

Gary King

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/4946411/gary-king-publications-by-year.pdf>

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

101
papers

24,975
citations

#	Paper	IF	Citations
101	Precision mapping child undernutrition for nearly 600,000 inhabited census villages in India. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2021 , 118,	11.5	3
100	How to Measure Legislative District Compactness If You Only Know It When You See It. <i>American Journal of Political Science</i> , 2021 , 65, 533-550	2.9	7
99	Survey data and human computation for improved flu tracking. <i>Nature Communications</i> , 2021 , 12, 194	17.4	4
98	Building an international consortium for tracking coronavirus health status. <i>Nature Medicine</i> , 2020 , 26, 1161-1165	50.5	16
97	The Math Prefresher and the Collective Future of Political Science Graduate Training. <i>PS - Political Science and Politics</i> , 2020 , 53, 537-541	0.4	
96	Theoretical Foundations and Empirical Evaluations of Partisan Fairness in District-Based Democracies. <i>American Political Science Review</i> , 2020 , 114, 164-178	4.5	11
95	Do Nonpartisan Programmatic Policies Have Partisan Electoral Effects? Evidence from Two Large-Scale Experiments. <i>Journal of Politics</i> , 2020 , 82, 714-730	2.2	15
94	Population-scale longitudinal mapping of COVID-19 symptoms, behaviour and testing. <i>Nature Human Behaviour</i> , 2020 , 4, 972-982	12.8	51
93	Ecological Regression with Partial Identification. <i>Political Analysis</i> , 2020 , 28, 65-86	5.3	2
92	A New Model for Industry-Academic Partnerships. <i>PS - Political Science and Politics</i> , 2020 , 53, 703-709	0.4	35
91	Why Propensity Scores Should Not Be Used for Matching. <i>Political Analysis</i> , 2019 , 27, 435-454	5.3	392
90	A Theory of Statistical Inference for Matching Methods in Causal Research. <i>Political Analysis</i> , 2019 , 27, 46-68	5.3	30
89	A Unified Approach to Measurement Error and Missing Data: Overview and Applications. <i>Sociological Methods and Research</i> , 2017 , 46, 303-341	2.9	74
88	How the Chinese Government Fabricates Social Media Posts for Strategic Distraction, Not Engaged Argument. <i>American Political Science Review</i> , 2017 , 111, 484-501	4.5	350
87	How the news media activate public expression and influence national agendas. <i>Science</i> , 2017 , 358, 776-780	39.9	112
86	The Balance-Sample Size Frontier in Matching Methods for Causal Inference. <i>American Journal of Political Science</i> , 2017 , 61, 473-489	2.9	49
85	Automating Open Science for Big Data. <i>Annals of the American Academy of Political and Social Science</i> , 2015 , 659, 260-273	2.8	20

84	Explaining Systematic Bias and Nontransparency in U.S. Social Security Administration Forecasts. <i>Political Analysis</i> , 2015 , 23, 336-362	5.3	4
83	How Robust Standard Errors Expose Methodological Problems They Do Not Fix, and What to Do About It. <i>Political Analysis</i> , 2015 , 23, 159-179	5.3	119
82	Big data. The parable of Google Flu: traps in big data analysis. <i>Science</i> , 2014 , 343, 1203-5	33.3	1434
81	Political science. Reverse-engineering censorship in China: randomized experimentation and participant observation. <i>Science</i> , 2014 , 345, 1251722	33.3	162
80	Restructuring the Social Sciences: Reflections from Harvard's Institute for Quantitative Social Science. <i>PS - Political Science and Politics</i> , 2014 , 47, 165-172	0.4	39
79	How Censorship in China Allows Government Criticism but Silences Collective Expression. <i>American Political Science Review</i> , 2013 , 107, 326-343	4.5	921
78	Causal Inference without Balance Checking: Coarsened Exact Matching. <i>Political Analysis</i> , 2012 , 20, 1-24	5.3	1374
77	Statistical security for Social Security. <i>Demography</i> , 2012 , 49, 1037-60	3.5	21
76	Avoiding randomization failure in program evaluation, with application to the Medicare Health Support program. <i>Population Health Management</i> , 2011 , 14 Suppl 1, S11-22	1.8	18
75	Multivariate Matching Methods That Are Monotonic Imbalance Bounding. <i>Journal of the American Statistical Association</i> , 2011 , 106, 345-361	2.8	488
74	Ensuring the data-rich future of the social sciences. <i>Science</i> , 2011 , 331, 719-21	33.3	291
73	The future of death in America. <i>Demographic Research</i> , 2011 , 25, 1-38	1	28
72	Designing verbal autopsy studies. <i>Population Health Metrics</i> , 2010 , 8, 19	3	24
71	Deaths from heart failure: using coarsened exact matching to correct cause-of-death statistics. <i>Population Health Metrics</i> , 2010 , 8, 6	3	45
70	A Method of Automated Nonparametric Content Analysis for Social Science. <i>American Journal of Political Science</i> , 2010 , 54, 229-247	2.9	432
69	What to Do about Missing Values in Time-Series Cross-Section Data. <i>American Journal of Political Science</i> , 2010 , 54, 561-581	2.9	504
68	Case-Control Studies, Inference in 2010 , 250-259		1
67	Cem: Coarsened Exact Matching in Stata. <i>The Stata Journal</i> , 2009 , 9, 524-546	3.5	744

66	Empirical versus Theoretical Claims about Extreme Counterfactuals: A Response. <i>Political Analysis</i> , 2009 , 17, 107-112	5.3	1
65	Public policy for the poor? A randomised assessment of the Mexican universal health insurance programme. <i>Lancet, The</i> , 2009 , 373, 1447-54	4.0	183
64	The Essential Role of Pair Matching in Cluster-Randomized Experiments, with Application to the Mexican Universal Health Insurance Evaluation. <i>Statistical Science</i> , 2009 , 24,	2.4	123
63	Rejoinder: Matched Pairs and the Future of Cluster-Randomized Experiments. <i>Statistical Science</i> , 2009 , 24,	2.4	5
62	Misunderstandings between experimentalists and observationalists about causal inference. <i>Journal of the Royal Statistical Society Series A: Statistics in Society</i> , 2008 , 171, 481-502	2.1	489
61	Toward a Common Framework for Statistical Analysis and Development. <i>Journal of Computational and Graphical Statistics</i> , 2008 , 17, 892-913	1.4	201
60	Ordinary Economic Voting Behavior in the Extraordinary Election of Adolf Hitler. <i>Journal of Economic History</i> , 2008 , 68, 951-996	0.9	78
59	Verbal Autopsy Methods with Multiple Causes of Death. <i>Statistical Science</i> , 2008 , 23,	2.4	74
58	Matching for Causal Inference Without Balance Checking. <i>SSRN Electronic Journal</i> , 2008 ,	1	47
57	Demographic Forecasting 2008 ,		91
56	A "politically robust" experimental design for public policy evaluation, with application to the Mexican universal health insurance program. <i>Journal of Policy Analysis and Management</i> , 2007 , 26, 479-506	2.8	78
55	When Can History Be Our Guide? The Pitfalls of Counterfactual Inference. <i>International Studies Quarterly</i> , 2007 , 51, 183-210	1.7	143
54	Detecting Model Dependence in Statistical Inference: A Response. <i>International Studies Quarterly</i> , 2007 , 51, 231-241	1.7	3
53	Matching as Nonparametric Preprocessing for Reducing Model Dependence in Parametric Causal Inference. <i>Political Analysis</i> , 2007 , 15, 199-236	5.3	2222
52	Comparing Incomparable Survey Responses: Evaluating and Selecting Anchoring Vignettes. <i>Political Analysis</i> , 2007 , 15, 46-66	5.3	224
51	An Introduction to the Dataverse Network as an Infrastructure for Data Sharing. <i>Sociological Methods and Research</i> , 2007 , 36, 173-199	2.9	109
50	The Future of Partisan Symmetry as a Judicial Test for Partisan Gerrymandering after LULAC v. Perry. <i>Election Law Journal: Rules, Politics, and Policy</i> , 2007 , 6, 2-35	1.3	68
49	Publication, Publication. <i>PS - Political Science and Politics</i> , 2006 , 39, 119-125	0.4	34

48	The Dangers of Extreme Counterfactuals. <i>Political Analysis</i> , 2006 , 14, 131-159	5.3	285
47	Death by survey: estimating adult mortality without selection bias from sibling survival data. <i>Demography</i> , 2006 , 43, 569-85	3.5	72
46	WhatIf: RSoftware for Evaluating Counterfactuals. <i>Journal of Statistical Software</i> , 2006 , 15,	7.3	4
45	Prior and Likelihood Choices in the Analysis of Ecological Data 2004 , 13-50		5
44	Information in Ecological Inference: An Introduction 2004 , 1-12		8
43	Places and Relationships in Ecological Inference 2004 , 245-265		2
42	Theory and Evidence in International Conflict: A Response to de Marchi, Gelpi, and Grynaviski. <i>American Political Science Review</i> , 2004 , 98, 379-389	4.5	50
41	Enhancing the Validity and Cross-Cultural Comparability of Measurement in Survey Research. <i>American Political Science Review</i> , 2004 , 98, 191-207	4.5	587
40	Did Illegal Overseas Absentee Ballots Decide the 2000 U.S. Presidential Election?. <i>Perspectives on Politics</i> , 2004 , 2,	0.4	33
39	An Automated Information Extraction Tool for International Conflict Data with Performance as Good as Human Coders: A Rare Events Evaluation Design. <i>International Organization</i> , 2003 , 57, 617-642	3.5	211
38	Analyzing Second-Stage Ecological Regressions: Comment on Herron and Shotts. <i>Political Analysis</i> , 2003 , 11, 65-76	5.3	11
37	A Consensus on Second-Stage Analyses in Ecological Inference Models. <i>Political Analysis</i> , 2003 , 11, 86-94	5.3	23
36	Estimating risk and rate levels, ratios and differences in case-control studies. <i>Statistics in Medicine</i> , 2002 , 21, 1409-27	2.3	110
35	A Fast, Easy, and Efficient Estimator for Multiparty Electoral Data. <i>Political Analysis</i> , 2002 , 10, 84-100	5.3	33
34	Isolating Spatial Autocorrelation, Aggregation Bias, and Distributional Violations in Ecological Inference: Comment on Anselin and Cho. <i>Political Analysis</i> , 2002 , 10, 298-300	5.3	4
33	Logistic Regression in Rare Events Data. <i>Political Analysis</i> , 2001 , 9, 137-163	5.3	2185
32	Bayesian and Frequentist Inference for Ecological Inference: The RCI Case. <i>Statistica Neerlandica</i> , 2001 , 55, 134-156	0.9	71
31	Aggregation Among Binary, Count, and Duration Models: Estimating the Same Quantities from Different Levels of Data. <i>Political Analysis</i> , 2001 , 9, 21-44	5.3	38

30	Explaining Rare Events in International Relations. <i>International Organization</i> , 2001 , 55, 693-715	3.5	473
29	Improving Forecasts of State Failure. <i>World Politics</i> , 2001 , 53, 623-658	2.1	165
28	Analyzing Incomplete Political Science Data: An Alternative Algorithm for Multiple Imputation. <i>American Political Science Review</i> , 2001 , 95, 49-69	4.5	1087
27	Improving Quantitative Studies of International Conflict: A Conjecture. <i>American Political Science Review</i> , 2000 , 94, 21-35	4.5	156
26	Making the Most of Statistical Analyses: Improving Interpretation and Presentation. <i>American Journal of Political Science</i> , 2000 , 44, 347	2.9	1912
25	Improving Quantitative Studies of International Conflict: A Conjecture. <i>American Political Science Review</i> , 2000 , 94, 21	4.5	73
24	Binomial-Beta Hierarchical Models for Ecological Inference. <i>Sociological Methods and Research</i> , 1999 , 28, 61-90	2.9	48
23	A Statistical Model for Multiparty Electoral Data. <i>American Political Science Review</i> , 1999 , 93, 15-32	4.5	178
22	Unifying Political Methodology 1998 ,		112
21	The Generalization in the Generalized Event Count Model, with Comments on Achen, Amato, and Londregan. <i>Political Analysis</i> , 1996 , 6, 225-252	5.3	19
20	A Review: Preelection Survey Methodology: Details From Eight Polling Organizations, 1988 and 1992. <i>Public Opinion Quarterly</i> , 1995 , 59, 98	2.5	50
19	Replication, Replication. <i>PS - Political Science and Politics</i> , 1995 , 28, 444-452	0.4	112
18	A Revised Proposal, Proposal. <i>PS - Political Science and Politics</i> , 1995 , 28, 494-499	0.4	14
17	A Unified Method of Evaluating Electoral Systems and Redistricting Plans. <i>American Journal of Political Science</i> , 1994 , 38, 514	2.9	114
16	Transfers of Governmental Power: The Meaning of Time Dependence. <i>Comparative Political Studies</i> , 1994 , 27, 190-210	3.2	41
15	Enhancing Democracy Through Legislative Redistricting. <i>American Political Science Review</i> , 1994 , 88, 541-559	4.5	131
14	Designing Social Inquiry 1994 ,		2959
13	Why Are American Presidential Election Campaign Polls So Variable When Votes Are So Predictable?. <i>British Journal of Political Science</i> , 1993 , 23, 409-451	2.6	520

12	"Truth" Is Stranger than Prediction, More Questionable than Causal Inference. <i>American Journal of Political Science</i> , 1991 , 35, 1047	2.9	38
11	Systemic Consequences of Incumbency Advantage in U.S. House Elections. <i>American Journal of Political Science</i> , 1991 , 35, 110	2.9	61
10	Estimating the Electoral Consequences of Legislative Redistricting. <i>Journal of the American Statistical Association</i> , 1990 , 85, 274-282	2.8	54
9	A Unified Model of Cabinet Dissolution in Parliamentary Democracies. <i>American Journal of Political Science</i> , 1990 , 34, 846	2.9	203
8	Electoral Responsiveness and Partisan Bias in Multiparty Democracies. <i>Legislative Studies Quarterly</i> , 1990 , 15, 159	0.9	54
7	Variance Specification in Event Count Models: From Restrictive Assumptions to a Generalized Estimator. <i>American Journal of Political Science</i> , 1989 , 33, 762	2.9	186
6	Representation through Legislative Redistricting: A Stochastic Model. <i>American Journal of Political Science</i> , 1989 , 33, 787	2.9	45
5	Statistical Models for Political Science Event Counts: Bias in Conventional Procedures and Evidence for the Exponential Poisson Regression Model. <i>American Journal of Political Science</i> , 1988 , 32, 838	2.9	274
4	Democratic Representation and Partisan Bias in Congressional Elections. <i>American Political Science Review</i> , 1987 , 81, 1251-1273	4.5	115
3	An Improved Method of Automated Nonparametric Content Analysis for Social Science. <i>Political Analysis</i> , 1-17	5.3	5
2	Estimating the Electoral Consequences of Legislative Redistricting		7
1	Statistically Valid Inferences from Differentially Private Data Releases, with Application to the Facebook URLs Dataset. <i>Political Analysis</i> , 1-21	5.3	1
