#	ARTICLE	IF	CITATIONS
1	Measurement Invariance of the GAD-7 and CESD-R-10 Among Adolescents in Canada. <i>Journal of Pediatric Psychology</i> , 2022, 47, 585-594.	1.1	25
2	Income inequality and depression among Canadian secondary students: Are psychosocial well-being and social cohesion mediating factors?. <i>SSM - Population Health</i> , 2022, 17, 100994.	1.3	6
3	Examining the role that weight perception and social influences have on mental health among youth in the COMPASS study. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2022, 57, 1671-1684.	1.6	4
4	Loneliness and screen time usage over a year. <i>Journal of Adolescence</i> , 2022, 94, 318-332.	1.2	1
5	The Relations between Youth Cannabis Use, School Cannabis Use-Related Disciplinary Approaches and Student Perceptions of School Support. <i>Substance Use and Misuse</i> , 2022, 57, 897-910.	0.7	1
6	Do You Really Want to Be Forever Young? Emotional Health and Psychosocial Well-being by Relative Birth Quarter in Canadian Adolescents. <i>Journal of Adolescent Health</i> , 2022, 70, 625-633.	1.2	2
7	A supportive school environment may reduce the risk of non-medical prescription opioid use due to impaired mental health among students. <i>European Child and Adolescent Psychiatry</i> , 2021, 30, 293-301.	2.8	4
8	Hit the chronicâ€¦ physical activity: are cannabis associated mental health changes in adolescents attenuated by remaining active?. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2021, 56, 141-152.	1.6	3
9	Does school connectedness differ by student ethnicity? A latent class analysis among Canadian youth. <i>Multicultural Education Review</i> , 2021, 13, 64-84.	0.4	5
10	Mental Health Associations with Academic Performance and Education Behaviors in Canadian Secondary School Students. <i>Canadian Journal of School Psychology</i> , 2021, 36, 335-357.	1.6	20
11	Are closed campus policies associated with adolescent eating behaviours?. <i>Health Promotion and Chronic Disease Prevention in Canada: Research, Policy and Practice</i> , 2021, 41, 73-84.	0.8	2
12	Effects of reallocating physical activity, sedentary behaviors, and sleep on mental health in adolescents. <i>Mental Health and Physical Activity</i> , 2021, 20, 100380.	0.9	23
13	Can We Reverse this Trend? Exploring Health and Risk Behaviours of Grade 12 Cohorts of Ontario Students from 2013â€“2019. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 3109.	1.2	7
14	Disciplinary Approaches for Cannabis Use Policy Violations in Canadian Secondary Schools. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 2472.	1.2	3
15	Weight control intentions and mental health among Canadian adolescents: a gender-based analysis of students in the COMPASS study. <i>Health Promotion and Chronic Disease Prevention in Canada: Research, Policy and Practice</i> , 2021, 41, 119-130.	0.8	6
16	Secondary School Nutrition Policy Compliance in Ontario and Alberta, Canada: A Follow-Up Study Examining Vending Machine Data from the COMPASS Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 3817.	1.2	2
17	Substance use classes and symptoms of anxiety and depression among Canadian secondary school students. <i>Health Promotion and Chronic Disease Prevention in Canada: Research, Policy and Practice</i> , 2021, 41, 153-164.	0.8	11
18	Cannabis Use, Screen Time, and Internalizing Symptoms among Canadian Youth: Testing Mediation Pathways. <i>Substance Use and Misuse</i> , 2021, 56, 1232-1240.	0.7	0

#	ARTICLE	IF	CITATIONS
19	Examining the impact of the early stages of the COVID-19 pandemic period on youth cannabis use: adjusted annual changes between the pre-COVID and initial COVID-lockdown waves of the COMPASS study. <i>BMC Public Health</i> , 2021, 21, 1181.	1.2	23
20	Do weight perception and bullying victimization account for links between weight status and mental health among adolescents?. <i>BMC Public Health</i> , 2021, 21, 1062.	1.2	21
21	Assessing the impact of sports and recreation facility density within school neighbourhoods on Canadian adolescents' substance use behaviours: quasi-experimental evidence from the COMPASS study, 2015-2018. <i>BMJ Open</i> , 2021, 11, e046171.	0.8	3
22	An Impact Analysis of the Early Months of the COVID-19 Pandemic on Mental Health in a Prospective Cohort of Canadian Adolescents. <i>Journal of Adolescent Health</i> , 2021, 69, 917-924.	1.2	31
23	Exploring the Association Between Sport Participation and Symptoms of Anxiety and Depression in a Sample of Canadian High School Students. <i>Journal of Clinical Sport Psychology</i> , 2021, 15, 268-287.	0.6	12
24	Longitudinal association between movement behaviours and depressive symptoms among adolescents using compositional data analysis. <i>PLoS ONE</i> , 2021, 16, e0256867.	1.1	13
25	The Impact of Changes in Physical Education Class Enrollment on Moderate-to-Vigorous Physical Activity Among a Large Sample of Canadian Youth. <i>Journal of School Health</i> , 2021, 91, 1030-1036.	0.8	3
26	Bi-directional relationships between physical activity and mental health among a large sample of Canadian youth: a sex-stratified analysis of students in the COMPASS study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021, 18, 132.	2.0	10
27	Associations between Longitudinal Patterns of Substance Use and Anxiety and Depression Symptoms among a Sample of Canadian Secondary School Students. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 10468.	1.2	5
28	Substance-related coping behaviours among youth during the early months of the COVID-19 pandemic. <i>Addictive Behaviors Reports</i> , 2021, 14, 100392.	1.0	15
29	High School Bullying and Mental Disorder: an Examination of the Association with Flourishing and Emotional Regulation. <i>International Journal of Bullying Prevention</i> , 2020, 2, 241-252.	1.3	10
30	Reluctancy towards Help-Seeking for Mental Health Concerns at Secondary School among Students in the COMPASS Study. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 7128.	1.2	6
31	Are weight status and weight perception associated with academic performance among youth?. <i>Journal of Eating Disorders</i> , 2020, 8, 52.	1.3	9
32	Complete mental health status and associations with physical activity, screen time, and sleep in youth. <i>Mental Health and Physical Activity</i> , 2020, 19, 100354.	0.9	17
33	Predictors of One-Year Change in How Youth Perceive Their Weight. <i>Journal of Obesity</i> , 2020, 2020, 1-15.	1.1	6
34	Are School Substance Use Policy Violation Disciplinary Consequences Associated with Student Engagement in Cannabis?. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 5549.	1.2	6
35	Measurement Invariance of the Flourishing Scale among a Large Sample of Canadian Adolescents. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 7800.	1.2	33
36	Are one-year changes in adherence to the 24-hour movement guidelines associated with depressive symptoms among youth?. <i>BMC Public Health</i> , 2020, 20, 793.	1.2	32

#	ARTICLE	IF	CITATIONS
37	Are one-year changes in adherence to the 24-hour movement guidelines associated with flourishing among Canadian youth?. Preventive Medicine, 2020, 139, 106179.	1.6	20
38	A Behavioral Genetic Model of the Mechanisms Underlying the Link Between Obesity and Symptoms of ADHD. Journal of Attention Disorders, 2020, 24, 1425-1436.	1.5	30
39	Examining associations between school food environment characteristics and sugar-sweetened beverage consumption among Canadian secondary-school students in the COMPASS study. Public Health Nutrition, 2019, 22, 1928-1940.	1.1	16
40	Psychological correlates and binge drinking behaviours among Canadian youth: a cross-sectional analysis of the mental health pilot data from the COMPASS study. BMJ Open, 2019, 9, e028558.	0.8	15
41	Psychological and Behavioural Correlates of Cannabis use among Canadian Secondary School Students: Findings from the COMPASS Study. Canadian Journal of Addiction, 2019, 10, 10-21.	0.2	12
42	School start time changes in the COMPASS study: associations with youth sleep duration, physical activity, and screen time. Sleep Medicine, 2019, 56, 16-22.	0.8	15
43	Interrelationships among depression, anxiety, flourishing, and cannabis use in youth. Addictive Behaviors, 2019, 89, 206-215.	1.7	29
44	Food Purchasing Behaviors and Sugar-Sweetened Beverage Consumption among Canadian Secondary School Students in the COMPASS Study. Journal of Nutrition Education and Behavior, 2018, 50, 803-812.e1.	0.3	9
45	Examining Predictors of Breakfast Skipping and Breakfast Program Use Among Secondary School Students in the COMPASS Study. Journal of School Health, 2018, 88, 150-158.	0.8	18
46	Modifiable predictors of insufficient sleep durations: A longitudinal analysis of youth in the COMPASS study. Preventive Medicine, 2018, 106, 164-170.	1.6	30
47	Examining changes in school vending machine beverage availability and sugar-sweetened beverage intake among Canadian adolescents participating in the COMPASS study: a longitudinal assessment of provincial school nutrition policy compliance and effectiveness. International Journal of Behavioral Nutrition and Physical Activity, 2018, 15, 121.	2.0	14
48	A cross-sectional analysis examining the association between dieting behaviours and alcohol use among secondary school students in the COMPASS study. Journal of Public Health, 2017, 39, fdw034.	1.0	14
49	Marijuana and Alcohol Use as Predictors of Academic Achievement: A Longitudinal Analysis Among Youth in the COMPASS Study. Journal of School Health, 2017, 87, 310-318.	0.8	49
50	Youth sleep durations and school start times: a cross-sectional analysis of the COMPASS study. Sleep Health, 2017, 3, 432-436.	1.3	16
51	Is Binge Drinking Onset Timing Related to Academic Performance, Engagement, and Aspirations Among Youth in the COMPASS Study?. Substance Use and Misuse, 2017, 52, 1795-1800.	0.7	15
52	Sleep duration trends and trajectories among youth in the COMPASS study. Sleep Health, 2017, 3, 309-316.	1.3	56
53	The school environment and sugar-sweetened beverage consumption among Guatemalan adolescents. Public Health Nutrition, 2017, 20, 2980-2987.	1.1	27
54	Examining Guidelines for School-Based Breakfast Programs in Canada: A Systematic Review of the Grey Literature. Canadian Journal of Dietetic Practice and Research, 2017, 78, 92-100.	0.5	20

#	ARTICLE	IF	CITATIONS
55	Binge drinking and academic performance, engagement, aspirations, and expectations: a longitudinal analysis among secondary school students in the COMPASS study. <i>Health Promotion and Chronic Disease Prevention in Canada: Research, Policy and Practice</i> , 2017, 37, 376-385.	0.8	26
56	Compliance with school nutrition policies in Ontario and Alberta: An assessment of secondary school vending machine data from the COMPASS study. <i>Canadian Journal of Public Health</i> , 2017, 108, e43-e48.	1.1	21
57	An analysis of weight perception and physical activity and dietary behaviours among youth in the COMPASS study. <i>SSM - Population Health</i> , 2016, 2, 841-849.	1.3	32
58	Weight Perception and Weight-control Intention among Youth in the COMPASS Study. <i>American Journal of Health Behavior</i> , 2016, 40, 614-623.	0.6	11
59	Immediate pleasures and future consequences. A neuropsychological study of binge eating and obesity. <i>Appetite</i> , 2010, 54, 208-213.	1.8	281
60	A psycho-genetic study of associations between the symptoms of binge eating disorder and those of attention deficit (hyperactivity) disorder. <i>Journal of Psychiatric Research</i> , 2009, 43, 687-696.	1.5	40
61	Personality and eating behaviors: A case-control study of binge eating disorder. <i>International Journal of Eating Disorders</i> , 2008, 41, 243-250.	2.1	84
62	Reward sensitivity and the D2 dopamine receptor gene: A case-control study of binge eating disorder. <i>Progress in Neuro-Psychopharmacology and Biological Psychiatry</i> , 2008, 32, 620-628.	2.5	144
63	Symptoms of attention-deficit/hyperactivity disorder, overeating, and body mass index in men. <i>Eating Behaviors</i> , 2008, 9, 516-518.	1.1	35
64	Education level moderates learning on two versions of the Iowa Gambling Task. <i>Journal of the International Neuropsychological Society</i> , 2008, 14, 1063-1068.	1.2	37
65	Dopamine Transporter Gene (DAT1) Associated with Appetite Suppression to Methylphenidate in a Case-control Study of Binge Eating Disorder. <i>Neuropsychopharmacology</i> , 2007, 32, 2199-2206.	2.8	60
66	From motivation to behaviour: A model of reward sensitivity, overeating, and food preferences in the risk profile for obesity. <i>Appetite</i> , 2007, 48, 12-19.	1.8	314
67	Psychological factors associated with ratings of portion size: Relevance to the risk profile for obesity. <i>Eating Behaviors</i> , 2007, 8, 170-176.	1.1	17
68	Personality traits associated with decision-making deficits. <i>Personality and Individual Differences</i> , 2007, 42, 279-290.	1.6	72
