

Gregory G Turner

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/4800307/gregory-g-turner-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
11	Cooling subterranean environments for climate adaptation and disease management: Reply to Meierhofer et al.. <i>Conservation Biology</i> , 2022 , e13928	6	0
10	Phylogeographic analysis of <i>Pseudogymnoascus destructans</i> partitivirus-pa explains the spread dynamics of white-nose syndrome in North America. <i>PLoS Pathogens</i> , 2021 , 17, e1009236	7.6	3
9	The scope and severity of white-nose syndrome on hibernating bats in North America. <i>Conservation Biology</i> , 2021 , 35, 1586-1597	6	16
8	Cooling of bat hibernacula to mitigate white-nose syndrome. <i>Conservation Biology</i> , 2021 ,	6	6
7	Identifying research needs to inform white-nose syndrome management decisions. <i>Conservation Science and Practice</i> , 2020 , 2, e220	2.2	10
6	Genome-Wide Changes in Genetic Diversity in a Population of Affected by White-Nose Syndrome. <i>G3: Genes, Genomes, Genetics</i> , 2020 , 10, 2007-2020	3.2	8
5	Energy conserving thermoregulatory patterns and lower disease severity in a bat resistant to the impacts of white-nose syndrome. <i>Journal of Comparative Physiology B: Biochemical, Systemic, and Environmental Physiology</i> , 2018 , 188, 163-176	2.2	32
4	Using a Novel Partitivirus in <i>Pseudogymnoascus destructans</i> to Understand the Epidemiology of White-Nose Syndrome. <i>PLoS Pathogens</i> , 2016 , 12, e1006076	7.6	25
3	Disease alters macroecological patterns of North American bats. <i>Global Ecology and Biogeography</i> , 2015 , 24, 741-749	6.1	148
2	Frequent arousal from hibernation linked to severity of infection and mortality in bats with white-nose syndrome. <i>PLoS ONE</i> , 2012 , 7, e38920	3.7	181
1	An emerging disease causes regional population collapse of a common North American bat species. <i>Science</i> , 2010 , 329, 679-82	33.3	591
