support following diagnosis and treatment for colorectal cancer and associations with health-related quality of life: Results from the UK ColoRECTal Wellbeing (CREW) cohort study. <i>Psycho-Oncology</i> , 2017, 26, 2276-2284.	2.3	53
54	Self-efficacy for managing illness-related problems; results from the ColoRECTal Wellbeing (CREW) study. <i>European Journal of Surgical Oncology</i> , 2017, 43, 2230.	1.0	0

#	ARTICLE	IF	CITATIONS
55	Colorectal cancer patients' self-efficacy for managing illness-related problems in the first 2 years after diagnosis, results from the ColoRECTal Well-being (CREW) study. <i>Journal of Cancer Survivorship</i> , 2017, 11, 634-642.	2.9	34
56	Follow-up care after treatment for prostate cancer: protocol for an evaluation of a nurse-led supported self-management and remote surveillance programme. <i>BMC Cancer</i> , 2017, 17, 656.	2.6	10
57	Development and testing of a text-mining approach to analyse patients' comments on their experiences of colorectal cancer care. <i>BMJ Quality and Safety</i> , 2016, 25, 604-614.	3.7	43
58	The impact of co-morbidities on recovery from colorectal cancer within first 2 years after surgery: Results from the UK Colorectal Wellbeing (CREW) cohort study. <i>European Journal of Surgical Oncology</i> , 2016, 42, S231.	1.0	0
59	Information requirements of young women with breast cancer treated with mastectomy or breast conserving surgery: A systematic review. <i>Breast</i> , 2016, 25, 1-13.	2.2	49
60	190 Testing the feasibility of establishing a cohort of lung cancer patients to investigate recovery following radiotherapy with curative intent. <i>Lung Cancer</i> , 2016, 91, S69.	2.0	0
61	A web-based intervention (RESTORE) to support self-management of cancer-related fatigue following primary cancer treatment: a multi-centre proof of concept randomised controlled trial. <i>Supportive Care in Cancer</i> , 2016, 24, 2445-2453.	2.2	75
62	Pre-Surgery Depression and Confidence to Manage Problems Predict Recovery Trajectories of Health and Wellbeing in the First Two Years following Colorectal Cancer: Results from the CREW Cohort Study. <i>PLoS ONE</i> , 2016, 11, e0155434.	2.5	80
63	The True NTH Prostate Cancer Survivorship Care programme: Development and evaluation of a model for delivering follow-up care to men with prostate cancer.. <i>Journal of Clinical Oncology</i> , 2016, 34, 42-42.	1.6	2
64	RESTORE: an exploratory trial of a web-based intervention to enhance self-management of cancer-related fatigue: findings from a qualitative process evaluation. <i>BMC Medical Informatics and Decision Making</i> , 2015, 15, 94.	3.0	30
65	Managing fatigue after cancer treatment: development of RESTORE, a web-based resource to support self-management. <i>Psycho-Oncology</i> , 2015, 24, 940-949.	2.3	23
66	Self-Management and Self-Management Support Outcomes: A Systematic Review and Mixed Research Synthesis of Stakeholder Views. <i>PLoS ONE</i> , 2015, 10, e0130990.	2.5	119
67	"You can't say, 'what about me?'" I'm not the one with cancer": information and support needs of relatives. <i>Psycho-Oncology</i> , 2015, 24, 705-711.	2.3	19
68	Cancer survivors' self-efficacy to self-manage in the year following primary treatment. <i>Journal of Cancer Survivorship</i> , 2015, 9, 11-19.	2.9	144
69	Uncertainty and anxiety in the cancer of unknown primary patient journey: a multiperspective qualitative study. <i>BMJ Supportive and Palliative Care</i> , 2015, 5, 366-372.	1.6	30
70	Survivorship and Self-Management in Cancer Care. , 2015, , 343-353.		3
71	Using the Clinical Research Network for psychosocial cancer research: lessons learned from two observational studies. <i>BMJ Supportive and Palliative Care</i> , 2014, 4, 202-211.	1.6	0
72	212 Testing the feasibility of establishing a cohort of lung cancer patients to investigate recovery following surgery with curative intent. <i>Lung Cancer</i> , 2014, 83, S78.	2.0	0

#	ARTICLE	IF	CITATIONS
73	RESTORE: an exploratory trial of an online intervention to enhance self-efficacy to manage problems associated with cancer-related fatigue following primary cancer treatment: study protocol for a randomized controlled trial. <i>Trials</i> , 2013, 14, 184.	1.6	23
74	Living into old age with the consequences of breast cancer. <i>European Journal of Oncology Nursing</i> , 2013, 17, 311-316.	2.1	32
75	Critical research gaps and translational priorities for the successful prevention and treatment of breast cancer. <i>Breast Cancer Research</i> , 2013, 15, R92.	5.0	320
76	Lessons learnt recruiting to a multi-site UK cohort study to explore recovery of health and well-being after colorectal cancer (CREW study). <i>BMC Medical Research Methodology</i> , 2013, 13, 153.	3.1	11
77	Information required for surgical decision making in young women with breast cancer. <i>European Journal of Surgical Oncology</i> , 2013, 39, 498.	1.0	0
78	Informing future research priorities into the psychological and social problems faced by cancer survivors: A rapid review and synthesis of the literature. <i>European Journal of Oncology Nursing</i> , 2013, 17, 510-520.	2.1	49
79	Outcomes of a nurse-delivered psychosocial intervention for weight- and eating-related distress in family carers of patients with advanced cancer. <i>International Journal of Palliative Nursing</i> , 2013, 19, 116-123.	0.5	13
80	Review: Developing a patient-led cancer care website, "CanCare": what do end users want?. <i>Journal of Research in Nursing</i> , 2012, 17, 536-537.	0.9	0
81	An evaluation of research capacity building from the Cancer Experiences Collaborative. <i>BMJ Supportive and Palliative Care</i> , 2012, 2, 280-285.	1.6	7
82	A cohort study of the recovery of health and wellbeing following colorectal cancer (CREW study): protocol paper. <i>BMC Health Services Research</i> , 2012, 12, 90.	2.2	21
83	Self-care and end of life care—patients' and carers' experience a qualitative study utilising serial triangulated interviews. <i>Supportive Care in Cancer</i> , 2012, 20, 1619-1627.	2.2	50
84	Impact of cancer on everyday life: a systematic appraisal of the research evidence. <i>Health Expectations</i> , 2012, 15, 97-111.	2.6	16
85	The physical and practical problems experienced by cancer survivors: A rapid review and synthesis of the literature. <i>European Journal of Oncology Nursing</i> , 2011, 15, 204-212.	2.1	96
86	Benefits and challenges of collaborative research: lessons from supportive and palliative care. <i>BMJ Supportive and Palliative Care</i> , 2011, 1, 5-11.	1.6	13
87	Knowledge, ignorance and priorities for research in key areas of cancer survivorship: findings from a scoping review. <i>British Journal of Cancer</i> , 2011, 105, S82-S94.	6.4	77
88	The health and well-being of cancer survivors in the UK: findings from a population-based survey. <i>British Journal of Cancer</i> , 2011, 105, S11-S20.	6.4	152
89	Recovery and self-management support following primary cancer treatment. <i>British Journal of Cancer</i> , 2011, 105, S21-S28.	6.4	184
90	What Facilitates or Impedes Family Communication Following Genetic Testing for Cancer Risk? A Systematic Review and Meta-Synthesis of Primary Qualitative Research. <i>Journal of Genetic Counseling</i> , 2010, 19, 330-342.	1.6	144

#	ARTICLE	IF	CITATIONS
91	The Deliverability, Acceptability, and Perceived Effect of the Macmillan Approach to Weight Loss and Eating Difficulties: A Phase II, Cluster-Randomized, Exploratory Trial of a Psychosocial Intervention for Weight- and Eating-Related Distress in People with Advanced Cancer. <i>Journal of Pain and Symptom Management</i> , 2010, 40, 684-695.	1.2	61
92	Who visits mobile UK services providing cancer information and support in the community?. <i>European Journal of Cancer Care</i> , 2010, 19, 221-226.	1.5	7
93	Critical appraisal guidelines for assessing the quality and impact of user involvement in research. <i>Health Expectations</i> , 2010, 13, 359-368.	2.6	74
94	An exploration of the internet as a self-management resource. <i>Journal of Research in Nursing</i> , 2009, 14, 13-24.	0.9	11
95	Psychosocial implications of living 5 years or more following a cancer diagnosis: a systematic review of the research evidence. <i>European Journal of Cancer Care</i> , 2009, 18, 223-247.	1.5	197
96	Self care and end of life care in advanced cancer: Literature review. <i>European Journal of Oncology Nursing</i> , 2009, 13, 386-398.	2.1	47
97	4235 Involving people of diverse ethnicities in cancer research: an exploration of experiences, attitudes and barriers. <i>European Journal of Cancer</i> , Supplement, 2009, 7, 248-249.	2.2	0
98	Communicating genetics research results to families: problems arising when the patient participant is deceased. <i>Psycho-Oncology</i> , 2008, 17, 804-811.	2.3	17
99	Exploring the breast cancer experiences, needs and preferences of women aged 70 years and over: a study in progress. <i>Breast Cancer Research</i> , 2008, 10, .	5.0	0
100	Living with genetic risk of breast cancer: what have we learned?. <i>Breast Cancer Research</i> , 2008, 10, .	5.0	0
101	Management of weight loss and anorexia. <i>Annals of Oncology</i> , 2008, 19, vii289-vii293.	1.2	29
102	The research priorities of patients attending UK cancer treatment centres: findings from a modified nominal group study. <i>British Journal of Cancer</i> , 2007, 96, 875-881.	6.4	123
103	The NCRI Cancer Experiences Collaborative: Defining self management. <i>European Journal of Oncology Nursing</i> , 2007, 11, 295-297.	2.1	34
104	The case for user involvement in research: the research priorities of cancer patients. <i>Breast Cancer Research</i> , 2007, 9, .	5.0	16
105	Predictive genetic testing for BRCA1/2 in a UK clinical cohort: three-year follow-up. <i>British Journal of Cancer</i> , 2007, 96, 718-724.	6.4	79
106	Disclosure of Genetics Research Results after the Death of the Patient Participant: A Qualitative Study of the Impact on Relatives. <i>Journal of Genetic Counseling</i> , 2007, 16, 527-538.	1.6	36
107	Listening to the views of people affected by cancer about cancer research: an example of participatory research in setting the cancer research agenda. <i>Health Expectations</i> , 2006, 9, 3-12.	2.6	78
108	Guilt, blame and responsibility: men's understanding of their role in the transmission of BRCA1/2 mutations within their family. <i>Sociology of Health and Illness</i> , 2006, 28, 060926022052001-???	2.1	86
