#	ARTICLE	IF	CITATIONS
1	Effects of available lysine concentrations in 28 and 32% protein diets on growth, feed efficiency, processing yield, and fillet composition of pond-raised channel catfish, <i>Ictalurus punctatus</i> . Journal of the World Aquaculture Society, 2020, 51, 235-243.	2.4	4
2	Effect of pond or strip spawning on growth and carcass yield of channel catfish progeny, <i>Ictalurus punctatus</i> . Journal of the World Aquaculture Society, 2020, 51, 407-417.	2.4	1
3	Effects of long-term restricted feeding followed by full feeding on growth, processing yield, fillet proximate composition, and economics of market-size hybrid catfish, <i>Ictalurus punctatus</i> × <i>Ictalurus furcatus</i> . Journal of the World Aquaculture Society, 2020, 51, 931-943.	2.4	4
4	Evaluation of Porcine Meat and Bone Meal in Diets for Pond-Raised Hybrid Catfish. North American Journal of Aquaculture, 2018, 80, 69-73.	1.4	4
5	Replacing Soybean Meal with Alternative Protein Sources in Diets for Pond-Raised Hybrid Catfish, <i>Ictalurus punctatus</i> × <i>Ictalurus furcatus</i> . Journal of the World Aquaculture Society, 2018, 49, 755-760.	2.4	6
6	Comparative Susceptibility of Channel Catfish, <i>Ictalurus punctatus</i> ; Blue Catfish, <i>Ictalurus furcatus</i> ; and Channel (Blue) Hybrid Catfish to <i>Edwardsiella piscicida</i> , <i>Edwardsiella tarda</i> , and <i>Edwardsiella anguillarum</i> . Journal of the World Aquaculture Society, 2018, 49, 197-204.	2.4	29
7	Development of genomic predictions for harvest and carcass weight in channel catfish. Genetics Selection Evolution, 2018, 50, 66.	3.0	54
8	Evaluation of Various Combinations of Alternative Protein Feedstuffs to Replace Soybean Meal in Diets for Pond-Raised Channel Catfish. North American Journal of Aquaculture, 2017, 79, 163-167.	1.4	4
9	Efficacy of Crystalline Lysine in Alternative Diets for Pond-Raised Hybrid Catfish, <i>Ictalurus punctatus</i> × <i>Ictalurus furcatus</i> . Journal of the World Aquaculture Society, 2016, 47, 519-525.	2.4	4
10	Vaccination of Full-Sib Channel Catfish Families Against Enteric Septicemia of Catfish with an Oral Live Attenuated <i>Edwardsiella ictaluri</i> Vaccine. Journal of the World Aquaculture Society, 2016, 47, 207-211.	2.4	18
11	Effects of No Feeding, Maintenance Feeding, and Refeeding on Production and Processing Characteristics of Market-Size Hybrid Catfish. North American Journal of Aquaculture, 2016, 78, 224-228.	1.4	1
12	Impact of Minimum Daily Dissolved Oxygen Concentration on Production Performance of Hybrid Female Channel Catfish × Male Blue Catfish. North American Journal of Aquaculture, 2015, 77, 485-490.	1.4	18
13	Evaluation of Low-protein Alternative Diets for Pond-Raised Hybrid Catfish, <i>Ictalurus punctatus</i> × <i>Ictalurus furcatus</i> . Journal of the World Aquaculture Society, 2015, 46, 228-234.	2.4	5
14	Optimizing Soybean Meal Levels in Alternative Diets for Pond-Raised Hybrid Catfish. North American Journal of Aquaculture, 2014, 76, 61-66.	1.4	13
15	Growth and Feed Conversion Ratio of Pond-Raised Hybrid Catfish Harvested at Different Sizes. North American Journal of Aquaculture, 2014, 76, 261-264.	1.4	17
16	General and specific combining ability of male blue catfish (<i>Ictalurus furcatus</i>) and female channel catfish (<i>Ictalurus punctatus</i>) for growth and carcass yield of their F1 hybrid progeny. Aquaculture, 2014, 420-421, 147-153.	3.5	12
17	Evaluation of Hydrolyzed Poultry Feathers as a Dietary Ingredient for Pond-Raised Channel Catfish. North American Journal of Aquaculture, 2013, 75, 85-89.	1.4	3
18	Use of Corn Germ Meal in Diets for Pond-Raised Channel Catfish, <i>Ictalurus punctatus</i> . Journal of the World Aquaculture Society, 2013, 44, 282-287.	2.4	13

#	ARTICLE	IF	CITATIONS
19	Effects of Winter Feeding on Growth, Body Composition, and Processing Traits of Co-Cultured Blue Catfish, Channel Catfish, and Channel Catfish-Blue Catfish Hybrids. North American Journal of Aquaculture, 2012, 74, 553-559.	1.4	19
20	Impact of Minimum Dissolved Oxygen Concentration on Grow-Out Performance of Blue Catfish with Comparison to Channel Catfish. North American Journal of Aquaculture, 2012, 74, 273-282.	1.4	11
21	Use of Corn Gluten Feed and Cottonseed Meal to Replace Soybean Meal and Corn in Diets for Pond-Raised Channel Catfish. North American Journal of Aquaculture, 2011, 73, 153-158.	1.4	18
22	Growth and Feed Efficiency of Channel-Blue Catfish Hybrids Stocked at Various Densities and Fed Once or Twice Daily in Ponds. North American Journal of Aquaculture, 2010, 72, 150-157.	1.4	4
23	Evaluation of Various Feeding Regimens in a Multiple-Batch Cropping System of Channel Catfish Production. North American Journal of Aquaculture, 2009, 71, 210-215.	1.4	4
24	Effects of varying dietary compositions using common feed ingredients on growth and feed efficiency of pond-raised channel catfish (<i>Ictalurus punctatus</i>) (Rafinesque). Aquaculture Research, 2009, 41, 1133.	1.8	1
25	Endocrine Responses of Fast- and Slow-Growing Families of Channel Catfish. North American Journal of Aquaculture, 2008, 70, 240-250.	1.4	21
26	Utilization of a Rapid DNA-Based Assay for Molecular Verification of Channel Catfish, Blue Catfish, F ₁ Hybrids, and Backcross Offspring at Several Life Stages. North American Journal of Aquaculture, 2008, 70, 388-395.	1.4	11
27	Effects of Dietary Protein Concentration and L-Carnitine on Growth, Processing Yield, and Body Composition of Channel Catfish-Blue Catfish F ₁ Hybrids. North American Journal of Aquaculture, 2007, 69, 229-234.	1.4	16
28	Proximate Composition and Collagen Concentration of Processing Residue of Channel Catfish. North American Journal of Aquaculture, 2007, 69, 211-213.	1.4	3
29	Slush-Ice Storage of Catfish Carcasses. North American Journal of Aquaculture, 2006, 68, 99-102.	1.4	1
30	Effects of Organic Fertilization and Organic Diets on Production of Channel Catfish in Earthen Ponds. North American Journal of Aquaculture, 2006, 68, 53-62.	1.4	9
31	Effects of short-term feed restriction on production, processing and body shape traits in market-weight channel catfish, <i>Ictalurus punctatus</i> (Rafinesque). Aquaculture Research, 2005, 36, 344-351.	1.8	13
32	Effects of Dietary Protein Concentration on Production Characteristics of Pond-Raised Channel Catfish Fed Once Daily or Once Every other Day to Satiation. North American Journal of Aquaculture, 2004, 66, 184-190.	1.4	23
33	A translog demand model for inherited traits in aquacultured catfish. Aquaculture, Economics and Management, 2001, 5, 3-13.	4.2	10
34	Evaluation of Bioelectric Impedance to Predict Carcass Yield, Carcass Composition, and Fillet Composition in Farm-Raised Catfish. Journal of the World Aquaculture Society, 2001, 32, 72-78.	2.4	23
35	Evaluation of Dual Injection of LHRHa and the Dopamine Receptor Antagonist Pimozide in Cage Spawning of Channel Catfish <i>Ictalurus punctatus</i> . Journal of the World Aquaculture Society, 1999, 30, 263-268.	2.4	25
36	Multi-Locus DNA Fingerprinting of Channel Catfish <i>Ictalurus punctatus</i> . Journal of the World Aquaculture Society, 1997, 28, 275-281.	2.4	1
