#	Paper	IF	Citations
60	Developing a Short Form of the Berg Balance Scale for People With Stroke. <i>Physical Therapy</i> , 2006 , 86, 195-204	3.3	117
59	A comparison of psychometric properties of the smart balance master system and the postural assessment scale for stroke in people who have had mild stroke. <i>Archives of Physical Medicine and Rehabilitation</i> , 2007 , 88, 374-80	2.8	75
58	Comparative content review of children's participation measures using the International Classification of Functioning, Disability and Health-Children and Youth. <i>Archives of Physical Medicine and Rehabilitation</i> , 2014 , 95, 141-52	2.8	71
57	Comparative responsiveness of verbal and numerical rating scales to measure pain intensity in patients with chronic pain. <i>Journal of Pain</i> , 2013 , 14, 1653-62	5.2	48
56	Measurement properties of fine motor scale of Peabody developmental motor scales-second edition: a Rasch analysis. <i>American Journal of Physical Medicine and Rehabilitation</i> , 2009 , 88, 376-86	2.6	47
55	Sensory Processing and Its Relationship with Children's Daily Life Participation. <i>Physical and Occupational Therapy in Pediatrics</i> , 2016 , 36, 73-87	2.1	39
54	Rasch-based scoring offered more precision in differentiating patient groups in measuring upper limb function. <i>Journal of Clinical Epidemiology</i> , 2013 , 66, 681-7	5.7	35
53	Developing a short form of the Berg Balance Scale for people with stroke. <i>Physical Therapy</i> , 2006 , 86, 195-204	3.3	33
52	Developing a Short Form of the Postural Assessment Scale for people with Stroke. <i>Neurorehabilitation and Neural Repair</i> , 2007 , 21, 81-90	4.7	29
51	Motor skill assessment of children: is there an association between performance-based, child-report, and parent-report measures of children's motor skills?. <i>Physical and Occupational Therapy in Pediatrics</i> , 2012 , 32, 196-209	2.1	28
50	A framework of children's hand skills for assessment and intervention. <i>Child: Care, Health and Development</i> , 2009 , 35, 873-84	2.8	24
49	Measures of participation outcomes related to hand use for 2- to 12-year-old children with disabilities: a systematic review. <i>Child: Care, Health and Development</i> , 2014 , 40, 458-71	2.8	22
48	Examining content validity and reliability of the Assessment of Children's Hand Skills (ACHS): a preliminary study. <i>American Journal of Occupational Therapy</i> , 2010 , 64, 756-67	0.4	21
47	Establishing the Validity and Reliability of the Student Practice Evaluation Form-Revised (SPEF-R) in Occupational Therapy Practice Education: A Rasch Analysis. <i>Evaluation and the Health Professions</i> , 2016 , 39, 33-48	2.5	20
46	Validity and reliability of the perceived deficit questionnaire to assess cognitive symptoms in people with chronic whiplash-associated disorders. <i>Archives of Physical Medicine and Rehabilitation</i> , 2012 , 93, 1774-81	2.8	20
45	Rasch analysis of the assessment of children's hand skills in children with and without disabilities. <i>Research in Developmental Disabilities</i> , 2011 , 32, 253-61	2.7	18
44	Development and validation of a WHOQOL-BREF Taiwanese audio player-assisted interview version for the elderly who use a spoken dialect. <i>Quality of Life Research</i> , 2007 , 16, 1375-81	3.7	18

43	Development and Psychometric Evaluation of a New Measure for Children's Participation in Hand-Use Life Situations. <i>Archives of Physical Medicine and Rehabilitation</i> , 2015 , 96, 1045-55	2.8	16
42	Construct validity of the Children's Hand-Skills ability Questionnaire (CHSQ) in children with disabilities: a Rasch analysis. <i>Research in Developmental Disabilities</i> , 2012 , 33, 1242-53	2.7	12
41	The Relationship between Affiliate Stigma in Parents of Children with Autism Spectrum Disorder and Their Children's Activity Participation. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	11
40	A new look at the construct validity of the K6 using Rasch analysis. <i>International Journal of Methods in Psychiatric Research</i> , 2014 , 23, 1-8	4.3	11
39	Psychometric Properties of the Internet Gaming Disorder Scale-Short-Form (IGDS9-SF): Systematic Review. <i>Journal of Medical Internet Research</i> , 2021 , 23, e26821	7.6	11
38	Occupation-Centred Assessment with Children 135-159		11
37	Establishment of cutpoints to categorize the severity of chronic pain using composite ratings with Rasch analysis. <i>European Journal of Pain</i> , 2017 , 21, 82-91	3.7	10
36	Parent-reported Participation in Children with Moderate-to-severe Developmental Disabilities: Preliminary Analysis of Associated Factors using the ICF Framework. <i>International Journal of Disability Development and Education</i> , 2017 , 64, 483-496	0.8	10
35	Exploring environmental restrictions on everyday life participation of children with developmental disability. <i>Journal of Intellectual and Developmental Disability</i> , 2017 , 42, 61-73	1.9	9
34	Examining construct validity of a new naturalistic observational assessment of hand skills for preschool- and school-age children. <i>Australian Occupational Therapy Journal</i> , 2012 , 59, 108-20	1.7	9
33	Agreement between the WHOQOL-BREF Chinese and Taiwanese versions in the elderly. <i>Journal of the Formosan Medical Association</i> , 2009 , 108, 164-9	3.2	9
32	Effectiveness of hand-arm bimanual intensive training on upper extremity function in children with cerebral palsy: A systematic review. <i>European Journal of Paediatric Neurology</i> , 2020 , 25, 17-28	3.8	9
31	Examining the inter-rater and test-retest reliability of the Student Practice Evaluation Form-Revised (SPEF-R) for occupational therapy students. <i>Australian Occupational Therapy Journal</i> , 2014 , 61, 353-63	1.7	8
30	Psychometric Properties of the Chinese (Putonghua) Version of the Oxford Cognitive Screen (OCS-P) in Subacute Poststroke Patients without Neglect. <i>BioMed Research International</i> , 2018 , 2018, 6827854	3	7
29	Convergent and Discriminant Validity of a Naturalistic Observational Assessment of Children's Hand Skills. <i>Hong Kong Journal of Occupational Therapy</i> , 2011 , 21, 64-71	1	7
28	Applying a new participation definition with pediatric populations: issues and challenges. <i>Archives of Physical Medicine and Rehabilitation</i> , 2011 , 92, 2096; author reply 2096-7	2.8	7
27	Development and psychometric evaluation of the Chinese version of the Participation and Environment Measure for Children and Youth. <i>Disability and Rehabilitation</i> , 2020 , 42, 2204-2214	2.4	7
26	Differences in patterns of physical participation in recreational activities between children with and without intellectual and developmental disability. <i>Research in Developmental Disabilities</i> , 2017 , 67, 9-18	2.7	6

25	Intra- and Inter-Rater Reliability of the Assessment of Children's Hand Skills Based on Video Recordings. <i>British Journal of Occupational Therapy</i> , 2014 , 77, 82-90	1	6
24	The contributing role of real-life hand skill performance in self-care function of children with and without disabilities. <i>Child: Care, Health and Development</i> , 2014 , 40, 134-44	2.8	6
23	Health status of people with work-related musculoskeletal disorders in return to work programs: a Malaysian study. <i>Occupational Therapy in Health Care</i> , 2013 , 27, 238-55	1.3	6
22	A Chinese version of the young children's participation and environment measure: psychometric evaluation in a Hong Kong sample. <i>Disability and Rehabilitation</i> , 2021 , 43, 3061-3069	2.4	5
21	Cross-cultural validity of a naturalistic observational assessment of children's hand skills: a study using Rasch analysis. <i>Journal of Rehabilitation Medicine</i> , 2011 , 43, 631-7	3.4	5
20	Parametric analyses of summative scores may lead to conflicting inferences when comparing groups: A simulation study. <i>Journal of Rehabilitation Medicine</i> , 2015 , 47, 300-4	3.4	4
19	Examining the Association between Children's Hand Skill Performance and Participation in Everyday Life. <i>Journal of Occupational Therapy, Schools, and Early Intervention</i> , 2014 , 7, 246-259	0.5	4
18	Occupational competence and its relationship to emotional health in injured workers in return to work programs: a Malaysian study. <i>Scandinavian Journal of Occupational Therapy</i> , 2013 , 20, 101-10	2.1	4
17	Occupational Performance Coaching with Parents to Promote Community Participation and Quality of Life of Young Children with Developmental Disabilities: A Feasibility Evaluation in Hong Kong. <i>International Journal of Environmental Research and Public Health</i> , 2020 , 17,	4.6	3
16	Participation in school-related activities that require hand use for children with and without developmental disabilities. <i>Journal of Intellectual Disability Research</i> , 2018 , 62, 262-268	3.2	3
15	Student Practice Evaluation Form-Revised Edition online comment bank: development and reliability analysis. <i>Australian Occupational Therapy Journal</i> , 2014 , 61, 241-8	1.7	3
14	The Relationship Between Sleep Duration and Participation in Home, School, and Community Activities Among School-Aged Children. <i>Frontiers in Neuroscience</i> , 2019 , 13, 860	5.1	2
13	Community Participation of School-Age Children: Who is at Risk of Restricted Participation?. <i>Physical and Occupational Therapy in Pediatrics</i> , 2021 , 41, 447-463	2.1	2
12	Chinese version of the Recovery Self-Assessment scale: psychometric evidence from Rasch analysis and reliability estimates. <i>Journal of Mental Health</i> , 2019 , 28, 206-212	2.7	2
11	An exploration of the relationship between two measures of children's participation. <i>Disability and Rehabilitation</i> , 2018 , 40, 1553-1560	2.4	1
10	Pediatric Occupational Therapy in Taiwan: Education, Service Provision, and Ongoing Development. <i>Journal of Occupational Therapy, Schools, and Early Intervention</i> , 2009 , 2, 238-245	0.5	1
9	Occupational Performance Coaching With Parents to Promote Community Participation of Young Children With Developmental Disabilities: Protocol for a Feasibility and Pilot Randomized Control Trial. <i>Frontiers in Pediatrics</i> , 2021 , 9, 720885	3.4	1
8	Psychometric Properties of the Internet Gaming Disorder Scale-Short-Form (IGDS9-SF): Systematic Review (Preprint)		1

7	Effects of touch-screen technology usage on the hand skills dataset. <i>Data in Brief</i> , 2020 , 33, 106358	1.2	1
6	Initial validation of the dimensions of home measure. <i>Australian Occupational Therapy Journal</i> , 2016 , 63, 47-56	1.7	1
5	Overactivity assessment in chronic pain: The development and psychometric evaluation of a multifaceted self-report assessment. <i>European Journal of Pain</i> , 2021 , 25, 225-242	3.7	1
4	The effects of touch-screen technology usage on hand skills among preschool children: a case-control study.. <i>F1000Research</i> , 2020 , 9, 1306	3.6	0
3	Using an International Role-Modeling Pedagogy to Engage First-Year Occupational Therapy Students in Learning Professionalism. <i>American Journal of Occupational Therapy</i> , 2020 , 74, 7406205060p1-7406205060p1	9.4	1
2	Continuing professional development in Chile: A case study. <i>World Federation of Occupational Therapists Bulletin</i> , 2016 , 72, 107-110	0.5	
1	Limited evidence exists for the psychometric properties of child-report measures that assess occupational performance in children ages 2-18 years. <i>Australian Occupational Therapy Journal</i> , 2018 , 65, 472-473	1.7
