#	ARTICLE	IF	CITATIONS
1	Transforming consumer health informatics through a patient work framework: connecting patients to context. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2015, 22, 2-10.	2.2	201
2	Ensuring full participation of people with disabilities in an era of telehealth. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2021, 28, 389-392.	2.2	80
3	Macroergonomic factors in the patient work system: examining the context of patients with chronic illness. <i>Ergonomics</i> , 2017, 60, 26-43.	1.1	78
4	Human factors and ergonomics in home care: Current concerns and future considerations for health information technology. <i>Work</i> , 2009, 33, 201-209.	0.6	53
5	Beyond Traditional Advertisements: Leveraging Facebook's Social Structures for Research Recruitment. <i>Journal of Medical Internet Research</i> , 2014, 16, e243.	2.1	53
6	Spanish-Language Consumer Health Information Technology Interventions: A Systematic Review. <i>Journal of Medical Internet Research</i> , 2016, 18, e214.	2.1	51
7	Exploring patients' health information communication practices with social network members as a foundation for consumer health IT design. <i>International Journal of Medical Informatics</i> , 2015, 84, 363-374.	1.6	50
8	Patient ergonomics: 10-year mapping review of patient-centered human factors. <i>Applied Ergonomics</i> , 2020, 82, 102972.	1.7	44
9	Designing consumer health IT to enhance usability among different racial and ethnic groups within the United States. <i>Health and Technology</i> , 2012, 2, 225-233.	2.1	41
10	Technical infrastructure implications of the patient work framework. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2015, 22, e213-e215.	2.2	41
11	Technology-enhanced practice for patients with chronic cardiac disease: Home implementation and evaluation. <i>Heart and Lung: Journal of Acute and Critical Care</i> , 2010, 39, S34-S46.	0.8	37
12	Work system barriers to patient, provider, and caregiver use of personal health records: A systematic review. <i>Applied Ergonomics</i> , 2016, 54, 218-242.	1.7	37
13	Uncovering the invisible patient work system through a case study of breast cancer self-management. <i>Ergonomics</i> , 2018, 61, 1575-1590.	1.1	25
14	Citizen science to further precision medicine: from vision to implementation. <i>JAMIA Open</i> , 2020, 3, 2-8.	1.0	24
15	Qualitative ergonomics/human factors research in health care: Current state and future directions. <i>Applied Ergonomics</i> , 2017, 62, 43-71.	1.7	22
16	Infinicare framework for integrated understanding of health-related activities in clinical and daily-living contexts. <i>Health Systems</i> , 2018, 7, 66-78.	0.9	22
17	Mechanisms of Communicating Health Information Through Facebook: Implications for Consumer Health Information Technology Design. <i>Journal of Medical Internet Research</i> , 2016, 18, e218.	2.1	22
18	Health Care Human Factors/Ergonomics Fieldwork in Home and Community Settings. <i>Ergonomics in Design</i> , 2016, 24, 4-9.	0.4	20

#	ARTICLE	IF	CITATIONS
19	From loquacious to reticent: understanding patient health information communication to guide consumer health IT design. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2017, 24, 680-696.	2.2	20
20	Patient-centered care, collaboration, communication, and coordination: a report from AMIA's 2013 Policy Meeting. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2015, 22, e2-e6.	2.2	19
21	A Systematic Review of Telerehabilitation and mHealth Interventions for Spinal Cord Injury. <i>Current Physical Medicine and Rehabilitation Reports</i> , 2016, 4, 295-311.	0.3	14
22	A Systematic Review of Design Workshops for Health Information Technologies. <i>Informatics</i> , 2021, 8, 34.	2.4	14
23	The Impact of Frequency and Tone of Parent-Youth Communication on Type 1 Diabetes Management. <i>Diabetes Therapy</i> , 2017, 8, 625-636.	1.2	13
24	“I Love Fruit But I Can’t Afford It”: Using Participatory Action Research to Develop Community-Based Initiatives to Mitigate Challenges to Chronic Disease Management in an African American Community Living in Public Housing. <i>Journal of Racial and Ethnic Health Disparities</i> , 2018, 5, 1315-1327.	1.8	13
25	Human-Computer Interaction, Ethics, and Biomedical Informatics. <i>Yearbook of Medical Informatics</i> , 2020, 29, 093-098.	0.8	12
26	Self-Management Characterization for Families of Children With Medical Complexity and Their Social Networks: Protocol for a Qualitative Assessment. <i>JMIR Research Protocols</i> , 2020, 9, e14810.	0.5	11
27	Town Hall on Patient-Centered Human Factors and Ergonomics. <i>Proceedings of the Human Factors and Ergonomics Society</i> , 2018, 62, 465-468.	0.2	9
28	The lived experience during the peri-diagnostic period of breast cancer: A scoping review. <i>Patient Education and Counseling</i> , 2022, 105, 547-585.	1.0	9
29	2019 Town Hall on Human Factors and Ergonomics for Patient Work. <i>Proceedings of the Human Factors and Ergonomics Society</i> , 2019, 63, 725-728.	0.2	8
30	Understanding the experiences of self-injurious behavior in autism spectrum disorder: Implications for monitoring technology design. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2021, 28, 303-310.	2.2	8
31	Critical design factors for information technology supporting type 1 diabetes management. , 2016, , .		6
32	Embracing Complexity: Rethinking Culturally Informed Design in Human Factors/Ergonomics and Consumer Health Informatics. <i>International Journal of Human-Computer Interaction</i> , 2017, 33, 322-332.	3.3	6
33	Patient Work Methods: Current Methods of Engaging Patients in Systems Design in Clinical, Community and Extraterrestrial Settings. <i>Proceedings of the Human Factors and Ergonomics Society</i> , 2017, 61, 625-629.	0.2	6
34	Understanding Gaps Between Daily Living and Clinical Settings in Chronic Disease Management: Qualitative Study. <i>Journal of Medical Internet Research</i> , 2021, 23, e17590.	2.1	6
35	Ethics in Health Research Using Social Media. , 2019, , 259-269.		6
36	Beyond Disease: Technologies for Health Promotion. <i>Proceedings of the International Symposium of Human Factors and Ergonomics in Healthcare</i> , 2019, 8, 62-66.	0.2	5

#	ARTICLE	IF	CITATIONS
37	Design for inclusivity. , 2020, , 305-322.		5
38	Informatics-enabled citizen science to advance health equity. Journal of the American Medical Informatics Association: JAMIA, 2021, 28, 2009-2012.	2.2	5
39	Human Factors and Ergonomic Concerns and Future Considerations for Consumer Health Information Technology in Home Nursing Care. Proceedings of the Human Factors and Ergonomics Society, 2008, 52, 850-854.	0.2	4
40	Online Filipino-Americans' perspectives on informatics-enabled health management. Health Policy and Technology, 2015, 4, 320-336.	1.3	4
41	The Patient in Patient Safety: Cliniciansâ€™ Experiences Engaging Patients as Partners in Safety. Proceedings of the International Symposium of Human Factors and Ergonomics in Healthcare, 2019, 8, 265-269.	0.2	4
42	Human Factors Engineering: Designing for Diversity and Accessibility. Proceedings of the Human Factors and Ergonomics Society, 2021, 65, 1137-1140.	0.2	4
43	Self-Management Tasks of Adult Patients with Phenylketonuria: Needs Assessment for a Food Tracking Application. Proceedings of the Human Factors and Ergonomics Society, 2019, 63, 787-791.	0.2	3
44	Designing Consumer Health Information Technology to Support Biform and Articulation Work: A Qualitative Study of Diet and Nutrition Management as Patient Work. JMIR Human Factors, 2021, 8, e27452.	1.0	3
45	Designing For Diversity: Implications for Research and Practice. Proceedings of the Human Factors and Ergonomics Society, 2020, 64, 563-567.	0.2	3
46	To talk or not to talk: exploring culturally diverse patients' health information communication choices. AMIA ... Annual Symposium proceedings, 2010, 2010, 812-6.	0.2	3
47	A theory-based problem-solving approach to recruitment challenges in a large randomized field trial. Applied Nursing Research, 2011, 24, 179-187.	1.0	2
48	A User-Centered Need Analysis of Cancer Patient Navigation â€™ An Intersection of Collaborative Work and Collaborative Health IT. Proceedings of the International Symposium of Human Factors and Ergonomics in Healthcare, 2021, 10, 23-27.	0.2	2
49	Development of a Research Agenda at the Intersection of Industrial and Systems Engineering and Health Care: Implications for Human Factors and Ergonomics. Proceedings of the Human Factors and Ergonomics Society, 2010, 54, 830-834.	0.2	1
50	Exploring Challenges of Monitoring Technology and Self-Injurious Behavior in Autism Spectrum Disorder. Proceedings of the Human Factors and Ergonomics Society, 2018, 62, 620-621.	0.2	1
51	Human Factors Approaches to Improving Health Equity â€™ Where have we been and where should we go next?. Proceedings of the International Symposium of Human Factors and Ergonomics in Healthcare, 2018, 7, 165-166.	0.2	0
52	Remembering Ben-Tzion Karsh's scholarship, impact, and legacy. Applied Ergonomics, 2021, 92, 103308.	1.7	0
53	The Nature of Systems in Healthcare. Comprehensive Healthcare Simulation, 2021, , 3-13.	0.2	0
54	Patient Ergonomics in Hospital and Community Settings. Lecture Notes in Networks and Systems, 2021, , 336-343.	0.5	0

#	ARTICLE	IF	CITATIONS
55	Children with Medical Complexity: Challenges and Opportunities for Human Factors/Ergonomics. Proceedings of the Human Factors and Ergonomics Society, 2020, 64, 697-701.	0.2	0
56	Understanding informed consent in bioinformatics research: cross-cultural issues. AMIA ... Annual Symposium proceedings, 2007, , 1142.	0.2	0
