#	ARTICLE	IF	CITATIONS
1	Fetal facial bone growth: Post-mortem CT analysis. <i>Morphologie</i> , 2023, 107, 116-126.	0.5	1
2	Correlations of Autopsy and Postmortem CT in Fatal Ballistic Injuries. <i>Forensic Sciences</i> , 2022, 2, 190-200.	0.8	0
3	How artificial intelligence improves radiological interpretation in suspected pulmonary embolism. <i>European Radiology</i> , 2022, 32, 5831-5842.	2.3	25
4	Prenatal quantification of human foetal lung and liver elasticities between 24 and 39 weeks of gestation using 2D shear wave elastography. <i>European Radiology</i> , 2022, 32, 5559-5567.	2.3	3
5	Can fetal magnetic resonance imaging aid prognosis in gastroschisis: A multicenter study. <i>Prenatal Diagnosis</i> , 2022, , .	1.1	0
6	What Influences the Way Radiologists Express Themselves in Their Reports? A Quantitative Assessment Using Natural Language Processing. <i>Journal of Digital Imaging</i> , 2022, 35, 993-1007.	1.6	3
7	Emergency whole-body CT scans in pediatric patients with trauma: patterns of injuries, yield of dual-phase scanning, and influence of second read on detection of injuries. <i>European Radiology</i> , 2022, 32, 8473-8484.	2.3	4
8	The accuracy of teleradiologists in diagnosing COVID-19 based on a French multicentric emergency cohort. <i>European Radiology</i> , 2021, 31, 2833-2844.	2.3	10
9	Teleradiology as a relevant indicator of the impact of COVID-19 pandemic management on emergency room activities: a nationwide worrisome survey. <i>Insights Into Imaging</i> , 2021, 12, 30.	1.6	6
10	Technical feasibility and correlations between shear-wave elastography and histology in kidney fibrosis in children. <i>Pediatric Radiology</i> , 2021, 51, 1879-1888.	1.1	12
11	Practical clinical and radiological models to diagnose COVID-19 based on a multicentric teleradiological emergency chest CT cohort. <i>Scientific Reports</i> , 2021, 11, 8994.	1.6	2
12	Management of abdominal emergencies in adults using telemedicine and artificial intelligence. <i>Journal of Visceral Surgery</i> , 2021, 158, S26-S31.	0.4	5
13	La gestion des urgences abdominales de l'adulte à l'aide de la télémédecine et de l'intelligence artificielle. <i>Journal De Chirurgie Viscérale</i> , 2021, 158, S28-S33.	0.0	1
14	Emergency teleradiological activity is an epidemiological estimator and predictor of the covid-19 pandemic in mainland France. <i>Insights Into Imaging</i> , 2021, 12, 103.	1.6	5
15	Pictorial review of the postmortem computed tomography in neonaticide cases. <i>International Journal of Legal Medicine</i> , 2021, 135, 2395-2408.	1.2	2
16	Lung density measurement in postmortem computed tomography: a new tool to assess immediate neonatal breath in suspected neonaticides. <i>International Journal of Legal Medicine</i> , 2020, 134, 1159-1166.	1.2	5
17	Implementing post-mortem computed tomography in the assessment of neonaticide. <i>Forensic Science, Medicine, and Pathology</i> , 2020, 16, 748-748.	0.6	0
18	Cardiac computed tomography angiography in the paediatric population: Expert consensus from the Filiale de cardiologie pédiatrique et congénitale (FCPC) and the Société française d'imagerie cardiaque, et vasculaire diagnostique et interventionnelle (SFICV). <i>Archives of Cardiovascular Diseases</i> , 2020, 113, 579-586.	0.7	3

#	ARTICLE	IF	CITATIONS
19	Pediatric cardiac computed tomography angiography: Expert consensus from the Filiale de Cardiologie Pédiatrique et Congénitale (FCPC) and the Société Française d'Imagerie Cardiaque et Vasculaire diagnostique et interventionnelle (SFICV). <i>Diagnostic and Interventional Imaging</i> , 2020, 101, 335-345.	1.8	5
20	Can computed tomodensitometry predict ventricular pseudoaneurysm occurrence after heart valve endocarditis?. <i>Cardiology in the Young</i> , 2019, 29, 1206-1207.	0.4	0
21	The complementary role of imaging modalities in Binder phenotype. Can prognostic factors of neonatal respiratory distress be found?. <i>Prenatal Diagnosis</i> , 2019, 39, 549-562.	1.1	4
22	Virtual reconstruction of paranasal sinuses from CT data: A feasibility study for forensic application. <i>Diagnostic and Interventional Imaging</i> , 2019, 100, 163-168.	1.8	10
23	Diagnostic value of unenhanced postmortem computed tomography in the detection of traumatic abdominal injuries. <i>Diagnostic and Interventional Imaging</i> , 2018, 99, 397-402.	1.8	12
24	Diagnosis of congenital abnormalities with post-mortem ultrasound in perinatal death. <i>Diagnostic and Interventional Imaging</i> , 2018, 99, 143-149.	1.8	18
25	Characterization of the perinatal mandible growth pattern: preliminary results. <i>Surgical and Radiologic Anatomy</i> , 2018, 40, 667-679.	0.6	6
26	Tangential cranial ballistic impact: An illustration of the limitations of post-mortem CT scan?. <i>Legal Medicine</i> , 2018, 32, 61-65.	0.6	5
27	Use of Postmortem Computed Tomography to Detect Bowel Obstruction and its Relationship to the Cause of Death. <i>American Journal of Forensic Medicine and Pathology</i> , 2018, 39, 30-37.	0.4	8
28	Portal vein stenosis preconditioning of living donor liver in swine: early mechanisms of liver regeneration and gain of hepatic functional mass. <i>American Journal of Physiology - Renal Physiology</i> , 2018, 315, G117-G125.	1.6	2
29	Doppler ultrasound in the diagnosis of Budd-Chiari syndrome in children after split liver transplantation. <i>Diagnostic and Interventional Imaging</i> , 2018, 99, 663-668.	1.8	0
30	Can diffusion weighting replace gadolinium enhancement in magnetic resonance enterography for inflammatory bowel disease in children?. <i>Pediatric Radiology</i> , 2018, 48, 1432-1440.	1.1	5
31	Pitfalls and clues in the prenatal diagnosis of abnormal origin of one of the pulmonary artery branches. <i>Prenatal Diagnosis</i> , 2018, 38, 601-606.	1.1	1
32	Prenatal imaging presentation of Meckel diverticulum. <i>Diagnostic and Interventional Imaging</i> , 2017, 98, 569-570.	1.8	0
33	Imagerie postmortem en France: État des lieux en 2017. <i>Diagnostic and Interventional Imaging</i> , 2017, 98, 225-235.	0.0	1
34	Comparative radiologic identification with standardized single CT images of the paranasal sinuses—Evaluation of inter-rater reliability. <i>Forensic Science International</i> , 2017, 280, 81-86.	1.3	15
35	Combined use of postmortem 3D computed tomography reconstructions and 3D-design software for postmortem ballistic analysis. <i>Diagnostic and Interventional Imaging</i> , 2017, 98, 809-812.	1.8	7
36	Comment on "Predicting postnatal renal function of prenatally detected posterior urethral valves using fetal diffusion-weighted magnetic resonance imaging with apparent diffusion coefficient determination". <i>Prenatal Diagnosis</i> , 2017, 37, 846-846.	1.1	0

#	ARTICLE	IF	CITATIONS
37	Facing the next frontier of fetal magnetic resonance imaging. Ultrasound in Obstetrics and Gynecology, 2016, 48, 125-126.	0.9	1
38	Imaging of postoperative tetralogy of Fallot repair. Diagnostic and Interventional Imaging, 2016, 97, 549-560.	1.8	20
39	Fetal paravertebral congenital fibrosarcoma: MR imaging findings. Diagnostic and Interventional Imaging, 2016, 97, 483-485.	1.8	1
40	Prenatal Associated Features in Fetuses Diagnosed with an Aberrant Right Subclavian Artery. Fetal Diagnosis and Therapy, 2016, 40, 187-194.	0.6	20
41	Postmortem Whole Body CT Angiography Using Aqueous Contrast Agent. , 2016, , 89-102.		0
42	Multimodality imaging of aortic coarctation: From the fetus to the adolescent. Diagnostic and Interventional Imaging, 2016, 97, 581-590.	1.8	26
43	Imaging of acquired coronary diseases: From children to adults. Diagnostic and Interventional Imaging, 2016, 97, 571-580.	1.8	6
44	Development and initial evaluation of a training program for peripherally inserted central catheter (PICC) placement for radiology residents and technicians. Diagnostic and Interventional Imaging, 2016, 97, 877-882.	1.8	6
45	ShearWave elastography of fetal lungs in pregnant baboons. Diagnostic and Interventional Imaging, 2016, 97, 605-610.	1.8	16
46	Detection of pulmonary and coronary artery anomalies in tetralogy of Fallot using non-ECG-gated CT angiography. Diagnostic and Interventional Imaging, 2016, 97, 543-548.	1.8	19
47	Cardiac imaging: From fetus to adult. Diagnostic and Interventional Imaging, 2016, 97, 503-504.	1.8	5
48	Prenatal diagnosis of bowel malposition using T2-weighted fetal MRI sequences. Diagnostic and Interventional Imaging, 2016, 97, 857-861.	1.8	8
49	Cardiac CT or MRI in pediatric practice: Which one to choose?. Diagnostic and Interventional Imaging, 2016, 97, 513-517.	1.8	12
50	TDM ou IRM cardiaque en pédiatrie: comment choisir?. Diagnostic and Interventional Imaging, 2016, 97, 147-151.	0.0	0
51	Prenatal diagnosis of complete nonrotation of fetal bowel with ultrasound and magnetic resonance imaging. Diagnostic and Interventional Imaging, 2016, 97, 687-689.	1.8	6
52	Added value of MRI for the prenatal diagnosis of isolated orofacial clefts and comparison with ultrasound. Diagnostic and Interventional Imaging, 2016, 97, 915-921.	1.8	16
53	Whole body perinatal postmortem CT angiography. Diagnostic and Interventional Imaging, 2016, 97, 121-124.	1.8	26
54	Feasibility and reproducibility of ShearWave TM elastography of fetal baboon organs. Prenatal Diagnosis, 2015, 35, 1112-1116.	1.1	11

#	ARTICLE	IF	CITATIONS
55	Perinatal death: Is there a place for post-mortem angio-CT?. Journal of Forensic Radiology and Imaging, 2015, 3, 1-4.	1.2	13
56	Use of radiography and fluoroscopy in Disaster Victim Identification. Journal of Forensic Radiology and Imaging, 2015, 3, 141-145.	1.2	15
57	The future of pediatric and perinatal postmortem imaging. Pediatric Radiology, 2015, 45, 509-516.	1.1	21
58	Putative Criteria for Predicting Spontaneous Regression of Prenatally Diagnosed Thoracoabdominal Cystic Lesions. European Journal of Pediatric Surgery, 2014, 24, 426-429.	0.7	4
59	Postmortem CT Appearance of Gas Collections in Fatal Diving Accidents. American Journal of Roentgenology, 2014, 203, 468-475.	1.0	18
60	Fetal Megacystis: Etiologies, Management, and Outcome According to the Trimester. Urology, 2014, 84, 185-190.	0.5	33
61	Scanner du squelette fœtal: quand? Comment? Pourquoi?. Diagnostic and Interventional Imaging, 2014, 95, 1036-1044.	0.0	0
62	Use of post-mortem computed tomography in Disaster Victim Identification. Positional statement of the members of the Disaster Victim Identification working group of the International Society of Forensic Radiology and Imaging; May 2014. Journal of Forensic Radiology and Imaging, 2014, 2, 114-116.	1.2	30
63	A prospective pilot study: Can the biliary tree be visualized in children younger than 3 months on Magnetic Resonance Cholangiopancreatography?. Pediatric Radiology, 2014, 44, 1077-1084.	1.1	20
64	Fetal skeletal computed tomography: When? How? Why?. Diagnostic and Interventional Imaging, 2014, 95, 1045-1053.	1.8	23
65	Introduction of the use of a pediatric PICC line in a French University Hospital: Review of the first 91 procedures. Diagnostic and Interventional Imaging, 2014, 95, 277-281.	1.8	30
66	Retrograde cerebral venous air embolism: A rare cause of intracranial gas. Diagnostic and Interventional Imaging, 2014, 95, 1113-1115.	1.8	12
67	Contribution of the foetal uro-MRI in the prenatal diagnosis of uronephropathies. Diagnostic and Interventional Imaging, 2014, 95, 573-578.	1.8	22
68	A rare case of a calcified glomus tumour in the thigh of an adolescent. Pediatric Radiology, 2013, 43, 1045-1048.	1.1	3
69	Post-mortem cross-sectional imaging: are we running before we can walk?. Forensic Science, Medicine, and Pathology, 2013, 9, 466-466.	0.6	5
70	Appearance of gas collections after scuba diving death: a computed tomography study in a porcine model. International Journal of Legal Medicine, 2013, 127, 177-184.	1.2	36
71	Post-mortem computed tomography in a case of suicide by air embolism. Diagnostic and Interventional Imaging, 2013, 94, 460-462.	1.8	14
72	Management of choledochal cyst: Evolution with antenatal diagnosis and laparoscopic approach. Journal of Minimal Access Surgery, 2012, 8, 129.	0.4	25

#	ARTICLE	IF	CITATIONS
73	Why the United States Should Have Virtopsied Osama Bin Laden. American Journal of Roentgenology, 2012, 198, W323-W323.	1.0	1
74	Evolution of congenital malformations of the umbilical-portal-hepatic venous system. Journal of Pediatric Surgery, 2012, 47, 1490-1495.	0.8	21
75	Prenatal diagnosis of Blake's pouch cyst following first trimester observation of enlarged intracranial translucency. Ultrasound in Obstetrics and Gynecology, 2012, 40, 479-480.	0.9	24
76	Prenatal diagnosis of atypical adrenal neuroblastoma with pulmonary metastases is possible: Impact on the assessment of prenatal prognosis. Diagnostic and Interventional Imaging, 2012, 93, 632-634.	1.8	4
77	Value of diffusion-weighted images in differentiating mid-course responders to chemotherapy for osteosarcoma compared to the histological response: preliminary results. Skeletal Radiology, 2012, 41, 1141-1149.	1.2	40
78	DÃ©tection antÃ©natale et surveillance en pÃ©riode prÃ©- et post-natale. Archives De Pediatrie, 2011, 18, H252-H253.	0.4	0
79	Ethical Issues on Pregnancy Termination: Impact of New Imaging Modalities. Fetal Diagnosis and Therapy, 2011, 30, 1-8.	0.6	0
80	Magnetic resonance imaging in the prenatal diagnosis of congenital diarrhea. Ultrasound in Obstetrics and Gynecology, 2010, 35, 560-565.	0.9	26
81	Fetal gastrointestinal MRI: all that glitters in T1 is not necessarily colon. Pediatric Radiology, 2010, 40, 1215-1221.	1.1	23
82	Chronic inflammatory diseases of the bowel: diagnosis and follow-up. Pediatric Radiology, 2010, 40, 920-926.	1.1	4
83	Congenital pouch colon: antenatal diagnosis and video-assisted management. Pediatric Surgery International, 2010, 26, 759-761.	0.6	8
84	Could CT scan avoid unnecessary flexible bronchoscopy in children with active pulmonary tuberculosis? A retrospective study. Archives of Disease in Childhood, 2010, 95, 125-129.	1.0	14
85	Intralobar sequestration associated with cystic adenomatoid malformation: diagnostic and thoracoscopic pitfalls. Surgical Endoscopy and Other Interventional Techniques, 2009, 23, 1750-1753.	1.3	33
86	Congenital lung malformation: Evaluation of prenatal and postnatal radiological findings. Respiriology, 2009, 14, 1005-1011.	1.3	27
87	Percutaneous treatment of osteoid osteoma by laser thermocoagulation under computed tomography guidance in pediatric patients. European Radiology, 2009, 19, 679-686.	2.3	21
88	Nebulisers comparison with inhaled tobramycin in young children with cystic fibrosis. Journal of Cystic Fibrosis, 2007, 6, 137-143.	0.3	8
89	Placenta Accreta: A Review of Current Advances in Prenatal Diagnosis. Placenta, 2007, 28, 599-603.	0.7	84
90	Feasibility of fetal cardiac magnetic resonance imaging: preliminary experience. Ultrasound in Obstetrics and Gynecology, 2007, 29, 105-108.	0.9	55

#	ARTICLE	IF	CITATIONS
91	A dire finding. American Journal of Obstetrics and Gynecology, 2007, 196, 493.e1-493.e2.	0.7	0
92	Efficacy of a combination of pemetrexed and multiple redo-surgery in an 11-year-old girl with a recurrent multifocal abdominal mesothelioma. Anti-Cancer Drugs, 2006, 17, 1231-1234.	0.7	11
93	Fetal urinoma: two new cases and a review of the literature. Ultrasound in Obstetrics and Gynecology, 2006, 28, 848-852.	0.9	26
94	The moving face of the fetus-the changing face of medicine. Ultrasound in Obstetrics and Gynecology, 2006, 28, 979-980.	0.9	6
95	Sonographic diagnosis of a common pancreaticobiliary channel in children. Pediatric Radiology, 2006, 36, 1300-1305.	1.1	8
96	The Role of Cardiac Magnetic Resonance in the Diagnosis of Anomalous Pulmonary Venous Return with Subsequent Amplatzer Device Treatment. Journal of Cardiovascular Magnetic Resonance, 2006, 8, 499-502.	1.6	3
97	Prenatal prognosis of congenital diaphragmatic hernia using magnetic resonance imaging measurement of fetal lung volume. Ultrasound in Obstetrics and Gynecology, 2005, 26, 738-744.	0.9	153
98	Fetal magnetic resonance imaging in the prenatal diagnosis of cerebellar hemorrhage. Ultrasound in Obstetrics and Gynecology, 2005, 27, 78-80.	0.9	21
99	Imaging characteristics of two subtypes of congenital hemangiomas: rapidly involuting congenital hemangiomas and non-involuting congenital hemangiomas. Pediatric Radiology, 2005, 35, 1178-1185.	1.1	169
100	Prenatal Diagnosis of Umbilicoportosystemic Shunts: Report of 11 Cases and Review of the Literature. American Journal of Roentgenology, 2005, 184, 163-168.	1.0	34
101	Prenatal Diagnosis of Cloverleaf Skull: Watch the Hands!. Fetal Diagnosis and Therapy, 2005, 20, 296-300.	0.6	15
102	Rib periosteal reaction: did you think about chest physical therapy?. Archives of Disease in Childhood, 2004, 89, 1078-1079.	1.0	16
103	Neurocutaneous melanosis: radiological pathologic correlation. European Radiology, 2002, 12, 1349-1353.	2.3	29
