

Suzanne M Reichman

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/4842286/suzanne-m-reichman-publications-by-year.pdf>

Version: 2024-04-24

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
64	The Variation in Groundwater Microbial Communities in an Unconfined Aquifer Contaminated by Multiple Nitrogen Contamination Sources. <i>Water (Switzerland)</i> , 2022 , 14, 613	3	1
63	Preliminary investigation of effects of copper on a terrestrial population of the antarctic rotifer <i>Philodina</i> sp.. <i>Chemosphere</i> , 2022 , 300, 134413	8.4	0
62	The effects of vehicular emissions on the activity and diversity of the roadside soil microbial community. <i>Environmental Pollution</i> , 2021 , 277, 116744	9.3	4
61	Legacy and emerging per- and polyfluoroalkyl substances (PFASs) in Australian biosolids. <i>Chemosphere</i> , 2021 , 270, 129143	8.4	22
60	Per- and polyfluoroalkyl substances (PFAS) in livestock and game species: A review. <i>Science of the Total Environment</i> , 2021 , 774, 144795	10.2	20
59	Review of the interactions between vehicular emitted potentially toxic elements, roadside soils, and associated biota. <i>Chemosphere</i> , 2021 , 263, 128135	8.4	21
58	A Preliminary Assessment of As and F Uptake by Plants Growing on Uncontaminated Soils. <i>Water, Air, and Soil Pollution</i> , 2021 , 232, 1	2.6	
57	Nitrogen contamination and bioremediation in groundwater and the environment: A review. <i>Earth-Science Reviews</i> , 2021 , 222, 103816	10.2	6
56	Are root elongation assays suitable for establishing metallic anion ecotoxicity thresholds?. <i>Journal of Hazardous Materials Letters</i> , 2021 , 2, 100024	3.3	1
55	Measuring Soil Metal Bioavailability in Roadside Soils of Different Ages. <i>Environments - MDPI</i> , 2020 , 7, 91	3.2	1
54	Arsenic Concentrations and Dietary Exposure in Rice-Based Infant Food in Australia. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	14
53	Using Phosphorus-Rich Biochars to Remediate Lead-Contaminated Soil: Influence on Soil Enzymes and Extractable P. <i>Agronomy</i> , 2020 , 10, 454	3.6	6
52	Assessing the Plant Growth Promoting and Arsenic Tolerance Potential of <i>Bradyrhizobium japonicum</i> CB1809. <i>Environmental Management</i> , 2020 , 66, 930-939	3.1	5
51	The Design and Synthesis of Fluorescent Coumarin Derivatives and Their Study for Cu Sensing with an Application for Aqueous Soil Extracts. <i>Molecules</i> , 2019 , 24,	4.8	5
50	Quantifying factors related to urban metal contamination in vegetable garden soils of the west and north of Melbourne, Australia. <i>Environmental Pollution</i> , 2019 , 251, 193-202	9.3	8
49	Probing the effects of different lead compounds on the bioavailability of lead to plants. <i>Chemosphere</i> , 2019 , 230, 24-28	8.4	2
48	Phosphorus-Rich Biochars Can Transform Lead in an Urban Contaminated Soil. <i>Journal of Environmental Quality</i> , 2019 , 48, 1091-1099	3.4	34

47	Immobilisation of geogenic arsenic and vanadium in iron-rich sediments and iron stone deposits. <i>Science of the Total Environment</i> , 2019 , 654, 1072-1081	10.2	7
46	The guard cell ionome: Understanding the role of ions in guard cell functions. <i>Progress in Biophysics and Molecular Biology</i> , 2019 , 146, 50-62	4.7	7
45	Assessment of soil metal concentrations in residential and community vegetable gardens in Melbourne, Australia. <i>Chemosphere</i> , 2018 , 199, 303-311	8.4	36
44	Evaluation of environmental and anthropogenic influences on ambient background metal and metalloid concentrations in soil. <i>Science of the Total Environment</i> , 2018 , 624, 599-610	10.2	32
43	Evaluation of methods for managing censored results when calculating the geometric mean. <i>Chemosphere</i> , 2018 , 191, 412-416	8.4	10
42	Environmental and anthropogenic influences on ambient background concentrations of fluoride in soil. <i>Environmental Pollution</i> , 2018 , 242, 1838-1849	9.3	20
41	Geochemical indices and regression tree models for estimation of ambient background concentrations of copper, chromium, nickel and zinc in soil. <i>Chemosphere</i> , 2018 , 210, 193-203	8.4	8
40	Inundation of a floodplain lake woodlands system: nutritional profiling and benefit to mature <i>Eucalyptus largiflorens</i> (Black Box) trees. <i>Wetlands Ecology and Management</i> , 2018 , 26, 961-975	2.1	4
39	Assessment of ambient background concentrations of elements in soil using combined survey and open-source data. <i>Science of the Total Environment</i> , 2017 , 580, 1410-1420	10.2	13
38	Antimony leaching and chemical species analyses in an industrial solid waste: Surface and bulk speciation using ToF-SIMS and XANES. <i>Journal of Hazardous Materials</i> , 2017 , 329, 131-140	12.8	7
37	Case studies and evidence-based approaches to addressing urban soil lead contamination. <i>Applied Geochemistry</i> , 2017 , 83, 14-30	3.5	71
36	Phytoremediation of Toxic Metals in Soils and Wetlands: Concepts and Applications 2016 , 161-195		21
35	Industrial past, urban future: using palaeo-studies to determine the industrial legacy of the Barwon Estuary, Victoria, Australia. <i>Marine and Freshwater Research</i> , 2016 , 67, 837	2.2	6
34	Metal accumulation in roadside soil in Melbourne, Australia: Effect of road age, traffic density and vehicular speed. <i>Environmental Pollution</i> , 2016 , 208, 102-109	9.3	94
33	Production of the forage halophyte <i>Atriplex amnicola</i> in metal-contaminated soils. <i>Soil Use and Management</i> , 2016 , 32, 350-356	3.1	19
32	Metal Chelation in the Rhizosphere. <i>Agronomy</i> , 2015 , 57-93	0.8	3
31	Arsenic speciation in Australian-grown and imported rice on sale in Australia: implications for human health risk. <i>Journal of Agricultural and Food Chemistry</i> , 2014 , 62, 6016-24	5.7	55
30	Probing the plant growth-promoting and heavy metal tolerance characteristics of <i>Bradyrhizobium japonicum</i> CB1809. <i>European Journal of Soil Biology</i> , 2014 , 63, 7-13	2.9	24

29	Heavy metals in Australian grown and imported rice and vegetables on sale in Australia: health hazard. <i>Ecotoxicology and Environmental Safety</i> , 2014 , 100, 53-60	7	144
28	Vegetation response of Australian native grass species redgrass (<i>Bothriochloa macra</i> (Steudel) S.T. Blake) and spider grass (<i>Enteropogon acicularis</i> (Lindl.) Lazarides) in saline and arsenic contaminated gold mine tailings: A glasshouse study. <i>Minerals Engineering</i> , 2014 , 56, 61-69	4.9	14
27	Effects of copper fungicide residues on the microbial function of vineyard soils. <i>Environmental Science and Pollution Research</i> , 2013 , 20, 1574-85	5.1	22
26	Influence of Increasing Soil Copper Concentration on the Susceptibility of Phosphomonoesterase and Urease to Heat Disturbance. <i>Water, Air, and Soil Pollution</i> , 2013 , 224, 1	2.6	2
25	Industry Wide Risk Assessment: A Case Study of Cu in Australian Vineyard Soils. <i>Water, Air, and Soil Pollution</i> , 2013 , 224, 1	2.6	4
24	Horticultural Use of Copper-Based Fungicides Has Not Increased Copper Concentrations in Sediments in the Mid- and Upper Yarra Valley. <i>Water, Air, and Soil Pollution</i> , 2013 , 224, 1	2.6	4
23	The Effects of Copper Hydroxide, Captan and Trifloxystrobin Fungicides on Soil Phosphomonoesterase and Urease Activity. <i>Water, Air, and Soil Pollution</i> , 2013 , 224, 1	2.6	12
22	Impacts of standard and low environmental impact greywater irrigation on soil and plant nutrients and ecology. <i>Applied Soil Ecology</i> , 2013 , 72, 195-202	5	16
21	Environmental fate of fungicides in surface waters of a horticultural-production catchment in southeastern Australia. <i>Archives of Environmental Contamination and Toxicology</i> , 2012 , 62, 380-90	3.2	103
20	Examining the integrity of soil metal bioavailability assays in the presence of organic amendments to metal-spiked soils. <i>Soil Use and Management</i> , 2012 , 28, 89-100	3.1	9
19	Metal bioavailability dynamics during a two-year trial using ryegrass (<i>Lolium perenne</i> L.) grown in soils treated with biosolids and metal salts. <i>Soil Research</i> , 2012 , 50, 304	1.8	7
18	Separating multiple, short-term, deleterious effects of saline solutions on the growth of cowpea seedlings. <i>New Phytologist</i> , 2011 , 189, 1110-1121	9.8	22
17	Evaluation of soil metal bioavailability estimates using two plant species (<i>L. perenne</i> and <i>T. aestivum</i>) grown in a range of agricultural soils treated with biosolids and metal salts. <i>Environmental Pollution</i> , 2011 , 159, 1523-35	9.3	44
16	Alleviation of Cu and Pb rhizotoxicities in cowpea (<i>Vigna unguiculata</i>) as related to ion activities at root-cell plasma membrane surface. <i>Environmental Science & Technology</i> , 2011 , 45, 4966-73	10.3	49
15	Environmental Risks of Fungicides Used in Horticultural Production Systems 2010 ,		36
14	Inter-regional variability in environmental availability of fungicide derived copper in vineyard soils: an Australian case study. <i>Journal of Agricultural and Food Chemistry</i> , 2010 , 58, 449-57	5.7	21
13	Hyperaccumulators and herbivores-a Bayesian meta-analysis of feeding choice trials. <i>Journal of Chemical Ecology</i> , 2009 , 35, 289-96	2.7	30
12	Probing the effects of light and temperature on diurnal rhythms of phytosiderophore release in wheat. <i>New Phytologist</i> , 2007 , 174, 101-108	9.8	31

11	Critical evaluation of three indirect assays for quantifying phytosiderophores released by the roots of Poaceae. <i>European Journal of Soil Science</i> , 2007 , 58, 844-853	3.4	11
10	The potential use of the legume-rhizobium symbiosis for the remediation of arsenic contaminated sites. <i>Soil Biology and Biochemistry</i> , 2007 , 39, 2587-2593	7.5	87
9	A screen of some native Australian flora and exotic agricultural species for their potential application in cyanide-induced phytoextraction of gold. <i>Minerals Engineering</i> , 2007 , 20, 1327-1330	4.9	24
8	Effect of seed treatment on the emergence of <i>Cassia brewsteri</i> and <i>Lysiphyllum carronii</i> seeds stored in soil. <i>Rangeland Journal</i> , 2007 , 29, 133	1.5	
7	Responses of Four Australian Tree Species to Toxic Concentrations of Copper in Solution Culture. <i>Journal of Plant Nutrition</i> , 2006 , 29, 1127-1141	2.3	16
6	The effects of temperature and salinity on <i>Acacia harpophylla</i> (brigalow) (Mimosaceae) germination. <i>Rangeland Journal</i> , 2006 , 28, 175	1.5	15
5	Metal complexation by phytosiderophores in the rhizosphere 2005 , 129-156		17
4	Seedling responses of four Australian tree species to toxic concentrations of manganese in solution culture. <i>Plant and Soil</i> , 2004 , 258, 341-350	4.2	18
3	Revisiting the metal-binding chemistry of nicotianamine and 2'-deoxymugineic acid. Implications for iron nutrition in strategy II plants. <i>Plant Physiology</i> , 2002 , 129, 1435-8	6.6	30
2	Seedling responses of three Australian tree species to toxic concentrations of zinc in solution culture. <i>Plant and Soil</i> , 2001 , 235, 151-158	4.2	25
1	Bioavailability of Cu, Zn, and Mn in Contaminated Soils and Speciation in Soil Solution 2001 ,		1
