#	ARTICLE	IF	CITATIONS
1	A systematic literature review and meta-analysis on digital health interventions for people living with dementia and Mild Cognitive Impairment. <i>International Journal of Geriatric Psychiatry</i> , 2022, 37, .	2.7	14
2	Tele-Rehabilitation for People with Dementia during the COVID-19 Pandemic: A Case-Study from England. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 1717.	2.6	32
3	The Impact of a Dementia-Friendly Exercise Class on People Living with Dementia: A Mixed-Methods Study. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 4562.	2.6	10
4	Adherence to exercise interventions in older people with mild cognitive impairment and dementia: A systematic review and meta-analysis. <i>Preventive Medicine Reports</i> , 2020, 19, 101139.	1.8	30
5	Protocol for the process evaluation of the Promoting Activity, Independence and Stability in Early Dementia (PrAISED), following changes required by the COVID-19 pandemic. <i>BMJ Open</i> , 2020, 10, e039305.	1.9	12
6	External Validation of the â€˜PHYT in Dementiaâ€™™, a Theoretical Model Promoting Physical Activity in People with Dementia. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 1544.	2.6	12
7	Motivation as a mechanism underpinning exercise-based falls prevention programmes for older adults with cognitive impairment: a realist review. <i>BMJ Open</i> , 2019, 9, e024982.	1.9	15
8	A scoping review of behaviour change theories in adults without dementia to adapt and develop the â€˜PHYT in dementiaâ€™™, a model promoting physical activity in people with dementia. <i>Maturitas</i> , 2019, 121, 101-113.	2.4	19
9	Factors influencing adherence to home-based strength and balance exercises among older adults with mild cognitive impairment and early dementia: Promoting Activity, Independence and Stability in Early Dementia (PrAISED). <i>PLoS ONE</i> , 2019, 14, e0217387.	2.5	25
10	Systematic scoping review of frameworks used to develop rehabilitation interventions for older adults. <i>BMJ Open</i> , 2019, 9, e024185.	1.9	5
11	A randomised controlled trial of an exercise intervention promoting activity, independence and stability in older adults with mild cognitive impairment and early dementia (PrAISED) - A Protocol. <i>Trials</i> , 2019, 20, 815.	1.6	26
12	Protocol for the process evaluation of the promoting activity, independence and stability in early dementia and mild cognitive impairment (PrAISED 2) randomised controlled trial. <i>Maturitas</i> , 2019, 122, 8-21.	2.4	16
13	Promoting activity, independence and stability in early dementia and mild cognitive impairment (PrAISED): development of an intervention for people with mild cognitive impairment and dementia. <i>Clinical Rehabilitation</i> , 2018, 32, 855-864.	2.2	19
14	A development study and randomised feasibility trial of a tailored intervention to improve activity and reduce falls in older adults with mild cognitive impairment and mild dementia. <i>Pilot and Feasibility Studies</i> , 2018, 4, 49.	1.2	24
15	Interventions incorporating physical and cognitive elements to reduce falls risk in cognitively impaired older adults. <i>JB I Database of Systematic Reviews and Implementation Reports</i> , 2016, 14, 110-135.	1.7	41
16	Understanding the theoretical underpinning of the exercise component in a fall prevention programme for older adults with mild dementia: a realist review protocol. <i>Systematic Reviews</i> , 2016, 5, 119.	5.3	8
17	Falls prevention interventions in older adults with cognitive impairment: A systematic review of reviews. <i>International Journal of Therapy and Rehabilitation</i> , 2015, 22, 289-296.	0.3	30
18	Interventions incorporating physical and cognitive elements to reduce falls risk in cognitively impaired older adults: a systematic review protocol. <i>JB I Database of Systematic Reviews and Implementation Reports</i> , 2015, 13, 5-13.	1.7	2

#	ARTICLE	IF	CITATIONS
19	Interventions incorporating physical and cognitive elements to reduce falls risk in cognitively impaired older adults: a systematic review protocol. JBI Database of Systematic Reviews and Implementation Reports, 2015, 13, 5-13.	1.7	1
20	The effectiveness of virtual reality interventions in improving balance in adults with impaired balance compared to standard or no treatment: A systematic review. JBI Database of Systematic Reviews and Implementation Reports, 2011, 9, 1-9.	1.7	0
