#	Article	IF	CITATIONS
1	Asymmetric genetic attributions for one's own prosocial versus antisocial behavior. Journal of Social Psychology, 2022, , 1-7.	1.5	1
2	Relationships of biomedical beliefs about depression to treatment-related expectancies in a treatment-seeking sample Psychotherapy, 2021, 58, 366-371.	1.2	9
3	Pygmalion in the genes? On the potentially negative impacts of polygenic scores for educational attainment. Social Psychology of Education, 2021, 24, 789.	2.5	7
4	Genetic attributions and perceptions of naturalness are shaped by evaluative valence. Journal of Social Psychology, 2021, , 1-12.	1.5	3
5	Experimentally exploring the potential behavioral effects of personalized genetic information about marijuana and schizophrenia risk. Journal of Psychiatric Research, 2021, 140, 316-322.	3.1	4
6	Effects of genetic information on memory for severity of depressive symptoms. PLoS ONE, 2020, 15, e0239714.	2.5	6
7	Behavioral Genetics and Attributions of Moral Responsibility. Behavior Genetics, 2019, 49, 128-135.	2.1	13
8	Asymmetrical genetic attributions for prosocial versus antisocial behaviour. Nature Human Behaviour, 2019, 3, 940-949.	12.0	11
9	The Implications of Genetic and Other Biological Explanations for Thinking about Mental Disorders. Hastings Center Report, 2019, 49, S82-S87.	1.0	18
10	Biomedical Explanations of Psychopathology and Their Implications for Attitudes and Beliefs About Mental Disorders. Annual Review of Clinical Psychology, 2019, 15, 555-577.	12.3	84
11	An experiment assessing effects of personalized feedback about genetic susceptibility to obesity on attitudes towards diet and exercise. Appetite, 2018, 120, 23-31.	3.7	16
12	Blue Genes? Understanding and Mitigating Negative Consequences of Personalized Information about Genetic Risk for Depression. Journal of Genetic Counseling, 2018, 27, 204-216.	1.6	31
13	Beneficial and detrimental effects of genetic explanations for addiction. International Journal of Social Psychiatry, 2017, 63, 717-723.	3.1	26
14	Testing positive for a genetic predisposition to depression magnifies retrospective memory for depressive symptoms Journal of Consulting and Clinical Psychology, 2017, 85, 1052-1063.	2.0	31
15	Using personification and agency reorientation to reduce mental-health clinicians' stigmatizing attitudes toward patients Stigma and Health, 2016, 1, 176-184.	1.7	14
16	Effects of Biological Versus Psychosocial Explanations on Stigmatization of Children With ADHD. Journal of Attention Disorders, 2016, 20, 240-250.	2.6	45
17	Stigmatization of ADHD. Journal of Attention Disorders, 2016, 20, 199-205.	2.6	92
18	Implications of emotion regulation strategies for empathic concern, social attitudes, and helping behavior Emotion, 2015, 15, 187-194.	1.8	63

MATTHEW S LEBOWITZ

#	Article	IF	CITATIONS
19	Sometimes more competent, but always less warm: Perceptions of biologically oriented mental-health clinicians. International Journal of Social Psychiatry, 2015, 61, 668-676.	3.1	11
20	Emphasizing Malleability in the biology of depression: Durable effects on perceived agency and prognostic pessimism. Behaviour Research and Therapy, 2015, 71, 125-130.	3.1	50
21	Biological Explanations of Generalized Anxiety Disorder: Effects on Beliefs About Prognosis and Responsibility. Psychiatric Services, 2014, 65, 498-503.	2.0	39
22	Effects of biological explanations for mental disorders on clinicians' empathy. Proceedings of the National Academy of Sciences of the United States of America, 2014, 111, 17786-17790.	7.1	159
23	Biological conceptualizations of mental disorders among affected individuals: A review of correlates and consequences Clinical Psychology: Science and Practice, 2014, 21, 67-83.	0.9	68
24	Beyond personal responsibility: Effects of causal attributions for overweight and obesity on weight-related beliefs, stigma, and policy support. Psychology and Health, 2014, 29, 1176-1191.	2.2	97
25	Fixable or fate? Perceptions of the biology of depression Journal of Consulting and Clinical Psychology, 2013, 81, 518-527.	2.0	135
26	Combining Biomedical Accounts of Mental Disorders With Treatability Information to Reduce Mental Illness Stigma. Psychiatric Services, 2012, 63, 496-499.	2.0	41
27	Feasibility of computerized brain plasticity-based cognitive training after traumatic brain injury. Journal of Rehabilitation Research and Development, 2012, 49, 1547.	1.6	40
28	Familiarity and prevalence of Facebook use for social networking among individuals with traumatic brain injury. Brain Injury, 2011, 25, 1155-1162.	1.2	41
29	Poster 23: Examining the Usability of a Computerized Cognitive Training Program in People with Traumatic Brain Injury: A Pilot Study. Archives of Physical Medicine and Rehabilitation, 2009, 90, e18-e19.	0.9	3
30	Poster 27: Feasibility of a Computerized Cognitive Skill-building Program in an Inpatient Traumatic Brain Injury Rehabilitation Setting. Archives of Physical Medicine and Rehabilitation, 2009, 90, e19-e20.	0.9	2
