ANK DE LONCE

#	Article	IF	CITATIONS
1	Correlates of prenatal and postnatal mother-to-infant bonding quality: AÂsystematic review. PLoS ONE, 2019, 14, e0222998.	1.1	110
2	Variations in use of childbirth interventions in 13 high-income countries: A multinational cross-sectional study. PLoS Medicine, 2020, 17, e1003103.	3.9	92
3	Severe adverse maternal outcomes among low risk women with planned home versus hospital births in the Netherlands: nationwide cohort study. BMJ, The, 2013, 346, f3263-f3263.	3.0	81
4	The effect of medical and operative birth interventions on child health outcomes in the first 28Âdays and up to 5Âyears of age: A linked data populationâ€based cohort study. Birth, 2018, 45, 347-357.	1.1	63
5	Effectiveness of routine third trimester ultrasonography to reduce adverse perinatal outcomes in low risk pregnancy (the IRIS study): nationwide, pragmatic, multicentre, stepped wedge cluster randomised trial. BMJ: British Medical Journal, 2019, 367, 15517.	2.4	63
6	Evaluation of primary care midwifery in the Netherlands: design and rationale of a dynamic cohort study (DELIVER). BMC Health Services Research, 2012, 12, 69.	0.9	52
7	Persisting Rise in Referrals During Labor in Primary Midwifeâ€led Care in The Netherlands. Birth, 2013, 40, 192-201.	1.1	45
8	Opinions of maternity care professionals and other stakeholders about integration of maternity care: a qualitative study in the Netherlands. BMC Pregnancy and Childbirth, 2016, 16, 188.	0.9	38
9	Continuity of care: what matters to women when they are referred from primary to secondary care during labour? a qualitative interview study in the Netherlands. BMC Pregnancy and Childbirth, 2014, 14, 103.	0.9	37
10	Birth setting, transfer and maternal sense of control: results from the DELIVER study. BMC Pregnancy and Childbirth, 2014, 14, 27.	0.9	35
11	Left powerless: A qualitative social media content analysis of the Dutch #breakthesilence campaign on negative and traumatic experiences of labour and birth. PLoS ONE, 2020, 15, e0233114.	1.1	34
12	Continuity of care is an important and distinct aspect of childbirth experience: findings of a survey evaluating experienced continuity of care, experienced quality of care and women's perception of labor. BMC Pregnancy and Childbirth, 2018, 18, 13.	0.9	33
13	Perinatal mortality rate in the Netherlands compared to other European countries: A secondary analysis of Euro-PERISTAT data. Midwifery, 2013, 29, 1011-1018.	1.0	31
14	Roundtable Discussion: Early Labor: What's the Problem?. Birth, 2009, 36, 332-339.	1.1	28
15	Intrapartum interventions and outcomes for women and children following induction of labour at term in uncomplicated pregnancies: a 16-year population-based linked data study. BMJ Open, 2021, 11, e047040.	0.8	27
16	Mode of birth and medical interventions among women at low risk of complications: A cross-national comparison of birth settings in England and the Netherlands. PLoS ONE, 2017, 12, e0180846.	1.1	27
17	Limited midwifery care for undocumented women in the Netherlands. Journal of Psychosomatic Obstetrics and Gynaecology, 2011, 32, 182-188.	1.1	24
18	The role of midwifery and other international insights for maternity care in the United States: An analysis of four countries. Birth, 2020, 47, 332-345.	1.1	24
