#	ARTICLE	IF	CITATIONS
1	Online food delivery systems and their potential to improve public health nutrition: a response to a narrative review of online food delivery in Australia. <i>Public Health Nutrition</i> , 2023, 26, 273-274.	1.1	8
2	The effectiveness of canteen manager audit and feedback reports and online menu-labels in encouraging healthier food choices within students' online lunch orders: A pilot cluster randomised controlled trial in primary school canteens in New South Wales, Australia. <i>Appetite</i> , 2022, 169, 105856.	1.8	1
3	Investigating differences between traditional (paper bag) ordering and online ordering from primary school canteens: a cross-sectional study comparing menu, usage and lunch order characteristics. <i>Public Health Nutrition</i> , 2021, 24, 2502-2511.	1.1	2
4	Economic evaluation of a web-based menu planning intervention to improve childcare service adherence with dietary guidelines. <i>Implementation Science</i> , 2021, 16, 1.	2.5	44
5	The Effectiveness of Interventions Delivered Using Digital Food Environments to Encourage Healthy Food Choices: A Systematic Review and Meta-Analysis. <i>Nutrients</i> , 2021, 13, 2255.	1.7	21
6	A Cluster Randomized Controlled Trial Evaluating the Impact of Tailored Feedback on the Purchase of Healthier Foods from Primary School Online Canteens. <i>Nutrients</i> , 2021, 13, 2405.	1.7	1
7	Long-term Effectiveness of a Multistrategy Behavioral Intervention to Increase the Nutritional Quality of Primary School Students' Online Lunch Orders: 18-Month Follow-up of the Click & Crunch Cluster Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2021, 23, e31734.	2.1	4
8	Effectiveness of a Multistrategy Behavioral Intervention to Increase the Nutritional Quality of Primary School Students' Web-Based Canteen Lunch Orders (Click & Crunch): Cluster Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2021, 23, e26054.	2.1	8
9	Associations between Digital Health Intervention Engagement and Dietary Intake: A Systematic Review. <i>Nutrients</i> , 2021, 13, 3281.	1.7	7
10	A Cross-Sectional Study of the Nutritional Quality of New South Wales High School Student Food and Drink Purchases Made via an Online Canteen Ordering System. <i>Nutrients</i> , 2021, 13, 4327.	1.7	3
11	School-Based Nutrition Interventions in Children Aged 6 to 18 Years: An Umbrella Review of Systematic Reviews. <i>Nutrients</i> , 2021, 13, 4113.	1.7	25
12	A Three-Arm Randomised Controlled Trial of High- and Low-Intensity Implementation Strategies to Support Centre-Based Childcare Service Implementation of Nutrition Guidelines: 12-Month Follow-Up. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 4664.	1.2	4
13	5-Year Follow-Up of a Telephone Intervention to Increase Fruit and Vegetable Consumption in Preschoolers: The "Healthy Habits" Cluster Randomised Trial. <i>Nutrients</i> , 2020, 12, 3702.	1.7	0
14	Nudge strategies to improve healthcare providers' implementation of evidence-based guidelines, policies and practices: a systematic review of trials included within Cochrane systematic reviews. <i>Implementation Science</i> , 2020, 15, 50.	2.5	76
15	Child-level evaluation of a web-based intervention to improve dietary guideline implementation in childcare centers: a cluster-randomized controlled trial. <i>American Journal of Clinical Nutrition</i> , 2020, 111, 854-863.	2.2	22
16	Effectiveness of a Web-Based Menu-Planning Intervention to Improve Childcare Service Compliance With Dietary Guidelines: Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2020, 22, e13401.	2.1	24
17	A cross-sectional study of the nutritional quality of student canteen purchases from New South Wales primary-school canteens. <i>Public Health Nutrition</i> , 2019, 22, 3092-3100.	1.1	12
18	Two-year follow-up of a randomised controlled trial to assess the sustainability of a school-based nutrition policy. <i>Health Promotion Journal of Australia</i> , 2019, 30, 26-33.	0.6	6

#	ARTICLE	IF	CITATIONS
19	Can changing the position of online menu items increase selection of fruit and vegetable snacks? A cluster randomized trial within an online canteen ordering system in Australian primary schools. <i>American Journal of Clinical Nutrition</i> , 2019, 109, 1422-1430.	2.2	18
20	Cluster randomised controlled trial of an online intervention to improve healthy food purchases from primary school canteens: a study protocol of the "click & crunch"™ trial. <i>BMJ Open</i> , 2019, 9, e030538.	0.8	9
21	Optimisation: defining and exploring a concept to enhance the impact of public health initiatives. <i>Health Research Policy and Systems</i> , 2019, 17, 108.	1.1	22
22	Assessing the potential impact of a front-of-pack nutritional rating system on food availability in school canteens: A randomised controlled trial. <i>Appetite</i> , 2018, 121, 309-315.	1.8	7
23	Improving the implementation of nutrition guidelines in childcare centres improves child dietary intake: findings of a randomised trial of an implementation intervention. <i>Public Health Nutrition</i> , 2018, 21, 607-617.	1.1	43
24	Availability of food and beverage items on school canteen menus and association with items purchased by children of primary-school age. <i>Public Health Nutrition</i> , 2018, 21, 2907-2914.	1.1	28
25	Strategies to improve the implementation of policies, practices or programmes in sporting organisations targeting poor diet, physical inactivity, obesity, risky alcohol use or tobacco use: a systematic review. <i>BMJ Open</i> , 2018, 8, e019151.	0.8	44
26	Association of parental investment of time and cost in food provisioning with adherence to dietary guidelines for the consumption of fruits, vegetables and non-core foods in pre-schoolers. <i>Public Health Nutrition</i> , 2018, 21, 2434-2442.	1.1	1
27	Improving the impact of obesity prevention interventions in the childcare setting: The need for a systematic application of implementation science. <i>Journal of Paediatrics and Child Health</i> , 2017, 53, 211-213.	0.4	12
28	Online canteens: awareness, use, barriers to use, and the acceptability of potential online strategies to improve public health nutrition in primary schools. <i>Health Promotion Journal of Australia</i> , 2017, 28, 67-71.	0.6	12
29	The price of healthy and unhealthy foods in Australian primary school canteens. <i>Australian and New Zealand Journal of Public Health</i> , 2017, 41, 45-47.	0.8	7
30	Cluster randomised controlled trial of a consumer behaviour intervention to improve healthy food purchases from online canteens: study protocol. <i>BMJ Open</i> , 2017, 7, e014569.	0.8	13
31	Cluster randomized controlled trial of a consumer behavior intervention to improve healthy food purchases from online canteens. <i>American Journal of Clinical Nutrition</i> , 2017, 106, 1311-1320.	2.2	39
32	Factors that influence the implementation of dietary guidelines regarding food provision in centre based childcare services: A systematic review. <i>Preventive Medicine</i> , 2017, 105, 197-205.	1.6	47
33	Measuring implementation behaviour of menu guidelines in the childcare setting: confirmatory factor analysis of a theoretical domains framework questionnaire (TDFQ). <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2017, 14, 45.	2.0	43
34	Multi-strategic intervention to enhance implementation of healthy canteen policy: a randomised controlled trial. <i>Implementation Science</i> , 2017, 12, 6.	2.5	73
35	A randomised controlled trial of an online menu planning intervention to improve childcare service adherence to dietary guidelines: a study protocol. <i>BMJ Open</i> , 2017, 7, e017498.	0.8	28
36	Dietary intake and physical activity levels of children attending Australian childcare services. <i>Nutrition and Dietetics</i> , 2017, 74, 446-453.	0.9	12

#	ARTICLE	IF	CITATIONS
37	Validity of four measures in assessing school canteen menu compliance with state-based healthy canteen policy. <i>Health Promotion Journal of Australia</i> , 2016, 27, 215-221.	0.6	25
38	Multistrategy childcare-based intervention to improve compliance with nutrition guidelines versus usual care in long day care services: a study protocol for a randomised controlled trial. <i>BMJ Open</i> , 2016, 6, e010786.	0.8	23
39	CAF ² : a multicomponent audit and feedback intervention to improve implementation of healthy food policy in primary school canteens: a randomised controlled trial. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2016, 13, 126.	2.0	39
40	Time to focus on implementation: the need to reorient research on physical activity in childcare services. <i>Australian and New Zealand Journal of Public Health</i> , 2016, 40, 209-210.	0.8	12
41	Effectiveness of an intervention to facilitate the implementation of healthy eating and physical activity policies and practices in childcare services: a randomised controlled trial. <i>Implementation Science</i> , 2015, 10, 147.	2.5	56
42	Characteristics of the home food environment that mediate immediate and sustained increases in child fruit and vegetable consumption: mediation analysis from the Healthy Habits cluster randomised controlled trial. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2015, 12, 118.	2.0	48
43	Factors associated with early childhood education and care service implementation of healthy eating and physical activity policies and practices in Australia: a cross-sectional study. <i>Translational Behavioral Medicine</i> , 2015, 5, 327-334.	1.2	37
44	Childcare Service Centers TM Preferences and Intentions to Use a Web-Based Program to Implement Healthy Eating and Physical Activity Policies and Practices: A Cross-Sectional Study. <i>Journal of Medical Internet Research</i> , 2015, 17, e108.	2.1	26
45	A cluster randomised controlled trial of a telephone-based intervention targeting the home food environment of preschoolers (The Healthy Habits Trial): the effect on parent fruit and vegetable consumption. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2014, 11, 144.	2.0	18
46	A randomised controlled trial of an intervention to increase the implementation of a healthy canteen policy in Australian primary schools: study protocol. <i>Implementation Science</i> , 2014, 9, 147.	2.5	31
47	A systematic review and meta-analysis of whole of community interventions to prevent excessive population weight gain. <i>Preventive Medicine</i> , 2014, 62, 193-200.	1.6	76
48	Validity of a measure to assess healthy eating and physical activity policies and practices in Australian childcare services. <i>BMC Public Health</i> , 2014, 14, 572.	1.2	28
49	Randomized controlled trial of a telephone-based intervention for child fruit and vegetable intake: long-term follow-up. <i>American Journal of Clinical Nutrition</i> , 2014, 99, 543-550.	2.2	32
50	A randomised controlled trial of an intervention to facilitate the implementation of healthy eating and physical activity policies and practices in childcare services. <i>BMJ Open</i> , 2014, 4, e005312.	0.8	17
51	A randomised controlled trial and mediation analysis of the "Healthy Habits TM ", telephone-based dietary intervention for preschool children. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2013, 10, 43.	2.0	33
52	Effects of Introductory Information on Self-Reported Health Behavior. <i>Epidemiology</i> , 2013, 24, 170-172.	1.2	1
53	A randomised controlled trial of an active telephone-based recruitment strategy to increase childcare service staff attendance at a physical activity and nutrition training workshop. <i>Health Promotion Journal of Australia</i> , 2013, 24, 224-226.	0.6	2
54	A cluster randomized controlled trial of a telephone-based parent intervention to increase preschoolers TM fruit and vegetable consumption. <i>American Journal of Clinical Nutrition</i> , 2012, 96, 102-110.	2.2	41

#	ARTICLE	IF	CITATIONS
55	Effectiveness of a multi-strategy intervention in increasing the implementation of vegetable and fruit breaks by Australian primary schools: a non-randomized controlled trial. BMC Public Health, 2012, 12, 651.	1.2	44
56	A pilot study of a telephone-based parental intervention to increase fruit and vegetable consumption in 3-5-year-old children. Public Health Nutrition, 2011, 14, 2245-2253.	1.1	15
57	Associations between characteristics of the home food environment and fruit and vegetable intake in preschool children: A cross-sectional study. BMC Public Health, 2011, 11, 938.	1.2	156
58	Vegetable and fruit breaks in Australian primary schools: prevalence, attitudes, barriers and implementation strategies. Health Education Research, 2011, 26, 722-731.	1.0	44
59	A cluster randomised trial to evaluate a physical activity intervention among 3-5 year old children attending long day care services: study protocol. BMC Public Health, 2010, 10, 534.	1.2	22
