

Francisco Mauro Salzano

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/4671165/francisco-mauro-salzano-publications-by-year.pdf>

Version: 2024-04-29

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

41
papers

1,458

#	Paper	IF	Citations
41	Variants p.Pro2063Ser and p.Arg324* co-segregate in type 3 von Willebrand disease patients from Southern Brazil. <i>Haemophilia</i> , 2021 , 27, e204-e213	3.3	0
40	The Evolution of Science in a Latin-American Country: Genetics and Genomics in Brazil. <i>Genetics</i> , 2018 , 208, 823-832	4	4
39	Molecular characterization of haemophilia B patients in southern Brazil. <i>Haemophilia</i> , 2017 , 23, e457-e461	3.3	4
38	First study of mtDNA (D-loop) in Brazilian Caipira chickens. <i>Animal Genetics</i> , 2017 , 48, 498-499	2.5	
37	A germline variant affects putative miRNA-binding sites at the F8 3'UTR and acts as a potential haemophilia A phenotype modifier in Southern Brazilian patients. <i>Haemophilia</i> , 2016 , 22, e327-9	3.3	8
36	Native American ancestry leads to complexity in 5-HTTLPR polymorphism association studies. <i>Molecular Psychiatry</i> , 2015 , 20, 659-60	15.1	1
35	Detection of new mutations and molecular pathology of mild and moderate haemophilia A patients from southern Brazil. <i>Haemophilia</i> , 2013 , 19, 773-81	3.3	7
34	A bayesian approach to genome/linguistic relationships in native South Americans. <i>PLoS ONE</i> , 2013 , 8, e64099	3.7	8
33	Immune system polymorphisms and factor VIII inhibitor formation in Brazilian haemophilia A severe patients. <i>Haemophilia</i> , 2012 , 18, e416-8	3.3	8
32	Uniparental genetic markers in South Amerindians. <i>Genetics and Molecular Biology</i> , 2012 , 35, 365-87	2	38
31	Genomics and evolution - a personal appraisal. <i>Cytogenetic and Genome Research</i> , 2010 , 128, 99-104	1.9	
30	Introns 1 and 22 inversions and factor VIII inhibitors in patients with severe haemophilia A in southern Brazil. <i>Haemophilia</i> , 2009 , 15, 309-13	3.3	14
29	Uniparental (mtDNA, Y-chromosome) polymorphisms in French Guiana and two related populations--implications for the region's colonization. <i>Annals of Human Genetics</i> , 2008 , 72, 145-56	2.2	19
28	Autosomal STR genetic variability in the Gran Chaco native population: Homogeneity or heterogeneity?. <i>American Journal of Human Biology</i> , 2008 , 20, 704-11	2.7	20
27	Molecular variability of the 16p13.3 region in Amerindians and its anthropological significance. <i>Annals of Human Genetics</i> , 2007 , 71, 64-76	2.2	7
26	Statistical evaluation of alternative models of human evolution. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2007 , 104, 17614-9	11.5	409
25	Mitochondrial DNA and Alu insertions in a genetically peculiar population: the Ayoreo Indians of Bolivia and Paraguay. <i>American Journal of Human Biology</i> , 2004 , 16, 479-88	2.7	36

24	Extremely limited mitochondrial DNA variability among the Ach�Natives of Paraguay. <i>Annals of Human Biology</i> , 2004 , 31, 87-94	1.7	29
23	Genetic, geographic, and linguistic variation among South American Indians: possible sex influence. <i>American Journal of Physical Anthropology</i> , 2002 , 117, 68-78	2.5	30
22	Y-chromosome biallelic polymorphisms and Native American population structure. <i>Annals of Human Genetics</i> , 2002 , 66, 255-259	2.2	39
21	Alu insertions versus blood group plus protein genetic variability in four Amerindian populations. <i>Annals of Human Biology</i> , 2002 , 29, 334-47	1.7	28
20	New genetic data on Amerindians from the Paraguayan Chaco. <i>American Journal of Human Biology</i> , 2001 , 13, 660-7	2.7	9
19	Genetic relationships between Amerindian populations of Argentina. <i>American Journal of Physical Anthropology</i> , 2001 , 115, 133-43	2.5	22
18	Protein genetic studies among the Tupi-Mond�Indians of the Brazilian Amazonia. <i>American Journal of Human Biology</i> , 1998 , 10, 711-722	2.7	8
17	New protein genetic studies in six Amazonian Indian populations. <i>Annals of Human Biology</i> , 1998 , 25, 505-22	1.7	6
16	D1S80 locus variability in South American Indians. <i>Annals of Human Biology</i> , 1997 , 24, 249-55	1.7	14
15	Diversity and age of the four major mtDNA haplogroups, and their implications for the peopling of the New World. <i>American Journal of Human Genetics</i> , 1997 , 61, 1413-23	11	113
14	A single and early migration for the peopling of the Americas supported by mitochondrial DNA sequence data. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1997 , 94, 1866-71	11.5	186
13	The Brazilian Xavante Indians revisited: new protein genetic studies. <i>American Journal of Physical Anthropology</i> , 1997 , 104, 23-34	2.5	16
12	Demography and blood genetics of Argentinian Mapuche Indians. <i>International Journal of Anthropology</i> , 1996 , 11, 33-42		8
11	The Wai Wai Indians of South America: history and genetics. <i>Annals of Human Biology</i> , 1996 , 23, 189-201	1.7	18
10	Mitochondrial DNA polymorphism in three Brazilian Indian tribes. <i>American Journal of Human Biology</i> , 1996 , 8, 317-323	2.7	74
9	Further blood genetic studies on Amazonian diversity--data from four Indian groups. <i>Annals of Human Biology</i> , 1994 , 21, 465-81	1.7	46
8	Genetic variation among the Mapuche Indians from the Patagonian region of Argentina: mitochondrial DNA sequence variation and allele frequencies of several nuclear genes. <i>Exs</i> , 1993 , 67, 211-9		78
7	Genetic variation within the Tupi linguistic group: new data on three Amazonian tribes. <i>Annals of Human Biology</i> , 1988 , 15, 337-51	1.7	23

6	HLA antigens and other genetic markers in the Mapuche Indians of Argentina. <i>Human Heredity</i> , 1985 , 35, 306-13	1.1	19
5	Restriction and persistence of polymorphisms of HLA and other blood genetic traits in the ParakanĀIndians of Brazil. <i>American Journal of Physical Anthropology</i> , 1980 , 52, 119-32	2.5	39
4	Unusual blood genetic characteristics among the Ayoreo Indians of Bolivia and Paraguay. <i>Human Biology</i> , 1978 , 50, 121-36	1.2	19
3	Esterase D in South American Indians. <i>American Journal of Human Genetics</i> , 1976 , 28, 257-61	11	13
2	Hemoglobin types of Brazilian Indians. <i>American Journal of Physical Anthropology</i> , 1968 , 28, 355-9	2.5	10
1	Further studies on the Xavante Indians. 3. Blood groups and ABH-Lea secretor types in the SimĀs Lopes and SĀ Marcos Xavantes. <i>American Journal of Human Genetics</i> , 1967 , 19, 502-13	11	28
