citing authors

#	ARTICLE	IF	CITATIONS
1	Adaptations to practice and resilience in a paediatric major trauma centre during a mass casualty incident. <i>British Journal of Anaesthesia</i> , 2022, 128, e120-e126.	1.5	6
2	Mapping registered nurse anaesthetists'™ intraoperative work: tasks, multitasking, interruptions and their causes, and interactions: a prospective observational study. <i>BMJ Open</i> , 2022, 12, e052283.	0.8	4
3	Game Experience and Learning Effects of a Scoring-Based Mechanic for Logistical Aspects of Pediatric Emergency Medicine: Development and Feasibility Study. <i>JMIR Serious Games</i> , 2021, 9, e21988.	1.7	4
4	A First-line management team's™ strategies for sustaining resilience in a specialised intensive care unit—a qualitative observational study. <i>BMJ Open</i> , 2021, 11, e040358.	0.8	10
5	What's™ the Name of the Game? The Impact of eHealth on Productive Interactions in Chronic Care Management. <i>Sustainability</i> , 2021, 13, 5221.	1.6	5
6	The work of having a chronic condition: development and psychometric evaluation of the distribution of co-care activities (DoCCA) scale. <i>BMC Health Services Research</i> , 2021, 21, 480.	0.9	6
7	A novel approach to explore Safety-I and Safety-II perspectives in in situ simulations—the structured what if functional resonance analysis methodology. <i>Advances in Simulation</i> , 2021, 6, 21.	1.0	19
8	Structuring Game Design with Active Learning Benefits: Insights from Logistical Skills Training in Managing an Emergency Department. <i>Lecture Notes in Computer Science</i> , 2021, , 35-49.	1.0	0
9	Acting between guidelines and reality- an interview study exploring the strategies of first line managers in patient safety work. <i>BMC Health Services Research</i> , 2021, 21, 48.	0.9	7
10	Validation and initial results of surveys exploring perspectives on risks and solutions for diagnostic and medication errors in primary care in Sweden. <i>Scandinavian Journal of Primary Health Care</i> , 2020, 38, 381-390.	0.6	2
11	Drug Use and Type of Adverse Drug Events—Identified by a Trigger Tool in Different Units in a Swedish Pediatric Hospital. <i>Drug, Healthcare and Patient Safety</i> , 2020, Volume 12, 31-40.	1.0	8
12	Patient and provider perspectives on reducing risk of harm in primary health care: a qualitative questionnaire study in Sweden. <i>Scandinavian Journal of Primary Health Care</i> , 2020, 38, 66-74.	0.6	9
13	Patient-related factors associated with an increased risk of being a reported case of preventable harm in first-line health care: a case-control study. <i>BMC Family Practice</i> , 2020, 21, 20.	2.9	7
14	Diagnostic errors reported in primary healthcare and emergency departments: A retrospective and descriptive cohort study of 4830 reported cases of preventable harm in Sweden. <i>European Journal of General Practice</i> , 2019, 25, 128-135.	0.9	29
15	Tasks, multitasking and interruptions among the surgical team in an operating room: a prospective observational study. <i>BMJ Open</i> , 2019, 9, e026410.	0.8	41
16	Defining and measuring quality in acute paediatric trauma stabilisation: a phenomenographic study. <i>Advances in Simulation</i> , 2019, 4, 4.	1.0	1
17	A Serious Logistical Game of Paediatric Emergency Medicine: Proposed Scoring Mechanism and Pilot Test. <i>Lecture Notes in Computer Science</i> , 2019, , 468-478.	1.0	1
18	A systematic literature review of simulation models for non-technical skill training in healthcare logistics. <i>Advances in Simulation</i> , 2018, 3, 15.	1.0	38

#	ARTICLE	IF	CITATIONS
19	Safer paediatric surgical teams: A 5-year evaluation of crew resource management implementation and outcomes. <i>International Journal for Quality in Health Care</i> , 2017, 29, 853-860.	0.9	27
20	Results from the National Perinatal Patient Safety Program in Sweden: the challenge of evaluation. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2016, 95, 596-603.	1.3	12
21	Validation of triggers and development of a pediatric trigger tool to identify adverse events. <i>BMC Health Services Research</i> , 2014, 14, 655.	0.9	54
22	Is detection of adverse events affected by record review methodology? an evaluation of the "Harvard Medical Practice Study" method and the "Global Trigger Tool". <i>Patient Safety in Surgery</i> , 2013, 7, 10.	1.1	54
23	Retrospective record review in proactive patient safety work "identification of no-harm incidents. <i>BMC Health Services Research</i> , 2013, 13, 282.	0.9	9
24	Psychometric properties of the hospital survey on patient safety culture, HSOPSC, applied on a large Swedish health care sample. <i>BMC Health Services Research</i> , 2013, 13, 332.	0.9	55
25	Design, application and impact of quality improvement "theme months"™ in orthopaedic nursing: A mixed method case study on pressure ulcer prevention. <i>International Journal of Nursing Studies</i> , 2013, 50, 527-535.	2.5	13
26	Healthcare processes must be improved to reduce the occurrence of orthopaedic adverse events. <i>Scandinavian Journal of Caring Sciences</i> , 2010, 24, 671-677.	1.0	16
27	Patient safety as perceived by Swedish leaders. <i>International Journal of Health Care Quality Assurance</i> , 2009, 22, 168-182.	0.2	9
28	Application of statistical process control in healthcare improvement: systematic review. <i>Quality and Safety in Health Care</i> , 2007, 16, 387-399.	2.5	298
29	The DNA damage response and patient safety: engaging our molecular biology-oriented colleagues. <i>International Journal for Quality in Health Care</i> , 2005, 17, 363-367.	0.9	3
