#	Paper	IF	Citations
173	Frameworks for implementation of policies promoting healthy nutrition and physically active lifestyle: systematic review.. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2022 , 19, 16	8.4	4
172	Meta-review of implementation determinants for policies promoting healthy diet and physically active lifestyle: application of the Consolidated Framework for Implementation Research.. <i>Implementation Science</i> , 2022 , 17, 2	8.4	6
171	Sugar-sweetened beverage tax implementation processes: results of a scoping review.. <i>Health Research Policy and Systems</i> , 2022 , 20, 33	3.7	1
170	Physical Activity, Positive and Negative Symptoms of Psychosis, and General Psychopathology among People with Psychotic Disorders: A Meta-Analysis. <i>Journal of Clinical Medicine</i> , 2022 , 11, 2719	5.1	1
169	The Healthy Food Environment Policy Index in Poland: Implementation Gaps and Actions for Improvement. <i>Foods</i> , 2022 , 11, 1648	4.9	1
168	Promoting scientific integrity through open science in health psychology: results of the Synergy Expert Meeting of the European health psychology society. <i>Health Psychology Review</i> , 2021 , 15, 333-349	7.1	5
167	The trajectory of COVID-19 pandemic and handwashing adherence: findings from 14 countries. <i>BMC Public Health</i> , 2021 , 21, 1791	4.1	2
166	Cultivation and Enabling Effects of Social Support and Self-Efficacy in Parent-Child Dyads. <i>Annals of Behavioral Medicine</i> , 2021 , 55, 1198-1210	4.5	0
165	From a mother's point of view: Psycho-social predictors of maternal monitoring strategy and adolescents' electronic media use. <i>Journal of Adolescence</i> , 2021 , 88, 134-145	3.4	0
164	Associations between self-efficacy and sedentary behaviour: a meta-analysis. <i>Psychology and Health</i> , 2021 , 36, 271-289	2.9	5
163	Effects of Environmental Worry on Fruit and Vegetable Intake. <i>International Journal of Behavioral Medicine</i> , 2021 , 1	2.6	2
162	Can individual, dyadic, or collaborative planning reduce sedentary behavior? A randomized controlled trial. <i>Social Science and Medicine</i> , 2021 , 287, 114336	5.1	0
161	Advancing the evidence base for public policies impacting on dietary behaviour, physical activity and sedentary behaviour in Europe: The Policy Evaluation Network promoting a multidisciplinary approach. <i>Food Policy</i> , 2020 , 96, 101873	5	35
160	Parental Depression Predicts Child Body Mass via Parental Support Provision, Child Support Receipt, and Child Physical Activity: Findings From Parent/Caregiver-Child Dyads. <i>Frontiers in Psychology</i> , 2020 , 11, 161	3.4	0
159	Long-term effects of a dyadic planning intervention with couples motivated to increase physical activity. <i>Psychology of Sport and Exercise</i> , 2020 , 49, 101710	4.2	7
158	Hypertension Treatment And The Amount Of Physical Activity And Sitting Behaviour - First Blood Pressure Then Exercise Compain. <i>Medicine and Science in Sports and Exercise</i> , 2020 , 52, 327-327	1.2	
157	Maternal practices and perceptions of child body mass status explain child energy expenditure behaviors and body mass. <i>Journal of Behavioral Medicine</i> , 2020 , 43, 904-915	3.6	2

156	Control Strategies and Daily Affect. <i>GeroPsych: the Journal of Gerontopsychology and Geriatric Psychiatry</i> , 2020 , 33, 155-169	1	1
155	The effects of if-then plans on weight loss: results of the 24-month follow-up of the McGill CHIP Healthy Weight Program randomized controlled trial. <i>Trials</i> , 2020 , 21, 40	2.8	0
154	It's time for effectiveness-implementation hybrid research on behaviour change. <i>Health Psychology Review</i> , 2020 , 14, 188-192	7.1	2
153	Changing Behavior Using Social Cognitive Theory 2020 , 32-45		3
152	Implementation Science and Translation in Behavior Change 2020 , 333-348		1
151	Theory-based digital intervention to promote weight loss and weight loss maintenance (Choosing Health): protocol for a randomised controlled trial. <i>BMJ Open</i> , 2020 , 10, e040183	3	2
150	Do Parent-Child Dyads with Excessive Body Mass Differ from Dyads with Normal Body Mass in Perceptions of Obesogenic Environment?. <i>Nutrients</i> , 2020 , 12,	6.7	2
149	Body satisfaction and body weight in under- and healthy-weight adolescents: mediating effects of restrictive dieting, healthy and unhealthy food intake. <i>Eating and Weight Disorders</i> , 2020 , 25, 41-50	3.6	8
148	Cooking together: The IKEA effect on family vegetable intake. <i>British Journal of Health Psychology</i> , 2019 , 24, 896-912	8.3	9
147	Inter-Relations between Partner-Provided Support and Self-Efficacy: A Dyadic Longitudinal Analysis. <i>Applied Psychology: Health and Well-Being</i> , 2019 , 11, 522-542	6.8	6
146	Sedentary behaviors and anxiety among children, adolescents and adults: a systematic review and meta-analysis. <i>BMC Public Health</i> , 2019 , 19, 459	4.1	29
145	Perceptions of Physical Activity Promotion, Transportation Support, Physical Activity, and Body Mass: an Insight into Parent-Child Dyadic Processes. <i>International Journal of Behavioral Medicine</i> , 2019 , 26, 255-265	2.6	6
144	What comes first, negative emotions, positive emotions, or moderate-to-vigorous physical activity?. <i>Mental Health and Physical Activity</i> , 2019 , 16, 38-42	5	4
143	Why are you eating, mom? Maternal emotional, restrained, and external eating explaining children's eating styles. <i>Appetite</i> , 2019 , 141, 104335	4.5	7
142	Links between meaning in life and physical quality of life after rehabilitation: Mediating effects of positive experiences with physical exercises and mobility. <i>PLoS ONE</i> , 2019 , 14, e0224503	3.7	3
141	Associations of parental and child food and exercise aversion with child food intake and physical activity. <i>Health Psychology</i> , 2019 , 38, 1116-1127	5	4
140	Meaning in life and physical quality of life: Cross-lagged associations during inpatient rehabilitation. <i>Rehabilitation Psychology</i> , 2019 , 64, 425-434	2.7	2
139	Parental strategies restricting screen use among children, screen home environment, and child screen use as predictors of child body fat: A prospective parent-child study. <i>British Journal of Health Psychology</i> , 2019 , 24, 298-314	8.3	5

138	Problematic Internet Use, Social Needs, and Social Support Among Youth. <i>International Journal of Mental Health and Addiction</i> , 2019 , 17, 1008-1019	8.8	10
137	Gender-Specific Body Areas Satisfaction and Body Weight Status in Adolescents: Mediating Effects of Physical Activity, Fruit and Vegetable Intake, and Energy-Dense Food Intake. <i>Applied Psychology: Health and Well-Being</i> , 2019 , 11, 80-101	6.8	2
136	Links between meaning in life and physical quality of life after rehabilitation: Mediating effects of positive experiences with physical exercises and mobility 2019 , 14, e0224503		
135	Links between meaning in life and physical quality of life after rehabilitation: Mediating effects of positive experiences with physical exercises and mobility 2019 , 14, e0224503		
134	Links between meaning in life and physical quality of life after rehabilitation: Mediating effects of positive experiences with physical exercises and mobility 2019 , 14, e0224503		
133	Links between meaning in life and physical quality of life after rehabilitation: Mediating effects of positive experiences with physical exercises and mobility 2019 , 14, e0224503		
132	Inter-relations among negative social control, self-efficacy, and physical activity in healthy couples. <i>British Journal of Health Psychology</i> , 2018 , 23, 580-596	8.3	6
131	What matters, parental or child perceptions of physical activity facilities? A prospective parent-child study explaining physical activity and body fat among children. <i>Psychology of Sport and Exercise</i> , 2018 , 34, 39-46	4.2	12
130	Bi-directional associations between parental feeding practices and children's body mass in parent-child dyads. <i>Appetite</i> , 2018 , 129, 192-197	4.5	15
129	Engagement With a Trauma Recovery Internet Intervention Explained With the Health Action Process Approach (HAPA): Longitudinal Study. <i>JMIR Mental Health</i> , 2018 , 5, e29	6	6
128	Can regret prompt compensatory health behaviors? Findings from a clustered randomized trial with physically active adults. <i>Health Psychology Report</i> , 2018 , 6, 285-295	1.4	2
127	Self-efficacy and quality of life among people with cardiovascular diseases: A meta-analysis. <i>Rehabilitation Psychology</i> , 2018 , 63, 295-312	2.7	25
126	Sedentary behaviours and health-related quality of life. A systematic review and meta-analysis. <i>Health Psychology Review</i> , 2018 , 12, 195-210	7.1	34
125	From enjoyment to physical activity or from physical activity to enjoyment? Longitudinal associations in parent-child dyads. <i>Psychology and Health</i> , 2018 , 33, 1269-1283	2.9	11
124	Couples' daily self-regulation: The Health Action Process Approach at the dyadic level. <i>PLoS ONE</i> , 2018 , 13, e0205887	3.7	18
123	A cluster randomized controlled trial comparing the effectiveness of an individual planning intervention with collaborative planning in adolescent friendship dyads to enhance physical activity (TWOgether). <i>BMC Public Health</i> , 2018 , 18, 911	4.1	48
122	The Effects of If-Then Plans on Weight Loss: Results of the McGill CHIP Healthy Weight Program Randomized Controlled Trial. <i>Obesity</i> , 2018 , 26, 1285-1295	8	6
121	Meaning in life and physical health: systematic review and meta-analysis. <i>Health Psychology Review</i> , 2017 , 11, 387-418	7.1	122

120	Effects of dyadic planning on physical activity in couples: A randomized controlled trial. <i>Health Psychology</i> , 2017 , 36, 8-20	5	75
119	Views of policy makers and health promotion professionals on factors facilitating implementation and maintenance of interventions and policies promoting physical activity and healthy eating: results of the DEDIPAC project. <i>BMC Public Health</i> , 2017 , 17, 932	4.1	66
118	Association between Children's Physical Activity and Parental Practices Enhancing Children's Physical Activity: The Moderating Effects of Children's BMI z-Score. <i>Frontiers in Psychology</i> , 2017 , 8, 2359 ^{3.4}		12
117	Which characteristics of planning matter? Individual and dyadic physical activity plans and their effects on plan enactment. <i>Social Science and Medicine</i> , 2017 , 189, 53-62	5.1	63
116	Emotional or instrumental support? Distinct effects on vigorous exercise and affect. <i>Psychology of Sport and Exercise</i> , 2017 , 33, 66-74	4.2	2
115	Mental Strategies Predict Performance and Satisfaction with Performance among Soccer Players. <i>Journal of Human Kinetics</i> , 2017 , 59, 79-90	2.6	4
114	A vicious cycle among cognitions and behaviors enhancing risk for eating disorders. <i>BMC Psychiatry</i> , 2017 , 17, 154	4.2	5
113	Women with family cancer history are at risk for poorer physical quality of life and lower self-efficacy: a longitudinal study among men and women with non-small cell lung cancer. <i>Health and Quality of Life Outcomes</i> , 2017 , 15, 62	3	4
112	Enabling, Not Cultivating: Received Social Support and Self-Efficacy Explain Quality of Life After Lung Cancer Surgery. <i>Annals of Behavioral Medicine</i> , 2017 , 51, 1-12	4.5	33
111	Appraisal of transplant-related stressors, coping strategies, and psychosocial adjustment following kidney transplantation. <i>Stress and Health</i> , 2017 , 33, 437-447	3.7	3
110	Planning and self-efficacy interventions encouraging replacing energy-dense foods intake with fruit and vegetable: A longitudinal experimental study. <i>Psychology and Health</i> , 2016 , 31, 40-64	2.9	75
109	Associations between job burnout and self-efficacy: a meta-analysis. <i>Anxiety, Stress and Coping</i> , 2016 , 29, 367-86	3.1	134
108	Implementation intention and planning interventions in Health Psychology: Recommendations from the Synergy Expert Group for research and practice. <i>Psychology and Health</i> , 2016 , 31, 814-39	2.9	131
107	Caregiving in the Illness Context 2016 ,		44
106	It doesn't matter what they say, it matters how they behave: Parental influences and changes in body mass among overweight and obese adolescents. <i>Appetite</i> , 2016 , 96, 47-55	4.5	23
105	Hungry for an intervention? Adolescents' ratings of acceptability of eating-related intervention strategies. <i>BMC Public Health</i> , 2016 , 16, 5	4.1	26
104	PTSD prevalence among Polish World War II survivors. <i>Psychiatria Polska</i> , 2016 , 50, 923-934	1.3	6
103	Self-Efficacy, Planning, or a Combination of Both? A Longitudinal Experimental Study Comparing Effects of Three Interventions on Adolescents' Body Fat. <i>PLoS ONE</i> , 2016 , 11, e0159125	3.7	68

102	Am I Overweight? A Longitudinal Study on Parental and Peers Weight-Related Perceptions on Dietary Behaviors and Weight Status Among Adolescents. <i>Frontiers in Psychology</i> , 2016 , 7, 83	3.4	10
101	Effects of Internet-Based Self-Efficacy Intervention on Secondary Traumatic Stress and Secondary Posttraumatic Growth among Health and Human Services Professionals Exposed to Indirect Trauma. <i>Frontiers in Psychology</i> , 2016 , 7, 1009	3.4	28
100	A Rolling Stone Gathers No Moss-The Long Way from Good Intentions to Physical Activity Mediated by Planning, Social Support, and Self-Regulation. <i>Frontiers in Psychology</i> , 2016 , 7, 1024	3.4	5
99	Social support influences on eating awareness in children and adolescents: the mediating effect of self-regulatory strategies. <i>Global Public Health</i> , 2016 , 11, 437-48	3.5	11
98	Interacting effects of receiving social control and social support during smoking cessation. <i>Annals of Behavioral Medicine</i> , 2015 , 49, 141-6	4.5	13
97	Good practice characteristics of diet and physical activity interventions and policies: an umbrella review. <i>BMC Public Health</i> , 2015 , 15, 19	4.1	91
96	The proof is in the eating: subjective peer norms are associated with adolescents' eating behaviour. <i>Public Health Nutrition</i> , 2015 , 18, 1044-51	3.3	34
95	Explaining Counterproductive Work Behaviors Among Police Officers: The Indirect Effects of Job Demands Are Mediated by Job Burnout and Moderated by Job Control and Social Support. <i>Human Performance</i> , 2015 , 28, 332-350	2.4	45
94	Individual and dyadic planning predicting pelvic floor exercise among prostate cancer survivors. <i>Rehabilitation Psychology</i> , 2015 , 60, 222-31	2.7	8
93	Implementation conditions for diet and physical activity interventions and policies: an umbrella review. <i>BMC Public Health</i> , 2015 , 15, 1250	4.1	70
92	Original article Functional perfectionism and healthy behaviors: the longitudinal relationships between the dimensions of perfectionism, nutrition behavior, and physical activity moderated by gender. <i>Current Issues in Personality Psychology</i> , 2015 , 2, 84-93	0.7	4
91	What Comes First, Job Burnout or Secondary Traumatic Stress? Findings from Two Longitudinal Studies from the U.S. and Poland. <i>PLoS ONE</i> , 2015 , 10, e0136730	3.7	64
90	Food culture in the home environment: family meal practices and values can support healthy eating and self-regulation in young people in four European countries. <i>Applied Psychology: Health and Well-Being</i> , 2015 , 7, 22-40	6.8	18
89	Intrinsic Motivation Predicting Performance Satisfaction in Athletes: Further Psychometric Evaluations of the Sport Motivation Scale-6. <i>Polish Psychological Bulletin</i> , 2015 , 46, 309-319		5
88	From Exhaustion to Disengagement via Self-Efficacy Change: Findings from Two Longitudinal Studies among Human Services Workers. <i>Frontiers in Psychology</i> , 2015 , 6, 2032	3.4	15
87	The association between automatic thoughts about eating, the actual-ideal weight discrepancies, and eating disorders symptoms: a longitudinal study in late adolescence. <i>Eating and Weight Disorders</i> , 2014 , 19, 199-207	3.6	11
86	Cultivating secondary traumatic growth among healthcare workers: the role of social support and self-efficacy. <i>Journal of Clinical Psychology</i> , 2014 , 70, 831-46	2.8	47
85	Implementation intention and action planning interventions in health contexts: state of the research and proposals for the way forward. <i>Applied Psychology: Health and Well-Being</i> , 2014 , 6, 1-47	6.8	324

84	Increasing the effectiveness of the Diabetes Prevention Program through if-then plans: study protocol for the randomized controlled trial of the McGill CHIP Healthy Weight Program. <i>BMC Public Health</i> , 2014 , 14, 470	4.1	6
83	Predicting performance and performance satisfaction: mindfulness and beliefs about the ability to deal with social barriers in sport. <i>Anxiety, Stress and Coping</i> , 2014 , 27, 270-87	3.1	16
82	A meta-analysis of the relationship between job burnout and secondary traumatic stress among workers with indirect exposure to trauma. <i>Psychological Services</i> , 2014 , 11, 75-86	2.5	166
81	The impact of a rural or urban context in eating awareness and self-regulation strategies in children and adolescents from eight European countries. <i>International Journal of Psychology</i> , 2014 , 49, 158-66	1.9	3
80	Self-efficacy moderates but collective efficacy mediates between motivational climate and athletes' well-being. <i>Applied Psychology: Health and Well-Being</i> , 2014 , 6, 280-99	6.8	7
79	Enhancing reporting of behavior change intervention evaluations. <i>Journal of Acquired Immune Deficiency Syndromes (1999)</i> , 2014 , 66 Suppl 3, S293-9	3.1	88
78	Cervical cancer screening and psychosocial barriers perceived by patients. A systematic review. <i>Wspolczesna Onkologia</i> , 2014 , 18, 153-9	1	15
77	At-home environment, out-of-home environment, snacks and sweetened beverages intake in preadolescence, early and mid-adolescence: the interplay between environment and self-regulation. <i>Journal of Youth and Adolescence</i> , 2013 , 42, 1873-83	4.5	36
76	Comparing different boosters of planning interventions on changes in fat consumption in overweight and obese individuals: a randomized controlled trial. <i>International Journal of Psychology</i> , 2013 , 48, 604-15	1.9	17
75	Social support and quality of life among lung cancer patients: a systematic review. <i>Psycho-Oncology</i> , 2013 , 22, 2160-8	3.9	74
74	A dietary planning intervention increases fruit consumption in Iranian women. <i>Appetite</i> , 2013 , 63, 1-6	4.5	64
73	The interplay of received social support and self-regulatory factors in smoking cessation. <i>Psychology and Health</i> , 2013 , 29, 16-31	2.9	31
72	Money and the fear of death: The symbolic power of money as an existential anxiety buffer. <i>Journal of Economic Psychology</i> , 2013 , 36, 55-67	2.5	53
71	Secondary trauma self-efficacy: concept and its measurement. <i>Psychological Assessment</i> , 2013 , 25, 917-28	3.3	33
70	Access to excess: how do adolescents deal with unhealthy foods in their environment?. <i>European Journal of Public Health</i> , 2013 , 23, 752-6	2.1	27
69	Social inequalities in adolescent depression: the role of parental social support and optimism. <i>International Journal of Social Psychiatry</i> , 2013 , 59, 474-81	8.5	30
68	Social and cognitive predictors of fruit and vegetable intake among adolescents: the context of changes in body weight. <i>Journal of Health Psychology</i> , 2013 , 18, 667-79	3.1	12
67	Associations between received social support and positive and negative affect: evidence for age differences from a daily-diary study. <i>European Journal of Ageing</i> , 2012 , 9, 361-371	3.6	25

66	Reciprocal relationships between three aspects of physical self-concept, vigorous physical activity, and lung function: A longitudinal study among late adolescents. <i>Psychology of Sport and Exercise</i> , 2012 , 13, 640-648	4.2	6
65	Stressful Life Events 2012 ,		7
64	Empowerment beliefs and intention to uptake cervical cancer screening: three psychosocial mediating mechanisms. <i>Women and Health</i> , 2012 , 52, 162-81	1.7	19
63	The interplay of dyadic and individual planning of pelvic-floor exercise in prostate-cancer patients following radical prostatectomy. <i>Journal of Behavioral Medicine</i> , 2012 , 35, 305-17	3.6	19
62	Family-related predictors of body weight and weight-related behaviours among children and adolescents: a systematic umbrella review. <i>Child: Care, Health and Development</i> , 2012 , 38, 321-31	2.8	85
61	The effects of mortality reminders on posttraumatic growth and finding benefits among patients with life-threatening illness and their caregivers. <i>Psychology and Health</i> , 2012 , 27, 1227-43	2.9	24
60	Cervical screening among migrant women: a qualitative study of Polish, Slovak and Romanian women in London, UK. <i>Journal of Family Planning and Reproductive Health Care</i> , 2012 , 38, 229-38		31
59	Posttraumatic stress reactions as a disruption in anxiety-buffer functioning: Dissociation and responses to mortality salience as predictors of severity of posttraumatic symptoms.. <i>Psychological Trauma: Theory, Research, Practice, and Policy</i> , 2011 , 3, 329-341	7.8	39
58	Enhancing intentions to attend cervical cancer screening with a stage-matched intervention. <i>British Journal of Health Psychology</i> , 2011 , 16, 33-46	8.3	14
57	Predictors of support provision: a study with couples adapting to incontinence following radical prostatectomy. <i>British Journal of Health Psychology</i> , 2011 , 16, 472-87	8.3	10
56	Longitudinal relationships between self-efficacy, post-traumatic distress and salivary cortisol among motor vehicle accident survivors. <i>Stress and Health</i> , 2011 , 27, e261-e268	3.7	9
55	Self-efficacy as a moderator of the planning-behaviour relationship in interventions designed to promote physical activity. <i>Psychology and Health</i> , 2011 , 26, 151-66	2.9	134
54	Effects of school-based interventions targeting obesity-related behaviors and body weight change: a systematic umbrella review. <i>Behavioral Medicine</i> , 2011 , 37, 15-25	4.4	58
53	Posttraumatic Stress Disorder Involves Disrupted Anxiety-Buffer Mechanisms. <i>Journal of Social and Clinical Psychology</i> , 2011 , 30, 819-841	1.6	29
52	Micro-environmental characteristics related to body weight, diet, and physical activity of children and adolescents: a systematic umbrella review. <i>International Journal of Environmental Health Research</i> , 2011 , 21, 317-30	3.6	24
51	Mechanisms of health behavior change in persons with chronic illness or disability: the Health Action Process Approach (HAPA). <i>Rehabilitation Psychology</i> , 2011 , 56, 161-70	2.7	360
50	The role of mechanisms of buffering anxiety in HIV carriers. A study within the terror management theory paradigm. <i>Postepy Higieny I Medycyny Doswiadczalnej</i> , 2011 , 65, 133-42	0.3	
49	Impact Factor Stories. <i>Editors Bulletin</i> , 2010 , 6, 56-60		

48	Emotional and uncontrolled eating styles and chocolate chip cookie consumption. A controlled trial of the effects of positive mood enhancement. <i>Appetite</i> , 2010 , 54, 143-9	4.5	43
47	Social orientations and adolescent health behaviours in Hungary. <i>International Journal of Psychology</i> , 2010 , 45, 12-20	1.9	14
46	Plans Not Needed if You Have High and Stable Self-Efficacy: Planning Intervention and Snack Intake in the Context of Self-Efficacy Trajectories. <i>Polish Psychological Bulletin</i> , 2010 , 41, 91-97		1
45	Changing nutrition, physical activity and body weight among student nurses and midwives: effects of a planning intervention and self-efficacy beliefs. <i>Journal of Health Psychology</i> , 2009 , 14, 1075-84	3.1	59
44	The Interplay between Conscious and Automatic Self-Regulation and Adolescents' Physical Activity: The Role of Planning, Intentions, and Lack of Awareness. <i>Applied Psychology</i> , 2009 , 58, 257-273	4.3	16
43	Planning to break unwanted habits: habit strength moderates implementation intention effects on behaviour change. <i>British Journal of Social Psychology</i> , 2009 , 48, 507-23	6.8	163
42	Changes in self-regulatory cognitions as predictors of changes in smoking and nutrition behaviour. <i>Psychology and Health</i> , 2009 , 24, 545-61	2.9	87
41	Mediated effects of social support for healthy nutrition: fruit and vegetable intake across 8 months after myocardial infarction. <i>Behavioral Medicine</i> , 2009 , 35, 30-8	4.4	22
40	Predicting posttraumatic growth among Hurricane Katrina survivors living with HIV: the role of self-efficacy, social support, and PTSD symptoms. <i>Anxiety, Stress and Coping</i> , 2009 , 22, 449-63	3.1	66
39	Self-Efficacy Mediates Effects of Exposure, Loss of Resources, and Life Stress on Posttraumatic Distress among Trauma Survivors. <i>Applied Psychology: Health and Well-Being</i> , 2009 , 1, 73-90	6.8	11
38	Appraisal Detection Bias and Well-Being in Close Relationships: Couples Experiencing Assisted Reproduction Treatment. <i>Applied Psychology: Health and Well-Being</i> , 2009 , 1, 165-187	6.8	1
37	Self-Efficacy and Health-Related Outcomes of Collective Trauma. <i>European Psychologist</i> , 2009 , 14, 51-62	4.4	195
36	Effects of a Self-Efficacy Intervention on Exercise: The Moderating Role of Diabetes and Cardiovascular Diseases. <i>Applied Psychology</i> , 2008 , 57, 644-659	4.3	17
35	Social-cognitive predictors of physical exercise adherence: three longitudinal studies in rehabilitation. <i>Health Psychology</i> , 2008 , 27, S54-63	5	160
34	How to Overcome Health-Compromising Behaviors. <i>European Psychologist</i> , 2008 , 13, 141-151	4.4	193
