

Johan Ormel

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/5011323/johan-ormel-publications-by-year.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
382	Is personality stable and symptoms fleeting? A longitudinal comparison in adolescence.. <i>Journal of Research in Personality</i> , 2022 , 97, 104190-104190	2.8	
381	Continuity of Psychopathology Throughout Adolescence and Young Adulthood.. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2022 , 1-14	5.4	1
380	Dynamic risk for first onset of depressive disorders in adolescence: does change matter?. <i>Psychological Medicine</i> , 2021 , 1-9	6.9	1
379	More treatment but no less depression: The treatment-prevalence paradox.. <i>Clinical Psychology Review</i> , 2021 , 91, 102111	10.8	7
378	Reducing Common Mental Disorder Prevalence in Populations. <i>JAMA Psychiatry</i> , 2021 , 78, 359-360	14.5	4
377	On Imbalance of Impulse Control and Sensation Seeking and Adolescent Risk: An Intra-individual Developmental Test of the Dual Systems and Maturational Imbalance Models. <i>Journal of Youth and Adolescence</i> , 2021 , 50, 827-840	4.5	9
376	Debate: Giving prevention a chance to prove its worth in lowering common mental disorder prevalence: how long will it take?. <i>Child and Adolescent Mental Health</i> , 2021 , 26, 86-88	2.2	1
375	The association of developmental trajectories of adolescent mental health with early-adult functioning. <i>PLoS ONE</i> , 2020 , 15, e0233648	3.7	1
374	Mental Disorder During Adolescence: Evidence of Arrested Personality Development. <i>Clinical Psychological Science</i> , 2020 , 8, 395-411	6	2
373	Can loss of agency and oppositional perturbation associated with antidepressant monotherapy and low-fidelity psychological treatment dilute the benefits of guideline-consistent depression treatment at the population level?. <i>European Psychiatry</i> , 2020 , 63, e89	6	2
372	Redefining phenotypes to advance psychiatric genetics: Implications from hierarchical taxonomy of psychopathology. <i>Journal of Abnormal Psychology</i> , 2020 , 129, 143-161	7	47
371	The wide-ranging life outcome correlates of a general psychopathology factor in adolescent psychopathology. <i>Personality and Mental Health</i> , 2020 , 14, 9-29	3.1	5
370	What is needed to eradicate the depression epidemic, and why. <i>Mental Health and Prevention</i> , 2020 , 17, 200177	2.3	15
369	The association of developmental trajectories of adolescent mental health with early-adult functioning 2020 , 15, e0233648		
368	The association of developmental trajectories of adolescent mental health with early-adult functioning 2020 , 15, e0233648		
367	The association of developmental trajectories of adolescent mental health with early-adult functioning 2020 , 15, e0233648		
366	The association of developmental trajectories of adolescent mental health with early-adult functioning 2020 , 15, e0233648		

365	The genetics of depression: successful genome-wide association studies introduce new challenges. <i>Translational Psychiatry</i> , 2019 , 9, 114	8.6	49
364	Cost-effectiveness, cost-utility and the budget impact of antidepressants versus preventive cognitive therapy with or without tapering of antidepressants. <i>BJPsych Open</i> , 2019 , 5, e12	5	2
363	Sequences of maladaptation: Preadolescent self-regulation, adolescent negative social interactions, and young adult psychopathology. <i>Development and Psychopathology</i> , 2019 , 31, 279-292	4.3	13
362	Depression: more treatment but no drop in prevalence: how effective is treatment? And can we do better?. <i>Current Opinion in Psychiatry</i> , 2019 , 32, 348-354	4.9	34
361	Prevention of depression will only succeed when it is structurally embedded and targets big determinants. <i>World Psychiatry</i> , 2019 , 18, 111-112	14.4	32
360	Sensitivity to psychosocial chronic stressors and adolescents' externalizing problems: Combined moderator effects of resting heart rate and parental psychiatric history. <i>Biological Psychology</i> , 2018 , 134, 20-29	3.2	3
359	The effects of cognitive-behavior therapy for depression on repetitive negative thinking: A meta-analysis. <i>Behaviour Research and Therapy</i> , 2018 , 106, 71-85	5.2	54
358	Effectiveness of preventive cognitive therapy while tapering antidepressants versus maintenance antidepressant treatment versus their combination in prevention of depressive relapse or recurrence (DRD study): a three-group, multicentre, randomised controlled trial. <i>Lancet Psychiatry</i> , 2018 , 5, 401-410	23.3	48
357	Chronic Stressors and Adolescents' Externalizing Problems: Genetic Moderation by Dopamine Receptor D4. The TRAILS Study. <i>Journal of Abnormal Child Psychology</i> , 2018 , 46, 73-82	4	5
356	Functionele uitkomsten van psychische stoornissen bij kinderen en adolescenten. <i>Kind En Adolescent</i> , 2018 , 39, 183-204	0	
355	Strategies for handling missing data in longitudinal studies with questionnaires. <i>Journal of Statistical Computation and Simulation</i> , 2018 , 88, 3415-3436	0.9	12
354	Progress in achieving quantitative classification of psychopathology. <i>World Psychiatry</i> , 2018 , 17, 282-293	14.4	225
353	Prefrontal cortex activation during a cognitive reappraisal task is associated with real-life negative affect reactivity. <i>PLoS ONE</i> , 2018 , 13, e0202888	3.7	2
352	Improvement of mindfulness skills during Mindfulness-Based Cognitive Therapy predicts long-term reductions of neuroticism in persons with recurrent depression in remission. <i>Journal of Affective Disorders</i> , 2017 , 213, 112-117	6.6	23
351	The predictive value of childhood subthreshold manic symptoms for adolescent and adult psychiatric outcomes. <i>Journal of Affective Disorders</i> , 2017 , 212, 86-92	6.6	12
350	Mindfulness facets and Big Five personality facets in persons with recurrent depression in remission. <i>Personality and Individual Differences</i> , 2017 , 110, 109-114	3.3	8
349	Genetic loci associated with heart rate variability and their effects on cardiac disease risk. <i>Nature Communications</i> , 2017 , 8, 15805	17.4	50
348	The Hierarchical Taxonomy of Psychopathology (HiTOP): A dimensional alternative to traditional nosologies. <i>Journal of Abnormal Psychology</i> , 2017 , 126, 454-477	7	1098

347	Using Response Surface Analysis to Interpret the Impact of Parent-Offspring Personality Similarity on Adolescent Externalizing Problems. <i>European Journal of Personality</i> , 2017 , 31, 104-117	5.1	12
346	Why Does Frustration Predict Psychopathology? Multiple Prospective Pathways over Adolescence: A Trails Study. <i>European Journal of Personality</i> , 2017 , 31, 85-103	5.1	4
345	SNP-Based Heritability Estimates of Common and Specific Variance in Self- and Informant-Reported Neuroticism Scales. <i>Journal of Personality</i> , 2017 , 85, 906-919	4.4	5
344	Set-Point Theory and personality development 2017 , 117-137		12
343	Adversity-driven changes in hypothalamic-pituitary-adrenal axis functioning during adolescence. The trails study. <i>Psychoneuroendocrinology</i> , 2017 , 85, 49-55	5	5
342	Associations between genetic risk, functional brain network organization and neuroticism. <i>Brain Imaging and Behavior</i> , 2017 , 11, 1581-1591	4.1	12
341	The Tianjin Mental Health Survey (TJMHS): study rationale, design and methods. <i>International Journal of Methods in Psychiatric Research</i> , 2017 , 26,	4.3	12
340	Mental health care use in adolescents with and without mental disorders. <i>European Child and Adolescent Psychiatry</i> , 2016 , 25, 501-8	5.5	22
339	Cardiovascular reactivity as a mechanism linking child trauma to adolescent psychopathology. <i>Biological Psychology</i> , 2016 , 120, 108-119	3.2	29
338	Depressive Symptoms and the Experience of Pleasure in Daily Life: An Exploration of Associations in Early and Late Adolescence. <i>Journal of Abnormal Child Psychology</i> , 2016 , 44, 999-1009	4	60
337	Executive functioning before and after onset of alcohol use disorder in adolescence. A TRAILS study. <i>Journal of Psychiatric Research</i> , 2016 , 78, 78-85	5.2	5
336	Discontinuation of antidepressant medication after mindfulness-based cognitive therapy for recurrent depression: randomised controlled non-inferiority trial. <i>British Journal of Psychiatry</i> , 2016 , 208, 366-73	5.4	41
335	A Genome-Wide Association Meta-Analysis of Attention-Deficit/Hyperactivity Disorder Symptoms in Population-Based Pediatric Cohorts. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2016 , 55, 896-905.e6	7.2	80
334	An approximate marginal logistic distribution for the analysis of longitudinal ordinal data. <i>Biometrics</i> , 2016 , 72, 253-61	1.8	3
333	Chronic Stress and Adolescents' Mental Health: Modifying Effects of Basal Cortisol and Parental Psychiatric History. The TRAILS Study. <i>Journal of Abnormal Child Psychology</i> , 2015 , 43, 1119-30	4	14
332	Integrating autism-related symptoms into the dimensional internalizing and externalizing model of psychopathology. The TRAILS Study. <i>Journal of Abnormal Child Psychology</i> , 2015 , 43, 577-87	4	47
331	Age- and sex-specific associations between adverse life events and functional bodily symptoms in the general population. <i>Journal of Psychosomatic Research</i> , 2015 , 79, 112-6	4.1	15
330	Stress-sensitivity and reciprocal associations between stressful events and adolescent temperament. <i>Personality and Individual Differences</i> , 2015 , 81, 76-83	3.3	8

329	The role of Basal cortisol in predicting change in mental health problems across the transition to middle school. <i>Journal of Adolescent Health</i> , 2015 , 56, 489-95	5.8	4
328	Lower dorsal striatum activation in association with neuroticism during the acceptance of unfair offers. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2015 , 15, 537-52	3.5	11
327	Adding mindfulness-based cognitive therapy to maintenance antidepressant medication for prevention of relapse/recurrence in major depressive disorder: Randomised controlled trial. <i>Journal of Affective Disorders</i> , 2015 , 187, 54-61	6.6	28
326	The Structure of Psychopathology in Adolescence: Replication of a General Psychopathology Factor in the TRAILS Study. <i>Clinical Psychological Science</i> , 2015 , 3, 850-860	6	192
325	Connectomics and neuroticism: an altered functional network organization. <i>Neuropsychopharmacology</i> , 2015 , 40, 296-304	8.7	50
324	A longitudinal perspective on childhood adversities and onset risk of various psychiatric disorders. <i>European Child and Adolescent Psychiatry</i> , 2015 , 24, 641-50	5.5	23
323	Adolescent personality: associations with Basal, awakening, and stress-induced cortisol responses. <i>Journal of Personality</i> , 2015 , 83, 262-73	4.4	32
322	Adolescent Heavy Drinking Does Not Affect Maturation of Basic Executive Functioning: Longitudinal Findings from the TRAILS Study. <i>PLoS ONE</i> , 2015 , 10, e0139186	3.7	28
321	Cohort Profile Update: the TRacking Adolescents' Individual Lives Survey (TRAILS). <i>International Journal of Epidemiology</i> , 2015 , 44, 76-76n	7.8	91
320	Associations of life events during pregnancy with longitudinal change in symptoms of antenatal anxiety and depression. <i>Midwifery</i> , 2014 , 30, 526-31	2.8	30
319	Anhedonia and depressed mood in adolescence: course, stability, and reciprocal relation in the TRAILS study. <i>European Child and Adolescent Psychiatry</i> , 2014 , 23, 579-86	5.5	29
318	Mismatch or cumulative stress: the pathway to depression is conditional on attention style. <i>Psychological Science</i> , 2014 , 25, 684-92	7.9	85
317	Risk score for predicting adolescent mental health problems among children using parental report only: the TRAILS study. <i>Academic Pediatrics</i> , 2014 , 14, 589-96	2.7	2
316	The neural correlates of worry in association with individual differences in neuroticism. <i>Human Brain Mapping</i> , 2014 , 35, 4303-15	5.9	53
315	Filling the gap: relationship between the serotonin-transporter-linked polymorphic region and amygdala activation. <i>Psychological Science</i> , 2014 , 25, 2058-66	7.9	39
314	Executive functioning shows differential maturation from early to late adolescence: longitudinal findings from a TRAILS study. <i>Neuropsychology</i> , 2014 , 28, 177-87	3.8	43
313	Parental Social Status and Intrasexual Competitiveness among Adolescents. <i>Evolutionary Psychology</i> , 2014 , 12, 147470491401200	1.5	6
312	Stressful events and continued smoking and continued alcohol consumption during mid-pregnancy. <i>PLoS ONE</i> , 2014 , 9, e86359	3.7	11

311	Mutual reinforcement between neuroticism and life experiences: a five-wave, 16-year study to test reciprocal causation. <i>Journal of Personality and Social Psychology</i> , 2014 , 107, 751-64	6.5	114
310	Longitudinal associations between depressive problems, academic performance, and social functioning in adolescent boys and girls. <i>Developmental Psychology</i> , 2014 , 50, 247-57	3.7	151
309	Timing of Stressful Life Events Affects Stability and Change of Neuroticism. <i>European Journal of Personality</i> , 2014 , 28, 193-200	5.1	75
308	A test of the vulnerability model: temperament and temperament change as predictors of future mental disorders—the TRAILS study. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2014 , 55, 227-36	7.9	27
307	Childhood adversities and adolescent depression: a matter of both risk and resilience. <i>Development and Psychopathology</i> , 2014 , 26, 1067-75	4.3	41
306	The relationship between neuroticism and inflammatory markers: a twin study. <i>Twin Research and Human Genetics</i> , 2014 , 17, 177-82	2.2	2
305	Effects of divorce on Dutch boys and girls—externalizing behavior in Gene Environment perspective: Diathesis stress or differential susceptibility in the Tracking Adolescents Individual Lives Survey study? CORRIGENDUM. <i>Development and Psychopathology</i> , 2014 , 26, 555-555	4.3	
304	Legal substance use and the development of a DSM-IV cannabis use disorder during adolescence: the TRAILS study. <i>Addiction</i> , 2014 , 109, 303-11	4.6	22
303	Continued smoking and continued alcohol consumption during early pregnancy distinctively associated with personality. <i>Addictive Behaviors</i> , 2014 , 39, 980-6	4.2	11
302	Stressful events and psychological difficulties: testing alternative candidates for sensitivity. <i>European Child and Adolescent Psychiatry</i> , 2014 , 23, 103-13	5.5	16
301	Adolescents' use of care for behavioral and emotional problems: types, trends, and determinants. <i>PLoS ONE</i> , 2014 , 9, e93526	3.7	11
300	Mental health problems and educational attainment in adolescence: 9-year follow-up of the TRAILS study. <i>PLoS ONE</i> , 2014 , 9, e101751	3.7	52
299	Anxiety and disruptive behavior mediate pathways from attention-deficit/hyperactivity disorder to depression. <i>Journal of Clinical Psychiatry</i> , 2014 , 75, e108-13	4.6	29
298	Parental social status and intrasexual competitiveness among adolescents. <i>Evolutionary Psychology</i> , 2014 , 12, 1022-37	1.5	1
297	Predictors of a functional somatic syndrome diagnosis in patients with persistent functional somatic symptoms. <i>International Journal of Behavioral Medicine</i> , 2013 , 20, 206-12	2.6	7
296	Neuroticism and common mental disorders: meaning and utility of a complex relationship. <i>Clinical Psychology Review</i> , 2013 , 33, 686-697	10.8	359
295	Life changes and depressive symptoms: the effects of valence and amount of change. <i>BMC Psychology</i> , 2013 , 1, 14	2.8	3
294	Heart rate and antisocial behavior: mediation and moderation by affiliation with bullies. the TRAILS Study. <i>Journal of Adolescent Health</i> , 2013 , 52, 102-7	5.8	9

293	Depression treatment after myocardial infarction and long-term risk of subsequent cardiovascular events and mortality: a randomized controlled trial. <i>Journal of Psychosomatic Research</i> , 2013 , 74, 25-30	4.1	33
292	The biological and psychological basis of neuroticism: current status and future directions. <i>Neuroscience and Biobehavioral Reviews</i> , 2013 , 37, 59-72	9	146
291	Self- or parent report of (co-occurring) internalizing and externalizing problems, and basal or reactivity measures of HPA-axis functioning: a systematic evaluation of the internalizing-hyperresponsivity versus externalizing-hyporesponsivity HPA-axis hypothesis. <i>Biological Psychology</i> , 2013 , 94, 175-84	3.2	32
290	Cortisol in the morning and dimensions of anxiety, depression, and aggression in children from a general population and clinic-referred cohort: An integrated analysis. The TRAILS study. <i>Psychoneuroendocrinology</i> , 2013 , 38, 1281-98	5	59
289	Self-reported depressive symptoms, diagnosed clinical depression and cardiac morbidity and mortality after myocardial infarction. <i>International Journal of Cardiology</i> , 2013 , 167, 2775-80	3.2	38
288	Chronicity of depressive problems and the cortisol response to psychosocial stress in adolescents: the TRAILS study. <i>Psychoneuroendocrinology</i> , 2013 , 38, 659-66	5	65
287	The dopamine receptor D4 gene and familial loading interact with perceived parenting in predicting externalizing behavior problems in early adolescence: the TRacking Adolescents' Individual Lives Survey (TRAILS). <i>Psychiatry Research</i> , 2013 , 209, 66-73	9.9	16
286	Cannabis use and vulnerability for psychosis in early adolescence--a TRAILS study. <i>Addiction</i> , 2013 , 108, 733-40	4.6	51
285	The Twin Interdisciplinary Neuroticism Study. <i>Twin Research and Human Genetics</i> , 2013 , 16, 268-70	2.2	4
284	Neuroticism and the brain: a quantitative meta-analysis of neuroimaging studies investigating emotion processing. <i>Neuroscience and Biobehavioral Reviews</i> , 2013 , 37, 1518-29	9	123
283	Need for mental health care in adolescents and its determinants: the TRAILS Study. <i>European Journal of Public Health</i> , 2013 , 23, 236-41	2.1	18
282	Effects of family cohesion and heart rate reactivity on aggressive/rule-breaking behavior and prosocial behavior in adolescence: the Tracking Adolescents' Individual Lives Survey study. <i>Development and Psychopathology</i> , 2013 , 25, 699-712	4.3	30
281	Confounding of Big Five Personality Assessments in Emotional Disorders by Comorbidity and Current Disorder. <i>European Journal of Personality</i> , 2013 , 27, 389-397	5.1	14
280	Does the Revised Child Anxiety and Depression Scale (RCADS) measure anxiety symptoms consistently across adolescence? The TRAILS study. <i>International Journal of Methods in Psychiatric Research</i> , 2013 , 22, 27-35	4.3	46
279	Dopamine receptor D4 gene moderates the effect of positive and negative peer experiences on later delinquency: the Tracking Adolescents' Individual Lives Survey study. <i>Development and Psychopathology</i> , 2013 , 25, 1107-17	4.3	30
278	Genetic and environmental influences on the longitudinal structure of neuroticism: a trait-state approach. <i>Psychological Science</i> , 2013 , 24, 1780-90	7.9	15
277	Child Behavior Checklist-Mania Scale (CBCL-MS): development and evaluation of a population-based screening scale for bipolar disorder. <i>PLoS ONE</i> , 2013 , 8, e69459	3.7	20
276	The effect of criticism on functional brain connectivity and associations with neuroticism. <i>PLoS ONE</i> , 2013 , 8, e69606	3.7	21

275	Associations between lifetime traumatic events and subsequent chronic physical conditions: a cross-national, cross-sectional study. <i>PLoS ONE</i> , 2013 , 8, e80573	3.7	88
274	Postpartum depression predicts offspring mental health problems in adolescence independently of parental lifetime psychopathology. <i>Journal of Affective Disorders</i> , 2012 , 136, 948-54	6.6	76
273	Identifying target groups for the prevention of depression in early adolescence: the TRAILS study. <i>Journal of Affective Disorders</i> , 2012 , 138, 287-94	6.6	10
272	Symptom-specific associations between low cortisol responses and functional somatic symptoms: the TRAILS study. <i>Psychoneuroendocrinology</i> , 2012 , 37, 332-40	5	36
271	The state effect of depressive and anxiety disorders on big five personality traits. <i>Journal of Psychiatric Research</i> , 2012 , 46, 644-50	5.2	100
270	The association between neurocognitive functioning and smoking in adolescence: the TRAILS study. <i>Neuropsychology</i> , 2012 , 26, 541-50	3.8	12
269	Trajectories of psychosocial problems in adolescents predicted by findings from early well-child assessments. <i>Journal of Adolescent Health</i> , 2012 , 51, 475-83	5.8	21
268	Preventive child health care findings on early childhood predict peer-group social status in early adolescence. <i>Journal of Adolescent Health</i> , 2012 , 51, 637-42	5.8	6
267	The TRacking Adolescents' Individual Lives Survey (TRAILS): design, current status, and selected findings. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2012 , 51, 1020-36	7.2	88
266	Timing matters: long term effects of adversities from prenatal period up to adolescence on adolescents' cortisol stress response. The TRAILS study. <i>Psychoneuroendocrinology</i> , 2012 , 37, 1439-47	5	125
265	Bidirectional prospective associations between physical activity and depressive symptoms. The TRAILS Study. <i>Journal of Adolescent Health</i> , 2012 , 50, 503-8	5.8	52
264	Family environment is associated with HPA-axis activity in adolescents. The TRAILS study. <i>Biological Psychology</i> , 2012 , 89, 460-6	3.2	26
263	Interpreting neuroticism scores across the adult life course: immutable or experience-dependent set points of negative affect?. <i>Clinical Psychology Review</i> , 2012 , 32, 71-9	10.8	60
262	Benefits of extensive recruitment effort persist during follow-ups and are consistent across age group and survey method. The TRAILS study. <i>BMC Medical Research Methodology</i> , 2012 , 12, 93	4.7	49
261	Preventing relapse in recurrent depression using mindfulness-based cognitive therapy, antidepressant medication or the combination: trial design and protocol of the MOMENT study. <i>BMC Psychiatry</i> , 2012 , 12, 125	4.2	36
260	The association between intelligence and telomere length: a longitudinal population based study. <i>PLoS ONE</i> , 2012 , 7, e49356	3.7	15
259	Symptom profiles of DSM-IV-defined remission, recovery, relapse, and recurrence of depression: the role of the core symptoms. <i>Depression and Anxiety</i> , 2012 , 29, 638-45	8.4	25
258	Response time variability and response inhibition predict affective problems in adolescent girls, not in boys: the TRAILS study. <i>European Child and Adolescent Psychiatry</i> , 2012 , 21, 277-87	5.5	16

257	Childhood family instability and mental health problems during late adolescence: a test of two mediation models--the TRAILS study. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2012 , 41, 166-76	5.4	18
256	Role of common mental and physical disorders in partial disability around the world. <i>British Journal of Psychiatry</i> , 2012 , 200, 454-61	5.4	59
255	Effects of divorce on Dutch boys' and girls' externalizing behavior in Gene Environment perspective: diathesis stress or differential susceptibility in the Dutch Tracking Adolescents' Individual Lives Survey study?. <i>Development and Psychopathology</i> , 2012 , 24, 929-39	4.3	32
254	Puzzling findings in studying the outcome of "real world" adolescent mental health services: the TRAILS study. <i>PLoS ONE</i> , 2012 , 7, e44704	3.7	11
253	Mental health problems during puberty: Tanner stage-related differences in specific symptoms. The TRAILS study. <i>Journal of Adolescence</i> , 2011 , 34, 73-85	3.4	50
252	Meta-analysis and meta-regression of hypothalamic-pituitary-adrenal axis activity in functional somatic disorders. <i>Biological Psychology</i> , 2011 , 87, 183-94	3.2	157
251	Can the gateway hypothesis, the common liability model and/or, the route of administration model predict initiation of cannabis use during adolescence? A survival analysis--the TRAILS study. <i>Journal of Adolescent Health</i> , 2011 , 48, 73-8	5.8	51
250	Adolescents with low intelligence are at risk of functional somatic symptoms: the TRAILS study. <i>Journal of Adolescent Health</i> , 2011 , 49, 621-6	5.8	15
249	Psychiatric history and subthreshold symptoms as predictors of the occurrence of depressive or anxiety disorder within 2 years. <i>British Journal of Psychiatry</i> , 2011 , 198, 206-12	5.4	91
248	Effortful control as predictor of adolescents' psychological and physiological responses to a social stress test: the Tracking Adolescents' Individual Lives Survey. <i>Development and Psychopathology</i> , 2011 , 23, 679-88	4.3	16
247	Self-reflection and the psychosis-prone brain: an fMRI study. <i>Neuropsychology</i> , 2011 , 25, 295-305	3.8	58
246	Child temperament moderates the impact of parental separation on adolescent mental health: The trails study. <i>Journal of Family Psychology</i> , 2011 , 25, 97-106	2.7	20
245	Are adolescents gambling with cannabis use? A longitudinal study of impulsivity measures and adolescent substance use: the TRAILS study. <i>Journal of Studies on Alcohol and Drugs</i> , 2011 , 72, 70-8	1.9	30
