#	ARTICLE	IF	CITATIONS
1	Development and psychometric evaluation of the Attitudes Towards Recognising Early and Noticeable Deterioration (ATREND) scale. <i>Journal of Clinical Nursing</i> , 2023, 32, 2684-2699.	3.0	4
2	Desktop Virtual Reality Versus Face-to-Face Simulation for Team-Training on Stress Levels and Performance in Clinical Deterioration: a Randomised Controlled Trial. <i>Journal of General Internal Medicine</i> , 2023, 38, 67-73.	2.6	8
3	Intraprofessional collaboration between enrolled and registered nurses in the care of clinically deteriorating ward patients: A qualitative study. <i>Australian Critical Care</i> , 2022, 35, 81-88.	1.3	7
4	Effectiveness of Public Education Campaigns for Stroke Symptom Recognition and Response in Non-Elderly Adults: A Systematic Review and Meta-Analysis. <i>Journal of Stroke and Cerebrovascular Diseases</i> , 2022, 31, 106207.	1.6	14
5	“Nurses caught in the middle”: A qualitative study of nurses’ perspectives on the decision to transfer deteriorating nursing home residents to emergency departments in Singapore. <i>Collegian</i> , 2022, 29, 430-437.	1.3	3
6	Impact of sepsis education for healthcare professionals and students on learning and patient outcomes: a systematic review. <i>Journal of Hospital Infection</i> , 2022, 122, 84-95.	2.9	13
7	Translation of an evidence-based virtual reality simulation-based interprofessional education into health education curriculums: An implementation science method. <i>Nurse Education Today</i> , 2022, 110, 105262.	3.3	13
8	Digital serious games in developing nursing clinical competence: A systematic review and meta-analysis. <i>Nurse Education Today</i> , 2022, 113, 105357.	3.3	5
9	Psychometrics of the Pearlin Mastery Scale among Family Caregivers of Older Adults Who Require Assistance in Activities of Daily Living. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 4639.	2.6	7
10	The Effect of a Sepsis Interprofessional Education Using Virtual Patient Telesimulation on Sepsis Team Care in Clinical Practice: Mixed Methods Study. <i>Journal of Medical Internet Research</i> , 2022, 24, e35058.	4.3	14
11	Why are physical assessment skills not practiced? A systematic review with implications for nursing education. <i>Nurse Education Today</i> , 2021, 99, 104759.	3.3	28
12	The early stages of caregiving: A qualitative study into the caregiving experiences of Asian family caregivers of persons with newly-diagnosed dementia. <i>Geriatric Nursing</i> , 2021, 42, 1517-1524.	1.9	0
13	The development and psychometric evaluation of the Clinicians' Attitudes towards Responding and Escalating care of Deteriorating patients scale. <i>Australian Critical Care</i> , 2021, 34, 340-349.	1.3	6
14	A call for better doctor–nurse collaboration: A qualitative study of the experiences of junior doctors and nurses in escalating care for deteriorating ward patients. <i>Australian Critical Care</i> , 2020, 33, 54-61.	1.3	49
15	Nurse-Physician Communication Team Training in Virtual Reality Versus Live Simulations: Randomized Controlled Trial on Team Communication and Teamwork Attitudes. <i>Journal of Medical Internet Research</i> , 2020, 22, e17279.	4.3	84
16	Review of systems for recognising and responding to clinical deterioration in Singapore hospitals: a nationwide cross-sectional study. <i>Singapore Medical Journal</i> , 2020, 61, 184-189.	0.6	5
17	Seeing the whole picture in enrolled and registered nurses’ experiences in recognizing clinical deterioration in general ward patients: A qualitative study. <i>International Journal of Nursing Studies</i> , 2019, 95, 56-64.	5.6	35
18	Designing and evaluating the effectiveness of a serious game for safe administration of blood transfusion: A randomized controlled trial. <i>Nurse Education Today</i> , 2017, 55, 38-44.	3.3	90

#	ARTICLE	IF	CITATIONS
19	Simulation training appears to improve nurses'™ ability to recognise and manage clinical deterioration. Evidence-based Nursing, 2017, 20, 122-123.	0.2	4
20	The impact of a Web-based educational program on the recognition and management of deteriorating patients. Journal of Clinical Nursing, 2017, 26, 4848-4856.	3.0	22
21	The effect of a web-based educational program on nursing practice in recognising and responding to deteriorating ward patients: A qualitative evaluation study. Collegian, 2017, 24, 455-461.	1.3	7
22	Factors influencing the activation of the rapid response system for clinically deteriorating patients by frontline ward clinicians: a systematic review. International Journal for Quality in Health Care, 2017, 29, 981-998.	1.8	55
23	Using a case-based animation on physiological compensatory mechanism to remediate nurses' misconceptions about changes in patient vital signs. Journal of Clinical Nursing, 2016, 25, 566-568.	3.0	1
24	Assessing beyond vital signs to detect early patient deterioration. Evidence-based Nursing, 2016, 19, 53-53.	0.2	8
