#	Article	IF	CITATIONS
1	Advocacy training for young family doctors in primary mental health care: a report and global call to action. BJGP Open, 2022, , BJGPO.2021.0163.	0.9	0
2	Lifestyle Intervention With or Without Lay Volunteers to Prevent Type 2 Diabetes in People With Impaired Fasting Glucose and/or Nondiabetic Hyperglycemia. JAMA Internal Medicine, 2021, 181, 168.	2.6	33
3	Effects of the Norfolk diabetes prevention lifestyle intervention (NDPS) on glycaemic control in screen-detected type 2 diabetes: a randomised controlled trial. BMC Medicine, 2021, 19, 183.	2.3	4
4	Priorities for primary health care policy implementation: recommendations from the combined experience of six countries in the Asia–Pacific. Australian Journal of Primary Health, 2020, 26, 351.	0.4	7
5	Books: <i>Tackling Causes and Consequences of Health Inequalities: A Practical Guide</i> Journal of General Practice, 2020, 70, 352-352.	0.7	1
6	Learning or leaving? An international qualitative study of factors affecting the resilience of female family doctors. BJGP Open, 2020, 4, bjgpopen20X101017.	0.9	4
7	The coronavirus outbreak: the central role of primary care in emergency preparedness and response. BJGP Open, 2020, 4, bjgpopen20X101041.	0.9	107
8	Challenges for family medicine research: a global perspective. Family Practice, 2019, 36, 99-101.	0.8	2
9	Primary Care Research Priorities in Low-and Middle-Income Countries. Annals of Family Medicine, 2019, 17, 31-35.	0.9	25
10	†We†™re passengers sailing in the same ship, but we have our own berths to sleep in†™: Evaluating patient and public involvement within a regional research programme: An action research project informed by Normalisation Process Theory. PLoS ONE, 2019, 14, e0215953.	1.1	18
11	Valuing health-related quality of life in heart failure: a systematic review of methods to derive quality-adjusted life years (QALYs) in trial-based cost–utility analyses. Heart Failure Reviews, 2019, 24, 549-563.	1.7	10
12	Actions speak louder than louds, but words are a start!. Family Medicine and Community Health, 2019, 7, e000073.	0.6	1
13	The Cost-Effectiveness of Screening in the Community to Reduce Osteoporotic Fractures in Older Women in the UK: Economic Evaluation of the SCOOP Study. Journal of Bone and Mineral Research, 2018, 33, 845-851.	3.1	58
14	Management of Patients With High Baseline Hip Fracture Risk by FRAX Reduces Hip Fractures—A Post Hoc Analysis of the SCOOP Study. Journal of Bone and Mineral Research, 2018, 33, 1020-1026.	3.1	45
15	Discordance in glycemic categories and regression to normality at baseline in 10,000 people in a Type 2 diabetes prevention trial. Scientific Reports, 2018, 8, 6240.	1.6	12
16	How embedded is public involvement in mainstream health research in England a decade after policy implementation? A realist evaluation. Journal of Health Services Research and Policy, 2018, 23, 98-106.	0.8	30
17	Screening in the community to reduce fractures in older women (SCOOP): a randomised controlled trial. Lancet, The, 2018, 391, 741-747.	6.3	206
18	Reflections on family medicine and primary healthcare in sub-Saharan Africa. BMJ Global Health, 2018, 3, e000662.	2.0	42

#	Article	IF	Citations
19	Emerging role of family medicine in South Africa. BMJ Global Health, 2018, 3, e000736.	2.0	20
20	Does practice analysis agree with the ambulatory care sensitive conditions' list of avoidable unplanned admissions?: a cross-sectional study in the East of England. BMJ Open, 2018, 8, e020756.	0.8	10
21	Principles of patient and public involvement in primary care research, applied to mental health research. A keynote paper from the EGPRN Autumn Conference 2017 in Dublin. European Journal of General Practice, 2018, 24, 167-170.	0.9	6
22	Study Protocol: The Norfolk Diabetes Prevention Study [NDPS]: a 46Âmonth multi - centre, randomised, controlled parallel group trial of a lifestyle intervention [with or without additional support from lay lifestyle mentors with Type 2 diabetes] to prevent transition to Type 2 diabetes in high risk groups with non - diabetic hyperglycaemia, or impaired fasting glucose. BMC Public Health, 2017, 17, 31.	1.2	16
23	Tongue-tie and breastfeeding: Identifying problems in the diagnostic and treatment journey. British Journal of Midwifery, 2017, 25, 579-584.	0.1	2
24	Learning to work together $\hat{a}\in$ " lessons from a reflective analysis of a research project on public involvement. Research Involvement and Engagement, 2017, 3, 1.	1.1	64
25	Primary healthcare policy implementation in South Asia. BMJ Global Health, 2016, 1, e000057.	2.0	46
26	Effectiveness of interventions to indirectly support food and drink intake in people with dementia: Eating and Drinking Well IN dementiA (EDWINA) systematic review. BMC Geriatrics, 2016, 16, 89.	1.1	71
27	A case study exploring employment factors affecting general practice nurse role development. Primary Health Care Research and Development, 2016, 17, 87-97.	0.5	9
28	A systematic review of strategies to recruit and retain primary care doctors. BMC Health Services Research, 2016, 16, 126.	0.9	125
29	Effectiveness of interventions to directly support food and drink intake in people with dementia: systematic review and meta-analysis. BMC Geriatrics, 2016, 16, 26.	1.1	125
30	Reforma da Atenção Primária à Saúde no Rio de Janeiro: comemorando os 450 anos de fundação da cidade. Ciencia E Saude Coletiva, 2016, 21, 1324-1326.	0.1	6
31	Patient safety: the general practice agenda. British Journal of General Practice, 2015, 65, 222-223.	0.7	1
32	Dangerous Ideas: Improving the quality of Significant Event Audit by involving the patients. British Journal of General Practice, 2015, 65, 30-30.	0.7	0
33	Doctors and divorce. BMJ, The, 2015, 350, h791-h791.	3.0	2
34	ReseArch with Patient and Public invOlvement: a RealisT evaluation $\hat{a} \in \text{``the RAPPORT study. Health Services and Delivery Research, 2015, 3, 1-176.}$	1.4	143
35	Advance care planning: an unsuitable subject for QOF?. British Journal of General Practice, 2014, 64, 649-650.	0.7	2
36	A review of clinical practice guidelines found that they were often based on evidence of uncertain relevance to primary care patients. Journal of Clinical Epidemiology, 2014, 67, 1251-1257.	2.4	65

#	Article	IF	CITATIONS
37	Consumer involvement in health research: a <scp>UK</scp> scoping and survey. International Journal of Consumer Studies, 2014, 38, 35-44.	7.2	59
38	Primary care evidence in clinical guidelines: a mixed methods study of practitioners' views. British Journal of General Practice, 2014, 64, e719-e727.	0.7	14
39	Abandoned Acid? Understanding Adherence to Bisphosphonate Medications for the Prevention of Osteoporosis among Older Women: A Qualitative Longitudinal Study. PLoS ONE, 2014, 9, e83552.	1.1	28
40	Multimorbidity: what's the problem?. Quality in Primary Care, 2014, 22, 115-9.	0.8	2
41	Towards an understanding of resilience and its relevance to medical training. Medical Education, 2012, 46, 349-356.	1.1	299
42	Innovations and developments. Education for Primary Care, 2011, 22, 269-276.	0.2	1
43	Thinking ahead: GP educators in england need to be planning for the NHS reforms. Education for Primary Care, 2010, 21, 352-353.	0.2	2
