ILLIE CDEZES

#	Article	IF	CITATIONS
1	Impact of total sleep deprivation and related mood changes on approach-avoidance decisions to threat-related facial displays. Sleep, 2021, 44, .	0.6	15
2	Action co-representation under threat: A Social Simon study. Cognition, 2021, 215, 104829.	1.1	4
3	Neural correlates of interoceptive accuracy: Beyond cardioception. European Journal of Neuroscience, 2021, 54, 7642-7653.	1.2	6
4	Nature and determinants of social actions during a mass shooting. PLoS ONE, 2021, 16, e0260392.	1.1	10
5	Rapid approach-avoidance responses to emotional displays reflect value-based decisions: Neural evidence from an EEG study. NeuroImage, 2020, 222, 117253.	2.1	15
6	The †Threat of Scream' paradigm: a tool for studying sustained physiological and subjective anxiety. Scientific Reports, 2020, 10, 12496.	1.6	9
7	Action opportunities modulate attention allocation under social threat Emotion, 2020, 20, 890-903.	1.5	10
8	Stimulus and observer characteristics jointly determine the relevance of threatening facial expressions and their interaction with attention. Motivation and Emotion, 2019, 43, 299-312.	0.8	4
9	Repeatedly adopting power postures does not affect hormonal correlates of dominance and affiliative behavior. PeerJ, 2019, 7, e6726.	0.9	5
10	Pervasive influence of idiosyncratic associative biases during facial emotion recognition. Scientific Reports, 2018, 8, 8804.	1.6	2
11	Shared mechanism for emotion processing in adolescents with and without autism. Scientific Reports, 2017, 7, 42696.	1.6	8
12	The nature and distribution of affiliative behaviour during exposure to mild threat. Royal Society Open Science, 2017, 4, 170265.	1.1	15
13	Minimal group membership biases early neural processing of emotional expressions. European Journal of Neuroscience, 2017, 46, 2584-2595.	1.2	25
14	Childhood harshness predicts long-lasting leader preferences. Evolution and Human Behavior, 2017, 38, 645-651.	1.4	34
15	Emotional Convergence. , 2016, , 417-436.		9
16	Social Influence on Metacognitive Evaluations: The Power of Nonverbal Cues. Quarterly Journal of Experimental Psychology, 2016, 69, 2233-2247.	0.6	11
17	Classification of autistic individuals and controls using cross-task characterization of fMRI activity. NeuroImage: Clinical, 2016, 10, 78-88.	1.4	53
18	Source unreliability decreases but does not cancel the impact of social information on metacognitive evaluations. Frontiers in Psychology, 2015, 6, 1385.	1.1	6

JULIE GREZES

#	Article	IF	CITATIONS
19	Selective attention effects on early integration of social signals: Same timing, modulated neural sources. NeuroImage, 2015, 106, 182-188.	2.1	15
20	Emotional contagion: its scope and limits. Trends in Cognitive Sciences, 2015, 19, 297-299.	4.0	58
21	Anxiety dissociates the adaptive functions of sensory and motor response enhancements to social threats. ELife, 2015, 4, .	2.8	23
22	Chapitre 4. Bases cérébrales et cognitives de la communication émotionnelle. , 2015, , 99-112.		0
23	A direct amygdala-motor pathway for emotional displays to influence action: A diffusion tensor imaging study. Human Brain Mapping, 2014, 35, 5974-5983.	1.9	105
24	Can we simulate an action that we temporarily cannot perform?. Neurophysiologie Clinique, 2014, 44, 433-445.	1.0	5
25	Recognizing Emotions Conveyed by Human Gait. International Journal of Social Robotics, 2014, 6, 621-632.	3.1	84
26	Prioritization of emotional signals by the human auditory system: evidence from a perceptual hysteresis protocol. Evolution and Human Behavior, 2014, 35, 526-532.	1.4	3
27	How do shared-representations and emotional processes cooperate in response to social threat signals?. Neuropsychologia, 2014, 55, 105-114.	0.7	19
28	The Combined Role of Motion-Related Cues and Upper Body Posture for the Expression of Emotions during Human Walking. Cognitive Systems Monographs, 2013, , 71-85.	0.1	12
29	Self-relevance modulates brain responses to angry body expressions. Cortex, 2013, 49, 2210-2220.	1.1	23
30	Social affordances: Is the mirror neuron system involved?. Behavioral and Brain Sciences, 2013, 36, 417-418.	0.4	9
31	Perception of Emotional Gaits Using Avatar Animation of Real and Artificially Synthesized Gaits. , 2013, , .		10
32	Self-relevance appraisal of gaze direction and dynamic facial expressions: Effects on facial electromyographic and autonomic reactions Emotion, 2013, 13, 330-337.	1.5	53
33	Self-Relevance Appraisal Influences Facial Reactions to Emotional Body Expressions. PLoS ONE, 2013, 8, e55885.	1.1	31
34	Evidence for Unintentional Emotional Contagion Beyond Dyads. PLoS ONE, 2013, 8, e67371.	1.1	41
35	Determination of emotional endophenotypes: A validation of the Affective Neuroscience Personality Scales and further perspectives Psychological Assessment, 2012, 24, 375-385.	1.2	25
36	Early Binding of Gaze, Gesture, and Emotion: Neural Time Course and Correlates. Journal of Neuroscience, 2012, 32, 4531-4539.	1.7	136

JULIE GREZES

#	Article	IF	CITATIONS
37	Threat Prompts Defensive Brain Responses Independently of Attentional Control. Cerebral Cortex, 2012, 22, 274-285.	1.6	139
38	Look at me, I'll remember you. Human Brain Mapping, 2012, 33, 2428-2440.	1.9	42
39	Brief Report: Selective Social Anhedonia in High Functioning Autism. Journal of Autism and Developmental Disorders, 2012, 42, 1504-1509.	1.7	118
40	Similarities and differences in perceiving threat from dynamic faces and bodies. An fMRI study. NeuroImage, 2011, 54, 1755-1762.	2.1	181
41	Men Fear Other Men Most: Gender Specific Brain Activations in Perceiving Threat from Dynamic Faces and Bodies – An fMRI Study. Frontiers in Psychology, 2011, 2, 3.	1.1	60
42	The role of negative affectivity and social inhibition in perceiving social threat: An fMRI study. Neuropsychologia, 2011, 49, 1187-1193.	0.7	81
43	Cortico-subcortical visual, somatosensory, and motor activations for perceiving dynamic whole-body emotional expressions with and without striate cortex (V1). Proceedings of the National Academy of Sciences of the United States of America, 2011, 108, 16188-16193.	3.3	113
44	How does perceiving eye direction modulate emotion recognition?. Behavioral and Brain Sciences, 2010, 33, 443-444.	0.4	2
45	Alexithymia in the interpersonal domain: A general deficit of empathy?. Personality and Individual Differences, 2010, 49, 845-850.	1.6	178
46	Individual differences in socioaffective skills influence the neural bases of fear processing: The case of alexithymia. Human Brain Mapping, 2010, 31, 1469-1481.	1.9	50
47	Comprendre les actions, émotions et états mentaux d'autruiÂ: psychologie et neurosciences. , 2010, , .		3
48	A failure to grasp the affective meaning of actions in autism spectrum disorder subjects. Neuropsychologia, 2009, 47, 1816-1825.	0.7	90
49	Instrumental Music Influences Recognition of Emotional Body Language. Brain Topography, 2009, 21, 216-220.	0.8	37
50	Specific and common brain regions involved in the perception of faces and bodies and the representation of their emotional expressions. Social Neuroscience, 2009, 4, 101-120.	0.7	134
51	Two different faces of threat. Comparing the neural systems for recognizing fear and anger in dynamic body expressions. NeuroImage, 2009, 47, 1873-1883.	2.1	166
52	Human and animal sounds influence recognition of body language. Brain Research, 2008, 1242, 185-190.	1.1	49
53	What is "mirror―in the premotor cortex? A review. Neurophysiologie Clinique, 2008, 38, 189-195.	1.0	83
54	Decreased differential activity in the amygdala in response to fearful expressions in Type D personality. Neurophysiologie Clinique, 2008, 38, 163-169.	1.0	11

JULIE GREZES

#	Article	IF	CITATIONS
55	Emotional modulation of visual and motor areas by dynamic body expressions of anger. Social Neuroscience, 2008, 3, 199-212.	0.7	137
56	Cross-Cultural Validation of the Empathy Quotient in a French-Speaking Sample. Canadian Journal of Psychiatry, 2008, 53, 469-477.	0.9	92
57	Perceiving fear in dynamic body expressions. NeuroImage, 2007, 35, 959-967.	2.1	263
58	Rapid detection of fear in body expressions, an ERP study. Brain Research, 2007, 1186, 233-241.	1.1	103
59	Amygdala activation when one is the target of deceit: Did he lie to you or to someone else?. NeuroImage, 2006, 30, 601-608.	2.1	48
60	Affective response to one's own moral violations. NeuroImage, 2006, 31, 945-950.	2.1	105
61	Seeing or Doing? Influence of Visual and Motor Familiarity in Action Observation. Current Biology, 2006, 16, 1905-1910.	1.8	964
62	The power of simulation: Imagining one's own and other's behavior. Brain Research, 2006, 1079, 4-14.	1.1	686
63	Brain Mechanisms for Inferring Deceit in the Actions of Others. Journal of Neuroscience, 2004, 24, 5500-5505.	1.7	191
64	Inferring false beliefs from the actions of oneself and others: an fMRI study. NeuroImage, 2004, 21, 744-750.	2.1	237
65	Objects automatically potentiate action: an fMRI study of implicit processing. European Journal of Neuroscience, 2003, 17, 2735-2740.	1.2	294
66	Activations related to "mirror―and "canonical―neurones in the human brain: an fMRI study. NeuroImage, 2003, 18, 928-937.	2.1	661
67	A PET Exploration of the Neural Mechanisms Involved in Reciprocal Imitation. NeuroImage, 2002, 15, 265-272.	2.1	404
68	Does visual perception of object afford action? Evidence from a neuroimaging study. Neuropsychologia, 2002, 40, 212-222.	0.7	462
69	Does Perception of Biological Motion Rely on Specific Brain Regions?. NeuroImage, 2001, 13, 775-785.	2.1	339
70	Functional anatomy of execution, mental simulation, observation, and verb generation of actions: A meta-analysis. Human Brain Mapping, 2001, 12, 1-19.	1.9	1,435
71	Neural mechanisms subserving the perception of human actions. Trends in Cognitive Sciences, 1999, 3, 172-178.	4.0	844
72	TOP DOWN EFFECT OF STRATEGY ON THE PERCEPTION OF HUMAN BIOLOGICAL MOTION: A PET INVESTIGATION. Cognitive Neuropsychology, 1998, 15, 553-582.	0.4	394

#	Article	IF	CITATIONS
73	A neurobiological approach to imitation. Behavioral and Brain Sciences, 1998, 21, 688-689.	0.4	Ο
