

Emmanuel A Andreadis

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/4998483/emmanuel-a-andreadis-publications-by-year.pdf>

Version: 2024-04-25

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
18	The optimal use of automated office blood pressure measurement in clinical practice. <i>Journal of Clinical Hypertension</i> , 2020 , 22, 555-559	2.3	5
17	Automated office blood pressure measurements obtained with and without preceding rest are associated with awake ambulatory blood pressure. <i>Journal of Clinical Hypertension</i> , 2020 , 22, 32-38	2.3	7
16	Phenotypes of masked hypertension: Isolated ambulatory, isolated home and dual masked hypertension. <i>Journal of Hypertension</i> , 2020 , 38, 218-223	1.9	6
15	Automated office blood pressure is in agreement with awake and mean 24-hour ambulatory blood pressure at the lower blood pressure range. <i>Journal of Clinical Hypertension</i> , 2020 , 22, 1177-1183	2.3	2
14	Morning Surge and Peak Morning Ambulatory Blood Pressure Versus Automated Office Blood Pressure in Predicting Cardiovascular Disease. <i>High Blood Pressure and Cardiovascular Prevention</i> , 2019 , 26, 209-215	2.9	8
13	Attended Versus Unattended Automated Office Blood Pressure: A Systematic Review and Meta-analysis. <i>High Blood Pressure and Cardiovascular Prevention</i> , 2019 , 26, 293-303	2.9	7
12	Ambulatory versus home blood pressure monitoring: frequency and determinants of blood pressure difference and diagnostic disagreement. <i>Journal of Hypertension</i> , 2019 , 37, 1974-1981	1.9	8
11	The clinical value of automated office blood pressure: What is the latest evidence on attended vs unattended automated readings in clinical practice?. <i>Journal of Clinical Hypertension</i> , 2019 , 21, 156-158	2.3	1
10	Attended and Unattended Automated Office Blood Pressure Measurements Have Better Agreement With Ambulatory Monitoring Than Conventional Office Readings. <i>Journal of the American Heart Association</i> , 2018 , 7,	6	28
9	The optimal night-time home blood pressure monitoring schedule: agreement with ambulatory blood pressure and association with organ damage. <i>Journal of Hypertension</i> , 2018 , 36, 243-249	1.9	20
8	Hypertension and atrial fibrillation: a bench to bedside perspective. <i>Frontiers in Bioscience - Scholar</i> , 2018 , 10, 276-284	2.4	2
7	Unobserved automated office BP is similar to other clinic BP measurements: A prospective randomized study. <i>Journal of Clinical Hypertension</i> , 2018 , 20, 1411-1416	2.3	11
6	Home, automated office, and conventional office blood pressure as predictors of cardiovascular risk. <i>Journal of the American Society of Hypertension</i> , 2017 , 11, 165-170.e2		14
5	Persistent Afebrile Abdominal Pain: An Unusual Case of Segmental Colitis in an Immunocompromised Host. <i>Cureus</i> , 2017 , 9, e1033	1.2	2
4	Automated office versus home measurement of blood pressure in the assessment of morning hypertension. <i>Blood Pressure Monitoring</i> , 2012 , 17, 24-34	1.3	12
3	Automated office blood pressure is associated with urine albumin excretion in hypertensive subjects. <i>American Journal of Hypertension</i> , 2012 , 25, 969-73	2.3	25
2	Why use automated office blood pressure measurements in clinical practice?. <i>High Blood Pressure and Cardiovascular Prevention</i> , 2011 , 18, 89-91	2.9	6

- 1 Automated office blood pressure and 24-h ambulatory measurements are equally associated with left ventricular mass index. *American Journal of Hypertension*, **2011**, 24, 661-6 2.3 69
