

Teresa Pags Costas

List of Publications by Citations

Source: <https://exaly.com/author-pdf/4774527/teresa-pages-costas-publications-by-citations.pdf>

Version: 2024-04-04

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
67	Erythropoietin acute reaction and haematological adaptations to short, intermittent hypobaric hypoxia. <i>European Journal of Applied Physiology</i> , 2000 , 82, 170-7	3.4	107
66	Intermittent hypobaric hypoxia stimulates erythropoiesis and improves aerobic capacity. <i>Medicine and Science in Sports and Exercise</i> , 1999 , 31, 264-8	1.2	88
65	Effects of sildenafil on the human response to acute hypoxia and exercise. <i>High Altitude Medicine and Biology</i> , 2005 , 6, 43-9	1.9	50
64	Physiological and Biological Responses to Short-Term Intermittent Hypobaric Hypoxia Exposure: From Sports and Mountain Medicine to New Biomedical Applications. <i>Frontiers in Physiology</i> , 2018 , 9, 814	4.6	43
63	Acclimatization near home? Early respiratory changes after short-term intermittent exposure to simulated altitude. <i>Wilderness and Environmental Medicine</i> , 2000 , 11, 84-8	1.4	39
62	Intermittent hypobaric hypoxia induces altitude acclimation and improves the lactate threshold. <i>Aviation, Space, and Environmental Medicine</i> , 2000 , 71, 125-30		37
61	Effects of daily management stress on haematology and blood rheology of the gilthead seabream. <i>Journal of Fish Biology</i> , 1995 , 46, 775-786	1.9	27
60	Edible Microalgae and Their Bioactive Compounds in the Prevention and Treatment of Metabolic Alterations. <i>Nutrients</i> , 2021 , 13,	6.7	27
59	Oxidative stress status in rats after intermittent exposure to hypobaric hypoxia. <i>Wilderness and Environmental Medicine</i> , 2010 , 21, 325-31	1.4	23
58	Capillary supply, fibre types and fibre morphometry in rat tibialis anterior and diaphragm muscles after intermittent exposure to hypobaric hypoxia. <i>European Journal of Applied Physiology</i> , 2008 , 103, 203-13	3.4	23
57	Hematological, electrolyte, and biochemical alterations after a 100-km run. <i>Applied Physiology, Nutrition, and Metabolism</i> , 1994 , 19, 411-20		23
56	Muscle myoglobin and flying habits in birds. <i>Comparative Biochemistry and Physiology A, Comparative Physiology</i> , 1983 , 74, 289-294		23
55	Capillary supply and fiber morphometry in rat myocardium after intermittent exposure to hypobaric hypoxia. <i>High Altitude Medicine and Biology</i> , 2007 , 8, 322-30	1.9	21
54	Dental Occlusion Influences the Standing Balance on an Unstable Platform. <i>Motor Control</i> , 2015 , 19, 341-54		20
53	The influence of dental occlusion on the body balance in unstable platform increases after high intensity exercise. <i>Neuroscience Letters</i> , 2016 , 617, 116-21	3.3	17
52	Seasonal changes in hematology and blood chemistry of the freshwater turtle <i>Mauremys caspica leprosa</i> . <i>Comparative Biochemistry and Physiology A, Comparative Physiology</i> , 1992 , 103, 275-278		15
51	Popularity of hypoxic training methods for endurance-based professional and amateur athletes. <i>Physiology and Behavior</i> , 2015 , 143, 35-8	3.5	14

50	Effect of temperature on oxygen stores during aerobic diving in the freshwater turtle <i>Mauremys caspica leprosa</i> . <i>Physiological Zoology</i> , 1997 , 70, 7-18		14
49	Blood rheology adjustments in rats after a program of intermittent exposure to hypobaric hypoxia. <i>High Altitude Medicine and Biology</i> , 2009 , 10, 275-81	1.9	13
48	A method for sampling representative muscular venous blood during exercise in rats. <i>Laboratory Animals</i> , 1993 , 27, 171-5	2.6	13
47	Anaerobic training in hypoxia: A new approach to stimulate the rating of effort perception. <i>Physiology and Behavior</i> , 2016 , 163, 37-42	3.5	12
46	Intermittent hypobaric hypoxia combined with aerobic exercise improves muscle morphofunctional recovery after eccentric exercise to exhaustion in trained rats. <i>Journal of Applied Physiology</i> , 2017 , 122, 580-592	3.7	11
45	Cardiorespiratory parameters during submaximal exercise under acute exposure to normobaric and hypobaric hypoxia. <i>Apunts Medicine De L'Esport</i> , 2012 , 47, 65-72	0.6	11
44	Combined intermittent hypoxia and surface muscle electrostimulation as a method to increase peripheral blood progenitor cell concentration. <i>Journal of Translational Medicine</i> , 2009 , 7, 91	8.5	11
43	Sex-linked differences in pulse oxymetry. <i>British Journal of Sports Medicine</i> , 2008 , 42, 620-1	10.3	11
42	Hemorheology and oxygen transport in vertebrates. A role in thermoregulation?. <i>Journal of Physiology and Biochemistry</i> , 2003 , 59, 277-86	5	11
41	Anaerobic performance after endurance strength training in hypobaric environment. <i>Science and Sports</i> , 2014 , 29, 311-318	0.8	10
40	Effect of intermittent hypoxia and exercise on blood rheology and oxygen transport in trained rats. <i>Respiratory Physiology and Neurobiology</i> , 2014 , 192, 112-7	2.8	10
39	Oxygen transport properties in the starling, <i>Sturnus vulgaris</i> L.. <i>Comparative Biochemistry and Physiology A, Comparative Physiology</i> , 1984 , 77, 255-260		10
38	Modulation of mitochondrial biomarkers by intermittent hypobaric hypoxia and aerobic exercise after eccentric exercise in trained rats. <i>Applied Physiology, Nutrition and Metabolism</i> , 2017 , 42, 683-693	3	9
37	Circadian and Sex Differences After Acute High-Altitude Exposure: Are Early Acclimation Responses Improved by Blue Light?. <i>Wilderness and Environmental Medicine</i> , 2015 , 26, 459-71	1.4	8
36	Changes in heart rate recovery index after a programme of strength/endurance training in hypoxia. <i>Apunts Medicine De L'Esport</i> , 2012 , 47, 23-29	0.6	8
35	Increased blood ammonia in hypoxia during exercise in humans. <i>Journal of Physiology and Biochemistry</i> , 2001 , 57, 303-12	5	8
34	A program of circuit resistance training under hypobaric hypoxia conditions improves the anaerobic performance of athletes. <i>Science and Sports</i> , 2016 , 31, 78-87	0.8	7
33	A semiquantitative scoring tool to evaluate eccentric exercise-induced muscle damage in trained rats. <i>European Journal of Histochemistry</i> , 2015 , 59, 2544	2.1	7

32	Enzyme activity and myoglobin concentration in rat myocardium and skeletal muscles after passive intermittent simulated altitude exposure. <i>Journal of Sports Sciences</i> , 2009 , 27, 633-40	3.6	7
31	Implication of gut microbiota in the physiology of rats intermittently exposed to cold and hypobaric hypoxia. <i>PLoS ONE</i> , 2020 , 15, e0240686	3.7	7
30	Additive Effects of Intermittent Hypobaric Hypoxia and Endurance Training on Bodyweight, Food Intake, and Oxygen Consumption in Rats. <i>High Altitude Medicine and Biology</i> , 2018 , 19, 278-285	1.9	6
29	Salivary pH increases after jump exercises in hypoxia. <i>Science and Sports</i> , 2014 , 29, 306-310	0.8	6
28	Effects of intermittent hypoxia and light aerobic exercise on circulating stem cells and side population, after strenuous eccentric exercise in trained rats. <i>Current Stem Cell Research and Therapy</i> , 2015 , 10, 132-9	3.6	6
27	Sildenafil does not Improve Exercise Capacity under Acute Hypoxia Exposure. <i>International Journal of Sports Medicine</i> , 2016 , 37, 785-91	3.6	5
26	Effects of oxygen supplementation on acute mountain sickness symptoms and functional capacity during a 2-kilometer walk test on Chajnantor plateau (5050 meters, Northern Chile). <i>Wilderness and Environmental Medicine</i> , 2011 , 22, 250-6	1.4	5
25	Contractile Activity Is Necessary to Trigger Intermittent Hypobaric Hypoxia-Induced Fiber Size and Vascular Adaptations in Skeletal Muscle. <i>Frontiers in Physiology</i> , 2018 , 9, 481	4.6	4
24	Morphofunctional responses to anaemia in rat skeletal muscle. <i>Journal of Anatomy</i> , 2008 , 212, 836-44	2.9	4
23	Plasma and red blood cell magnesium levels and plasma creatinine after a 100 km race. <i>Revista Española De Fisiología</i> , 1993 , 49, 43-7		4
22	A three-criteria performance score for rats exercising on a running treadmill. <i>PLoS ONE</i> , 2019 , 14, e0219167	3.7	3
21	Combined intermittent hypobaric hypoxia and muscle electro-stimulation: a method to increase circulating progenitor cell concentration?. <i>Journal of Translational Medicine</i> , 2014 , 12, 174	8.5	3
20	Efecto del ejercicio anaeróbico láctico sobre el pH salival. <i>Apunts Medicina De L'Esport</i> , 2013 , 48, 83-88	0.6	3
19	Thermal responses of the fresh water turtle <i>Mauremys caspica</i> to step-function changes in the ambient temperature. <i>Journal of Thermal Biology</i> , 1991 , 16, 337-343	2.9	3
18	Vybrant DyeCycle Violet Stain Discriminates Two Different Subsets of CD34+ Cells. <i>Current Stem Cell Research and Therapy</i> , 2016 , 11, 66-71	3.6	3
17	New Roles and Learning Scenarios in the Training of the Novice Teachers at the University of Barcelona. <i>Procedia, Social and Behavioral Sciences</i> , 2015 , 196, 96-99		2
16	High-intensity interval versus moderate-intensity continuous half-marathon training programme for middle-aged women. <i>European Journal of Applied Physiology</i> , 2020 , 120, 1083-1096	3.4	2
15	Intermittent hypoxia for obstructive sleep apnea?. <i>High Altitude Medicine and Biology</i> , 2014 , 15, 520-1	1.9	2

14	Intermittent hypobaric hypoxia induces changes at a different extent in biochemical parameters depending on muscle activity degree. <i>Comparative Biochemistry and Physiology Part A, Molecular & Integrative Physiology</i> , 2007 , 146, S184	2.6	2
13	Ventilatory responses to temperature variation in the fresh water turtle, <i>Mauremys caspica leprosa</i> . <i>Journal of Comparative Physiology B: Biochemical, Systemic, and Environmental Physiology</i> , 1994 , 164, 390-395	2.2	2
12	Some mechanical characteristics of the respiratory system of the fresh-water turtle <i>Mauremys caspica</i> . <i>Comparative Biochemistry and Physiology A, Comparative Physiology</i> , 1990 , 97, 411-416		2
11	Changes in blood ammonia and lactate levels during a triathlon race. <i>Journal of Sports Medicine and Physical Fitness</i> , 1994 , 34, 351-6	1.4	2
10	Respiratory gas exchange using a triaxial alveolar gas diagram. <i>Thorax</i> , 1993 , 48, 1274-5	7.3	1
9	Inter-Individual Different Responses to Continuous and Interval Training in Recreational Middle-Aged Women Runners. <i>Frontiers in Physiology</i> , 2020 , 11, 579835	4.6	1
8	A field tool for the aerobic power evaluation of middle-aged female recreational runners. <i>Women and Health</i> , 2020 , 60, 839-848	1.7	0
7	Physiological Effects of Intermittent Passive Exposure to Hypobaric Hypoxia and Cold in Rats. <i>Frontiers in Physiology</i> , 2021 , 12, 673095	4.6	0
6	Can sildenafil improve physical performance at altitude? Current scientific evidence. <i>Apunts Medicine De L'Esport</i> , 2016 , 51, 27-35	0.6	
5	Method of Combined Intermittent Hypoxia and Surface Muscle Electrostimulation for Enhancing Peripheral Stem Cells in Humans 2012 , 303-308		
4	Implication of gut microbiota in the physiology of rats intermittently exposed to cold and hypobaric hypoxia 2020 , 15, e0240686		
3	Implication of gut microbiota in the physiology of rats intermittently exposed to cold and hypobaric hypoxia 2020 , 15, e0240686		
2	Implication of gut microbiota in the physiology of rats intermittently exposed to cold and hypobaric hypoxia 2020 , 15, e0240686		
1	Implication of gut microbiota in the physiology of rats intermittently exposed to cold and hypobaric hypoxia 2020 , 15, e0240686
