#	ARTICLE	IF	CITATIONS
1	Validation of the Caprini risk assessment model for venous thromboembolism in high-risk surgical patients in the background of standard prophylaxis. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2016, 4, 153-160.	0.9	49
2	Thrombodynamics—A new global hemostasis assay for heparin monitoring in patients under the anticoagulant treatment. <i>PLoS ONE</i> , 2018, 13, e0199900.	1.1	32
3	Rivaroxaban in the treatment of upper extremity deep vein thrombosis: A single-center experience and review of the literature. <i>Thrombosis Research</i> , 2019, 181, 24-28.	0.8	32
4	Pulmonary Artery Thrombosis: A Diagnosis That Strives for Its Independence. <i>International Journal of Molecular Sciences</i> , 2020, 21, 5086.	1.8	22
5	Intermittent Pneumatic Compression in Addition to Standard Prophylaxis of Postoperative Venous Thromboembolism in Extremely High-risk Patients (IPC SUPER): A Randomized Controlled Trial. <i>Annals of Surgery</i> , 2021, 274, 63-69.	2.1	22
6	The original and modified Caprini score equally predicts venous thromboembolism in COVID-19 patients. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2021, 9, 1371-1381.e4.	0.9	18
7	Utilization of the Caprini score in conjunction with thrombodynamic testing reduces the number of unpredicted postoperative venous thromboembolism events in patients with colorectal cancer. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2020, 8, 31-41.	0.9	12
8	The frequency and clinical significance of nontarget superficial and deep vein occlusion after physician compounded foam sclerotherapy of varicose tributaries. <i>Phlebology</i> , 2020, 35, 430-439.	0.6	11
9	COVID-19-associated coagulopathy: review of current recommendations for diagnosis, treatment and prevention. <i>Hospital-replacing Technologies Ambulatory Surgery</i> , 2021, , 36-51.	0.2	8
10	Electrical calf muscle stimulation in patients with post-thrombotic syndrome and residual venous obstruction after anticoagulation therapy. <i>International Angiology</i> , 2018, 37, 400-410.	0.4	7
11	Rivaroxaban for the prevention of venous thromboembolism after radiofrequency ablation of saphenous veins concomitant with miniphlebectomy, sclerotherapy, or no treatment of varicose tributaries. <i>Phlebology</i> , 2021, 36, 741-751.	0.6	7
12	Diosmin 600 in adjunction to rivaroxaban reduces the risk of post-thrombotic syndrome after femoropopliteal deep vein thrombosis: results of the RIDILOTT DVT study. <i>International Angiology</i> , 2020, 39, 361-371.	0.4	7
13	Modern view on hemostasis system: cell theory. <i>Meditsinskiy Sovet</i> , 2019, , 72-77.	0.1	7
14	COVID-19-associated coagulopathy: review of current recommendations for diagnosis, treatment and prevention. <i>Hospital-replacing Technologies Ambulatory Surgery</i> , 0, , .	0.2	6
15	Use of Micronized Purified Flavonoid Fraction Together with Rivaroxaban Improves Clinical and Ultrasound Outcomes in Femoropopliteal Venous Thrombosis: Results of a Pilot Clinical Trial. <i>Advances in Therapy</i> , 2019, 36, 72-85.	1.3	5
16	Concurrent Validation of the Russian Version of Patient-Completed Caprini Risk Assessment Tool in Surgical Patients. <i>Flebologiya</i> , 2022, 16, 6.	0.2	5
17	Caprini Score in Venous Surgery: First Results From an Ongoing Registry Study. <i>Journal of Vascular Surgery: Venous and Lymphatic Disorders</i> , 2021, 9, 550-551.	0.9	4
18	The effectiveness and safety of the use of antithrombotic therapy in COVID-19. <i>AmbulatornaĤ HirurgiĤ</i> , 2021, 18, 17-30.	0.0	4

#	ARTICLE	IF	CITATIONS
19	Pharmacological treatment for chronic venous disease: an umbrella review of systematic reviews. <i>International Angiology</i> , 2022, 41, .	0.4	3
20	Russian clinical practice guidelines for the management of c1 clinical class of chronic venous disorders (reticular veins and telangiectasias). <i>Ðospital-replacing Technologies Ambulatory Surgery</i> , 0, , 140-206.	0.2	2
21	About the current situation with regard to the risks and prevention of venous thromboembolic complications after varicose vein surgery. <i>AmbulatornaĀ HirurgiĀ</i> , 2022, 19, 157-160.	0.0	2
22	Treatment and Secondary Prevention of Venous Thromboembolism in Real Clinical Practice Based on Health Care Professional Survey. <i>Rational Pharmacotherapy in Cardiology</i> , 2021, 17, 376-385.	0.3	1
23	Resolution of the professional community of phlebologists regarding the examination of patients before minimally invasive interventions for varicose veins of the lower extremities. <i>AmbulatornaĀ HirurgiĀ</i> , 2021, 18, 169-183.	0.0	1
24	Efficacy and safety of increased doses of anticoagulants in COVID-19 patients: a systematic review and meta-analysis. <i>Hirurg</i> , 2022, , 50-65.	0.0	1
25	Russian clinical practice guidelines for the management of c1 clinical class of chronic venous disorders (reticular veins and telangiectasias). <i>Ðospital-replacing Technologies Ambulatory Surgery</i> , 2021, , 140-206.	0.2	0
26	The significance of neutrophilic extracleptal traps in the pathogenesis of hemocoagulation disorders in patients with colorectal cancer. <i>Hirurg</i> , 2022, , 28-39.	0.0	0
