#	ARTICLE	IF	CITATIONS
1	Predictors of Psychological Morbidity in Parents of Children with Intellectual Disabilities. <i>Journal of Pediatric Psychology</i> , 2008, 33, 1129-1136.	1.1	127
2	Loneliness, Living Alone, and All-Cause Mortality: The Role of Emotional and Social Loneliness in the Elderly During 19 Years of Follow-Up. <i>Psychosomatic Medicine</i> , 2019, 81, 521-526.	1.3	126
3	Loneliness and acute stress reactivity: A systematic review of psychophysiological studies. <i>Psychophysiology</i> , 2018, 55, e13031.	1.2	101
4	The Experiences of Parents During Diagnosis and Forward Planning for Children with Autism Spectrum Disorder. <i>Journal of Applied Research in Intellectual Disabilities</i> , 2010, 23, 390-397.	1.3	96
5	Parental stress is associated with poor sleep quality in parents caring for children with developmental disabilities. <i>Journal of Pediatric Psychology</i> , 2010, 35, 728-737.	1.1	93
6	â€œHappy and a bit Nervousâ€™: the experiences of children with autism in physical education. <i>British Journal of Learning Disabilities</i> , 2013, 41, 222-228.	0.8	93
7	A comparison of acute and long-term health-care personnel's attitudes towards older adults. <i>International Journal of Nursing Practice</i> , 2006, 12, 273-279.	0.8	85
8	Parental caregivers of children with developmental disabilities mount a poor antibody response to pneumococcal vaccination. <i>Brain, Behavior, and Immunity</i> , 2009, 23, 338-346.	2.0	84
9	The influence of self-esteem and social support on the relationship between stigma and depressive symptomology in parents caring for children with intellectual disabilities. <i>Journal of Intellectual Disability Research</i> , 2015, 59, 948-957.	1.2	81
10	Social support and mastery influence the association between stress and poor physical health in parents caring for children with developmental disabilities. <i>Research in Developmental Disabilities</i> , 2014, 35, 2215-2223.	1.2	79
11	Preliminary evidence that morning vaccination is associated with an enhanced antibody response in men. <i>Psychophysiology</i> , 2008, 45, 663-666.	1.2	75
12	Risk of depression in family caregivers: unintended consequence of COVID-19. <i>BJPsych Open</i> , 2020, 6, e119.	0.3	74
13	Depression and chronic health conditions in parents of children with and without developmental disabilities: The growing up in Ireland cohort study. <i>Research in Developmental Disabilities</i> , 2014, 35, 448-454.	1.2	69
14	Social support is associated with blood pressure responses in parents caring for children with developmental disabilities. <i>Research in Developmental Disabilities</i> , 2012, 33, 2099-2105.	1.2	61
15	Loneliness and depression in patients with cancer during COVID-19. <i>Journal of Psychosocial Oncology</i> , 2021, 39, 445-451.	0.6	60
16	Enhancing social relationships through positive psychology activities: a randomised controlled trial. <i>Journal of Positive Psychology</i> , 2016, 11, 149-162.	2.6	59
17	Social support mediates the association between benefit finding and quality of life in caregivers. <i>Journal of Health Psychology</i> , 2016, 21, 1126-1136.	1.3	56
18	The association between stress and physical health in parents caring for children with intellectual disabilities is moderated by children's challenging behaviours. <i>Journal of Health Psychology</i> , 2013, 18, 1220-1231.	1.3	55

#	ARTICLE	IF	CITATIONS
19	Social Support, Social Intimacy, and Cardiovascular Reactions to Acute Psychological Stress. <i>Annals of Behavioral Medicine</i> , 2009, 37, 38-45.	1.7	49
20	Parentsâ€™ concerns about future pregnancy after stillbirth: a qualitative study. <i>Health Expectations</i> , 2017, 20, 555-562.	1.1	49
21	Feeling Thanks and Saying Thanks: A Randomized Controlled Trial Examining If and How Socially Oriented Gratitude Journals Work. <i>Journal of Clinical Psychology</i> , 2017, 73, 1280-1300.	1.0	46
22	Caregiving is associated with low secretion rates of immunoglobulin A in saliva. <i>Brain, Behavior, and Immunity</i> , 2008, 22, 565-572.	2.0	44
23	Social identity influences stress appraisals and cardiovascular reactions to acute stress exposure. <i>British Journal of Health Psychology</i> , 2014, 19, 566-579.	1.9	42
24	Behaviour change interventions to promote physical activity in rheumatoid arthritis: a systematic review. <i>Rheumatology International</i> , 2015, 35, 1631-1640.	1.5	41
25	Changing Physical Activity Behavior in People With Multiple Sclerosis: A Systematic Review and Meta-Analysis. <i>Archives of Physical Medicine and Rehabilitation</i> , 2018, 99, 2059-2075.	0.5	40
26	Caregiving for Children With Developmental Disabilities Is Associated With a Poor Antibody Response to Influenza Vaccination. <i>Psychosomatic Medicine</i> , 2009, 71, 341-344.	1.3	39
27	Affiliative and "self-as-doer" identities: Relationships between social identity, social support, and emotional status amongst survivors of acquired brain injury (ABI). <i>Neuropsychological Rehabilitation</i> , 2015, 25, 555-573.	1.0	39
28	Evaluating personality as a moderator of the association between life events stress and cardiovascular reactivity to acute stress. <i>International Journal of Psychophysiology</i> , 2018, 126, 52-59.	0.5	39
29	Determinants of older adultsâ€™ intentions to vaccinate against influenza: a theoretical application. <i>Journal of Public Health</i> , 2006, 28, 139-144.	1.0	38
30	Symptoms of depression in non-routine caregivers: The role of caregiver strain and burden. <i>British Journal of Clinical Psychology</i> , 2009, 48, 335-346.	1.7	37
31	Parental decision making around perinatal autopsy: a qualitative investigation. <i>Health Expectations</i> , 2015, 18, 3160-3171.	1.1	37
32	Effect of exercising at minimum recommendations of the multiple sclerosis exercise guideline combined with structured education or attention control education " secondary results of the step it up randomised controlled trial. <i>BMC Neurology</i> , 2017, 17, 119.	0.8	36
33	The impact of anticipated stigma on psychological and physical health problems in the unemployed group. <i>Frontiers in Psychology</i> , 2015, 6, 1263.	1.1	34
34	Psychosocial factors are associated with the antibody response to both thymus-dependent and thymus-independent vaccines. <i>Brain, Behavior, and Immunity</i> , 2008, 22, 456-460.	2.0	32
35	A Cluster Analysis of Reported Sleeping Patterns of 9-Month Old Infants and the Association with Maternal Health: Results from a Population Based Cohort Study. <i>Maternal and Child Health Journal</i> , 2015, 19, 1881-1889.	0.7	32
36	Optimism and benefit finding in parents of children with developmental disabilities: The role of positive reappraisal and social support. <i>Research in Developmental Disabilities</i> , 2017, 65, 12-22.	1.2	31

#	ARTICLE	IF	CITATIONS
37	Social support is positively associated with the immunoglobulin M response to vaccination with pneumococcal polysaccharides. <i>Biological Psychology</i> , 2008, 78, 211-215.	1.1	30
38	Happy but unhealthy: The relationship between social ties and health in an emerging network. <i>European Journal of Social Psychology</i> , 2014, 44, 612-621.	1.5	30
39	The effects of exercise interventions on health and fitness of firefighters: A meta-analysis. <i>Scandinavian Journal of Medicine and Science in Sports</i> , 2019, 29, 780-790.	1.3	30
40	Mediating effects of loneliness on the gratitude-health link. <i>Personality and Individual Differences</i> , 2016, 98, 179-183.	1.6	29
41	How Does Bereavement Get Under the Skin? The Effects of Late-Life Spousal Loss on Cortisol Levels. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2015, 70, 341-347.	2.4	28
42	The Association Between Spirituality and Depression in Parents Caring for Children with Developmental Disabilities: Social Support and/or Last Resort. <i>Journal of Religion and Health</i> , 2015, 54, 358-370.	0.8	28
43	Randomised controlled pilot trial of an exercise plus behaviour change intervention in people with multiple sclerosis: the Step it Up study. <i>BMJ Open</i> , 2017, 7, e016336.	0.8	28
44	Examining Psychosocial Pathways Underlying Gratitude Interventions: A Randomized Controlled Trial. <i>Journal of Happiness Studies</i> , 2018, 19, 2421-2444.	1.9	28
45	Antibody response to vaccination as a marker of in vivo immune function in psychophysiological research. <i>Neuroscience and Biobehavioral Reviews</i> , 2010, 35, 122-126.	2.9	27
46	Promoting physical activity in rheumatoid arthritis: a narrative review of behaviour change theories. <i>Disability and Rehabilitation</i> , 2015, 37, 2359-2366.	0.9	26
47	Acquired brain injury: combining social psychological and neuropsychological perspectives. <i>Health Psychology Review</i> , 2014, 8, 458-472.	4.4	24
48	Do multiple sclerosis symptoms moderate the relationship between self-efficacy and physical activity in people with multiple sclerosis?. <i>Rehabilitation Psychology</i> , 2018, 63, 104-110.	0.7	24
49	A randomised controlled trial of an exercise plus behaviour change intervention in people with multiple sclerosis: the step it up study protocol. <i>BMC Neurology</i> , 2014, 14, 241.	0.8	23
50	Loneliness and cardiovascular reactivity to acute stress in younger adults. <i>International Journal of Psychophysiology</i> , 2019, 135, 121-125.	0.5	23
51	Caregiving alters immunity and stress hormones: a review of recent research. <i>Current Opinion in Behavioral Sciences</i> , 2019, 28, 93-97.	2.0	22
52	Randomised Controlled Trials in WOHP Interventions: A Review and Guidelines for Use. <i>Applied Psychology</i> , 2016, 65, 190-222.	4.4	21
53	Unemployment as a chronic stressor: A systematic review of cortisol studies. <i>Psychology and Health</i> , 2017, 32, 289-311.	1.2	21
54	Social Cognitive Theory Correlates of Physical Activity in Inactive Adults with Multiple Sclerosis. <i>International Journal of MS Care</i> , 2018, 20, 129-135.	0.4	20

#	ARTICLE	IF	CITATIONS
55	Social Context and Sex Moderate the Association Between Type D Personality and Cardiovascular Reactivity. <i>Applied Psychophysiology Biofeedback</i> , 2019, 44, 321-330.	1.0	19
56	Personality pathways to mortality: Interleukin-6 links conscientiousness to mortality risk. <i>Brain, Behavior, and Immunity</i> , 2021, 93, 238-244.	2.0	19
57	Unemployment is associated with lower cortisol awakening and blunted dehydroepiandrosterone responses. <i>Psychoneuroendocrinology</i> , 2016, 69, 41-49.	1.3	18
58	Perceived social support mediates the association between attachment and cardiovascular reactivity in young adults. <i>Psychophysiology</i> , 2020, 57, e13496.	1.2	18
59	Making the leap and finding your feet: A qualitative study of disclosure and social support in university students with type 1 diabetes. <i>Journal of Health Psychology</i> , 2021, 26, 260-269.	1.3	17
60	Personality, cardiovascular, and cortisol reactions to acute psychological stress in the Midlife in the United States (MIDUS) study. <i>International Journal of Psychophysiology</i> , 2020, 148, 67-74.	0.5	16
61	Child problem behaviours are associated with obesity in parents caring for children with developmental disabilities. <i>Research in Developmental Disabilities</i> , 2015, 36, 358-365.	1.2	15
62	“It might hurt, but still it’s good”: People with rheumatoid arthritis beliefs and expectations about physical activity interventions. <i>Journal of Health Psychology</i> , 2017, 22, 1678-1690.	1.3	15
63	Water, sanitation and hygiene (WASH) behaviour change research: why an analysis of contingencies of reinforcement is needed. <i>International Journal of Environmental Health Research</i> , 2021, 31, 715-728.	1.3	14
64	ABA-Based Programs for Children Diagnosed With Autism Spectrum Disorder: Parental and Professional Experiences at School and at Home. <i>Child and Family Behavior Therapy</i> , 2012, 34, 111-129.	0.5	13
65	“Soft and fluffy”: Medical students’ attitudes towards psychology in medical education. <i>Journal of Health Psychology</i> , 2015, 20, 91-101.	1.3	13
66	State, but not trait gratitude is associated with cardiovascular responses to acute psychological stress. <i>Physiology and Behavior</i> , 2020, 221, 112896.	1.0	13
67	Blunted cardiovascular reactivity to psychological stress and prospective health: a systematic review. <i>Health Psychology Review</i> , 2023, 17, 121-147.	4.4	13
68	Relationship between self-efficacy, beliefs, and physical activity in inflammatory arthritis. <i>Hong Kong Physiotherapy Journal</i> , 2016, 34, 33-40.	0.3	12
69	Profile of refractive errors in European Caucasian children with Autistic Spectrum Disorder; increased prevalence and magnitude of astigmatism. <i>Ophthalmic and Physiological Optics</i> , 2016, 36, 395-403.	1.0	11
70	If a joint is hot it’s not the time: health professionals’ views on developing an intervention to promote physical activity in rheumatoid arthritis. <i>Disability and Rehabilitation</i> , 2017, 39, 1106-1113.	0.9	11
71	Clinicians’ gaze behaviour in simulated paediatric emergencies. <i>Archives of Disease in Childhood</i> , 2018, 103, 1146-1149.	1.0	11
72	Prior depressive symptoms and persistent child problem behaviours predict future depression in parents of children with developmental disabilities: The growing up in Ireland cohort study. <i>Research in Developmental Disabilities</i> , 2018, 80, 170-179.	1.2	11

#	ARTICLE	IF	CITATIONS
73	Multivariate Testing Confirms the Effect of Age×Gender Congruence on Click-Through Rates from Online Social Network Digital Advertisements. <i>Cyberpsychology, Behavior, and Social Networking</i> , 2018, 21, 646-654.	2.1	10
74	Motivational orientation mediates the association between depression and cardiovascular reactivity to acute psychological stress. <i>Psychophysiology</i> , 2021, 58, e13732.	1.2	10
75	Life satisfaction, social participation and symptoms of depression in young adult carers: evidence from 21 European countries. <i>International Journal of Adolescence and Youth</i> , 2022, 27, 60-71.	0.9	10
76	Unemployment, employment precarity, and inflammation. <i>Brain, Behavior, and Immunity</i> , 2020, 83, 303-308.	2.0	9
77	Type D personality and life event stress: the mediating effects of social support and negative social relationships. <i>Anxiety, Stress and Coping</i> , 2020, 33, 452-465.	1.7	9
78	Gerontology and applied social technology. <i>European Journal of Behavior Analysis</i> , 2006, 7, 77-86.	0.7	8
79	Wearable technology-based metrics for predicting operator performance during cardiac catheterisation. <i>International Journal of Computer Assisted Radiology and Surgery</i> , 2019, 14, 645-657.	1.7	8
80	State gratitude is associated with lower cardiovascular responses to acute psychological stress: A replication and extension. <i>International Journal of Psychophysiology</i> , 2020, 158, 238-247.	0.5	8
81	Developing a recovery college: a preliminary exercise in establishing regional readiness and community needs. <i>Journal of Mental Health</i> , 2017, 26, 150-155.	1.0	7
82	Early Life Adversity and Blunted Cardiovascular Reactivity to Acute Psychological Stress: The Role of Current Depressive Symptoms. <i>Psychosomatic Medicine</i> , 2022, 84, 170-178.	1.3	7
83	A Longitudinal Study of Relationships between Identity Continuity and Anxiety Following Brain Injury. <i>Frontiers in Psychology</i> , 2017, 8, 648.	1.1	6
84	Social support, social participation, and cardiovascular reactivity to stress in the Midlife in the United States (MIDUS) study. <i>Biological Psychology</i> , 2020, 155, 107921.	1.1	6
85	Type D personality and cardiovascular reactivity to acute stress: The mediating effects of social support and negative social relationships. <i>Psychophysiology</i> , 2020, 57, e13660.	1.2	6
86	Eveningness, depression and cardiovascular reactivity to acute psychological stress: a mediation model. <i>Physiology and Behavior</i> , 2021, 240, 113550.	1.0	6
87	Differential hemodynamic effects during the provision of active and passive support in the laboratory. <i>Psychology and Health</i> , 2015, 30, 1088-1102.	1.2	5
88	Building Resources in Caregivers: Feasibility of a Brief Writing Intervention to Increase Benefit Finding in Caregivers. <i>Applied Psychology: Health and Well-Being</i> , 2020, 12, 513-531.	1.6	5
89	Gratitude, social support and cardiovascular reactivity to acute psychological stress. <i>Biological Psychology</i> , 2021, 162, 108090.	1.1	5
90	Physiological stress responses to inequality across income groups in a virtual society. <i>Journal of Applied Social Psychology</i> , 2021, 51, 878-888.	1.3	5

#	ARTICLE	IF	CITATIONS
91	The cardiovascular response to acute psychological stress is related to subjectively giving and receiving social support. <i>International Journal of Psychophysiology</i> , 2021, 164, 95-102.	0.5	5
92	Allostatic load and mental health during COVID-19: The moderating role of neuroticism. <i>Brain, Behavior, & Immunity - Health</i> , 2021, 16, 100311.	1.3	5
93	A randomised controlled trial of benefit finding in caregivers: The Building Resources in Caregivers Study Protocol. <i>Health Psychology Open</i> , 2015, 2, 205510291559501.	0.7	4
94	Anticytomegalovirus antibody titres are not associated with caregiving burden in younger caregivers. <i>British Journal of Health Psychology</i> , 2015, 20, 68-84.	1.9	4
95	Community-based intervention to promote physical activity in rheumatoid arthritis (CIPPA-RA): a study protocol for a pilot randomised control trial. <i>Rheumatology International</i> , 2017, 37, 2095-2103.	1.5	4
96	The impact of COVID-19 on clinical research: the PIPPRA and MEDRA experience. <i>HRB Open Research</i> , 0, 4, 55.	0.3	4
97	Experiences of people with multiple sclerosis participating in a social cognitive behavior change physical activity intervention. <i>Physiotherapy Theory and Practice</i> , 2023, 39, 954-962.	0.6	4
98	Loneliness and cardiovascular reactivity to acute stress in older adults. <i>Psychophysiology</i> , 2022, 59, e14012.	1.2	4
99	Cluster analysis reveals distinct patterns of childhood adversity, behavioral disengagement, and depression that predict blunted heart rate reactivity to acute psychological stress. <i>Annals of Behavioral Medicine</i> , 2023, 57, 61-73.	1.7	4
100	Time of day of vaccination does not relate to antibody response to thymus-independent vaccinations. <i>Vaccine: X</i> , 2022, 11, 100178.	0.9	4
101	Merging Separately Established Functional Equivalence Classes. <i>Psychological Record</i> , 2015, 65, 435-450.	0.6	3
102	Cardiovascular reactivity to acute stress: Attachment styles and invisible stranger support. <i>International Journal of Psychophysiology</i> , 2021, 164, 121-129.	0.5	3
103	Sources of Variability in Physical Activity Among Inactive People with Multiple Sclerosis. <i>International Journal of Behavioral Medicine</i> , 2018, 25, 259-264.	0.8	2
104	OUP accepted manuscript. <i>European Journal of Public Health</i> , 2021, , .	0.1	2
105	Type D personality is associated with lower cardiovascular reactivity to stress in women. <i>Psychology and Health</i> , 2023, 38, 1515-1535.	1.2	1
106	Experiences of adolescent participation in a four-week community-based workshop designed to improve psychosocial skills: what are the key benefits?. <i>Community, Work and Family</i> , 2012, 15, 209-216.	1.5	0
107	A commentary on "The effects of identification with a support group on the mental health of people with multiple sclerosis". <i>Journal of Psychosomatic Research</i> , 2013, 75, 294.	1.2	0
108	A Commentary on "Positive Psychology Interventions for Patients With Heart Disease: A Preliminary Randomized Trial". <i>Psychosomatics</i> , 2017, 58, 329-330.	2.5	0
