

# Sverker Hansson

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/4812043/sverker-hansson-publications-by-year.pdf>

**Version:** 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

44  
papers

1,542  
citations

L-index

| #  | Paper   | IF   | Citations |
|----|---|------|-----------|
| 44 | Diffusion tensor imaging based multiparametric characterization of renal lesions in infants with urinary tract infections: an explorative study. <i>BMC Pediatrics</i> , <b>2021</b> , 21, 440                                      | 2.6  |           |
| 43 | Reply by authors on Comment on a scoring system for predicting resolution of High-grade infant vesicoureteral reflux <i>Acta Paediatrica, International Journal of Paediatrics</i> , <b>2021</b> , 110, 2654-2655                   | 3.1  |           |
| 42 | A scoring system for predicting downgrading and resolution of high-grade infant vesicoureteral reflux. <i>Acta Paediatrica, International Journal of Paediatrics</i> , <b>2021</b> , 110, 347-356                                   | 3.1  | 2         |
| 41 | Serum Myo-Inositol, Dimethyl Sulfone, and Valine in Combination with Creatinine Allow Accurate Assessment of Renal Insufficiency-A Proof of Concept. <i>Diagnostics</i> , <b>2021</b> , 11,   | 3.8  | 3         |
| 40 | Whole-genome characterization of hemolytic uremic syndrome-causing Shiga toxin-producing in Sweden. <i>Virulence</i> , <b>2021</b> , 12, 1296-1305  | 4.7  | 1         |
| 39 | Long-lasting chronic high load carriage of Epstein-Barr virus is more common in young pediatric renal transplant recipients. <i>Pediatric Nephrology</i> , <b>2020</b> , 35, 427-439  | 3.2  | 4         |
| 38 | Molecular characteristics of -positive clinical Shiga toxin-producing in Sweden. <i>Emerging Microbes and Infections</i> , <b>2020</b> , 9, 2562-2570   | 18.9 | 3         |
| 37 | A 3-year longitudinal study of skeletal effects and growth in children after kidney transplantation. <i>Pediatric Transplantation</i> , <b>2018</b> , 22, e13253  | 1.8  | 5         |
| 36 | Long-term study showed that vaccination protected paediatric renal transplant recipients from life-threatening varicella zoster virus. <i>Acta Paediatrica, International Journal of Paediatrics</i> , <b>2018</b> , 107, 2185-2192 | 3.1  | 3         |
| 35 | Urine neutrophil gelatinase-associated lipocalin and other biomarkers in infants with urinary tract infection and in febrile controls. <i>Pediatric Nephrology</i> , <b>2017</b> , 32, 2079-2087                                    | 3.2  | 20        |
| 34 | Urinary tract infection in small children: the evolution of renal damage over time. <i>Pediatric Nephrology</i> , <b>2017</b> , 32, 1907-1913   | 3.2  | 18        |
| 33 | Urinary tract infection in infants: the significance of low bacterial count. <i>Pediatric Nephrology</i> , <b>2016</b> , 31, 239-45   | 3.2  | 26        |
| 32 | Urinary tract infection pattern in adult women followed from childhood. <i>Pediatric Nephrology</i> , <b>2016</b> , 31, 1107-11   | 3.2  | 4         |
| 31 | Obstetrical outcome in women with urinary tract infections in childhood. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , <b>2016</b> , 95, 452-7  | 3.8  | 8         |
| 30 | Peritoneal dialysis impairs nitric oxide homeostasis and may predispose infants with low systolic blood pressure to cerebral ischemia. <i>Nitric Oxide - Biology and Chemistry</i> , <b>2016</b> , 58, 1-9                          | 5    | 7         |
| 29 | Renal function in adult women with urinary tract infection in childhood. <i>Pediatric Nephrology</i> , <b>2015</b> , 30, 1493-9   | 3.2  | 22        |
| 28 | Long-term, low-dose prophylaxis against urinary tract infections in young children. <i>Pediatric Nephrology</i> , <b>2015</b> , 30, 425-32  | 3.2  | 23        |

|    |   |     |     |
|----|---|-----|-----|
| 27 | Urinary tract infection in small outpatient children: the influence of age and gender on resistance to oral antimicrobials. <i>European Journal of Pediatrics</i> , <b>2014</b> , 173, 1075-81    | 4.1 | 10  |
| 26 | Twenty-four-hour ambulatory blood pressure in adult women with urinary tract infection in childhood. <i>Journal of Hypertension</i> , <b>2014</b> , 32, 1658-64; discussion 1664                  | 1.9 | 14  |
| 25 | Skeletal effects and growth in children with chronic kidney disease: a 5-year prospective study. <i>Journal of Bone and Mineral Metabolism</i> , <b>2013</b> , 31, 322-8                          | 2.9 | 3   |
| 24 | Parental experiences and preferences regarding the treatment of vesicoureteral reflux. <i>Scandinavian Journal of Urology and Nephrology</i> , <b>2012</b> , 46, 26-30                            |     | 6   |
| 23 | The Swedish reflux trial: review of a randomized, controlled trial in children with dilating vesicoureteral reflux. <i>Journal of Pediatric Urology</i> , <b>2011</b> , 7, 594-600                | 1.5 | 69  |
| 22 | Imaging strategy for infants with urinary tract infection: a new algorithm. <i>Journal of Urology</i> , <b>2011</b> , 185, 1046-52  | 2.5 | 22  |
| 21 | Stable long-term renal function after pediatric liver transplantation. <i>Pediatric Transplantation</i> , <b>2010</b> , 14, 409-16  | 1.8 | 10  |
| 20 | A prospective study of fibroblast growth factor-23 in children with chronic kidney disease. <i>Scandinavian Journal of Clinical and Laboratory Investigation</i> , <b>2010</b> , 70, 15-20        | 2   | 5   |
| 19 | The Swedish reflux trial in children: v. Bladder dysfunction. <i>Journal of Urology</i> , <b>2010</b> , 184, 298-304  | 2.5 | 88  |
| 18 | The Swedish reflux trial in children: I. Study design and study population characteristics. <i>Journal of Urology</i> , <b>2010</b> , 184, 274-9  | 2.5 | 50  |
| 17 | The Swedish reflux trial in children: III. Urinary tract infection pattern. <i>Journal of Urology</i> , <b>2010</b> , 184, 286-291  | 2.5 | 214 |
| 16 | The Swedish reflux trial in children: II. Vesicoureteral reflux outcome. <i>Journal of Urology</i> , <b>2010</b> , 184, 280-5   | 2.5 | 106 |
| 15 | Value of ultrasound in evaluation of infants with first urinary tract infection. <i>Journal of Urology</i> , <b>2010</b> , 183, 1984-8  | 2.5 | 49  |
| 14 | The Swedish reflux trial in children: IV. Renal damage. <i>Journal of Urology</i> , <b>2010</b> , 184, 292-7  | 2.5 | 139 |
| 13 | Ultrasonography as predictor of permanent renal damage in infants with urinary tract infection. <i>Acta Paediatrica, International Journal of Paediatrics</i> , <b>2009</b> , 98, 1156-61         | 3.1 | 17  |
| 12 | Urinary proteins in children with urinary tract infection. <i>Pediatric Nephrology</i> , <b>2009</b> , 24, 1533-8   | 3.2 | 18  |
| 11 | Children with chronic kidney disease: a 3-year prospective study of growth, bone mass and bone turnover. <i>Acta Paediatrica, International Journal of Paediatrics</i> , <b>2009</b> , 98, 367-73 | 3.1 | 12  |
| 10 | Relationship among vesicoureteral reflux, urinary tract infection and renal damage in children. <i>Journal of Urology</i> , <b>2007</b> , 178, 647-51; discussion 650-1                           | 2.5 | 102 |

|   |  |     |     |
|---|--|-----|-----|
| 9 | Bone mass, biochemical markers and growth in children with chronic kidney disease: a 1-year prospective study. <i>Acta Paediatrica, International Journal of Paediatrics</i> , <b>2007</b> , 96, 720-5 | 3.1 | 15  |
| 8 | Normal dimercaptosuccinic acid scintigraphy makes voiding cystourethrography unnecessary after urinary tract infection. <i>Journal of Pediatrics</i> , <b>2007</b> , 151, 581-4, 584.e1                | 3.6 | 164 |
| 7 | Uncomplicated duplex kidney and DMSA scintigraphy in children with urinary tract infection. <i>Pediatric Radiology</i> , <b>2007</b> , 37, 826-8   | 2.8 | 14  |
| 6 | Urinary tract infection caused by <i>Haemophilus influenzae</i> and <i>Haemophilus parainfluenzae</i> in children. <i>Pediatric Nephrology</i> , <b>2007</b> , 22, 1321-5                              | 3.2 | 17  |
| 5 | A 14-year-old girl with renal abnormalities after brief intrauterine exposure to enalapril during late gestation. <i>Nephrology Dialysis Transplantation</i> , <b>2006</b> , 21, 522-5                 | 4.3 | 21  |
| 4 | The novel bone alkaline phosphatase B1x isoform in children with kidney disease. <i>Pediatric Nephrology</i> , <b>2006</b> , 21, 1723-9  | 3.2 | 28  |
| 3 | Dimercapto-succinic acid scintigraphy instead of voiding cystourethrography for infants with urinary tract infection. <i>Journal of Urology</i> , <b>2004</b> , 172, 1071-3; discussion 1073-4         | 2.5 | 177 |
| 2 | Detection of urographic scars in girls with pyelonephritis followed for 13-38 years. <i>Pediatric Nephrology</i> , <b>2000</b> , 14, 1006-10   | 3.2 | 21  |
| 1 | Limited clinical usefulness of tests for P-fimbriated <i>Escherichia coli</i> in patients with urinary tract infections. <i>Scandinavian Journal of Infectious Diseases</i> , <b>1992</b> , 24, 253-4  |     | 1   |
