#	Paper	IF	Citations
73	A collaborative approach to adopting/adapting guidelines. The Australian 24-hour movement guidelines for children (5-12 years) and young people (13-17 years): An integration of physical activity, sedentary behaviour, and sleep.. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021 , 18, 1-10	8.4	5
72	Parent Fruit and Vegetable Consumption Outcomes from the Translational Time for Healthy Habits Trial: Secondary Outcomes from a Partially Randomized Preference Trial. <i>International Journal of Environmental Research and Public Health</i> , 2022 , 19, 6165	4.6	
71	Experiential Learning Interventions and Healthy Eating Outcomes in Children: A Systematic Literature Review. <i>International Journal of Environmental Research and Public Health</i> , 2021 , 18, 1-10	4.6	3
70	Evaluation of a school-based dissemination of the movement guidelines for young children in Hong Kong: Study protocol. <i>Archives of Public Health</i> , 2021 , 79, 184	2.6	1
69	Sleep and BMI in South African urban and rural, high and low-income preschool children. <i>BMC Public Health</i> , 2021 , 21, 571	4.1	1
68	Relationships Between the Home Learning Environment, Weight Status, and Dietary Intake: Results From a Cross-Sectional Study of Preschool-Aged Children in New South Wales, Australia. <i>Journal of Primary Prevention</i> , 2021 , 42, 239-256	2.1	0
67	The relationship between educators' and children's physical activity and sedentary behaviour in early childhood education and care. <i>Journal of Science and Medicine in Sport</i> , 2021 , 24, 580-584	4.4	2
66	Examining the Antecedent Role of Movement Proficiency in Child Development: Study Protocol. <i>Frontiers in Psychology</i> , 2021 , 12, 678874	3.4	
65	Translation of Two Healthy Eating and Active Living Support Programs for Parents of 2-6-Year-Old Children: Outcomes of the 'Time for Healthy Habits' Parallel Partially Randomised Preference Trial. <i>Nutrients</i> , 2021 , 13, 1-10	6.7	1
64	Translation of two healthy eating and active living support programs for parents of 2-6 year old children: a parallel partially randomised preference trial protocol (the 'time for healthy habits' trial). <i>BMC Public Health</i> , 2020 , 20, 636	4.1	3
63	'Jump start' childcare-based intervention to promote physical activity in pre-schoolers: six-month findings from a cluster randomised trial. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020 , 17, 6	8.4	8
62	Environmental Influences on Children's Physical Activity in Early Childhood Education and Care. <i>Journal of Physical Activity and Health</i> , 2020 , 17, 423-428	2.5	3
61	Objectively Measured Physical Activity in South African Children Attending Preschool and Grade R: Volume, Patterns, and Meeting Guidelines. <i>Pediatric Exercise Science</i> , 2020 , 32, 150-156	2	3
60	Prevalence and risk factors of gross motor delay in pre-schoolers. <i>Journal of Paediatrics and Child Health</i> , 2020 , 56, 571-576	1.3	9
59	Screen Time and Sleep of Rural and Urban South African Preschool Children. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17, 1-10	4.6	3
58	Thinking Beyond the Norm: Using Alternate Theories in Early Childhood Education and Care Physical Activity Interventions. <i>Journal of Research in Childhood Education</i> , 2020 , 1-9	1.1	0
57	Can Parental Engagement in Social Media Enhance Outcomes of an Online Healthy Lifestyle Program for Preschool-Aged Children?. <i>Health Communication</i> , 2020 , 35, 1162-1171	3.2	4

56	The association between staff intention and pre-schoolers' physical activity in early childhood education and care services. <i>Early Child Development and Care</i> , 2020 , 190, 2032-2040	0.9	0
55	Body Mass Index, Physical Activity, Sedentary Behavior, Sleep, and Gross Motor Skill Proficiency in Preschool Children From a Low- to Middle-Income Urban Setting. <i>Journal of Physical Activity and Health</i> , 2019 , 16, 525-532	2.5	18
54	Associations between gross motor skills and cognitive development in toddlers. <i>Early Human Development</i> , 2019 , 132, 39-44	2.2	26
53	An Internet-Based Childhood Obesity Prevention Program (Time2bHealthy) for Parents of Preschool-Aged Children: Randomized Controlled Trial. <i>Journal of Medical Internet Research</i> , 2019 , 21, e11964	7.6	40
52	Physical activity in early childhood education and care settings in a low-income, rural South African community: an observational study. <i>Rural and Remote Health</i> , 2019 , 19, 5249	1.3	2
51	Childcare Physical Activity Interventions: A Discussion of Similarities and Differences and Trends, Issues, and Recommendations. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 16,	4.6	11
50	Cross-sectional associations of physical activity and gross motor proficiency with adiposity in South African children of pre-school age. <i>Public Health Nutrition</i> , 2019 , 22, 614-623	3.3	7
49	Quality Interactions in Early Childhood Education and Care Center Outdoor Environments. <i>Early Childhood Education Journal</i> , 2019 , 47, 31-41	1.3	7
48	Associations between gross motor skills and physical activity in Australian toddlers. <i>Journal of Science and Medicine in Sport</i> , 2018 , 21, 817-821	4.4	2
47	Wrist Acceleration Cut Points for Moderate-to-Vigorous Physical Activity in Youth. <i>Medicine and Science in Sports and Exercise</i> , 2018 , 50, 609-616	1.2	14
46	Support to Enhance Level of Implementation in Physical Activity Interventions: An Observational Study. <i>Australasian Journal of Early Childhood</i> , 2018 , 43, 25-33	1	3
45	Gross motor skills in toddlers: Prevalence and socio-demographic differences. <i>Journal of Science and Medicine in Sport</i> , 2018 , 21, 1226-1231	4.4	6
44	Goal setting for weight-related behavior change in children: An exploratory study. <i>Nutrition and Health</i> , 2018 , 24, 67-74	2.1	4
43	Validation of the SenseWear Mini activity monitor in 5-12-year-old children. <i>Journal of Science and Medicine in Sport</i> , 2017 , 20, 55-59	4.4	6
42	Sedentary time, physical activity and compliance with IOM recommendations in young children at childcare. <i>Preventive Medicine Reports</i> , 2017 , 7, 221-226	2.6	44
41	Relationship between children's physical activity, sedentary behavior, and childcare environments: A cross sectional study. <i>Preventive Medicine Reports</i> , 2017 , 6, 171-176	2.6	12
40	Developing Intervention Strategies to Optimise Body Composition in Early Childhood in South Africa. <i>BioMed Research International</i> , 2017 , 2017, 5283457	3	21
39	A collaborative approach to adopting/adapting guidelines - The Australian 24-Hour Movement Guidelines for the early years (Birth to 5 years): an integration of physical activity, sedentary behavior, and sleep. <i>BMC Public Health</i> , 2017 , 17, 869	4.1	202

38	Time2bHealthy - An online childhood obesity prevention program for preschool-aged children: A randomised controlled trial protocol. <i>Contemporary Clinical Trials</i> , 2017 , 61, 73-80	2.3	12
37	Educator engagement and interaction and children's physical activity in early childhood education and care settings: an observational study protocol. <i>BMJ Open</i> , 2017 , 7, e014423	3	8
36	Validation of thigh-based accelerometer estimates of postural allocation in 5-12 year-olds. <i>Journal of Science and Medicine in Sport</i> , 2017 , 20, 273-277	4.4	6
35	Enhancing the Effectiveness of Early Childhood Educators and Researchers Working Together to Achieve Common Aims. <i>Australasian Journal of Early Childhood</i> , 2017 , 42, 81-84	1	7
34	Increasing physical activity among young children from disadvantaged communities: study protocol of a group randomised controlled effectiveness trial. <i>BMC Public Health</i> , 2016 , 16, 1095	4.1	20
33	Promoting gross motor skills and physical activity in childcare: A translational randomized controlled trial. <i>Journal of Science and Medicine in Sport</i> , 2016 , 19, 744-9	4.4	29
32	Parent-Focused Childhood and Adolescent Overweight and Obesity eHealth Interventions: A Systematic Review and Meta-Analysis. <i>Journal of Medical Internet Research</i> , 2016 , 18, e203	7.6	76
31	Practicalities and Research Considerations for Conducting Childhood Obesity Prevention Interventions with Families. <i>Children</i> , 2016 , 3,	2.8	13
30	"Just because you're pregnant, doesn't mean you're sick!" A qualitative study of beliefs regarding physical activity in black South African women. <i>BMC Pregnancy and Childbirth</i> , 2016 , 16, 174	3.2	18
29	Efficacy of gross motor skill interventions in young children: an updated systematic review. <i>BMJ Open Sport and Exercise Medicine</i> , 2016 , 2, e000067	3.4	46
28	Correlates of children's objectively measured physical activity and sedentary behavior in early childhood education and care services: A systematic review. <i>Preventive Medicine</i> , 2016 , 89, 129-139	4.3	90
27	Lower activity levels are related to higher plantar pressures in overweight children. <i>Medicine and Science in Sports and Exercise</i> , 2015 , 47, 357-62	1.2	16
26	Acceptability and Potential Efficacy of Single-Sex After-School Activity Programs for Overweight and At-Risk Children: The Wollongong SPORT RCT. <i>Pediatric Exercise Science</i> , 2015 , 27, 535-45	2	9
25	Evaluation of the effects of a telephone-delivered health behaviour change program on weight and physical activity. <i>Nutrition and Dietetics</i> , 2015 , 72, 356-362	2.5	4
24	PROMOTING GROSS MOTOR SKILLS IN TODDLERS: THE ACTIVE BEGINNINGS PILOT CLUSTER RANDOMIZED TRIAL. <i>Perceptual and Motor Skills</i> , 2015 , 121, 857-72	2.2	7
23	Dietary Intake Is Related to Multifactor Cardiovascular Risk Score in Obese Boys. <i>Healthcare (Switzerland)</i> , 2014 , 2, 282-98	3.4	1
22	Volumes and bouts of sedentary behavior and physical activity: associations with cardiometabolic health in obese children. <i>Obesity</i> , 2014 , 22, E112-8	8	43
21	School-based obesity prevention interventions: practicalities and considerations. <i>Obesity Research and Clinical Practice</i> , 2014 , 8, e497-510	5.4	18

20	Tracking physical activity and sedentary behavior in childhood: a systematic review. <i>American Journal of Preventive Medicine</i> , 2013 , 44, 651-8	6.1	323
19	Objectively measured sedentary behavior, physical activity, and plasma lipids in overweight and obese children. <i>Obesity</i> , 2013 , 21, 382-5	8	31
18	Predictive validity and classification accuracy of ActiGraph energy expenditure equations and cut-points in young children. <i>PLoS ONE</i> , 2013 , 8, e79124	3.7	100
17	Proficiency deficiency: mastery of fundamental movement skills and skill components in overweight and obese children. <i>Obesity</i> , 2012 , 20, 1024-33	8	52
16	An Online Educational Program for Parents of Preschool-Aged Children: Is it Useable and Functional?. <i>Australasian Journal of Early Childhood</i> , 2011 , 36, 96-101	1	
15	Promoting fundamental movement skill development and physical activity in early childhood settings: a cluster randomized controlled trial. <i>Pediatric Exercise Science</i> , 2011 , 23, 600-15	2	112
14	Is an online healthy lifestyles program acceptable for parents of preschool children?. <i>Nutrition and Dietetics</i> , 2011 , 68, 149-154	2.5	9
13	The importance of long-term follow-up in child and adolescent obesity prevention interventions. <i>Pediatric Obesity</i> , 2011 , 6, 178-81		43
12	Parent diet modification, child activity, or both in obese children: an RCT. <i>Pediatrics</i> , 2011 , 127, 619-27	7.4	74
11	Process evaluation of the Hunter Illawarra Kids Challenge Using Parent Support study: a multisite randomized controlled trial for the management of child obesity. <i>Health Promotion Practice</i> , 2010 , 11, 917-27	1.8	9
10	Multi-site randomized controlled trial of a child-centered physical activity program, a parent-centered dietary-modification program, or both in overweight children: the HIKCUPS study. <i>Journal of Pediatrics</i> , 2010 , 157, 388-94, 394.e1	3.6	76
9	Perceived and actual competence among overweight and non-overweight children. <i>Journal of Science and Medicine in Sport</i> , 2010 , 13, 589-96	4.4	51
8	Relationships between child, parent and community characteristics and weight status among young children. <i>Pediatric Obesity</i> , 2010 , 5, 256-64		12
7	Relationships between weight status and child, parent and community characteristics in preschool children. <i>Pediatric Obesity</i> , 2009 , 4, 54-60		23
6	Developing an online program to prevent obesity in preschool-aged children: What do parents recommend?. <i>Nutrition and Dietetics</i> , 2009 , 66, 151-157	2.5	6
5	Efficacy of interventions to improve motor development in young children: a systematic review. <i>Pediatrics</i> , 2009 , 124, e782-92	7.4	151
4	Correlates of objectively measured physical activity in obese children. <i>Obesity</i> , 2008 , 16, 2634-41	8	57
3	The HIKCUPS trial: a multi-site randomized controlled trial of a combined physical activity skill-development and dietary modification program in overweight and obese children. <i>BMC Public Health</i> , 2007 , 7, 15	4.1	38

- 2 Randomised controlled trials in overweight children: practicalities and realities. *Pediatric Obesity*, 2007, 2, 73-85 51
- 1 A validation and reliability study of the Movement Environmental Rating Scale (MOVERS). *European Early Childhood Education Research Journal*, 1-14 1 3
