#	ARTICLE	IF	CITATIONS
1	DNA Barcoding for the Identification of Sand Fly Species (Diptera, Psychodidae, Phlebotominae) in Colombia. PLoS ONE, 2014, 9, e85496.	1.1	64
2	Presencia de <i>Aedes (Stegomyia) aegypti</i> (Linnaeus, 1762) y su infección natural con el virus del dengue en alturas no registradas para Colombia. Biomedica, 2016, 36, 303.	0.3	55
3	Into the Andes: multiple independent colonizations drive montane diversity in the Neotropical clearwing butterflies Godyridina. Molecular Ecology, 2016, 25, 5765-5784.	2.0	52
4	North Andean origin and diversification of the largest ithomiine butterfly genus. Scientific Reports, 2017, 7, 45966.	1.6	48
5	Contrasting patterns of Andean diversification among three diverse clades of Neotropical clearwing butterflies. Ecology and Evolution, 2018, 8, 3965-3982.	0.8	29
6	<i>Almendravirus</i> : A Proposed New Genus of Rhabdoviruses Isolated from Mosquitoes in Tropical Regions of the Americas. American Journal of Tropical Medicine and Hygiene, 2017, 96, 100-109.	0.6	27
7	Molecular detection of flaviviruses and alphaviruses in mosquitoes (Diptera: Culicidae) from coastal ecosystems in the Colombian Caribbean. Memorias Do Instituto Oswaldo Cruz, 2016, 111, 625-634.	0.8	25
8	Sinu virus, a novel and divergent orthomyxovirus related to members of the genus Thogotovirus isolated from mosquitoes in Colombia. Virology, 2017, 501, 166-175.	1.1	22
9	Morphology agrees with molecular data: phylogenetic affinities of Euptychiina butterflies (Nymphalidae: Euptychiini). Systematic Entomology and Biogeography, 2017, 43, 1-10.	1.7	20
10	Wild specimens of sand fly phlebotomine <i>Lutzomyia evansi</i> , vector of leishmaniasis, show high abundance of <i>Methylobacterium</i> and natural carriage of <i>Wolbachia</i> and <i>Cardinium</i> types in the midgut microbiome. Scientific Reports, 2019, 9, 17746.	1.6	20
11	Mitochondrial DNA divergence between wild and laboratory populations of <i>Anopheles albimanus</i> Wiedemann (Diptera: Culicidae). Neotropical Entomology, 2005, 34, 499-506.	0.5	13
12	Population dynamics of <i>Dasiops inedulis</i> (Diptera: Lonchaeidae) and its biotic and abiotic mortality factors in Colombian sweet passionfruit orchards. Journal of Pest Science, 2013, 86, 437-447.	1.9	13
13	Lista actualizada de flebotomíneos (Diptera: Psychodidae: Phlebotominae) de la región cafetera colombiana. Biomedica, 2014, 34, .	0.3	13
14	<i>Aedes albopictus</i> (Skuse, 1894) infected with the American-Asian genotype of dengue type 2 virus in Medellín suggests its possible role as vector of dengue fever in Colombia. Biomedica, 2017, 37, 135.	0.3	13
15	Parque de Belmira as an important centre of endemism in the northern Colombian Andes: new evidence from <i>Pronophilina</i> butterflies (Lepidoptera: Nymphalidae, Satyrinae, Satyrini). Zootaxa, 2016, 4179, 77.	0.2	11
16	Description of two new species of the Neotropical genus <i>Ypthimoides</i> Forster, 1964 (Lepidoptera: Nymphalidae: Satyrinae) from the <i>renata</i> clade. Neotropical Biodiversity, 2016, 2, 87-98.	0.2	10
17	Use of DNA barcoding to distinguish the malaria vector <i>Anopheles neivai</i> in Colombia. Zootaxa, 2016, 4175, 377-389.	0.2	10
18	DNA barcoding of <i>Lutzomyia longipalpis</i> species complex (Diptera: Psychodidae), suggests the existence of 8 candidate species. Acta Tropica, 2021, 221, 105983.	0.9	10

#	ARTICLE	IF	CITATIONS
19	The Sabethines of Northern Andean Coffee-Growing Regions of Colombia. Journal of the American Mosquito Control Association, 2015, 31, 125-134.	0.2	6
20	Molecular detection of Eastern Equine Encephalitis virus in mosquitoes from La Pintada (Antioquia). Revista MVZ Cordoba, 0, , 4800-4806.	0.2	6
21	Description of Lutzomyia velezi, a new species of phlebotomine sand fly (Diptera: Psychodidae) from the Department of Antioquia, Colombia. Memorias Do Instituto Oswaldo Cruz, 2010, 105, 322-325.	0.8	5
22	Species of sand flies (Diptera: Psychodidae) collected from natural reserves in the Pacific and Darien regions of Colombia. Biomedica, 2017, 37, 215.	0.3	5
23	New Records of Phlebotomine Sandflies (Diptera: Psychodidae) at Sierra Nevada de Santa Marta, Colombia. Acta Biologica Colombiana, 2014, 20, 221-224.	0.1	4
24	Polimorfismo entre poblaciones de Lutzomyia longipalpis, insecto transmisor de leishmaniosis visceral, sugiere la existencia de un complejo de especies. Biomedica, 1999, 19, 56.	0.3	3
25	Use of species delimitation approaches to tackle the cryptic diversity of an assemblage of high Andean butterflies (Lepidoptera: Papilionoidea). Genome, 2021, 64, 937-949.	0.9	3
26	Interspecific variation in mitochondrial serine transfer RNA (UCN) in Euptychiina butterflies (Lepidoptera: Satyrinae): Structure and alignment. Mitochondrial DNA, 2012, 23, 208-215.	0.6	2
27	Genome Sequence of Chiqui Virus, a Novel Reovirus Isolated from Mosquitoes Collected in Colombia. Microbiology Resource Announcements, 2018, 7, .	0.3	2
28	Primer registro del flebotomíneo Warileya (Hertigia) hertigi en Antioquia, Colombia. Biomedica, 2018, 38, 277-281.	0.3	2
29	Intraspecific phylogeny of Anopheles (Kerteszia) neivai Howard, Dyar & Knab 1913, based on mitochondrial and nuclear ribosomal genes. Infection, Genetics and Evolution, 2019, 67, 183-190.	1.0	2
30	Sampling performance of bait traps in high Andean fruit-feeding butterflies. Neotropical Biodiversity, 2021, 7, 507-513.	0.2	2
31	Comparación de dos métodos de extracción de ADN a partir de plantas del género Solanum, subgénero Leptostemonum.. Revista Colombiana De Biotecnología, 2013, 15, 186.	0.5	1
32	Life Cycle and Host Plants of Mechanitis menapis doryssus1 (Danainae: Ithomiini) in Mexico. Southwestern Entomologist, 2014, 39, 761-772.	0.1	0
33	Molecular identification of the economically important Solanum subgenus Leptostemonum (Solanaceae) using DNA barcodes. Journal of Plant Biochemistry and Biotechnology, 0, , 1.	0.9	0
