## Cristina Venturini

## List of Publications by Year in Descending Order

Source: https://exaly.com/author-pdf/4679068/cristina-venturini-publications-by-year.pdf

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

9	37	4	5
papers	citations	h-index	g-index
15	75 ext. citations	9.3	O.95
ext. papers		avg, IF	L-index

#	Paper	IF	Citations
9	Exaggerated IL-17A activity in human in vivo recall responses discriminates active tuberculosis from latent infection and cured disease. <i>Science Translational Medicine</i> , <b>2021</b> , 13,	17.5	8
8	Epstein-Barr virus (EBV) deletions as biomarkers of response to treatment of chronic active EBV. <i>British Journal of Haematology</i> , <b>2021</b> , 195, 249-255	4.5	2
7	SARS-CoV-2 lineage B.1.1.7 is associated with greater disease severity among hospitalised women but not men: multicentre cohort study. <i>BMJ Open Respiratory Research</i> , <b>2021</b> , 8,	5.6	8
6	Kallikrein-Mediated Cytokeratin 10 Degradation Is Required for Varicella Zoster Virus Propagation in Skin. <i>Journal of Investigative Dermatology</i> , <b>2020</b> , 140, 774-784.e11	4.3	6
5	Cerebrospinal fluid transcriptional analyses reveals upregulation of IL-17, Type 1 interferon transcriptional pathways and neutrophil persistence genes associated with increased mortality from pneumococcal meningitis in adults		1
4	cmvdrg - An R package for Human Cytomegalovirus antiviral Drug Resistance Genotyping		1
3	Haplotype assignment of longitudinal viral deep-sequencing data using co-variation of variant frequer	ncies	4
2	Exaggerated in vivo IL-17 responses discriminate recall responses in active TB		2
1	Concise whole blood transcriptional signatures for incipient tuberculosis: A systematic review and patient-level pooled meta-analysis		4
