#	ARTICLE	IF	CITATIONS
1	Progress in achieving quantitative classification of psychopathology. <i>World Psychiatry</i> , 2018, 17, 282-293.	10.4	329
2	A Hierarchical Taxonomy of Psychopathology Can Transform Mental Health Research. <i>Perspectives on Psychological Science</i> , 2019, 14, 419-436.	9.0	243
3	Changes in millennial adolescent mental health and health-related behaviours over 10 years: a population cohort comparison study. <i>International Journal of Epidemiology</i> , 2019, 48, 1650-1664.	1.9	174
4	A general psychopathology factor in early adolescence. <i>British Journal of Psychiatry</i> , 2015, 207, 15-22.	2.8	158
5	Integrating the Hierarchical Taxonomy of Psychopathology (HiTOP) into clinical practice.. <i>Journal of Consulting and Clinical Psychology</i> , 2019, 87, 1069-1084.	2.0	158
6	The gender gap in adolescent mental health: A cross-national investigation of 566,829 adolescents across 73 countries. <i>SSM - Population Health</i> , 2021, 13, 100742.	2.7	143
7	Young people's mental health during the COVID-19 pandemic. <i>The Lancet Child and Adolescent Health</i> , 2021, 5, 535-537.	5.6	134
8	Correlates of Mental Illness and Wellbeing in Children: Are They the Same? Results From the UK Millennium Cohort Study. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2016, 55, 771-783.	0.5	130
9	Mental Health Difficulties in Early Adolescence: A Comparison of Two Cross-Sectional Studies in England From 2009 to 2014. <i>Journal of Adolescent Health</i> , 2015, 56, 502-507.	2.5	120
10	Prevalence of mental health problems in schools: poverty and other risk factors among 28 000 adolescents in England. <i>British Journal of Psychiatry</i> , 2019, 215, 565-567.	2.8	116
11	Demographic and health factors associated with pandemic anxiety in the context of COVID-19. <i>British Journal of Health Psychology</i> , 2020, 25, 934-944.	3.5	116
12	Psychological Distress Before and During the COVID-19 Pandemic Among Adults in the United Kingdom Based on Coordinated Analyses of 11 Longitudinal Studies. <i>JAMA Network Open</i> , 2022, 5, e227629.	5.9	116
13	Longitudinal pathways between mental health difficulties and academic performance during middle childhood and early adolescence. <i>British Journal of Developmental Psychology</i> , 2018, 36, 110-126.	1.7	108
14	Development and predictors of mental ill-health and wellbeing from childhood to adolescence. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2018, 53, 1311-1323.	3.1	107
15	Networks of Depression and Anxiety Symptoms Across Development. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2018, 57, 964-973.	0.5	105
16	How did the mental health symptoms of children and adolescents change over early lockdown during the COVID-19 pandemic in the UK?. <i>JCPP Advances</i> , 2021, 1, e12009.	2.4	99
17	Validity and utility of Hierarchical Taxonomy of Psychopathology (HiTOP): Emotional dysfunction superspectrum. <i>World Psychiatry</i> , 2022, 21, 26-54.	10.4	97
18	The Development of a School-Based Measure of Child Mental Health. <i>Journal of Psychoeducational Assessment</i> , 2013, 31, 247-257.	1.5	90

#	ARTICLE	IF	CITATIONS
19	Developmental stability of general and specific factors of psychopathology from early childhood to adolescence: dynamic mutualism or differentiation?. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2018, 59, 667-675.	5.2	84
20	Risk and protective factors for the development of depressive symptoms in children and adolescents: results of the longitudinal BELLA study. <i>European Child and Adolescent Psychiatry</i> , 2015, 24, 695-703.	4.7	81
21	A systematic literature review of existing conceptualisation and measurement of mental health literacy in adolescent research: current challenges and inconsistencies. <i>BMC Public Health</i> , 2020, 20, 607.	2.9	66
22	Examining changes in parent-reported child and adolescent mental health throughout the UK's first COVID-19 national lockdown. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2021, 62, 1391-1401.	5.2	63
23	Changes in the behavioural determinants of health during the COVID-19 pandemic: gender, socioeconomic and ethnic inequalities in five British cohort studies. <i>Journal of Epidemiology and Community Health</i> , 2021, 75, 1136-1142.	3.7	62
24	Bidirectional associations between body dissatisfaction and depressive symptoms from adolescence through early adulthood. <i>Development and Psychopathology</i> , 2018, 30, 1447-1458.	2.3	58
25	Evaluating access to health and care services during lockdown by the COVID-19 survey in five UK national longitudinal studies. <i>BMJ Open</i> , 2021, 11, e045813.	1.9	57
26	Child- and school-level predictors of children's bullying behavior: A multilevel analysis in 648 primary schools. <i>Journal of Educational Psychology</i> , 2018, 110, 17-26.	2.9	56
27	Effectiveness of current psychological interventions to improve emotion regulation in youth: a meta-analysis. <i>European Child and Adolescent Psychiatry</i> , 2021, 30, 829-848.	4.7	53
28	Mental health, social adversity, and health-related outcomes in sexual minority adolescents: a contemporary national cohort study. <i>The Lancet Child and Adolescent Health</i> , 2020, 4, 36-45.	5.6	52
29	The relationship between child- and parent-reported shared decision making and child-, parent-, and clinician-reported treatment outcome in routinely collected child mental health services data. <i>Clinical Child Psychology and Psychiatry</i> , 2016, 21, 324-338.	1.6	48
30	BMI Development and Early Adolescent Psychosocial Well-Being: UK Millennium Cohort Study. <i>Pediatrics</i> , 2016, 138, .	2.1	46
31	Patterns and predictors of violence against children in Uganda: a latent class analysis. <i>BMJ Open</i> , 2016, 6, e010443.	1.9	45
32	Comorbidity, Codevelopment, and Temporal Associations Between Body Mass Index and Internalizing Symptoms From Early Childhood to Adolescence. <i>JAMA Psychiatry</i> , 2019, 76, 721.	11.0	43
33	Clinical validity of the Me and My School questionnaire: a self-report mental health measure for children and adolescents. <i>Child and Adolescent Psychiatry and Mental Health</i> , 2014, 8, 17.	2.5	42
34	In search of disorders: internalizing symptom networks in a large clinical sample. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2019, 60, 897-906.	5.2	41
35	Exploring the relationship between quality of life and mental health problems in children: implications for measurement and practice. <i>European Child and Adolescent Psychiatry</i> , 2016, 25, 659-667.	4.7	39
36	Cross-Domain Symptom Development Typologies and Their Antecedents: Results From the UK Millennium Cohort Study. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2017, 56, 765-776.e2.	0.5	38

#	ARTICLE	IF	CITATIONS
37	The student resilience survey: psychometric validation and associations with mental health. <i>Child and Adolescent Psychiatry and Mental Health</i> , 2016, 10, 44.	2.5	36
38	General Psychopathology and Dysregulation Profile in a Longitudinal Community Sample: Stability, Antecedents and Outcomes. <i>Child Psychiatry and Human Development</i> , 2020, 51, 114-126.	1.9	36
39	Mental health provision in schools: priority, facilitators and barriers in 10 European countries. <i>Child and Adolescent Mental Health</i> , 2016, 21, 139-147.	3.5	35
40	Tics as a model of overlearned behavior—imitation and inhibition of facial tics. <i>Movement Disorders</i> , 2016, 31, 1155-1162.	3.9	32
41	Structure and Connectivity of Depressive Symptom Networks Corresponding to Early Treatment Response. <i>EClinicalMedicine</i> , 2019, 8, 29-36.	7.1	32
42	Changes in the Prevalence and Correlates of Weight-Control Behaviors and Weight Perception in Adolescents in the UK, 1986-2015. <i>JAMA Pediatrics</i> , 2021, 175, 267.	6.2	32
43	Psychological distress from early adulthood to early old age: evidence from the 1946, 1958 and 1970 British birth cohorts. <i>Psychological Medicine</i> , 2022, 52, 1471-1480.	4.5	32
44	Ethnic Differences in Referral Routes to Youth Mental Health Services. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2019, 58, 368-375.e1.	0.5	31
45	Strategies not accompanied by a mental health professional to address anxiety and depression in children and young people: a scoping review of range and a systematic review of effectiveness. <i>Lancet Psychiatry</i> , 2019, 6, 46-60.	7.4	30
46	Association of Early-Life Mental Health With Biomarkers in Midlife and Premature Mortality. <i>JAMA Psychiatry</i> , 2021, 78, 38.	11.0	29
47	Pre-pandemic mental health and disruptions to healthcare, economic and housing outcomes during the COVID-19 pandemic: evidence from 12 UK longitudinal studies. <i>British Journal of Psychiatry</i> , 2022, 220, 21-30.	2.8	29
48	School-Level Variation in Health Outcomes in Adolescence: Analysis of Three Longitudinal Studies in England. <i>Prevention Science</i> , 2014, 15, 600-610.	2.6	28
49	The Extent and Specificity of Relative Age Effects on Mental Health and Functioning in Early Adolescence. <i>Journal of Adolescent Health</i> , 2015, 57, 475-481.	2.5	27
50	A Pre-Post Evaluation of OpenMinds: a Sustainable, Peer-Led Mental Health Literacy Programme in Universities and Secondary Schools. <i>Prevention Science</i> , 2017, 18, 995-1005.	2.6	27
51	Editorial Perspective: Prescribing measures: unintended negative consequences of mandating standardized mental health measurement. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2021, 62, 1032-1036.	5.2	27
52	Internalising symptoms and body dissatisfaction: untangling temporal precedence using cross-lagged models in two cohorts. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2015, 56, 1223-1230.	5.2	26
53	Bullying victimisation in adolescence: prevalence and inequalities by gender, socioeconomic status and academic performance across 71 countries. <i>EClinicalMedicine</i> , 2021, 41, 101142.	7.1	26
54	The impact of the COVID-19 pandemic on adolescent mental health: a natural experiment. <i>Royal Society Open Science</i> , 2022, 9, .	2.4	24

#	ARTICLE	IF	CITATIONS
55	An Evaluation of the Implementation and Impact of England's Mandated School-Based Mental Health Initiative in Elementary Schools. <i>School Psychology Review</i> , 2015, 44, 117-138.	3.0	23
56	The Development of Preliminary HiTOP Internalizing Spectrum Scales. <i>Assessment</i> , 2022, 29, 17-33.	3.1	22
57	Does parent-child agreement vary based on presenting problems? Results from a UK clinical sample. <i>Child and Adolescent Psychiatry and Mental Health</i> , 2017, 11, 22.	2.5	21
58	The association between early life mental health and alcohol use behaviours in adulthood: A systematic review. <i>PLoS ONE</i> , 2020, 15, e0228667.	2.5	21
59	Mental health in higher education students and non-students: evidence from a nationally representative panel study. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2021, 56, 879-882.	3.1	20
60	Associations Between Adolescent Mental Health and Health-Related Behaviors in 2005 and 2015: A Population Cross-Cohort Study. <i>Journal of Adolescent Health</i> , 2021, 69, 588-596.	2.5	20
61	Changes in the adult consequences of adolescent mental ill-health: findings from the 1958 and 1970 British birth cohorts. <i>Psychological Medicine</i> , 2023, 53, 1074-1083.	4.5	19
62	Use, acceptability and impact of booklets designed to support mental health self-management and help seeking in schools: results of a large randomised controlled trial in England. <i>European Child and Adolescent Psychiatry</i> , 2017, 26, 315-324.	4.7	18
63	School characteristics and children's mental health: A linked survey-administrative data study. <i>Preventive Medicine</i> , 2020, 141, 106292.	3.4	18
64	Assessing the readability of the self-reported Strengths and Difficulties Questionnaire. <i>BJPsych Open</i> , 2018, 4, 55-57.	0.7	17
65	Gender-related neuroanatomical differences in alcohol dependence: findings from the ENIGMA Addiction Working Group. <i>NeuroImage: Clinical</i> , 2021, 30, 102636.	2.7	17
66	Promoting mental health and wellbeing in schools: examining Mindfulness, Relaxation and Strategies for Safety and Wellbeing in English primary and secondary schools: study protocol for a multi-school, cluster randomised controlled trial (INSPIRE). <i>Trials</i> , 2019, 20, 640.	1.6	17
67	Mental health in relation to changes in sleep, exercise, alcohol and diet during the COVID-19 pandemic: examination of four UK cohort studies. <i>Psychological Medicine</i> , 2023, 53, 2748-2757.	4.5	17
68	Psychological distress, self-harm and attempted suicide in UK 17-year olds: prevalence and sociodemographic inequalities. <i>British Journal of Psychiatry</i> , 2021, 219, 437-439.	2.8	16
69	The Relationship between Internalising Symptom Development and Academic Attainment in Early Adolescence. <i>PLoS ONE</i> , 2015, 10, e0116821.	2.5	16
70	Impact of lockdown on key workers: findings from the COVID-19 survey in four UK national longitudinal studies. <i>Journal of Epidemiology and Community Health</i> , 2021, 75, 955-962.	3.7	15
71	Unpacking the associations between heterogeneous externalising symptom development and academic attainment in middle childhood. <i>European Child and Adolescent Psychiatry</i> , 2016, 25, 493-500.	4.7	14
72	School-based intervention study examining approaches for well-being and mental health literacy of pupils in Year 9 in England: study protocol for a multischool, parallel group cluster randomised controlled trial (AWARE). <i>BMJ Open</i> , 2019, 9, e029044.	1.9	14

#	ARTICLE	IF	CITATIONS
73	Sex and dependence related neuroanatomical differences in regular cannabis users: findings from the ENIGMA Addiction Working Group. <i>Translational Psychiatry</i> , 2021, 11, 272.	4.8	14
74	Socioeconomic inequalities in prevalence and development of multimorbidity across adulthood: A longitudinal analysis of the MRC 1946 National Survey of Health and Development in the UK. <i>PLoS Medicine</i> , 2021, 18, e1003775.	8.4	14
75	Changes in peer and sibling victimization in early adolescence: longitudinal associations with multiple indices of mental health in a prospective birth cohort study. <i>European Child and Adolescent Psychiatry</i> , 2022, 31, 737-746.	4.7	13
76	Educators's perceived mental health literacy and capacity to support students's mental health: associations with school-level characteristics and provision in England. <i>Health Promotion International</i> , 2021, 36, 1621-1632.	1.8	12
77	Looking Back to Move Forward: Reflections on the Strengths and Challenges of the COVID-19 UK Mental Health Research Response. <i>Frontiers in Psychiatry</i> , 2021, 12, 622562.	2.6	12
78	The Child Outcome Rating Scale: validating a four-item measure of psychosocial functioning in community and clinic samples of children aged 10-15. <i>European Child and Adolescent Psychiatry</i> , 2020, 29, 1089-1102.	4.7	11
79	Socioeconomic inequalities in co-morbidity of overweight, obesity and mental ill-health from adolescence to mid-adulthood in two national birth cohort studies. <i>Lancet Regional Health - Europe</i> , 2021, 6, 100106.	5.6	11
80	Equivalence of Paper and Computer Formats of a Child Self-Report Mental Health Measure. <i>European Journal of Psychological Assessment</i> , 2015, 31, 54-61.	3.0	11
81	Change in device-measured physical activity assessed in childhood and adolescence in relation to depressive symptoms: a general population-based cohort study. <i>Journal of Epidemiology and Community Health</i> , 2020, 74, 330-335.	3.7	10
82	Sex, ethnic and socioeconomic inequalities and trajectories in child and adolescent mental health in Australia and the UK: findings from national prospective longitudinal studies. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2021, 62, 1255-1267.	5.2	10
83	Exploring the role of early-life circumstances, abilities and achievements on well-being at age 50 years: evidence from the 1958 British birth cohort study. <i>BMJ Open</i> , 2020, 10, e031416.	1.9	8
84	The individual, place, and wellbeing – a network analysis. <i>BMC Public Health</i> , 2021, 21, 1621.	2.9	8
85	The UK Coronavirus Job Retention Scheme and diet, physical activity, and sleep during the COVID-19 pandemic: evidence from eight longitudinal population surveys. <i>BMC Medicine</i> , 2022, 20, 147.	5.5	8
86	A School-Based Mobile App Intervention for Enhancing Emotion Regulation in Children: Exploratory Trial. <i>JMIR MHealth and UHealth</i> , 2021, 9, e21837.	3.7	7
87	Type 2 diabetes risks and determinants in second-generation migrants and mixed ethnicity people of South Asian and African Caribbean descent in the UK. <i>Diabetologia</i> , 2022, 65, 113-127.	6.3	7
88	A Comparison of Paper and Computer Administered Strengths and Difficulties Questionnaire. <i>Journal of Psychopathology and Behavioral Assessment</i> , 2016, 38, 242-250.	1.2	6
89	Predicting mental health improvement and deterioration in a large community sample of 11- to 13-year-olds. <i>European Child and Adolescent Psychiatry</i> , 2020, 29, 167-178.	4.7	6
90	Predictors of mental health difficulties and subjective wellbeing in adolescents: A longitudinal study. <i>JCPP Advances</i> , 2022, 2, .	2.4	6

#	ARTICLE	IF	CITATIONS
91	Early life mental health and problematic drinking in mid-adulthood: evidence from two British birth cohorts. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2021, 56, 1847-1858.	3.1	4
92	Does Early Child Language Predict Internalizing Symptoms in Adolescence? An Investigation in Two Birth Cohorts Born 30 Years Apart. <i>Child Development</i> , 2021, 92, 2106-2127.	3.0	4
93	How is the distribution of psychological distress changing over time? Who is driving these changes? Analysis of the 1958 and 1970 British birth cohorts. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2022, 57, 1007-1016.	3.1	4
94	Early pathways to bullying: A prospective longitudinal study examining the influences of theory of mind and social preference on bullying behaviour during the first 3 years of school. <i>British Journal of Developmental Psychology</i> , 2020, 38, 458-477.	1.7	3
95	Adaptation of a school-based mental health literacy curriculum: from Canadian to English classrooms. <i>Global Mental Health (Cambridge, England)</i> , 2021, 8, e39.	2.5	3
96	New titles can give new perspectives: Reflections on language and equity in clinical science.. , 2022, 131, 1-3.		2
97	Trajectories of change of youth depressive symptoms in routine care: shape, predictors, and service-use implications. <i>European Child and Adolescent Psychiatry</i> , 2019, 28, 1527-1536.	4.7	1
98	Research task shifting and youth as drivers of a more global mental health science. <i>Lancet Psychiatry</i> , 2021, 8, 1027-1029.	7.4	1
99	A Transdiagnostic, Emotion Regulation App (Eda) for Children: Design, Development, and Lessons Learned. <i>JMIR Formative Research</i> , 2022, 6, e28300.	1.4	1
100	Gender differences in the comorbidity of neurological and psychological disorders in a large clinical sample of children. <i>BJPsych Open</i> , 2021, 7, e96.	0.7	0
