#	ARTICLE	IF	CITATIONS
1	Complication and Failures of Central Vascular Access Device in Adult Critical Care Settings*. Critical Care Medicine, 2018, 46, 1998-2009.	0.4	44
2	International recommendations for a vascular access minimum dataset: a Delphi consensus-building study. BMJ Quality and Safety, 2021, 30, 722-730.	1.8	32
3	Difficult Peripheral Venous Access in Children: An International Survey and Critical Appraisal of Assessment Tools and Escalation Pathways. Journal of Nursing Scholarship, 2019, 51, 537-546.	1.1	28
4	High fidelity patient simulation as an educational tool in paediatric intensive care: A systematic review. Nurse Education Today, 2015, 35, e8-e12.	1.4	26
5	Standard instruction versus simulation: Educating registered nurses in the early recognition of patient deterioration in paediatric critical care. Nurse Education Today, 2016, 36, 287-292.	1.4	25
6	Development of a paediatric central venous access device database: A retrospective cohort study of practice evolution and risk factors for device failure. Journal of Paediatrics and Child Health, 2020, 56, 289-297.	0.4	24
7	Evaluating an ultrasound-guided peripheral intravenous cannulation training program for emergency clinicians: An Australian perspective. Australasian Emergency Care, 2020, 23, 151-156.	0.7	19
8	Peripherally Inserted Central Catheter Thrombosis After Placement via Electrocardiography vs Traditional Methods. American Journal of Medicine, 2021, 134, e79-e88.	0.6	19
9	Efficacy and safety of normal saline instillation and paediatric endotracheal suction: An integrative review. Australian Critical Care, 2018, 31, 3-9.	0.6	18
10	Building a Global, Pediatric Vascular Access Registry: A Scoping Review of Trial Outcomes and Quality Indicators to Inform Evidence-Based Practice. Worldviews on Evidence-Based Nursing, 2019, 16, 51-59.	1.2	14
11	Adverse events and practice variability associated with paediatric endotracheal suction: An observational study. Australian Critical Care, 2020, 33, 350-357.	0.6	14
12	Smile - Secure my intravenous line effectively: A pilot randomised controlled trial of peripheral intravenous catheter securement in paediatrics. Journal of Tissue Viability, 2020, 29, 82-90.	0.9	14
13	Improving peripheral venous cannula insertion in children: a mixed methods study to develop the DIVA key. BMC Health Services Research, 2022, 22, 220.	0.9	14
14	Pediatric central venous access devices: practice, performance, and costs. Pediatric Research, 2022, 92, 1381-1390.	1.1	13
15	“When no-one’s looking,” the application of lung recruitment and normal saline instillation with paediatric endotracheal suction: An exploratory study of nursing practice. Australian Critical Care, 2019, 32, 13-19.	0.6	12
16	Do antimicrobial and antithrombogenic peripherally inserted central catheter (PICC) materials prevent catheter complications? An analysis of 42,562 hospitalized medical patients. Infection Control and Hospital Epidemiology, 2022, 43, 427-434.	1.0	10
17	Techniques and Technologies to Improve Peripheral Intravenous Catheter Outcomes in Pediatric Patients: Systematic Review and Meta-Analysis. Journal of Hospital Medicine, 2021, 16, 742-750.	0.7	10
18	Flushing of peripheral intravenous catheters: A pilot, factorial, randomised controlled trial of high versus low frequency and volume in paediatrics. Journal of Paediatrics and Child Health, 2020, 56, 22-29.	0.4	9

#	ARTICLE	IF	CITATIONS
19	Endotracheal suction interventions in mechanically ventilated children: An integrative review to inform evidence-based practice. <i>Australian Critical Care</i> , 2021, 34, 92-102.	0.6	9
20	Peripheral intravenous catheter insertion and use of ultrasound in patients with difficult intravenous access: Australian patient and practitioner perspectives to inform future implementation strategies. <i>PLoS ONE</i> , 2022, 17, e0269788.	1.1	9
21	myPainPal: Co-creation of a mHealth app for the management of chronic pain in young people. <i>Informatics for Health and Social Care</i> , 2021, 46, 291-305.	1.4	8
22	Peripherally Inserted Central catheter iNnovation to reduce Infections and Clots (the PICNIC trial): a randomised controlled trial protocol. <i>BMJ Open</i> , 2021, 11, e042475.	0.8	8
23	Insertion, management, and complications associated with arterial catheters in paediatric intensive care: A clinical audit. <i>Australian Critical Care</i> , 2020, 33, 326-332.	0.6	7
24	Comparison of midline catheters and peripherally inserted central catheters to reduce the need for general anesthesia in children with respiratory disease: A feasibility randomized controlled trial. <i>Paediatric Anaesthesia</i> , 2021, 31, 985-995.	0.6	7
25	Midazolam exposure in the paediatric intensive care unit predicts acute post-traumatic stress symptoms in children. <i>Australian Critical Care</i> , 2022, 35, 408-414.	0.6	7
26	“How many audits do you really need?”™: Learnings from 5-years of peripheral intravenous catheter audits. <i>Infection, Disease and Health</i> , 2021, 26, 182-188.	0.5	7
27	Normal Saline and Lung Recruitment With Paediatric Endotracheal Suction. <i>Dimensions of Critical Care Nursing</i> , 2020, 39, 321-328.	0.4	7
28	mHealth Applications for Children and Young People With Persistent Pain: A Scoping Review. <i>Clinical Nursing Research</i> , 2019, 28, 779-794.	0.7	6
29	Comparison of ultrasound-guided peripheral intravenous catheter insertion with landmark technique in paediatric patients: A systematic review and meta-analysis. <i>Journal of Paediatrics and Child Health</i> , 2022, 58, 953-961.	0.4	6
30	Experiences of children with central venous access devices: a mixed-methods study. <i>Pediatric Research</i> , 2023, 93, 160-167.	1.1	6
31	Normal saline instillation versus no normal saline instillation And lung Recruitment versus no lung recruitment with paediatric Endotracheal Suction: the NARES trial. A study protocol for a pilot, factorial randomised controlled trial. <i>BMJ Open</i> , 2018, 8, e019789.	0.8	6
32	Healthcare practitioner perspectives and experiences regarding vascular access device data: An exploratory study. <i>International Journal of Healthcare Management</i> , 2021, 14, 948-955.	1.2	5
33	Normal saline and lung recruitment with paediatric endotracheal suction (NARES): A pilot, factorial, randomised controlled trial. <i>Australian Critical Care</i> , 2021, 34, 530-538.	0.6	5
34	The Paediatric AirWay Suction (PAWS) appropriateness guide for endotracheal suction interventions. <i>Australian Critical Care</i> , 2022, 35, 651-660.	0.6	5
35	Peripherally inserted central catheter design and material for reducing catheter failure and complications. <i>The Cochrane Library</i> , 0, , .	1.5	3
36	Comparing ivWatch biosensor to standard care to identify extravasation injuries in the paediatric intensive care: a protocol for a randomised controlled trial. <i>BMJ Open</i> , 2022, 12, e047765.	0.8	3

#	ARTICLE	IF	CITATIONS
37	Prevention of occlusion of cEnTral lines for children with cancer: An implementation study. Journal of Paediatrics and Child Health, 2020, 56, 1875-1884.	0.4	2
38	Application of the READY framework supports effective communication between health care providers and family members in intensive care. Australian Critical Care, 2021, 34, 296-299.	0.6	2
39	Midline catheters – A good alternative device?. Anaesthesia, Critical Care & Pain Medicine, 2021, 40, 100885.	0.6	2
40	Methodology minute: Utilizing the RAND/UCLA appropriateness method to develop guidelines for infection prevention. American Journal of Infection Control, 2022, 50, 345-348.	1.1	2
41	Appropriate use criteria for endotracheal suction interventions in mechanically ventilated children: The RAND/UCLA development process. Australian Critical Care, 2022, 35, 661-667.	0.6	2
42	Factors Influencing Pediatric Hematology/Oncology Nurse Retention: A Scoping Review. , 2022, 39, 402-417.		2
43	Dressings and securement devices to prevent complications for peripheral arterial catheters. The Cochrane Library, 2018, , .	1.5	1
44	Normal saline instillation versus no normal saline instillation And lung Recruitment versus no lung recruitment with paediatric Endotracheal Suction: the NARES trial. A study protocol for a pilot, factorial randomised controlled trial. BMJ Open, 2018, 8, e019789.	0.8	1
45	Selection and reporting of outcome measures used in long-term follow-up studies of children and adolescents with chronic pain: A scoping review. Journal of Child Health Care, 2021, , 136749352110261.	0.7	0
