

List of Publications by Citations

Source: <https://exaly.com/author-pdf/4725363/sjs-hakim-publications-by-citations.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
18	Fault diagnosis on beam-like structures from modal parameters using artificial neural networks. <i>Measurement: Journal of the International Measurement Confederation</i> , 2015 , 76, 45-61	4.6	49
17	Modal parameters based structural damage detection using artificial neural networks - a review. <i>Smart Structures and Systems</i> , 2014 , 14, 159-189		39
16	Adaptive Neuro Fuzzy Inference System (ANFIS) and Artificial Neural Networks (ANNs) for structural damage identification. <i>Structural Engineering and Mechanics</i> , 2013 , 45, 779-802		38
15	Structural damage detection of steel bridge girder using artificial neural networks and finite element models. <i>Steel and Composite Structures</i> , 2013 , 14, 367-377		30
14	Development of Nonlinear Model Based on Wavelet-ANFIS for Rainfall Forecasting at Klang Gates Dam. <i>Water Resources Management</i> , 2014 , 28, 2999-3018	3.7	28
13	Application of the ANFIS model in deflection prediction of concrete deep beam. <i>Structural Engineering and Mechanics</i> , 2013 , 45, 323-336		16
12	A two-step damage identification approach for beam structures based on wavelet transform and genetic algorithm. <i>Meccanica</i> , 2016 , 51, 635-653	2.1	13
11	Frequency Response Function-based Structural Damage Identification using Artificial Neural Networks-a Review. <i>Research Journal of Applied Sciences, Engineering and Technology</i> , 2014 , 7, 1750-1764	0.2	11
10	An Experimental Investigation of the Stress-Strain Distribution in High Strength Concrete Deep Beams. <i>Procedia Engineering</i> , 2011 , 14, 2141-2150		8
9	Ensemble neural networks for structural damage identification using modal data. <i>International Journal of Damage Mechanics</i> , 2016 , 25, 400-430	3	5
8	A Hybrid Procedure for Structural Damage Identification in Beam-Like Structures Using Wavelet Analysis. <i>Advances in Structural Engineering</i> , 2015 , 18, 1901-1913	1.9	5
7	A Hybrid Wavelet Based Approach and Genetic Algorithm to Detect Damage in Beam-Like Structures without Baseline Data. <i>Experimental Mechanics</i> , 2016 , 56, 1411-1426	2.6	3
6	Structural Damage Detection Using Soft Computing Method. <i>Conference Proceedings of the Society for Experimental Mechanics</i> , 2014 , 143-151	0.3	3
5	Damage detection of steel bridge girder using Artificial Neural Networks 2012 , 409-414		2
4	Damage Identification Using Experimental Modal Analysis and Adaptive Neuro-Fuzzy Interface System (ANFIS). <i>Conference Proceedings of the Society for Experimental Mechanics</i> , 2012 , 399-405	0.3	2
3	Damage Detection Based on Wavelet Packet Transform and Information Entropy. <i>Conference Proceedings of the Society for Experimental Mechanics</i> , 2014 , 223-229	0.3	1
2	Damage Detection Optimization Using Wavelet Multiresolution Analysis and Genetic Algorithm. <i>Conference Proceedings of the Society for Experimental Mechanics</i> , 2016 , 43-48	0.3	1

- 1 Experimental study on the strain contribution of horizontal and vertical web reinforced bar of HSSCC deep beams **2012**, 471-475
