| #  | ARTICLE                                                                                                                                                                                                                                           | IF  | CITATIONS |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | The roles of nicotine and natural enemies in determining larval feeding site distributions of <i>Manduca sexta</i> L. and <i>Manduca quinquemaculata</i> (Haworth) on tobacco. <i>Chemoecology</i> , 2002, 12, 1-10.                              | 1.1 | 29        |
| 2  | Upper thermal limits differ among and within component species in a tritrophic host-parasitoid-hyperparasitoid system. <i>PLoS ONE</i> , 2018, 13, e0198803.                                                                                      | 2.5 | 26        |
| 3  | Characterization of microsatellite loci in the parasitoid, <i>Cotesia congregata</i> (Say) (Hymenoptera). <i>Tj ETQq1 1 0.784314 rgBT /Overlock 10 Tf 50 6</i>                                                                                    | 1.7 | 25        |
| 4  | Characterization and Generation of Male Courtship Song in <i>Cotesia congregata</i> (Hymenoptera:). <i>Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 6</i>                                                                                                 | 2.5 | 20        |
| 5  | Postemergence Experience Affects Sex Ratio Allocation in a Gregarious Insect Parasitoid. <i>Journal of Insect Behavior</i> , 2008, 21, 34-45.                                                                                                     | 0.7 | 15        |
| 6  | Toxin or medication? Immunotherapeutic effects of nicotine on a specialist caterpillar. <i>Functional Ecology</i> , 2021, 35, 614-626.                                                                                                            | 3.6 | 15        |
| 7  | Effect of Sequential Learning Experiences on Searching Responses and Sex Ratio Allocations of the Gregarious Insect Parasitoid, <i>Cotesia congregata</i> (Say) (Hymenoptera: Braconidae). <i>Journal of Insect Behavior</i> , 2013, 26, 165-175. | 0.7 | 13        |
| 8  | Genetic Differentiation of Two Hostâ€“Foodplant Complex Sources of <i>Cotesia congregata</i> (Hymenoptera:). <i>Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 6</i>                                                                                        | 2.5 | 13        |
| 9  | Rearing temperature and parasitoid load determine host and parasitoid performance in <i>Manduca sexta</i> and <i>Cotesia congregata</i> . <i>Ecological Entomology</i> , 2020, 45, 79-89.                                                         | 2.2 | 13        |
| 10 | Characterization of microsatellite loci in two primary parasitoids of the butterfly <i>Melitaea cinxia</i> , <i>Cotesia melitaeorum</i> and <i>Hyposoter horticola</i> (Hymenoptera). <i>Molecular Ecology Notes</i> , 2004, 4, 231-233.          | 1.7 | 10        |
| 11 | Recovery of Environmental Human DNA by Insects* <sup>&amp;#x2013;</sup> . <i>Journal of Forensic Sciences</i> , 2010, 55, 1543-1551.                                                                                                              | 1.6 | 9         |
| 12 | Evolutionary relationships of courtship songs in the parasitic wasp genus, <i>Cotesia</i> (Hymenoptera:). <i>Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 6</i>                                                                                           | 2.5 | 6         |
| 13 | The effects of allelochemical transfer on the dynamics of hosts, parasitoids, and competing hyperparasitoids. <i>Natural Resource Modelling</i> , 2021, 34, e12311.                                                                               | 2.0 | 2         |
| 14 | XIV International Entomophagous Insects Workshop: June 11â€“15, 2006, Newark, Delaware. <i>Journal of Insect Science</i> , 2007, 7, 1-25.                                                                                                         | 1.5 | 0         |
