#	ARTICLE	IF	CITATIONS
1	Association of maternal dietary patterns during pregnancy with small-for-gestational-age infants: Korean Mothers and Children's Environmental Health (MOCEH) study. <i>American Journal of Clinical Nutrition</i> , 2022, 115, 471-481.	4.7	5
2	Association of Plasma Carotenoid and Malondialdehyde Levels with Physical Performance in Korean Adolescents. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 4296.	2.6	0
3	Association between Use of Nutrition Labels and Risk of Chronic Kidney Disease: The Korean National Health and Nutrition Examination Survey (KNHANES) 2008-2019. <i>Nutrients</i> , 2022, 14, 1731.	4.1	3
4	Dietary Reference Intakes for Koreans with special consideration to older adults. <i>Nutrition Research and Practice</i> , 2022, 16, S1.	1.9	2
5	A Modified Recommended Food Score Is Associated with a Lower Incidence of High Blood Pressure in Middle-Aged and Older Korean Men: The Korea Genome and Epidemiology Study. <i>Current Developments in Nutrition</i> , 2022, 6, 908.	0.3	0
6	Western dietary pattern is associated with higher risk of lower lean muscle mass in Korean postmenopausal women: data from the Korea National Health and Nutrition Examination Survey 2008-2011. <i>Nutrition Research and Practice</i> , 2021, 15, 528.	1.9	1
7	Association Between Frailty and Dietary Diversity in Korean Elderly: Based on the 2018 Korean National Health and Nutrition Examination Survey. <i>Current Developments in Nutrition</i> , 2021, 5, 1050.	0.3	2
8	Associations of Diet Quality and Sleep Quality with Obesity. <i>Nutrients</i> , 2021, 13, 3181.	4.1	9
9	A Modified Recommended Food Score Is Inversely Associated with High Blood Pressure in Korean Adults. <i>Nutrients</i> , 2020, 12, 3479.	4.1	2
10	Association Between Diet Quality and Cardiorespiratory Fitness in Korean Adults: The 2014-2015 National Fitness Award Project. <i>Nutrients</i> , 2020, 12, 3226.	4.1	3
11	Association of Carotenoids Concentration in Blood with Physical Performance in Korean Adolescents: The 2018 National Fitness Award Project. <i>Nutrients</i> , 2020, 12, 1821.	4.1	4
12	Diet quality, physical activity, and their association with metabolic syndrome in Korean adults. <i>Nutrition</i> , 2019, 59, 138-144.	2.4	30
13	Association of Diet Quality with Low Muscle Mass-Function in Korean Elderly. <i>International Journal of Environmental Research and Public Health</i> , 2019, 16, 2733.	2.6	6
14	Higher Diet Quality is Associated with Lower Odds of Low Hand Grip Strength in the Korean Elderly Population. <i>Nutrients</i> , 2019, 11, 1487.	4.1	24
15	Association of recommended food score with depression, anxiety, and quality of life in Korean adults: the 2014-2015 National Fitness Award Project. <i>BMC Public Health</i> , 2019, 19, 956.	2.9	11
16	Dietary intake of n-3 and n-6 polyunsaturated fatty acids in Korean toddlers 12-24 months of age with comparison to the dietary recommendations. <i>Nutrition Research and Practice</i> , 2019, 13, 344.	1.9	5
17	Association between Total Sugar Intake and Metabolic Syndrome in Middle-Aged Korean Men and Women. <i>Nutrients</i> , 2019, 11, 2042.	4.1	31
18	Associations of recommended food score and physical performance in Korean elderly. <i>BMC Public Health</i> , 2019, 19, 128.	2.9	14

#	ARTICLE	IF	CITATIONS
19	Validation of initial nutrition screening tool for hospitalized patients. <i>Journal of Nutrition and Health</i> , 2019, 52, 332.	0.8	1
20	Prenatal mercury exposure, fish intake and neurocognitive development during first three years of life: Prospective cohort mothers and Children's environmental health (MOCEH) study. <i>Science of the Total Environment</i> , 2018, 615, 1192-1198.	8.0	15
21	Association between lutein intake and lutein concentrations in human milk samples from lactating mothers in South Korea. <i>European Journal of Nutrition</i> , 2018, 57, 417-421.	3.9	13
22	A comparison of nutritional status by intensive nutritional support in enteral nutrition patients. <i>Journal of Nutrition and Health</i> , 2018, 51, 132.	0.8	1
23	Association of coffee consumption with health-related quality of life and metabolic syndrome in Korean adults: based on 2013 ~ 2016 Korea National Health and Nutrition Examination Survey. <i>Journal of Nutrition and Health</i> , 2018, 51, 538.	0.8	7
24	Maternal fruit and vegetable or vitamin C consumption during pregnancy is associated with fetal growth and infant growth up to 6 months: results from the Korean Mothers and Children's Environmental Health (MOCEH) cohort study. <i>Nutrition Journal</i> , 2018, 17, 105.	3.4	29
25	Association of maternal omega-6 fatty acid intake with infant birth outcomes: Korean Mothers and Children's Environmental Health (MOCEH). <i>Nutrition Journal</i> , 2018, 17, 47.	3.4	16
26	Dietary Carotenoids Intake and the Risk of Gastric Cancer: A Case-Control Study in Korea. <i>Nutrients</i> , 2018, 10, 1031.	4.1	50
27	Breast milk fatty acid composition and fatty acid intake of lactating mothers in South Korea. <i>British Journal of Nutrition</i> , 2017, 117, 556-561.	2.3	85
28	Association between maternal intake of n-6 to n-3 fatty acid ratio during pregnancy and infant neurodevelopment at 6 months of age: results of the MOCEH cohort study. <i>Nutrition Journal</i> , 2017, 16, 23.	3.4	41
29	Effects of folic acid supplementation on serum homocysteine levels, lipid profiles, and vascular parameters in post-menopausal Korean women with type 2 diabetes mellitus. <i>Nutrition Research and Practice</i> , 2017, 11, 327.	1.9	19
30	Association between Dietary Carotenoid Intake and Bone Mineral Density in Korean Adults Aged 30-75 Years Using Data from the Fourth and Fifth Korean National Health and Nutrition Examination Surveys (2008-2011). <i>Nutrients</i> , 2017, 9, 1025.	4.1	43
31	Retinol, α -tocopherol, and selected minerals in breast milk of lactating women with full-term infants in South Korea. <i>Nutrition Research and Practice</i> , 2017, 11, 64.	1.9	14
32	Associations between fruit and vegetable, and antioxidant nutrient intake and age-related macular degeneration by smoking status in elderly Korean men. <i>Nutrition Journal</i> , 2017, 16, 77.	3.4	19
33	Instant noodle consumption is associated with cardiometabolic risk factors among college students in Seoul. <i>Nutrition Research and Practice</i> , 2017, 11, 232.	1.9	29
34	Meal skipping habits and nutritional status among Ghanaian students living in Korea. <i>Journal of Nutrition and Health</i> , 2017, 50, 376.	0.8	2
35	Association between dietary flavanones intake and lipid profiles according to the presence of metabolic syndrome in Korean women with type 2 diabetes mellitus. <i>Nutrition Research and Practice</i> , 2016, 10, 67.	1.9	14
36	Associations between Dietary Intake and Urinary Bisphenol A and Phthalates Levels in Korean Women of Reproductive Age. <i>International Journal of Environmental Research and Public Health</i> , 2016, 13, 680.	2.6	13

#	ARTICLE	IF	CITATIONS
37	Associations of dietary intake and metabolic syndrome risk parameters in Vietnamese female marriage immigrants in South Korea: The KoGES follow-up study. <i>Nutrition Research and Practice</i> , 2016, 10, 313.	1.9	1
38	Relationship between fruit and fish intakes and cardiovascular disease risk factors in Korean women with type 2 diabetes mellitus: Based on the 4th and 5th Korea National Health and Nutrition Examination Surveys. <i>Journal of Nutrition and Health</i> , 2016, 49, 304.	0.8	6
39	Association between fish and shellfish, and omega-3 PUFAs intake and CVD risk factors in middle-aged female patients with type 2 diabetes. <i>Nutrition Research and Practice</i> , 2015, 9, 496.	1.9	11
40	Macronutrient composition of human milk from Korean mothers of full term infants born at 37-42 gestational weeks. <i>Nutrition Research and Practice</i> , 2015, 9, 433.	1.9	58
41	Association between high sensitivity C-reactive protein and dietary intake in Vietnamese young women. <i>Nutrition Research and Practice</i> , 2014, 8, 445.	1.9	11
42	Relationship between flavonoids intake and metabolic syndrome in Korean women with polycystic ovary syndrome. <i>Journal of Nutrition and Health</i> , 2014, 47, 176.	0.8	7
43	Effects of plant-based Korean food extracts on lipopolysaccharide-stimulated production of inflammatory mediators <i>in vitro</i> . <i>Nutrition Research and Practice</i> , 2014, 8, 249.	1.9	4
44	Association Between Kimchi Intake and Asthma in Korean Adults: The Fourth and Fifth Korea National Health and Nutrition Examination Survey (2007-2011). <i>Journal of Medicinal Food</i> , 2014, 17, 172-178.	1.5	31
45	Maternal iron intake at mid-pregnancy is associated with reduced fetal growth: results from Mothers and Children's Environmental Health (MOCEH) study. <i>Nutrition Journal</i> , 2013, 12, 38.	3.4	28
46	Relation between serum folate status and blood mercury concentrations in pregnant women. <i>Nutrition</i> , 2013, 29, 514-518.	2.4	19
47	Comparison of dietary food and nutrient intakes by supplement use in pregnant and lactating women in Seoul. <i>Nutrition Research and Practice</i> , 2013, 7, 199.	1.9	7
48	Relationship between food and nutrient intake and the risk of hypertriglyceridemia in Vietnamese women residing in Bavi: the Korean Genome and Epidemiology Study (KoGES). <i>The Korean Journal of Nutrition</i> , 2013, 46, 15.	1.0	4
49	Relationship of maternal vitamin C intake with fetal and infant growth: Mothers and Children's Environmental Health (MOCEH). <i>FASEB Journal</i> , 2013, 27, 847.29.	0.5	0
50	Association of maternal fruit and vegetable intake and blood cadmium concentration with neurobehavioral development of infant at 6 months: Mothers and Children's Environmental Health (MOCEH). <i>FASEB Journal</i> , 2013, 27, 847.28.	0.5	0
51	Relationship of cognitive function with plasma homocysteine, folate, vitamin B12 levels and nutrient intake in cognitively impaired elderly. <i>FASEB Journal</i> , 2012, 26, .	0.5	0
52	The relationship between dietary intake and allergic disease in Korean adolescents: The Fourth Korea National Health and Nutrition Examination Survey (2007-2009). <i>FASEB Journal</i> , 2012, 26, lb410.	0.5	0
53	Relationship between serum folate status and blood lead concentrations in pregnant women: Mothers and Children's Environmental Health (MOCEH). <i>FASEB Journal</i> , 2012, 26, 630.8.	0.5	0
54	Relationships of maternal zinc intake from animal foods with fetal growth. <i>British Journal of Nutrition</i> , 2011, 106, 237-242.	2.3	9

#	ARTICLE	IF	CITATIONS
55	Blood Cadmium Concentrations of Male Cigarette Smokers Are Inversely Associated with Fruit Consumption. <i>Journal of Nutrition</i> , 2010, 140, 1133-1138.	2.9	26
56	Folate status, serum C-reactive protein level and gestational age: Mothers and Children's Environmental Health (MOCEH). <i>FASEB Journal</i> , 2010, 24, 562.2.	0.5	0
57	Associations of maternal folate status with serum C-reactive protein level in pregnant women. <i>FASEB Journal</i> , 2009, 23, 554.1.	0.5	0
