#	ARTICLE	IF	CITATIONS
1	Effectiveness of two procedures for deploying a facilitated collaborative modeling implementation strategy—the PVS-PREDIAPS strategy—to optimize type 2 diabetes prevention in primary care: the PREDIAPS cluster randomized hybrid type II implementation trial. <i>Implementation Science</i> , 2021, 16, 58.	6.9	3
2	“My Patients Asked Me If I Owned a Fruit Stand in Town or Something.” Barriers and Facilitators of Personalized Dietary Advice Implemented in a Primary Care Setting. <i>Journal of Personalized Medicine</i> , 2021, 11, 747.	2.5	4
3	Implementing Exercise in Standard Cancer Care (Bizi Orain Hybrid Exercise Program): Protocol for a Randomized Controlled Trial. <i>JMIR Research Protocols</i> , 2021, 10, e24835.	1.0	6
4	Barriers and facilitators in the implementation of an evidence-based health promotion intervention in a primary care setting: a qualitative study. <i>Journal of Health Organization and Management</i> , 2021, 35, 349-367.	1.3	13
5	Consensus on priorities in maternal education: results of Delphi and nominal group technique approaches. <i>BMC Pregnancy and Childbirth</i> , 2019, 19, 264.	2.4	20
6	Future Directions for the Organizational Readiness for Knowledge Translation (OR4KT) Tool: Response to Recent Commentaries. <i>International Journal of Health Policy and Management</i> , 2019, 8, 315-316.	0.9	4
7	Effective translation of a type-2 diabetes primary prevention programme into routine primary care: The PreDE cluster randomised clinical trial. <i>Diabetes Research and Clinical Practice</i> , 2018, 139, 32-42.	2.8	8
8	An evaluation of Spanish and English on-line information sources regarding pregnancy, birth and the postnatal period. <i>Midwifery</i> , 2018, 58, 19-26.	2.3	21
9	Engaging primary care professionals in collaborative processes for optimising type 2 diabetes prevention practice: the PREDIAPS cluster randomised type II hybrid implementation trial. <i>Implementation Science</i> , 2018, 13, 94.	6.9	6
10	Development and Content Validation of a Transcultural Instrument to Assess Organizational Readiness for Knowledge Translation in Healthcare Organizations: The OR4KT. <i>International Journal of Health Policy and Management</i> , 2018, 7, 791-797.	0.9	25
11	Efficiency of “Prescribe Vida Saludable”, a health promotion innovation. Pilot phase. <i>Gaceta Sanitaria</i> , 2017, 31, 404-409.	1.5	2
12	Feasibility of an implementation strategy for the integration of health promotion in routine primary care: a quantitative process evaluation. <i>BMC Family Practice</i> , 2017, 18, 24.	2.9	16
13	The implementation of health promotion in primary and community care: a qualitative analysis of the “Prescribe Vida Saludable”™ strategy. <i>BMC Family Practice</i> , 2017, 18, 23.	2.9	19
14	Framework for the establishment of a feasible, tailored and effective perinatal education programme. <i>BMC Pregnancy and Childbirth</i> , 2017, 17, 58.	2.4	16
15	Validity and reliability of the Spanish version of the Organizational Readiness for Knowledge Translation (OR4KT) questionnaire. <i>Implementation Science</i> , 2017, 12, 128.	6.9	11
16	Collaborative modeling of an implementation strategy: a case study to integrate health promotion in primary and community care. <i>BMC Research Notes</i> , 2017, 10, 699.	1.4	12
17	Standards for Reporting Implementation Studies (StaRI) Statement. <i>BMJ: British Medical Journal</i> , 2017, 356, i6795.	2.3	621
18	Type-2 diabetes primary prevention program implemented in routine primary care: a process evaluation study. <i>Trials</i> , 2016, 17, 254.	1.6	6
