#	Article	IF	CITATIONS
1	Direct relations between sense of coherence and oral healthâ€related quality of life in adolescents. Oral Diseases, 2023, 29, 1367-1375.	3.0	2
2	Agreement among instruments of quantitative evaluation of the hard palate in children. CoDAS, 2022, 34, e20200318.	0.7	0
3	Reference parameters for normality and associated factors to hard palate during mixed dentition phase. CoDAS, 2022, 34, e20200291.	0.7	1
4	Oral health-related quality of life as a predictor of alcohol and cigarette consumption in adolescents. Brazilian Oral Research, 2022, 36, e025.	1.4	2
5	Self-reported oral health and normative indices of dental caries among adolescents: a cohort study. Brazilian Oral Research, 2022, 36, e021.	1.4	1
6	Oral health-related quality of life determinants throughout adolescence: a cohort study in Brazil. Quality of Life Research, 2022, 31, 2307-2317.	3.1	4
7	Influence of toothache on oral health-related quality of life during adolescence: a cohort study. Clinical Oral Investigations, 2022, , 1.	3.0	2
8	Sense of coherence moderates the relationship between social capital and oral health‑related quality of life in schoolchildren: a 10-year cohort study. Health and Quality of Life Outcomes, 2022, 20, 56.	2.4	6
9	Social capital and oral health in children and adolescents: AÂsystematic review and metaâ€analysis. Community Dentistry and Oral Epidemiology, 2022, 50, 461-468.	1.9	4
10	Early childhood factors in the development of oral health behaviours in adolescence: A structural equation modelling approach. Community Dentistry and Oral Epidemiology, 2022, , .	1.9	0
11	Pathways between Social Capital and Oral Health from Childhood to Adolescence. Journal of Dental Research, 2022, 101, 1155-1164.	5.2	4
12	Machine Learning in the Diagnosis and Prognostic Prediction of Dental Caries: A Systematic Review. Caries Research, 2022, 56, 161-170.	2.0	8
13	Pathways between toothache and children's oral healthâ€related quality of life. International Journal of Paediatric Dentistry, 2021, 31, 558-564.	1.8	13
14	Relationship between gingival bleeding and associated factors with reports of verbal bullying in adolescents. Journal of Periodontology, 2021, 92, 225-233.	3.4	9
15	Structuring adolescent's oral health effects on labour market entry in a cohort study. International Journal of Paediatric Dentistry, 2021, 31, 262-269.	1.8	6
16	Availability of public dental care service and dental caries increment in children: a cohort study. Journal of Public Health Dentistry, 2021, 81, 57-64.	1.2	8
17	Pulp Vitality and Longevity of Adhesive Restorations Are Not Affected by Selective Carious Removal: A Multicenter Clinical Trial. Caries Research, 2021, 55, 55-62.	2.0	6
18	Oral health and happiness in adolescents: A cohort study. Community Dentistry and Oral Epidemiology, 2021, 49, 176-185.	1.9	8

#	Article	IF	CITATIONS
19	Pathways influencing dental caries increment among children: A cohort study. International Journal of Paediatric Dentistry, 2021, 31, 422-432.	1.8	6
20	Pathways to anterior open bite after changing of pacifier sucking habit in preschool children: A cohort study. International Journal of Paediatric Dentistry, 2021, 31, 278-284.	1.8	3
21	Influence of malocclusion on oral health-related quality of life in children: a seven-year cohort study. Dental Press Journal of Orthodontics, 2021, 26, e2119244.	0.9	5
22	Effect of individual and neighborhood social capital on gingival bleeding in children: A 7â€year cohort study. Journal of Periodontology, 2021, 92, 1430-1440.	3.4	6
23	The Impact of Early Childhood Factors on Dental Caries Incidence in First Permanent Molars: A 7-Year Follow-Up Study. Caries Research, 2021, 55, 167-173.	2.0	7
24	COVID-19 pandemic reduces the negative perception of oral health-related quality of life in adolescents. Quality of Life Research, 2021, 30, 1685-1691.	3.1	12
25	Cross-cultural adaptation and psychometric properties of the Mexican version of the Early Childhood Oral Health Impact Scale (ECOHIS). Health and Quality of Life Outcomes, 2021, 19, 102.	2.4	1
26	The 2018 EFP/AAP periodontitis case classification demonstrates high agreement with the 2012 CDC/AAP criteria. Journal of Clinical Periodontology, 2021, 48, 886-895.	4.9	25
27	Effect of the COVIDâ€19 pandemic on behavioural and psychosocial factors related to oral health in adolescents: A cohort study. International Journal of Paediatric Dentistry, 2021, 31, 539-546.	1.8	27
28	Impact of the Brazilian Family Health Strategy on child oral health-related quality of life: a cohort study. Brazilian Oral Research, 2021, 35, e093.	1.4	2
29	Association between malocclusion, tongue position and speech distortion in mixed-dentition schoolchildren: an epidemiological study. Journal of Applied Oral Science, 2021, 29, e20201005.	1.8	5
30	Wich factors influencing the number of teeth at 12 months of age: a birth cohort study. Brazilian Oral Research, 2021, 35, e059.	1.4	0
31	Socioeconomic status and oral healthâ€related quality of life: A systematic review and metaâ€analysis. Community Dentistry and Oral Epidemiology, 2021, 49, 95-102.	1.9	56
32	Do untreated caries influence the school leaving of adolescents? A cohort study. Brazilian Dental Journal, 2021, 32, 72-79.	1.1	1
33	Psychometric properties and longitudinal measurement invariance of the Brazilian version of the subjective happiness scale in adolescents. Journal of Clinical and Translational Research, 2021, 7, 234-240.	0.3	1
34	Scope and challenges of machine learning-based diagnosis and prognosis in clinical dentistry: A literature review. Journal of Clinical and Translational Research, 2021, 7, 523-539.	0.3	2
35	Clinical and sociodemographic factors that affect the quality of life of survivors of head and neck cancer. Supportive Care in Cancer, 2020, 28, 1941-1950.	2.2	17
36	Influence of socioeconomic inequalities on levels of dental caries in adolescents: A cohort study. International Journal of Paediatric Dentistry, 2020, 30, 42-49.	1.8	26

#	Article	IF	CITATIONS
37	The vicious cycle of dental fear at age 31 in a birth cohort in Southern Brazil. Community Dentistry and Oral Epidemiology, 2020, 49, 354-361.	1.9	7
38	Gingival inflammation influences oral healthâ€related quality of life in individuals living in a rural area of southern Brazil. Journal of Clinical Periodontology, 2020, 47, 1028-1039.	4.9	3
39	The impact of cyberbullying on schoolchildren's dental anxiety in Brazil: A crossâ€sectional multiâ€level study. Community Dentistry and Oral Epidemiology, 2020, 48, 440-446.	1.9	Ο
40	Effect of routine dental attendance on child oral healthâ€related quality of life: A cohort study. International Journal of Paediatric Dentistry, 2020, 30, 459-467.	1.8	13
41	Effect of the sense of coherence and associated factors in the quality of life of head and neck cancer patients. Brazilian Oral Research, 2020, 34, e009.	1.4	8
42	Shortening of etching time of the dentin in primary teeth restorations: a randomized clinical trial. Brazilian Oral Research, 2020, 34, e081.	1.4	10
43	Effect of dental caries and socioeconomic status on social capital throughout adolescence: a 6-year follow-up. Brazilian Oral Research, 2020, 34, e104.	1.4	5
44	Factors associated with the number of filled teeth in adolescents from public schools: a cohort study. Brazilian Oral Research, 2020, 33, e124.	1.4	1
45	Gingivitis influences oral health-related quality of life in adolescents: findings from a cohort study. Revista Brasileira De Epidemiologia, 2020, 23, e200051.	0.8	7
46	Evaluation of Psychometric Properties of the â€~Sense of Coherence Scale' in Schoolchildren. Interamerican Journal of Psychology, 2020, 54, e1148.	0.2	2
47	Selfâ€reported confidence and anxiety over endodontic procedures in undergraduate students—Quantitative and qualitative study. European Journal of Dental Education, 2019, 23, 482-490.	2.0	11
48	Dental treatment improves theÂoral healthâ€related quality of life of adolescents: A mixedâ€methods approach. International Journal of Paediatric Dentistry, 2019, 29, 765-774.	1.8	9
49	Socioeconomic inequalities in oral health-related quality of life in adolescents: a cohort study. Quality of Life Research, 2019, 28, 2491-2500.	3.1	42
50	Sampling strategy of an epidemiological survey using a satellite image program. Revista De Saude Publica, 2019, 53, 47.	1.7	9
51	Prevalence of defective restorations and factors associated with reâ€intervention in primary teeth: A retrospective universityâ€based study. International Journal of Paediatric Dentistry, 2019, 29, 566-572.	1.8	6
52	Effect of neighborhood and individual social capital in early childhood on oral health-related quality of life: a 7-year cohort study. Quality of Life Research, 2019, 28, 1773-1782.	3.1	30
53	Trends in use of dental services by Brazilian preâ€school children considering Ageâ€Periodâ€Cohort Effect. International Journal of Paediatric Dentistry, 2019, 29, 413-421.	1.8	5
54	Pathways of socioeconomic inequalities in gingival bleeding among adolescents. Community Dentistry and Oral Epidemiology, 2019, 47, 177-184.	1.9	14

#	Article	IF	CITATIONS
55	Can a School-Based Intervention Improve the Oral Health-Related Quality of Life of Brazilian Children?. JDR Clinical and Translational Research, 2019, 4, 229-238.	1.9	14
56	The Association between Sense of Coherence and Dental Caries in Low Social Status Schoolchildren. Caries Research, 2019, 53, 314-321.	2.0	21
57	Effect of environmental and socioeconomic factors on the use of dental floss among children: a hierarchical approach. Brazilian Oral Research, 2019, 33, e096.	1.4	7
58	The effect of dental treatment on oral health-related quality of life in adolescents. Clinical Oral Investigations, 2018, 22, 2291-2297.	3.0	15
59	The use of crack and other illicit drugs impacts oral healthâ€related quality of life in Brazilians. Oral Diseases, 2018, 24, 482-488.	3.0	12
60	Sensitivity of an oral healthâ€related qualityâ€ofâ€life questionnaire in detecting oral health impairment in preschool children. International Journal of Paediatric Dentistry, 2018, 28, 207-216.	1.8	11
61	Presence of Initial Caries Lesions as a Risk Factor for Caries in Preschool Children: A Cohort Study. Caries Research, 2018, 52, 32-41.	2.0	17
62	Edema and gingival bleeding in anterior region have a negative influence on quality of life of adolescents. Brazilian Oral Research, 2018, 32, e112.	1.4	8
63	Family Religiosity and Oral Health Related Quality of Life: a Multilevel Analysis in Brazilian Schoolchildren Brazilian Dental Journal, 2018, 29, 381-387.	1.1	4
64	Responsiveness of the Brazilian versions of <scp>CPQ</scp> _{11â€14} and Childâ€ <scp>OIDP</scp> . International Journal of Paediatric Dentistry, 2018, 28, 641-647.	1.8	4
65	Family Health Strategy associated with increased dental visitation among preschool children in Brazil. International Journal of Paediatric Dentistry, 2018, 28, 624-632.	1.8	12
66	Experiences during the execution of emergency endodontic treatment and levels of anxiety in dental students. European Journal of Dental Education, 2018, 22, e715-e723.	2.0	11
67	Performance of resin composite restorations in the primary dentition: a retrospective universityâ€based study. International Journal of Paediatric Dentistry, 2018, 28, 497-503.	1.8	6
68	School environment and individual factors influence oral health related quality of life in Brazilian children. Brazilian Oral Research, 2018, 32, e63.	1.4	20
69	Oral and oropharyngeal cancer: epidemiology and survival analysis. Einstein (Sao Paulo, Brazil), 2018, 16, eAO4248.	0.7	66
70	Survival and Associated Risk Factors of Composite Restorations in Children with Early Childhood Caries: A Clinical Retrospective Study. Pediatric Dentistry (discontinued), 2018, 40, 210-214.	0.4	5
71	The associations of socioeconomic status and social capital with gingival bleeding among schoolchildren. Journal of Public Health Dentistry, 2017, 77, 21-29.	1.2	41
72	Impact of Partial-Mouth Periodontal Examination Protocols on the Association Between Gingival Bleeding and Oral Health–Related Quality of Life in Adolescents. Journal of Periodontology, 2017, 88, 693-701.	3.4	7

#	Article	IF	CITATIONS
73	Do maternal depression and anxiety influence children's oral healthâ€related quality of life?. Community Dentistry and Oral Epidemiology, 2017, 45, 398-406.	1.9	17
74	Partialâ€mouth periodontal examination protocols for the determination of the prevalence and extent of gingival bleeding in adolescents. Community Dentistry and Oral Epidemiology, 2017, 45, 427-433.	1.9	7
75	Association of alcohol consumption with coronary artery disease severity. Clinical Nutrition, 2017, 36, 1036-1039.	5.0	17
76	Prevalence and Associated Factors of Tooth Erosion in 8 -12-Year-Old Brazilian Schoolchildren. Journal of Clinical Pediatric Dentistry, 2017, 41, 343-350.	1.0	20
77	Responsiveness of the Early Childhood Oral Health Impact Scale (ECOHIS) is related to dental treatment complexity. Health and Quality of Life Outcomes, 2017, 15, 182.	2.4	17
78	Individual and contextual factors influencing dental health care utilization by preschool children: a multilevel analysis. Brazilian Oral Research, 2017, 31, e27.	1.4	18
79	Survival and Factors Associated with Failure of Pulpectomies Performed in Primary Teeth by Dental Students. Brazilian Dental Journal, 2017, 28, 121-128.	1.1	16
80	Survival and Associated Risk Factors of Resin-based Composite Restorations in Primary Teeth: A Clinical, Retrospective, University-based Study. Pediatric Dentistry (discontinued), 2017, 39, 313-318.	0.4	5
81	Factors associated with Oral Health-Related Quality of Life of preschool children in Southern Brazil. Rgo, 2016, 64, 256-262.	0.2	6
82	Dental flossing as a diagnostic method for proximal gingivitis: a validation study. Brazilian Oral Research, 2016, 30, .	1.4	4
83	Association between Dental Caries and Socioeconomic Factors in Schoolchildren - A Multilevel Analysis. Brazilian Dental Journal, 2016, 27, 72-78.	1.1	37
84	Comparison of Face-To-Face Interview and Telephone Methods of Administration on the Ecohis Scores. Brazilian Dental Journal, 2016, 27, 613-618.	1.1	10
85	Trend of traumatic crown injuries and associated factors in preschool children. Brazilian Oral Research, 2016, 30, e112.	1.4	11
86	Influence of initial caries lesions on quality of life in preschool children: a 2â€year cohort study. Community Dentistry and Oral Epidemiology, 2016, 44, 292-300.	1.9	26
87	Risk of initial and moderate caries lesions in primary teeth to progress to dentine cavitation: a 2â€year cohort study. International Journal of Paediatric Dentistry, 2016, 26, 116-124.	1.8	28
88	Clarifying the Impact of Untreated and Treated Dental Caries on Oral Health-Related Quality of Life among Adolescents. Caries Research, 2016, 50, 414-421.	2.0	54
89	Impact of the radiographic examination on diagnosis and treatment decision of caries lesions in primary teeth – the Caries Detection in Children (CARDEC-01) trial: study protocol for a randomized controlled trial. Trials, 2016, 17, 69.	1.6	16
90	Association of malocclusion, happiness, and oral health–related quality of life (<scp>OHRQoL</scp>) in schoolchildren. Journal of Public Health Dentistry, 2016, 76, 85-90.	1.2	33

#	Article	IF	CITATIONS
91	Racial Differences in Oral Health-Related Quality of Life: A Multilevel Analysis in Brazilian Children. Brazilian Dental Journal, 2015, 26, 689-694.	1.1	10
92	Impact of malocclusion on oral health-related quality of life of preschool children. Rgo, 2015, 63, 33-40.	0.2	3
93	The Role of School Social Environment on Dental Caries Experience in 8- to 12-Year-Old Brazilian Children: A Multilevel Analysis. Caries Research, 2015, 49, 548-556.	2.0	24
94	The influence of normative and subjective oral health status on schoolchildren's happiness. BMC Oral Health, 2015, 15, 15.	2.3	28
95	Dental Avulsion: Are the Dentist Prepared to the Correct Management?. Pesquisa Brasileira Em Odontopediatria E Clinica Integrada, 2015, 15, 399-405.	0.9	Ο
96	Association between gingivitis and anterior gingival enlargement in subjects undergoing fixed orthodontic treatment. Dental Press Journal of Orthodontics, 2014, 19, 59-66.	0.9	21
97	Toothache, Associated Factors, and Its Impact on Oral Health-Related Quality of Life (OHRQoL) in Preschool Children. Brazilian Dental Journal, 2014, 25, 546-553.	1.1	58
98	Self-Perceived Oral Health Influences Tooth Brushing in Preschool Children. Brazilian Dental Journal, 2014, 25, 248-252.	1.1	12
99	Association of Gingivitis With Child Oral Health–Related Quality of Life. Journal of Periodontology, 2014, 85, 1557-1565.	3.4	53
100	Inequality in dental caries distribution at noncavitated and cavitated thresholds in preschool children. Journal of Public Health Dentistry, 2014, 74, 120-126.	1.2	17
101	Preliminary Results of the Survival and Fracture Load of Roots Restored With Intracanal Posts: Weakened vs Nonweakened Roots. Operative Dentistry, 2014, 39, 541-555.	1.2	41
102	Assessing individual and neighborhood social factors in child oral health-related quality of life: a multilevel analysis. Quality of Life Research, 2014, 23, 2521-2530.	3.1	61
103	Validation of Visual Caries Activity Assessment. Journal of Dental Research, 2014, 93, 101S-107S.	5.2	54
104	Impact of dental anxiety and fear on dental care use in <scp>B</scp> razilian women. Journal of Public Health Dentistry, 2014, 74, 310-316.	1.2	17
105	Clinical and radiographic outcomes of partial caries removal restorations performed in primary teeth. American Journal of Dentistry, 2014, 27, 68-72.	0.1	19
106	Traumatic dental injury with treatment needs negatively affects the quality of life of <scp>B</scp> razilian schoolchildren. International Journal of Paediatric Dentistry, 2013, 23, 266-273.	1.8	31
107	Laboratorial training of examiners for using a visual caries detection system in epidemiological surveys. BMC Oral Health, 2013, 13, 49.	2.3	14
108	Responsiveness to change for the Brazilian Scale of Oral Health Outcomes for 5-year-old children (SOHO-5). Health and Quality of Life Outcomes, 2013, 11, 137.	2.4	23

#	Article	IF	CITATIONS
109	Socioeconomic and psychosocial predictors of dental healthcare use among Brazilian preschool children. BMC Oral Health, 2013, 13, 60.	2.3	66
110	Advising mothers about breastfeeding and weaning reduced pacifier use in the first year of life: a randomized trial. Community Dentistry and Oral Epidemiology, 2013, 41, 317-326.	1.9	22
111	Activity assessment has little impact on caries parameters reduction in epidemiological surveys with preschool children. Community Dentistry and Oral Epidemiology, 2013, 41, 204-211.	1.9	47
112	Malocclusion impacts adolescents' oral health–related quality of life. Angle Orthodontist, 2013, 83, 512-518.	2.4	79
113	Randomized clinical trial of adhesive restorations in primary molars. 18-month results. American Journal of Dentistry, 2013, 26, 351-5.	0.1	35
114	Association between gingival bleeding and gingival enlargement and oral health-related quality of life (OHRQoL) of subjects under fixed orthodontic treatment: a cross-sectional study. BMC Oral Health, 2012, 12, 53.	2.3	32
115	Influence of Maternal Dental Anxiety on the Child's Dental Caries Experience. Caries Research, 2012, 46, 3-8.	2.0	36
116	Socioeconomic and clinical factors associated with traumatic dental injuries in Brazilian preschool children. Brazilian Oral Research, 2012, 26, 464-470.	1.4	36
117	Influence of children's oral healthâ€related quality of life on school performance and school absenteeism. Journal of Public Health Dentistry, 2012, 72, 156-163.	1.2	52
118	Children's use of dental services: influence of maternal dental anxiety, attendance pattern, and perception of children's quality of life. Community Dentistry and Oral Epidemiology, 2012, 40, 451-458.	1.9	85
119	Age of first dental visit and predictors for oral healthcare utilisation in preschool children. Oral Health & Preventive Dentistry, 2012, 10, 17-27.	0.5	22
120	Developmental enamel defects and their impact on child oral health-related quality of life. Brazilian Oral Research, 2011, 25, 531-537.	1.4	40
121	Inequalities in the distribution of dental caries among 12-year-old Brazilian schoolchildren. Brazilian Oral Research, 2011, 25, 69-75.	1.4	58
122	Influence of self-perceived oral health and socioeconomic predictors on the utilization of dental care services by schoolchildren. Brazilian Oral Research, 2011, 25, 143-149.	1.4	29
123	Socioeconomic and clinical factors associated with caregivers' perceptions of children's oral health in Brazil. Community Dentistry and Oral Epidemiology, 2011, 39, 260-267.	1.9	50
124	Prevalence of tooth erosion and associated factors in 11-14-year-old Brazilian schoolchildren. Journal of Public Health Dentistry, 2011, 71, 6-12.	1.2	48
125	Influence of maternal dental anxiety on oral health–related quality of life of preschool children. Quality of Life Research, 2011, 20, 951-959.	3.1	77
126	Can type of school be used as an alternative indicator of socioeconomic status in dental caries studies? A cross-sectional study. BMC Medical Research Methodology, 2011, 11, 37.	3.1	59
