#	ARTICLE	IF	CITATIONS
1	Threshold Shock Sensor Based on a Bistable Mechanism: Design, Modeling, and Measurements. Journal of Microelectromechanical Systems, 2015, 24, 2019-2026.	2.5	24
2	A new framework for the formulation and validation of cohesive mixed-mode delamination models. International Journal of Solids and Structures, 2019, 164, 168-190.	2.7	16
3	A domain decomposition technique applied to the solution of the coupled electro-mechanical problem. International Journal for Numerical Methods in Engineering, 2013, 93, 137-159.	2.8	12
4	A domain decomposition approach for the simulation of fracture phenomena in polycrystalline microsystems. Computer Methods in Applied Mechanics and Engineering, 2014, 277, 180-218.	6.6	11
5	Coupled domain decomposition-proper orthogonal decomposition methods for the simulation of quasi-brittle fracture processes. Advanced Modeling and Simulation in Engineering Sciences, 2016, 3, .	1.7	7
6	8-Node solid-shell elements selective mass scaling for explicit dynamic analysis of layered thin-walled structures. Computational Mechanics, 2015, 56, 585-599.	4.0	6
7	Blade cutting of thin walled structures by explicit dynamics finite elements. Meccanica, 2018, 53, 1271-1289.	2.0	6
8	A domain decomposition method for the simulation of fracture in polysilicon MEMS. Microelectronics Reliability, 2013, 53, 1045-1054.	1.7	2
9	SIMULATION OF FRACTURE AND DELAMINATION IN LAYERED SHELLS DUE TO BLADE CUTTING. Journal of the Serbian Society for Computational Mechanics, 2017, 11, 139-151.	0.4	2
10	A domain decomposition method for the simulation of fracture in polysilicon MEMS. , 2012, , .		1
11	Mixed-Mode Delamination with Large Displacement Modeling of Fiber-Bridging. Lecture Notes in Mechanical Engineering, 2020, , 367-377.	0.4	0
