#	ARTICLE	IF	CITATIONS
1	Role of Simulation in Construction Engineering and Management. Journal of Construction Engineering and Management - ASCE, 2010, 136, 1140-1153.	4.0	237
2	Early Contractor Involvement in Design and Its Impact on Construction Schedule Performance. Journal of Management in Engineering - ASCE, 2009, 25, 12-20.	4.8	152
3	Unified Modeling Methodology for Construction Simulation. Journal of Construction Engineering and Management - ASCE, 2002, 128, 174-185.	4.0	135
4	Statistical Properties of Construction Duration Data. Journal of Construction Engineering and Management - ASCE, 1992, 118, 525-544.	4.0	127
5	Fitting Beta Distributions Based on Sample Data. Journal of Construction Engineering and Management - ASCE, 1994, 120, 288-305.	4.0	119
6	Perceiving safety risk of buildings adjacent to tunneling excavation: An information fusion approach. Automation in Construction, 2017, 73, 88-101.	10.0	112
7	Measuring and Modeling Labor Productivity Using Historical Data. Journal of Construction Engineering and Management - ASCE, 2008, 134, 786-794.	4.0	103
8	Neural Network Model for Estimating Construction Productivity. Journal of Construction Engineering and Management - ASCE, 1997, 123, 399-410.	4.0	101
9	Symphony. , 1999, , .		101
10	A framework for applying simulation in construction. Canadian Journal of Civil Engineering, 1998, 25, 604-617.	1.3	98
11	Developing a knowledge management system for improved value engineering practices in the construction industry. Automation in Construction, 2009, 18, 777-789.	10.0	97
12	Risk-based Life-cycle Costing of Infrastructure Rehabilitation and Construction Alternatives. Journal of Infrastructure Systems, 2003, 9, 6-15.	1.9	92
13	Simulation-based route planning for pedestrian evacuation in metro stations: A case study. Automation in Construction, 2016, 71, 430-442.	10.0	85
14	Simulation-Based Multiagent Approach for Scheduling Modular Construction. Journal of Computing in Civil Engineering, 2014, 28, 263-274.	4.9	82
15	Visual Interactive Fitting of Beta Distributions. Journal of Construction Engineering and Management - ASCE, 1991, 117, 589-605.	4.0	77
16	Modeling Framework and Architecture of Hybrid System Dynamics and Discrete Event Simulation for Construction. Computer-Aided Civil and Infrastructure Engineering, 2011, 26, 77-91.	10.4	75
17	Intelligent Approach to Estimation of Tunnel-Induced Ground Settlement Using Wavelet Packet and Support Vector Machines. Journal of Computing in Civil Engineering, 2017, 31, .	4.9	72
18	Bayesian Updating Application into Simulation in the North Edmonton Sanitary Trunk Tunnel Project. Journal of Construction Engineering and Management - ASCE, 2006, 132, 882-894.	4.0	68

#	ARTICLE	IF	CITATIONS
19	Resource-Based Modeling for Construction Simulation. Journal of Construction Engineering and Management - ASCE, 1997, 123, 26-33.	4.0	65
20	Probabilistic Simulation Studies for Repetitive Construction Processes. Journal of Construction Engineering and Management - ASCE, 1990, 116, 575-594.	4.0	57
21	Site Layout and Construction Plan Optimization Using an Integrated Genetic Algorithm Simulation Framework. Journal of Computing in Civil Engineering, 2017, 31, .	4.9	57
22	Determining a reasonable concession period for private sector provision of public works and service. Canadian Journal of Civil Engineering, 2006, 33, 622-631.	1.3	54
23	A framework for an automated and integrated project monitoring and control system for steel fabrication projects. Automation in Construction, 2011, 20, 88-97.	10.0	54
24	Belief Networks for Construction Performance Diagnostics. Journal of Computing in Civil Engineering, 1998, 12, 93-100.	4.9	53
25	Practical Application for Integrated Performance Measurement of Construction Projects. Journal of Management in Engineering - ASCE, 2014, 30, .	4.8	50
26	Off-Site Construction Planning Using Discrete Event Simulation. Journal of Architectural Engineering, 2012, 18, 114-122.	1.6	49
27	Dynamics of Working Hours in Construction. Journal of Construction Engineering and Management - ASCE, 2012, 138, 66-77.	4.0	48
28	Flow Production of Pipe Spool Fabrication: Simulation to Support Implementation of Lean Technique. Journal of Construction Engineering and Management - ASCE, 2009, 135, 1027-1038.	4.0	46
29	Combined Discrete-Event/Continuous Simulation for Project Planning. Journal of Construction Engineering and Management - ASCE, 1997, 123, 11-20.	4.0	45
30	Special purpose simulation templates for tunnel construction operations. Canadian Journal of Civil Engineering, 2001, 28, 222-237.	1.3	45
31	Integrating Document Management with Project and Company Data. Journal of Computing in Civil Engineering, 2000, 14, 70-77.	4.9	44
32	Performing Global Uncertainty and Sensitivity Analysis from Given Data in Tunnel Construction. Journal of Computing in Civil Engineering, 2017, 31, .	4.9	44
33	A survey of the bidding practices of Canadian civil engineering construction contractors. Canadian Journal of Civil Engineering, 1999, 26, 13-25.	1.3	41
34	Finding Causal Paths between Safety Management System Factors and Accident Precursors. Journal of Management in Engineering - ASCE, 2020, 36, .	4.8	41
35	Application of Computer Simulation in Resolving Construction Disputes. Journal of Construction Engineering and Management - ASCE, 1993, 119, 355-373.	4.0	38
36	Identification and Association of High-Priority Safety Management System Factors and Accident Precursors for Proactive Safety Assessment and Control. Journal of Management in Engineering - ASCE, 2018, 34, .	4.8	37

#	ARTICLE	IF	CITATIONS
37	Simulation-based scheduling of module assembly yards: case study. <i>Engineering, Construction and Architectural Management</i> , 2007, 14, 293-311.	3.5	36
38	Assessing Residual Value of Heavy Construction Equipment Using Predictive Data Mining Model. <i>Journal of Computing in Civil Engineering</i> , 2008, 22, 181-191.	4.9	36
39	Application Framework for Development of Simulation Tools. <i>Journal of Computing in Civil Engineering</i> , 2000, 14, 160-167.	4.9	35
40	Enhancing Value Engineering Process by Incorporating Inventive Problem-Solving Techniques. <i>Journal of Construction Engineering and Management - ASCE</i> , 2009, 135, 416-424.	4.0	35
41	Toward Environmentally Sustainable Construction Processes: The U.S. and Canada's Perspective on Energy Consumption and GHG/CAP Emissions. <i>Sustainability</i> , 2010, 2, 354-370.	3.3	35
42	Fuzzy cognitive maps enabled root cause analysis in complex projects. <i>Applied Soft Computing Journal</i> , 2017, 57, 235-249.	7.4	34
43	A simulation and visualization-based framework of labor efficiency and safety analysis for prevention through design and planning. <i>Automation in Construction</i> , 2018, 96, 310-323.	10.0	33
44	Subjective and interactive duration estimation. <i>Canadian Journal of Civil Engineering</i> , 1993, 20, 457-470.	1.3	32
45	A simulation-based approach for material yard laydown planning. <i>Automation in Construction</i> , 2014, 40, 1-8.	10.0	32
46	Construction project simulation using CYCLONE. <i>Canadian Journal of Civil Engineering</i> , 1998, 25, 16-25.	1.3	31
47	State of the art in construction simulation. , 1992, , .		30
48	HSM-Simulation-Based Planning Method for Construction Projects. <i>Journal of Construction Engineering and Management - ASCE</i> , 1995, 121, 297-303.	4.0	30
49	Comparison of Two Simulation Methodologies in Construction. <i>Journal of Construction Engineering and Management - ASCE</i> , 1993, 119, 573-589.	4.0	29
50	Application of Lean Concepts and Simulation Analysis to Improve Efficiency of Drainage Operations Maintenance Crews. <i>Journal of Construction Engineering and Management - ASCE</i> , 2006, 132, 291-299.	4.0	29
51	Methodology for integrating fuzzy expert systems and discrete event simulation in construction engineering. <i>Canadian Journal of Civil Engineering</i> , 2009, 36, 1478-1490.	1.3	29
52	Simulation modeling and sensitivity analysis of a tunneling construction project's supply chain. <i>Engineering, Construction and Architectural Management</i> , 2011, 18, 462-480.	3.5	29
53	Special purpose simulation template for utility tunnel construction. , 1999, , .		28
54	Simulation-Based Scheduling with Continuous Activity Relationships. <i>Journal of Construction Engineering and Management - ASCE</i> , 1998, 124, 107-115.	4.0	27

#	ARTICLE	IF	CITATIONS
55	Using Simulation to Plan Tunnel Construction. Journal of Construction Engineering and Management - ASCE, 2013, 139, 564-571.	4.0	27
56	Building a special purposes simulation tool for earth moving operations. , 1996, , .		26
57	Virtual Shop Model for Experimental Planning of Steel Fabrication Projects. Journal of Computing in Civil Engineering, 2006, 20, 308-316.	4.9	25
58	A hybrid information fusion approach to safety risk perception using sensor data under uncertainty. Stochastic Environmental Research and Risk Assessment, 2018, 32, 105-122.	4.1	25
59	An integrated ergonomics framework for evaluation and design of construction operations. Automation in Construction, 2018, 95, 72-85.	10.0	25
60	Quantifying Engineering Project Scope for Productivity Modeling. Journal of Construction Engineering and Management - ASCE, 2005, 131, 360-367.	4.0	23
61	Construction site dewatering analysis using a special purpose simulation-based framework. Canadian Journal of Civil Engineering, 1998, 25, 819-828.	1.3	22
62	Carbon Footprints Analysis for Tunnel Construction Processes in the Preplanning Phase Using Collaborative Simulation. , 2010, , .		22
63	Social network analysis of change management processes for communication assessment. Automation in Construction, 2020, 118, 103292.	10.0	22
64	Modeling and Analysis of Aggregate Production Operations. Journal of Construction Engineering and Management - ASCE, 1998, 124, 390-401.	4.0	21
65	Continuous and combined event-process models for simulating pipeline construction. Construction Management and Economics, 1998, 16, 489-498.	3.2	21
66	Dynamics of workforce skill evolution in construction projects¹This paper is one of a selection of papers in this Special Issue on Construction Engineering and Management.. Canadian Journal of Civil Engineering, 2012, 39, 1005-1017.	1.3	21
67	Application of KDD Techniques to Extract Useful Knowledge from Labor Resources Data in Industrial Construction Projects. Journal of Management in Engineering - ASCE, 2014, 30, .	4.8	20
68	Stochastic Modeling for Assessment of Human Perception and Motion Sensing Errors in Ergonomic Analysis. Journal of Computing in Civil Engineering, 2017, 31, .	4.9	20
69	Bayesian Inference with Markov Chain Monte Carlo-Based Numerical Approach for Input Model Updating. Journal of Computing in Civil Engineering, 2020, 34, .	4.9	20
70	An overview of the COSYE environment for construction simulation. , 2009, , .		19
71	Credible interval estimation for fraction nonconforming: Analytical and numerical solutions. Automation in Construction, 2017, 83, 56-67.	10.0	19
72	Complexity Analysis Approach for Prefabricated Construction Products Using Uncertain Data Clustering. Journal of Construction Engineering and Management - ASCE, 2018, 144, .	4.0	19

#	ARTICLE	IF	CITATIONS
73	Case-Based Reasoning Approach for Assessing Safety Performance Using Safety-Related Measures. Journal of Construction Engineering and Management - ASCE, 2018, 144, .	4.0	19
74	Distributed Simulation-Based Analytics Approach for Enhancing Safety Management Systems in Industrial Construction. Journal of Construction Engineering and Management - ASCE, 2020, 146, .	4.0	19
75	Automated Extraction and Time-Cost Prediction of Contractual Reporting Requirements in Construction Using Natural Language Processing and Simulation. Applied Sciences (Switzerland), 2021, 11, 6188.	2.6	18
76	Quantitative Method for Updating Cost Contingency throughout Project Execution. Journal of Construction Engineering and Management - ASCE, 2012, 138, 759-766.	4.0	17
77	A hybrid simulation approach for quantitatively analyzing the impact of facility size on construction projects. Automation in Construction, 2015, 60, 39-48.	10.0	17
78	Resource Supply-Demand Matching Scheduling Approach for Construction Workforce Planning. Journal of Construction Engineering and Management - ASCE, 2016, 142, .	4.0	17
79	Genetic Algorithm-Based Simulation Framework for Decision Making in Construction Site Layout Planning. Journal of Construction Engineering and Management - ASCE, 2017, 143, .	4.0	17
80	Integrating Case-Based Reasoning and Simulation Modeling for Testing Strategies to Control Safety Performance. Journal of Computing in Civil Engineering, 2018, 32, .	4.9	17
81	Data-Driven Simulation Model for Quality-Induced Rework Cost Estimation and Control Using Absorbing Markov Chains. Journal of Construction Engineering and Management - ASCE, 2018, 144, .	4.0	17
82	Hybrid multi-mode simulation and optimization for subarea scheduling in heavy industrial construction. Automation in Construction, 2021, 125, 103616.	10.0	17
83	Simulation-Based Analytics for Quality Control Decision Support: Pipe Welding Case Study. Journal of Computing in Civil Engineering, 2018, 32, .	4.9	16
84	AN OPTIMIZATION METHOD FOR SIMULATING LARGE COMPLEX SYSTEMS. Engineering Optimization, 1995, 25, 213-229.	2.6	15
85	Simphony Supply Chain Simulator: a simulation toolkit to model the supply chain of construction projects. Simulation, 2011, 87, 657-667.	1.7	15
86	Applying Basic Control Theory Principles to Project Control: Case Study of Off-Site Construction Shops. Journal of Computing in Civil Engineering, 2012, 26, 681-690.	4.9	15
87	Simulation-Based Fuzzy Logic Approach to Assessing the Effect of Project Quality Management on Construction Performance. Journal of Quality and Reliability Engineering, 2014, 2014, 1-18.	1.3	15
88	Zero-One Programming Approach to Determine Optimum Resource Supply under Time-Dependent Resource Constraints. Journal of Computing in Civil Engineering, 2016, 30, .	4.9	15
89	Intelligent data-driven approach for enhancing preliminary resource planning in industrial construction. Automation in Construction, 2021, 130, 103846.	10.0	15
90	Combining photogrammetry and robotic total stations to obtain dimensional measurements of temporary facilities in construction field. Visualization in Engineering, 2013, 1, .	8.6	14

#	ARTICLE	IF	CITATIONS
91	Integrated data-driven approach for analyzing pipe welding operator-quality performance. <i>Automation in Construction</i> , 2019, 106, 102814.	10.0	14
92	Design and Implementation of Loose-Coupling Visualization Components in a Distributed Construction Simulation Environment with HLA. <i>Journal of Computing in Civil Engineering</i> , 2012, 26, 248-258.	4.9	13
93	Computerized Tool for Hierarchical Simulation Modeling. <i>Journal of Computing in Civil Engineering</i> , 1996, 10, 115-124.	4.9	12
94	A virtual shop modeling system for industrial fabrication shops. <i>Simulation Modelling Practice and Theory</i> , 2006, 14, 649-662.	4.0	11
95	Micro-motion level simulation for efficiency analysis and duration estimation of manual operations. <i>Automation in Construction</i> , 2016, 71, 443-452.	10.0	11
96	Stratified statistical analysis for effectiveness evaluation of frontline worker safety intervention: Case study of construction steel fabrication. <i>Safety Science</i> , 2019, 115, 89-102.	5.0	11
97	Dynamic, Data-Driven Decision-Support Approach for Construction Equipment Acquisition and Disposal. <i>Journal of Computing in Civil Engineering</i> , 2020, 34, .	4.9	11
98	Data-Driven Simulation-Based Analytics for Heavy Equipment Life-Cycle Cost. <i>Journal of Construction Engineering and Management - ASCE</i> , 2020, 146, .	4.0	11
99	Generic Implementation of Lean Concepts in Simulation Models. , 0, , 1-23.		11
100	Equipment Logistics Performance Measurement Using Data-Driven Social Network Analysis. <i>Journal of Construction Engineering and Management - ASCE</i> , 2019, 145, .	4.0	10
101	Analysis and Evaluation of Alternative Technologies. <i>Journal of Management in Engineering - ASCE</i> , 1994, 10, 65-71.	4.8	9
102	Performance measurement indices for simulated construction operations. <i>Canadian Journal of Civil Engineering</i> , 2001, 28, 383-393.	1.3	9
103	Simplified CPM/PERT Simulation Model. <i>Journal of Construction Engineering and Management - ASCE</i> , 2001, 127, 513-514.	4.0	9
104	Productivity Simulation During the Planning Phase of the Glencoe Tunnel in Calgary, Canada: A Case Study. , 2006, , .		9
105	A simulation-based framework for quantifying the cold regions weather impacts on construction schedules. , 2007, , .		9
106	AP2-Earth. , 1997, , .		8
107	Qualitative simulation of construction performance using fuzzy cognitive maps. , 2007, , .		8
108	Simulation-Based Scheduling of Modular Construction Using Multi-agent Resource Allocation. , 2010, , .		8

#	ARTICLE	IF	CITATIONS
109	Identification of Invariant Average Weighted Haul Distance to Simplify Earthmoving Simulation Modeling in Planning Site Grading Operations. Journal of Construction Engineering and Management - ASCE, 2014, 140, .	4.0	8
110	Numerical-Based Approach for Updating Simulation Input in Real Time. Journal of Computing in Civil Engineering, 2021, 35, .	4.9	8
111	Automating Common Data Integration for Improved Data-Driven Decision-Support System in Industrial Construction. Journal of Computing in Civil Engineering, 2022, 36, .	4.9	8
112	A Hypertext Decision Support Model for Contractor Prequalification. Computer-Aided Civil and Infrastructure Engineering, 1995, 10, 111-121.	10.4	7
113	Sample Size Analysis for Asphalt Pavement Quality Control. Journal of Infrastructure Systems, 1999, 5, 118-123.	1.9	7
114	Time of Sampling Strategies for Asphalt Pavement Quality Assurance. Journal of Construction Engineering and Management - ASCE, 2002, 128, 85-89.	4.0	7
115	Decision support in construction equipment management using a nonparametric outlier mining algorithm. Expert Systems With Applications, 2008, 34, 1974-1982.	7.9	7
116	Hybrid Genetic Algorithm-Simulation Optimization Method for Proactively Planning Layout of Material Yard Laydown. Journal of Construction Engineering and Management - ASCE, 2015, 141, .	4.0	7
117	Construction Site Layout Planning Using a Simulation-Based Decision Support Tool. Logistics, 2021, 5, 65.	4.5	7
118	Measuring Productivity and Validating Microcomputer Simulation. Computer-Aided Civil and Infrastructure Engineering, 1991, 6, 205-215.	10.4	6
119	Product-based model representation for integrating 3D CAD with computer simulation. , 1999, , .		6
120	Application of simulation in trenchless renewal of underground urban infrastructure. , 1999, , .		6
121	Measuring and Estimating Steel Drafting Productivity. , 2003, , .		6
122	Simulation and uncertainty modeling of project schedules estimates. , 2007, , .		6
123	Simulation-based aggregate planning of batch plant operations. Canadian Journal of Civil Engineering, 2010, 37, 1277-1288.	1.3	6
124	Integrating realtime project progress input into a construction simulation model. , 2011, , .		6
125	A discrete event simulation model of asphalt paving operations. , 2013, , .		6
126	Updating geological conditions using Bayes theorem and Markov chain. , 2015, , .		6

#	ARTICLE	IF	CITATIONS
127	Empirical Testing for Use of Safety Related Measures at the Organizational Level to Assess and Control the On-Site Risk Level. Journal of Construction Engineering and Management - ASCE, 2017, 143, .	4.0	6
128	Integrated lean concepts and continuous/discrete-event simulation to examine productivity improvement in door assembly-line for residential buildings. International Journal of Construction Management, 2022, 22, 2423-2434.	3.2	6
129	Context-driven ontology-based risk identification for onshore wind farm projects: A domain-specific approach. Advanced Engineering Informatics, 2023, 56, 101962.	8.3	6
130	Applications of Variance Reduction Techniques in Construction Simulation. Computer-Aided Civil and Infrastructure Engineering, 1990, 5, 299-306.	10.4	5
131	Simulation modeling decision support through belief networks. Simulation Modelling Practice and Theory, 2006, 14, 614-640.	4.0	5
132	Developing complex distributed simulation for industrial plant construction using High Level Architecture. , 2010, , .		5
133	3D CAD modeling and visualization of the tunnel construction process in a distributed simulation environment. , 2010, , .		5
134	Simulation based multi-objective cost-time trade-off for multi-family residential off-site construction. , 2015, , .		5
135	Introduction to Techniques for Resolving Project Performance Contradictions. Journal of Construction Engineering and Management - ASCE, 2016, 142, .	4.0	5
136	Quantitative Assessment of Budget Sufficiency and Resource Utilization for Resource-Constrained Project Schedules. Journal of Construction Engineering and Management - ASCE, 2016, 142, .	4.0	5
137	Fuzzy-Based Multivariate Analysis for Input Modeling of Risk Assessment in Wind Farm Projects. Algorithms, 2020, 13, 325.	2.2	5
138	A decision support tool for planning module installation in industrial construction. Engineering, Construction and Architectural Management, 2020, 27, 2615-2641.	3.5	5
139	Data-Driven Simulation Approach for Short-Term Planning of Winter Highway Maintenance Operations. Journal of Computing in Civil Engineering, 2021, 35, .	4.9	5
140	Creating Special Purpose Simulation Tools with Symphony. , 2000, , 87.		4
141	Developing a Bidding Game Using High Level Architecture. , 2009, , .		4
142	Effective strategies for simulating one-of-a-kind construction projects. , 2012, , .		4
143	BIM-based data mining approach to estimating job man-hour requirements in structural steel fabrication. , 2014, , .		4
144	Operation Effort Optimization for Planning Performance-Based Snow-Removal Projects. Journal of Computing in Civil Engineering, 2017, 31, 04017060.	4.9	4

#	ARTICLE	IF	CITATIONS
145	Automation in Extraction and Sharing Information between BIM and Project Management Databases. , 2020, , .		4
146	A hybrid simulation approach for microtunneling construction planning. Construction Innovation, 2021, 21, 363-378.	3.1	4
147	Modeling uncertainty with an integrated simulation system. Canadian Journal of Civil Engineering, 2005, 32, 533-542.	1.3	3
148	Residential Construction Lot Grading Approval Process Optimization: Case Study of City of Edmonton. Journal of Construction Engineering and Management - ASCE, 2006, 132, 1225-1233.	4.0	3
149	PRIORITY RATING LOGIC SIMULATION MODEL FOR TOWER CRANE OPERATIONS MANAGEMENT. Journal of Construction Research, 2006, 07, 133-147.	0.3	3
150	Distributed agent-based simulation of construction projects with HLA. , 2008, , .		3
151	Resource Performance Indicators in Controlling Industrial Steel Projects. , 2010, , .		3
152	Utilizing simulation derived quantitative formulas for accurate excavator hauler fleet selection. , 2013, , .		3
153	Bi-level project simulation methodology to integrate superintendent and project manager in decision making: Shutdown/turnaround applications. , 2014, , .		3
154	Simulation case study: Modelling distinct breakdown events for a Tunnel Boring Machine excavation. , 2015, , .		3
155	A combined discrete-continuous simulation model for analyzing train-pedestrian interactions. , 2016, , .		3
156	Data-driven simulation-based model for planning roadway operation and maintenance projects. , 2017, , .		3
157	IMPROVING TUNNELING SIMULATION USING BAYESIAN UPDATING AND HIDDEN MARKOV CHAINS. , 2018, , .		3
158	Simulation-based approach for risk assessment in onshore wind farm construction projects. , 2020, , .		3
159	Simulation-Based Approach for Lookahead Scheduling of Onshore Wind Projects Subject to Weather Risk. Sustainability, 2021, 13, 10060.	3.3	3
160	Integrating Process Simulation into Construction Engineering Education. European Journal of Engineering Education, 1994, 19, 51-67.	2.4	2
161	An analytical method to predict soil types for underground construction operations. Civil Engineering and Environmental Systems, 2005, 22, 49-69.	1.3	2
162	Analyzing transit tunnel construction strategies using discrete event simulation. , 2011, , .		2

#	ARTICLE	IF	CITATIONS
163	A Special Purpose Simulation Template for Modeling Tire Usage of Mining Truck Fleet. , 2012, , .		2
164	Modeling the impact of work-zone traffic flows upon concrete construction: a high level architecture based simulation framework. Canadian Journal of Civil Engineering, 2014, 41, 144-153.	1.3	2
165	A prototype for project management game development using high level architecture. International Journal of Simulation and Process Modelling, 2014, 9, 131.	0.2	2
166	Methodology for Crew-Job Allocation Optimization in Project and Workforce Scheduling. , 2015, , .		2
167	Fuzzy Cognitive Maps as a tool for modeling construction labor productivity. , 2015, , .		2
