#	ARTICLE	IF	CITATIONS
1	The impact of smoking cessation on multiple sclerosis disease progression. <i>Brain</i> , 2022, 145, 1368-1378.	3.7	16
2	A Comprehensive Literature Search of Digital Health Technology Use in Neurological Conditions: Review of Digital Tools to Promote Self-management and Support. <i>Journal of Medical Internet Research</i> , 2022, 24, e31929.	2.1	7
3	Research Evaluation Alongside Clinical Treatment in COVID-19 (REACT COVID-19): an observational and biobanking study. <i>BMJ Open</i> , 2021, 11, e043012.	0.8	12
4	Degeneration of basal and limbic networks is a core feature of behavioural variant frontotemporal dementia. <i>Brain Communications</i> , 2021, 3, fcab241.	1.5	3
5	Progression modelling of cognitive decline and associated FDGâ€‘PET imaging features in Alzheimerâ€™s disease. <i>Alzheimer's and Dementia</i> , 2020, 16, e045900.	0.4	1
6	Quality of Life Assessments in Individuals With Young-Onset Dementia and Their Caregivers. <i>Journal of Geriatric Psychiatry and Neurology</i> , 2020, 34, 089198872093334.	1.2	9
7	Concentration-Dependent Activity of Hydromethylthionine on Clinical Decline and Brain Atrophy in a Randomized Controlled Trial in Behavioral Variant Frontotemporal Dementia. <i>Journal of Alzheimer's Disease</i> , 2020, 75, 501-519.	1.2	17
8	Clinical nurse specialist's role in young-onset dementia care. <i>British Journal of Community Nursing</i> , 2020, 25, 604-609.	0.2	1
9	Measuring younger onset dementia: What the qualitative literature reveals about the â€‘lived experienceâ€™ for patients and caregivers. <i>Dementia</i> , 2019, 18, 579-598.	1.0	52
10	Imaging Care Requirements: Use of Functional Neuroimaging to Predict Dementia Caregiver Burden. <i>Dementia and Geriatric Cognitive Disorders Extra</i> , 2018, 8, 180-189.	0.6	0
11	Understanding important issues in young-onset dementia care: the perspective of healthcare professionals. <i>Neurodegenerative Disease Management</i> , 2018, 8, 37-47.	1.2	14
12	Occipital lobe and posterior cingulate perfusion in the prediction of dementia with Lewy body pathology in a clinical sample. <i>Nuclear Medicine Communications</i> , 2017, 38, 1029-1035.	0.5	5
13	Assessing Decline: Visualising Progression in Huntingtonâ€™s Disease using a Clinical Dashboard with Enroll-HD Data. <i>Journal of Huntington's Disease</i> , 2017, 6, 139-147.	0.9	5
14	[P3â€‘477]: REGIONAL CAPACITY PLANNING FOR DEMENTIA CLINIC DIAGNOSIS. <i>Alzheimer's and Dementia</i> , 2017, 13, P1159.	0.4	1
15	[P3â€‘501]: DEMENTIA DIAGNOSIS TOOLKIT: IMPROVING IDENTIFICATION OF DEMENTIA IN CARE HOMES. <i>Alzheimer's and Dementia</i> , 2017, 13, P1168.	0.4	0
16	[P1â€‘524]: IMAGING CARE REQUIREMENTS: USE OF FUNCTIONAL HMPAOâ€‘SPECT SCANNING TO PREDICT CAREGIVER BURDEN. <i>Alzheimer's and Dementia</i> , 2017, 13, P494.	0.4	0
17	[P1â€‘528]: IMPORTANT ISSUES IN YOUNG ONSET DEMENTIA CARE: THE PERSPECTIVE OF HEALTHCARE PROFESSIONALS. <i>Alzheimer's and Dementia</i> , 2017, 13, P496.	0.4	0
18	Memory Impairment at Initial Clinical Presentation in Posterior Cortical Atrophy. <i>Journal of Alzheimer's Disease</i> , 2016, 52, 1245-1250.	1.2	26

#	ARTICLE	IF	CITATIONS
19	P1â€²93: Predicting Alzheimer's Disease Cerebrospinal Fluid Biomarkers Using Regional Cerebral Blood Flow. Alzheimer's and Dementia, 2016, 12, P533.	0.4	0
20	P3-225: Biomarker Validated Perfusion Imaging Pattern Ranking for Prediction of Alzheimer's Disease. , 2016, 12, P911-P912.		0
21	Sensitivity of revised diagnostic criteria for the behavioural variant of frontotemporal dementia. Brain, 2011, 134, 2456-2477.	3.7	3,913
22	Nonprogressive behavioural frontotemporal dementia: recent developments and clinical implications of the â€ˆbvFTD phenocopy syndromeâ€™™. Current Opinion in Neurology, 2010, 23, 628-632.	1.8	103
23	Variant Creutzfeldt-Jakob disease: Neuropsychological profile in an extended series of cases. Journal of the International Neuropsychological Society, 2009, 15, 807-810.	1.2	2
24	Is the pathology of corticobasal syndrome predictable in life?. Movement Disorders, 2009, 24, 1593-1599.	2.2	121
25	Emotion, social functioning and activities of daily living in frontotemporal dementia. Neurocase, 2009, 15, 182-189.	0.2	80
26	Activities of Daily Living in Behavioral Variant Frontotemporal Dementia. Alzheimer Disease and Associated Disorders, 2009, 23, 70-76.	0.6	40
27	Executive function in progressive and nonprogressive behavioral variant frontotemporal dementia. Neurology, 2008, 71, 1481-1488.	1.5	133
28	Clinical Significance of Lobar Atrophy in Frontotemporal Dementia: Application of an MRI Visual Rating Scale. Dementia and Geriatric Cognitive Disorders, 2007, 23, 334-342.	0.7	150
29	Chapter 5 Frontotemporal Dementia Syndromes. Blue Books of Neurology, 2007, , 112-140.	0.1	1
30	Diagnostic Criteria for the Behavioral Variant of Frontotemporal Dementia (bvFTD): Current Limitations and Future Directions. Alzheimer Disease and Associated Disorders, 2007, 21, S14-S18.	0.6	219
31	Clinical presentations of frontotemporal dementia. , 2007, , 38-79.		11
32	The relationship between affective decision-making and theory of mind in the frontal variant of fronto-temporal dementia. Neuropsychologia, 2007, 45, 342-349.	0.7	198
33	Frontotemporal dementia. Current Opinion in Neurology, 2006, 19, 565-571.	1.8	34
34	Social reasoning, emotion and empathy in frontotemporal dementia. Neuropsychologia, 2006, 44, 950-958.	0.7	376
35	Progression in Frontotemporal Dementia. Archives of Neurology, 2006, 63, 1627.	4.9	189
36	Theory of mind in frontotemporal dementia. Social Neuroscience, 2006, 1, 235-244.	0.7	74

#	ARTICLE	IF	CITATIONS
37	Movement disorder emergencies. <i>Movement Disorders</i> , 2005, 20, 322-334.	2.2	96
38	Reply: Akinetic crisis, acute akinesia, neuroleptic malignant-like syndrome, Parkinsonism-like hyperpyrexia syndrome, and malignant syndrome are the same entity and are often independent of treatment withdrawal. <i>Movement Disorders</i> , 2005, 20, 1671-1672.	2.2	2
