

Monica Mazzelli

List of Publications by Citations

Source: <https://exaly.com/author-pdf/4737931/monica-mazzelli-publications-by-citations.pdf>

Version: 2024-04-24

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
9	Short-Chain Fatty Acids and Lipopolysaccharide as Mediators Between Gut Dysbiosis and Amyloid Pathology in Alzheimer's Disease. <i>Journal of Alzheimer's Disease</i> , 2020 , 78, 683-697	4.3	67
8	Whole-blood expression of inflammasome- and glucocorticoid-related mRNAs correctly separates treatment-resistant depressed patients from drug-free and responsive patients in the BIODEP study. <i>Translational Psychiatry</i> , 2020 , 10, 232	8.6	36
7	Prospective cohort study of early biosignatures of response to lithium in bipolar-I-disorders: overview of the H2020-funded R-LiNK initiative. <i>International Journal of Bipolar Disorders</i> , 2019 , 7, 20	5.4	28
6	Comparison of Bioinformatics Pipelines and Operating Systems for the Analyses of 16S rRNA Gene Amplicon Sequences in Human Fecal Samples. <i>Frontiers in Microbiology</i> , 2020 , 11, 1262	5.7	10
5	Long-term effects of stress early in life on microRNA-30a and its network: Preventive effects of lurasidone and potential implications for depression vulnerability. <i>Neurobiology of Stress</i> , 2020 , 13, 100271	7.6	8
4	The Long-Term Effects of Early Life Stress on the Modulation of miR-19 Levels. <i>Frontiers in Psychiatry</i> , 2020 , 11, 389	5	5
3	Alterations in inflammatory pathways in the rat prefrontal cortex as early biological predictors of the long-term negative consequences of exposure to stress early in life. <i>Psychoneuroendocrinology</i> , 2021 , 124, 104794	5	3
2	High-fat diet during adulthood interacts with prenatal stress, affecting both brain inflammatory and neuroendocrine markers in male rats. <i>European Journal of Neuroscience</i> , 2021 ,	3.5	2
1	Social isolation in adolescence and long-term changes in the gut microbiota composition and in the hippocampal inflammation: Implications for psychiatric disorders - Dirk Hellhammer Award Paper 2021. <i>Psychoneuroendocrinology</i> , 2021 , 133, 105416	5	1
