#	Article	IF	CITATIONS
1	Deficits in bone strength, density and microarchitecture in women living with HIV: A cross-sectional HR-pQCT study. Bone, 2020, 138, 115509.	2.9	10
2	The Sustainability of a Workplace Wellness Program That Incorporates Gamification Principles: Participant Engagement and Health Benefits After 2 Years. American Journal of Health Promotion, 2019, 33, 850-858.	1.7	21
3	Cortical and trabecular bone microarchitecture as an independent predictor of incident fracture risk in older women and men in the Bone Microarchitecture International Consortium (BoMIC): a prospective study. Lancet Diabetes and Endocrinology,the, 2019, 7, 34-43.	11.4	244
4	Women's Mid-Life Night Sweats and 2-Year Bone Mineral Density Changes: A Prospective, Observational Population-Based Investigation from the Canadian Multicentre Osteoporosis Study (CaMos). International Journal of Environmental Research and Public Health, 2018, 15, 1079.	2.6	3
5	Adult Premenopausal Bone Health Related to Reproductive Characteristics—Population-Based Data from the Canadian Multicentre Osteoporosis Study (CaMos). International Journal of Environmental Research and Public Health, 2018, 15, 1023.	2.6	14
6	Patterns and predictors of sitting time over ten years in a large population-based Canadian sample: Findings from the Canadian Multicentre Osteoporosis Study (CaMos). Preventive Medicine Reports, 2017, 5, 289-294.	1.8	10
7	Ten-year incident osteoporosis-related fractures in the population-based Canadian Multicentre Osteoporosis Study — Comparing site and age-specific risks in women and men. Bone, 2015, 71, 237-243.	2.9	58
8	Peak bone mass from longitudinal data: Implications for the prevalence, pathophysiology, and diagnosis of osteoporosis. Journal of Bone and Mineral Research, 2010, 25, 1948-1957.	2.8	218
9	Change in bone mineral density as a function of age in women and men and association with the use of antiresorptive agents. Cmaj, 2008, 178, 1660-1668.	2.0	121
