

Bimlesh Kumar

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/479364/bimlesh-kumar-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

192

#	Paper	IF	Citations
192	Predicting the abrasion loss of open-graded friction course mixes with EAF steel slag aggregates using machine learning algorithms. <i>Construction and Building Materials</i> , 2022 , 321, 126408	6.7	
191	Turbulent Flow Structures in Developing and Fully-Developed Flows under the Impact of Downward Seepage. <i>Water (Switzerland)</i> , 2022 , 14, 500	3	0
190	Anisotropy Properties of Turbulence in Flow Over Seepage Bed. <i>Journal of Fluids Engineering, Transactions of the ASME</i> , 2022 , 144,	2.1	2
189	Prediction of Submerged Vegetated Flow in a Channel Using GMDH-Type Neural Network Approach. <i>Water Science and Technology Library</i> , 2022 , 191-205	0.3	0
188	Review on Hydraulics of Meandering Rivers. <i>Water Science and Technology Library</i> , 2022 , 71-82	0.3	
187	Spatial and Temporal Distribution of Ions in Groundwater of the Dimoria Block of Kamrup Metropolitan District of Assam, India Using Geographic Information System. <i>Lecture Notes in Civil Engineering</i> , 2022 , 453-473	0.3	
186	Turbulence in a compound channel with the combination of submerged and emergent vegetation. <i>Physics of Fluids</i> , 2022 , 34, 045114	4.4	2
185	Flow Behavior in Surface Aeration System. <i>Lecture Notes in Civil Engineering</i> , 2022 , 43-48	0.3	
184	Geographic Information System-Based Appraisal of Groundwater Quality Index of the Dimoria Block, Assam, India. <i>Lecture Notes in Civil Engineering</i> , 2022 , 743-761	0.3	
183	Sustainable transition towards biomass-based cement industry: A review. <i>Renewable and Sustainable Energy Reviews</i> , 2022 , 163, 112503	16.2	0
182	Investigation of the Effect of Vegetation on Flow Structures and Turbulence Anisotropy around Semi-Elliptical Abutment. <i>Water (Switzerland)</i> , 2021 , 13, 3108	3	4
181	Effect of sand mining on the flow hydrodynamics around an oblong bridge pier. <i>Engineering Research Express</i> , 2021 , 3, 045028	0.9	0
180	Experimental Study on the Near-Bed Flow Characteristics of Alluvial Channel with Seepage. <i>Applied Sciences (Switzerland)</i> , 2021 , 11, 9619	2.6	0
179	Is Climate Change Affecting Women's Health More?. <i>Journal of Climate Change</i> , 2021 , 7, 73-75	0.7	
178	Mechanical properties of open graded friction course mixtures with different contents of electric arc furnace steel slag as an alternative aggregate from steel industries. <i>Road Materials and Pavement Design</i> , 2021 , 22, 268-292	2.6	16
177	Experimental study on near-bed flow turbulence of sinuous channel with downward seepage. <i>Water Management</i> , 2021 , 174, 173-186	1	1
176	A novel Python module for statistical analysis of turbulence (P-SAT) in geophysical flows. <i>Scientific Reports</i> , 2021 , 11, 3998	4.9	0

175	Water quality evaluation and apportionment of pollution sources: a case study of the Baralia and Puthimari River (India). <i>Water Practice and Technology</i> , 2021 , 16, 692-706	0.9	2
174	A numerical study on hydraulic resistance in flow with vegetation patch. <i>ISH Journal of Hydraulic Engineering</i> , 2020 , 1-8	1.5	2
173	Streambed instabilities around a bridge pier in a dredged channel. <i>River Research and Applications</i> , 2020 , 36, 1360-1365	2.3	3
172	Deciphering Morphological Changes in a Sinuous River System by Higher-Order Velocity Moments. <i>Water (Switzerland)</i> , 2020 , 12, 772	3	1
171	The local scour around bridge piers—review of remedial techniques. <i>ISH Journal of Hydraulic Engineering</i> , 2020 , 1-14	1.5	3
170	Industrial Wastewater Management in the Context of Climate Change Adaptation in Selected Cities of India 2020 , 347-365		
169	Comparison of flow and morphological characteristics in uniform and non-uniform sand bed channel. <i>Canadian Journal of Civil Engineering</i> , 2020 , 47, 678-690	1.3	1
168	Review of existing heavy metal contamination indices and development of an entropy-based improved indexing approach. <i>Environment, Development and Sustainability</i> , 2020 , 22, 7847-7864	4.5	4
167	Study of flow turbulence around a circular bridge pier in sand-mined stream channel. <i>Water Management</i> , 2020 , 173, 217-237	1	3
166	Alluvial channel hydrodynamics around tandem piers with downward seepage. <i>Frontiers of Structural and Civil Engineering</i> , 2020 , 14, 1445-1461	2.5	3
165	Information measures through velocity time series in a seepage affected alluvial sinuous channel. <i>Stochastic Environmental Research and Risk Assessment</i> , 2020 , 34, 1925-1938	3.5	0
164	Surface water quality and health risk assessment of Kameng river (Assam, India). <i>Water Practice and Technology</i> , 2020 , 15, 1190-1201	0.9	1
163	Finite element and ANN-based prediction of bearing capacity of square footing resting on the crest of c-Boil slope. <i>International Journal of Geotechnical Engineering</i> , 2020 , 14, 176-187	1.5	17
162	Probability distribution functions of turbulence using multiple criteria over non-uniform sand bed channel. <i>ISH Journal of Hydraulic Engineering</i> , 2020 , 26, 163-172	1.5	1
161	Assessment of surface water quality of Pagladia, Beki and Kolong rivers (Assam, India) using multivariate statistical techniques. <i>International Journal of River Basin Management</i> , 2020 , 18, 511-520	1.7	11
160	Downward seepage effects on dynamics of scour depth and migrating dune-like bedforms at tandem piers. <i>Canadian Journal of Civil Engineering</i> , 2020 , 47, 13-24	1.3	0
159	Prediction of frictional characteristics of bituminous mixes using group method of data handling and multigene symbolic genetic programming. <i>Engineering With Computers</i> , 2020 , 36, 1875-1888	4.5	5
158	Development of irrigation water quality index incorporating information entropy. <i>Environment, Development and Sustainability</i> , 2020 , 22, 3119-3132	4.5	10

157	Flow resistance in seepage-affected alluvial channel. <i>ISH Journal of Hydraulic Engineering</i> , 2020 , 26, 127-137		3
156	Mining pit migration of an alluvial channel: experimental and numerical investigations. <i>ISH Journal of Hydraulic Engineering</i> , 2020 , 26, 448-456	1.5	5
155	Flow characteristics in a partly vegetated channel with emergent vegetation and seepage. <i>Ecohydrology and Hydrobiology</i> , 2019 , 19, 93-108	2.8	11
154	Turbulent characteristics of sinuous river bend. <i>ISH Journal of Hydraulic Engineering</i> , 2019 , 1-8	1.5	3
153	Conditional Statistics of Reynolds Stress in Curvilinear Cross Section Incipient Motion Channel. <i>Water Resources</i> , 2019 , 46, 367-376	0.9	2
152	Impact of sand mining on alluvial channel flow characteristics. <i>Ecological Engineering</i> , 2019 , 135, 36-44	3.9	16
151	Bedload transport and temporal variation of non-uniform sediment in a seepage-affected alluvial channel. <i>Hydrological Sciences Journal</i> , 2019 , 64, 1001-1012	3.5	9
150	An investigation on water quality variability and identification of ideal monitoring locations by using entropy based disorder indices. <i>Science of the Total Environment</i> , 2019 , 647, 1444-1455	10.2	10
149	On the Morphodynamic Alterations around Bridge Piers under the Influence of Instream Mining. <i>Water (Switzerland)</i> , 2019 , 11, 1676	3	5
148	Randomness in flow turbulence around a bridge pier in a sand mined channel. <i>Physica A: Statistical Mechanics and Its Applications</i> , 2019 , 535, 122426	3.3	4
147	Turbulent Flow Structures and Scour Hole Characteristics around Circular Bridge Piers over Non-Uniform Sand Bed Channels with Downward Seepage. <i>Water (Switzerland)</i> , 2019 , 11, 1580	3	6
146	Prediction of Coefficient of Consolidation Using Multi-Gene Genetic Programming. <i>INAE Letters</i> , 2019 , 4, 173-179	0.7	2
145	Moisture Susceptibility of Open-Graded Friction Course Mixes with EAF Steel Slag and Modified Binders. <i>Advances in Civil Engineering Materials</i> , 2019 , 8, 20180158	0.7	3
144	Dynamic characterization of the migration of a mining pit in an alluvial channel. <i>International Journal of Sediment Research</i> , 2019 , 34, 155-165	3	11
143	Information entropy as a tool in surface water quality assessment. <i>Environmental Earth Sciences</i> , 2019 , 78, 1	2.9	20
142	Boundary layer development over non-uniform sand rough bed channel. <i>ISH Journal of Hydraulic Engineering</i> , 2019 , 25, 162-169	1.5	10
141	Scale Invariance of Power Spectrum in Sediment Transport Mechanics. <i>The National Academy of Sciences, India</i> , 2018 , 41, 81-83	0.6	
140	Sheet flow hydrodynamics over a non-uniform sand bed channel. <i>International Journal of Sediment Research</i> , 2018 , 33, 313-326	3	7

139	High-Order Velocity Moments of Turbulent Boundary Layers in Seepage Affected Alluvial Channel. <i>Journal of Fluids Engineering, Transactions of the ASME</i> , 2018 , 140,	2.1	3
138	Turbulent flow structures and geomorphic characteristics of a mining affected alluvial channel. <i>Earth Surface Processes and Landforms</i> , 2018 , 43, 1811-1824	3.7	44
137	Prediction of scour depth and dune morphology around circular bridge piers in seepage affected alluvial channels. <i>Environmental Fluid Mechanics</i> , 2018 , 18, 923-945	2.2	8
136	Process Modelling of Gas-Liquid Stirred Tank with Neural Networks. <i>Water Science and Technology Library</i> , 2018 , 501-511	0.3	
135	Modified singular spectrum analysis for despiking acoustic Doppler velocimeter (ADV) data. <i>Measurement: Journal of the International Measurement Confederation</i> , 2018 , 117, 339-346	4.6	8
134	Analytical solution of the one-dimensional contaminant transport equation in groundwater with time-varying boundary conditions. <i>ISH Journal of Hydraulic Engineering</i> , 2018 , 1-6	1.5	4
133	Double averaged turbulence characteristics of alluvial channel with downward seepage. <i>Canadian Journal of Civil Engineering</i> , 2018 , 45, 135-151	1.3	6
132	Statistical description of morphological characteristics of bedforms in seepage affected alluvial channels. <i>Canadian Journal of Civil Engineering</i> , 2018 , 45, 87-98	1.3	
131	Comparison of Scour and Flow Characteristics Around Circular and Oblong Bridge Piers in Seepage Affected Alluvial Channels. <i>Journal of Marine Science and Application</i> , 2018 , 17, 254-264	1.2	4
130	Randomness representation of Turbulence in an alluvial channel affected by downward seepage. <i>Physica A: Statistical Mechanics and Its Applications</i> , 2018 , 509, 74-85	3.3	8
129	Laboratory Evaluation of Mix Design Parameters of Open-Graded Friction Course Mixes with Electric Arc Furnace Steel Slag. <i>Advances in Civil Engineering Materials</i> , 2018 , 7, 20180071	0.7	4
128	Higher Order Statistics of Reynolds Shear Stress in Nonuniform Sand Bed Channel. <i>GeoPlanet: Earth and Planetary Sciences</i> , 2018 , 401-413	0.1	
127	Performance Appraisal of Friction Factor Estimators. <i>Water Science and Technology Library</i> , 2018 , 475-498.	3	
126	Clogging evaluation of open graded friction course mixes with EAF steel slag and modified binders. <i>Construction and Building Materials</i> , 2018 , 159, 220-233	6.7	14
125	Discussion of Gene expression programming to predict Manning's n in meandering flows. <i>Canadian Journal of Civil Engineering</i> , 2018 , 45, 703-703	1.3	
124	Risk characterization and surface water quality assessment of Manas River, Assam (India) with an emphasis on the TOPSIS method of multi-objective decision making. <i>Environmental Earth Sciences</i> , 2018 , 77, 1	2.9	11
123	Design of Self-Aerating Unbaffled Stirred Tank with Concave Blade Impeller. <i>Journal of Engineering Thermophysics</i> , 2018 , 27, 254-269	1.4	1
122	Prediction of hydraulic conductivity for soil-Bentonite mixture. <i>International Journal of Environmental Science and Technology</i> , 2017 , 14, 1625-1634	3.3	6

121	Probability distribution functions of turbulence in seepage-affected alluvial channel. <i>Fluid Dynamics Research</i> , 2017 , 49, 015508	1.2	7
120	Hydrodynamics of submerged vegetated alluvial channel with downward seepage. <i>Canadian Journal of Civil Engineering</i> , 2017 , 44, 174-181	1.3	1
119	Effect of downward seepage on turbulent flow characteristics and bed morphology around bridge piers. <i>Journal of Marine Science and Application</i> , 2017 , 16, 60-72	1.2	9
118	Multi-scale statistical characterization of migrating pier scour depth in non-uniform sand bed channel. <i>International Journal of River Basin Management</i> , 2017 , 15, 265-276	1.7	3
117	Multiscale characterization of migrating sand wave in mining induced alluvial channel. <i>Ecological Engineering</i> , 2017 , 102, 199-206	3.9	15
116	Mass transfer and power characteristics of stirred tank with Rushton and curved blade impeller 2017 , 20, 730-737		21
115	Structure of turbulence over non uniform sand bed channel with downward seepage. <i>European Journal of Mechanics, B/Fluids</i> , 2017 , 65, 530-551	2.4	24
114	Evaluation of Frictional Pavement Resistance as a Function of Aggregate Physical Properties. <i>Journal of Transportation Engineering Part B: Pavements</i> , 2017 , 143, 04017003	1.4	7
113	Effect of seepage on flow and bedforms dynamics. <i>Earth Surface Processes and Landforms</i> , 2017 , 42, 1803-1819	3.1	3
112	Optimization of waste combinations during in-vessel composting of agricultural waste. <i>Waste Management and Research</i> , 2017 , 35, 101-109	4	10
111	Turbulence in continuous flow surface aeration systems. <i>Water Science and Technology</i> , 2017 , 75, 1148-1157	1.5	1
110	Experimental investigation on flow and scour characteristics around tandem piers in sandy channel with downward seepage. <i>Journal of Marine Science and Application</i> , 2017 , 16, 313-322	1.2	11
109	Flow and bedform dynamics in an alluvial channel with downward seepage. <i>Catena</i> , 2017 , 158, 219-234	5.8	3
108	Effect of downward seepage on the shape of an alluvial channel. <i>Water Management</i> , 2017 , 170, 3-14	1	2
107	Surface water quality assessment of Amingaon (Assam, India) using multivariate statistical techniques. <i>Water Practice and Technology</i> , 2017 , 12, 997-1008	0.9	4
106	VORTEX DEPTH ANALYSIS IN AN UNBAFFLED STIRRED TANK WITH CONCAVE BLADE IMPELLER. <i>Chemistry and Chemical Technology</i> , 2017 , 11, 301-307	0.9	2
105	Flow over Fluvial Bedforms with Suction. <i>Lecture Notes in Mechanical Engineering</i> , 2017 , 1069-1077	0.4	
104	Turbulent Scale and Mixing Length Measurement in Mobile Bed Channel. <i>Water Science and Technology Library</i> , 2017 , 469-476	0.3	

103	Experimental Study on Mining Pit Migration. <i>Water Science and Technology Library</i> , 2017 , 305-309	0.3	
102	Industrial Wastewater Management in the Context of Climate Change Adaptation in Selected Cities of India. <i>Advances in Environmental Engineering and Green Technologies Book Series</i> , 2017 , 294-313	0.4	
101	Optimal Impeller Clearance for a Dual Stirred Unbaffled Tank with a Concave Blade Impeller. <i>Journal of Engineering Physics and Thermophysics</i> , 2016 , 89, 950-956	0.6	0
100	Channel Hydrodynamics of Submerged, Flexible Vegetation with Seepage. <i>Journal of Hydraulic Engineering</i> , 2016 , 142, 04016053	1.8	12
99	Turbulent characteristics of densely flexible submerged vegetated channel. <i>ISH Journal of Hydraulic Engineering</i> , 2016 , 22, 220-226	1.5	3
98	Turbulent flow structures in alluvial channels with curved cross-sections under conditions of downward seepage. <i>Earth Surface Processes and Landforms</i> , 2016 , 41, 1073-1087	3.7	35
97	Advent of sheet flow in suction affected alluvial channels. <i>Environmental Fluid Mechanics</i> , 2016 , 16, 25-44.2		7
96	Studies on emergent flow over vegetative channel bed with downward seepage. <i>Hydrological Sciences Journal</i> , 2016 , 1-13	3.5	2
95	Drag and Turbulent Characteristics of Mobile Bed Channel With Mixed Vegetation Densities Under Downward Seepage. <i>Journal of Fluids Engineering, Transactions of the ASME</i> , 2016 , 138,	2.1	7
94	Turbulence Characteristics of Vegetated Channel With Downward Seepage. <i>Journal of Fluids Engineering, Transactions of the ASME</i> , 2016 , 138,	2.1	11
93	Probability distribution of turbulence in curvilinear cross section mobile bed channel. <i>Water Science and Technology</i> , 2016 , 73, 1472-82	2.2	10
92	Experimentation on submerged flow over flexible vegetation patches with downward seepage. <i>Ecological Engineering</i> , 2016 , 91, 158-168	3.9	14
91	Comparison of bed shear stress in plane and curvilinear bed channel using multiple criteria. <i>Water Resources</i> , 2016 , 43, 79-85	0.9	3
90	Flow characteristics in an alluvial channel covered partially with submerged vegetation. <i>Ecological Engineering</i> , 2016 , 94, 478-492	3.9	20
89	Turbulent characteristics and evolution of sheet flow in an alluvial channel with downward seepage. <i>Geomorphology</i> , 2015 , 248, 161-171	4.3	20
88	Design of a Gas-Liquid Unbaffled Stirred Tank with a Concave Blade Impeller. <i>Journal of Engineering Physics and Thermophysics</i> , 2015 , 88, 76-87	0.6	4
87	Analysing turbulence characteristics of flow over submerged flexible vegetated channel. <i>ISH Journal of Hydraulic Engineering</i> , 2015 , 21, 265-275	1.5	2
86	Turbulent parameters and corresponding sediment transport in curved cross-section channel. <i>ISH Journal of Hydraulic Engineering</i> , 2015 , 21, 333-342	1.5	5

85	Detached Eddy Simulation of Turbulent Flow in Stirred Tank Reactor. <i>Procedia Engineering</i> , 2015 , 127, 87-94		3
84	Large-eddy simulation of turbulent flow in stirred tank with a curved blade impeller. <i>Journal of Engineering Thermophysics</i> , 2015 , 24, 152-168	1.4	6
83	Turbulent flow statistics of vegetative channel with seepage. <i>Journal of Applied Geophysics</i> , 2015 , 123, 267-276	1.7	17
82	Does Downward Seepage Initiate Lateral Channel Shift?. <i>The National Academy of Sciences, India</i> , 2015 , 38, 479-482	0.6	
81	Gaussian Process Regression to Predict Incipient Motion of Alluvial Channel. <i>Advances in Intelligent Systems and Computing</i> , 2015 , 435-441	0.4	3
80	Regression model for sediment transport problems using multi-gene symbolic genetic programming. <i>Computers and Electronics in Agriculture</i> , 2014 , 103, 82-90	6.5	14
79	Effects of superficial gas velocity on process dynamics in bioreactors. <i>Thermophysics and Aeromechanics</i> , 2014 , 21, 365-382	0.9	1
78	Scale up criteria for dual stirred gas-liquid unbaffled tank with concave blade impeller. <i>Korean Journal of Chemical Engineering</i> , 2014 , 31, 1339-1348	2.8	6
77	Flow prediction in vegetative channel using hybrid artificial neural network approach. <i>Journal of Hydroinformatics</i> , 2014 , 16, 839-849	2.6	3
76	Evaluation of satellite-altimetry-derived river stage variation for the braided Brahmaputra River. <i>International Journal of Remote Sensing</i> , 2014 , 35, 7815-7827	3.1	13
75	Comparison of flow patterns of dual rushton and CD-6 impellers. <i>Theoretical Foundations of Chemical Engineering</i> , 2013 , 47, 344-355	0.9	7
74	Indicator-based urban sustainabilityA review. <i>Energy for Sustainable Development</i> , 2013 , 17, 555-563	5.4	155
73	Particle Swarm Optimization Neural Network for Flow Prediction in Vegetative Channel. <i>Journal of Intelligent Systems</i> , 2013 , 22, 487-501	1.5	1
72	Review and assessment of the theories of stable alluvial channel design. <i>Water Resources</i> , 2012 , 39, 481-487	0.9	9
71	ENERGY PLANNING FOR SUSTAINABLE DEVELOPMENT IN INDIA 2012 , 641-666		
70	CFD simulation of flow patterns in unbaffled stirred tank with CD-6 impeller. <i>Chemical Industry and Chemical Engineering Quarterly</i> , 2012 , 18, 535-546	0.7	3
69	Neural network prediction of bed material load transport. <i>Hydrological Sciences Journal</i> , 2012 , 57, 956-966		15
68	Low-Cost Bioenergy Options for Rural India. <i>Journal of Management in Engineering - ASCE</i> , 2012 , 28, 70-80	0.3	1

67	Vortex in baffled surface aerator. <i>International Journal of Environmental Engineering</i> , 2012 , 4, 24	0.2	
66	Predictive Capability of Bedload Equations Using Flume Data. <i>Journal of Hydrology and Hydromechanics</i> , 2012 , 60, 45-56	2.1	9
65	An integrated networking approach for a sustainable textile sector in Solapur, India. <i>Urbani Izziv</i> , 2012 , 23, 140-151	1	3
64	Oxygen Transfer with Circulation Flow Rate in Unbaffled Surface Aerator. <i>Chemistry and Chemical Technology</i> , 2012 , 6, 203-207	0.9	
63	Geometry of sand-bed channels with seepage. <i>Geomorphology</i> , 2011 , 128, 171-177	4.3	34
62	Flow resistance in alluvial channel. <i>Water Resources</i> , 2011 , 38, 745-754	0.9	7
61	Mass transfer and shear rate in baffled surface aerator. <i>Korean Journal of Chemical Engineering</i> , 2011 , 28, 502-506	2.8	3
60	Decentralized sustainable energy planning of Tumkur district, India. <i>Environmental Progress and Sustainable Energy</i> , 2011 , 30, 248-258	2.5	7
59	Influence of impeller submergence depth on power consumption in stirred tank. <i>Chemical Engineering Research Bulletin</i> , 2011 , 15,	0	3
58	Data mining approach for friction factor in mobile bed channel. <i>Water Management</i> , 2011 , 164, 15-25	1	2
57	10.2478/s11814-009-0302-8 2011 , 27, 159		
56	Investigations of Mixing Time Scales in a Baffled Circular Tank with a Surface Aerator. <i>Environmental Engineering Research</i> , 2011 , 16, 47-51	3.6	
55	Parameter optimization of unbaffled circular surface aeration tank 2011 , 53, 21-6		
54	Energy Dissipation and Shear Rate with Geometry of Baffled Surface Aerator. <i>Chemical Engineering Research Bulletin</i> , 2010 , 14,	0	7
53	Closure to Resistance Characteristics of Surface Aerators by Achanta Ramakrishna Rao and Bimlesh Kumar. <i>Journal of Hydraulic Engineering</i> , 2010 , 136, 193-193	1.8	
52	Discussion of Resistance Characteristics of Surface Aerators by Achanta Ramakrishna Rao and Bimlesh Kumar. <i>Journal of Hydraulic Engineering</i> , 2010 , 136, 193-193	1.8	
51	Metamodel-based design of alluvial channels at incipient motion subjected to seepage. <i>Hydrological Sciences Journal</i> , 2010 , 55, 459-466	3.5	8
50	Radial Basis Function Network Based Design of Incipient Motion Condition of Alluvial Channels with Seepage. <i>Journal of Hydrology and Hydromechanics</i> , 2010 , 58, 102-113	2.1	4

49	Analysis of gradually and spatially varied flow in sand-bed channels. <i>Journal of Hydraulic Research/De Recherches Hydrauliques</i> , 2010 , 48, 274-279	1.9	8
48	Regime relationships of alluvial canal with seepage. <i>Journal of Hydraulic Research/De Recherches Hydrauliques</i> , 2010 , 48, 315-319	1.9	2
47	Determination of stability numbers for soil slopes following non-associated non-coaxial flow rule. <i>International Journal of Geotechnical Engineering</i> , 2010 , 4, 89-97	1.5	
46	Shape effect on optimal geometric conditions in surface aeration systems. <i>Korean Journal of Chemical Engineering</i> , 2010 , 27, 159-162	2.8	2
45	Performance comparison of batch and continuous flow surface aeration systems. <i>Korean Journal of Chemical Engineering</i> , 2010 , 27, 1796-1800	2.8	2
44	Sustainable bioenergy production strategies for rural India. <i>Mitigation and Adaptation Strategies for Global Change</i> , 2010 , 15, 571-590	3.9	2
43	Metamodeling approach to predict friction factor of alluvial channel. <i>Computers and Electronics in Agriculture</i> , 2010 , 70, 144-150	6.5	10
42	Incipient motion design of sand bed channels affected by bed suction. <i>Computers and Electronics in Agriculture</i> , 2010 , 74, 321-328	6.5	4
