#	ARTICLE	IF	CITATIONS
1	A Mobile Health Intervention for Self-Management and Lifestyle Change for Persons With Type 2 Diabetes, Part 2: One-Year Results From the Norwegian Randomized Controlled Trial RENEWING HEALTH. JMIR MHealth and UHealth, 2014, 2, e57.	1.8	219
2	A Low-Intensity Mobile Health Intervention With and Without Health Counseling for Persons With Type 2 Diabetes, Part 1: Baseline and Short-Term Results From a Randomized Controlled Trial in the Norwegian Part of RENEWING HEALTH. JMIR MHealth and UHealth, 2014, 2, e52.	1.8	96
3	Tailored Communication Within Mobile Apps for Diabetes Self-Management: A Systematic Review. Journal of Medical Internet Research, 2017, 19, e227.	2.1	73
4	Association between general self-efficacy, social support, cancer-related stress and physical health-related quality of life: a path model study in patients with neuroendocrine tumors. Health and Quality of Life Outcomes, 2016, 14, 11.	1.0	59
5	Skin pain and skin discomfort is associated with quality of life in patients with psoriasis. Journal of the European Academy of Dermatology and Venereology, 2012, 26, 29-35.	1.3	56
6	Effects of controlled breathing exercises and respiratory muscle training in people with chronic obstructive pulmonary disease: results from evaluating the quality of evidence in systematic reviews. BMC Pulmonary Medicine, 2014, 14, 184.	0.8	53
7	The complexity of the relationship between chronic pain and quality of life: a study of the general Norwegian population. Quality of Life Research, 2009, 18, 971-980.	1.5	50
8	Low-Intensity Self-Management Intervention for Persons With Type 2 Diabetes Using a Mobile Phone-Based Diabetes Diary, With and Without Health Counseling and Motivational Interviewing: Protocol for a Randomized Controlled Trial. JMIR Research Protocols, 2013, 2, e34.	0.5	44
9	Health Literacy in Kidney Disease: Associations with Quality of Life and Adherence. Journal of Renal Care, 2020, 46, 85-94.	0.6	36
10	The effect of an educational intervention for renal recipients: a randomized controlled trial. Clinical Transplantation, 2012, 26, E246-53.	0.8	34
11	A telephone-based motivational interviewing intervention has positive effects on psoriasis severity and self-management: a randomized controlled trial. British Journal of Dermatology, 2014, 171, 1458-1469.	1.4	34
12	Limited evidence of the effects of patient education and self-management interventions in psoriasis patients: A systematic review. Patient Education and Counseling, 2014, 94, 158-169.	1.0	34
13	Definitions and measurement of health literacy in health and medicine research: a systematic review. BMJ Open, 2022, 12, e056294.	0.8	31
14	Unpacking the process of interpretation in evidence-based decision making. Journal of Evaluation in Clinical Practice, 2015, 21, 529-531.	0.9	28
15	A validation study of the Norwegian version of the Health Literacy Questionnaire: A robust nine-dimension factor model. Scandinavian Journal of Public Health, 2021, 49, 471-478.	1.2	28
16	A cross-sectional study of health literacy in patients with chronic kidney disease: Associations with demographic and clinical variables. Nursing Open, 2019, 6, 1481-1490.	1.1	25
17	Effects of guided deep breathing on breathlessness and the breathing pattern in chronic obstructive pulmonary disease: A double-blind randomized control study. Patient Education and Counseling, 2015, 98, 182-190.	1.0	24
18	Clinical Characteristics Associated with Illness Perception in Psoriasis. Acta Dermato-Venereologica, 2014, 94, 271-275.	0.6	22

#	ARTICLE	IF	CITATIONS
19	Long-term, self-reported health outcomes in kidney donors. <i>BMC Nephrology</i> , 2016, 17, 8.	0.8	22
20	Positive Changes in Self-management and Disease Severity Following Climate Therapy in People with Psoriasis. <i>Acta Dermato-Venereologica</i> , 2015, 95, 317-321.	0.6	21
21	Psychometric Properties of the Norwegian Version of the Electronic Health Literacy Scale (eHEALS) Among Patients After Percutaneous Coronary Intervention: Cross-Sectional Validation Study. <i>Journal of Medical Internet Research</i> , 2020, 22, e17312.	2.1	20
22	Psoriasis Patients' Knowledge about the Disease and Treatments. <i>Dermatology Research and Practice</i> , 2013, 2013, 1-7.	0.3	19
23	Health literacy: a new piece of the puzzle in psoriasis care? A cross-sectional study. <i>British Journal of Dermatology</i> , 2019, 180, 1506-1516.	1.4	19
24	Shared Decision Making in Psoriasis: A Systematic Review of Quantitative and Qualitative Studies. <i>American Journal of Clinical Dermatology</i> , 2019, 20, 13-29.	3.3	19
25	Making robust decisions about the impact of health education programs: Psychometric evaluation of the Health Education Impact Questionnaire (heiQ) in diverse patient groups in Norway. <i>Patient Education and Counseling</i> , 2016, 99, 1733-1738.	1.0	18
26	Promoting sense of coherence: Salutogenesis among people with psoriasis undergoing patient education in climate therapy. <i>BMC Psychology</i> , 2013, 1, 11.	0.9	17
27	No long-term changes in psoriasis severity and quality of life following climate therapy. <i>Journal of the American Academy of Dermatology</i> , 2005, 52, 699-701.	0.6	15
28	The relationships among fear of hypoglycaemia, diabetes-related quality of life and psychological well-being in Norwegian adults with Type 1 diabetes. <i>Diabetes Research and Clinical Practice</i> , 2017, 124, 11-19.	1.1	15
29	Implementing a tailored education programme: renal transplant recipients' experiences. <i>Journal of Renal Care</i> , 2019, 45, 111-119.	0.6	15
30	Is regular use of physiotherapy treatment associated with health locus of control and self-management competency? A study of patients with musculoskeletal disorders undergoing physiotherapy in primary health care. <i>Musculoskeletal Science and Practice</i> , 2018, 36, 43-47.	0.6	14
31	Exploring health literacy needs in Chronic obstructive pulmonary disease (COPD): Associations between demographic, clinical variables, psychological well-being and health literacy. <i>Heart and Lung: Journal of Acute and Critical Care</i> , 2021, 50, 417-424.	0.8	14
32	Implementation of a new patient education programme for renal transplant recipients. <i>Journal of Renal Care</i> , 2018, 44, 106-114.	0.6	13
33	The complex experience of psoriasis related skin pain: a qualitative study. <i>Scandinavian Journal of Pain</i> , 2020, 20, 491-498.	0.5	12
34	Prevalence and Characteristics of Chronic Pain Among Long-term Social Assistance Recipients Compared to the General Population in Norway. <i>Clinical Journal of Pain</i> , 2010, 26, 624-630.	0.8	11
35	Identifying Core Variables Associated With Health Literacy in Kidney Transplant Recipients. <i>Progress in Transplantation</i> , 2020, 30, 38-47.	0.4	11
36	Changes in Health Literacy during the first year following a kidney transplantation: Using the Health Literacy Questionnaire. <i>Patient Education and Counseling</i> , 2021, 104, 1814-1822.	1.0	11

#	ARTICLE	IF	CITATIONS
37	Working with patients suffering from chronic diseases can be a balancing act for health care professionals - a meta-synthesis of qualitative studies. <i>BMC Health Services Research</i> , 2020, 20, 98.	0.9	10
38	Associations between disease education, self-management support, and health literacy in psoriasis. <i>Journal of Dermatological Treatment</i> , 2019, 32, 1-7.	1.1	9
39	Feeling safe and motivated to achieve better health: Experiences with a partnership-based nursing practice programme for in-home patients with chronic obstructive pulmonary disease. <i>Journal of Clinical Nursing</i> , 2017, 26, 2755-2764.	1.4	8
40	Exploring health literacy in patients with chronic kidney disease: a qualitative study. <i>BMC Nephrology</i> , 2020, 21, 314.	0.8	8
41	Negative perceptions of illness and health are associated with frequent use of physiotherapy in primary healthcare. <i>Musculoskeletal Care</i> , 2018, 16, 133-138.	0.6	7
42	The trigger-information-response model: Exploring health literacy during the first six months following a kidney transplantation. <i>PLoS ONE</i> , 2019, 14, e0223533.	1.1	7
43	Relevant associations between alexithymia and health-literacy in persons with psoriasis. <i>Journal of Dermatological Treatment</i> , 2020, , 1-9.	1.1	5
44	“It takes time, but recovering makes it worthwhile”™. A qualitative study of long-term users’™ experiences of physiotherapy in primary health care. <i>Physiotherapy Theory and Practice</i> , 2021, 37, 6-16.	0.6	5
45	The importance of shared meaning-making for sustainable knowledge translation and health literacy. <i>Journal of Evaluation in Clinical Practice</i> , 2022, 28, 828-834.	0.9	5
46	Differences in income trajectories according to psychological distress and pain: A longitudinal study among Norwegian social assistance recipients. <i>Scandinavian Journal of Public Health</i> , 2021, 49, 865-874.	1.2	4
47	Health literacy profiling in persons with psoriasis – A cluster analysis. <i>Skin Health and Disease</i> , 2021, 1, e17.	0.7	4
48	Intervening on health literacy by knowledge translation processes in kidney transplantation: A feasibility study. <i>Journal of Renal Care</i> , 2022, 48, 60-68.	0.6	4
49	Renal recipients’™ knowledge and self-efficacy during first year after implementing an evidence based educational intervention as routine care at the transplantation clinic. <i>BMC Nephrology</i> , 2021, 22, 265.	0.8	4
50	The Health Literacy Questionnaire: Initial Validity Testing in a Norwegian Sample. <i>Health Literacy Research and Practice</i> , 2020, 4, e190-e199.	0.5	4
51	Exploring patients’™ and health professionals’™ perspectives on health literacy needs in the context of chronic obstructive pulmonary disease. <i>Chronic Illness</i> , 2022, 18, 549-561.	0.6	3
52	Parents of children with epilepsy: Characteristics associated with high and low levels of health literacy. <i>Epilepsy and Behavior</i> , 2022, 130, 108658.	0.9	3
53	Fluctuating patterns in quality of life outcomes among patients with moderate and severe stages of chronic obstructive pulmonary disease. <i>Quality of Life Research</i> , 2016, 25, 2041-2051.	1.5	2
54	On the inside of a walking skill programme for patients who have undergone total hip or knee arthroplasty: A qualitative study. <i>European Journal of Physiotherapy</i> , 2015, 17, 159-165.	0.7	1

#	ARTICLE	IF	CITATIONS
55	Processes of knowing in the translation of a health communication intervention for dialysis patients awaiting kidney transplantation. <i>Patient Education and Counseling</i> , 2021, 104, 517-523.	1.0	1
56	Pain and Disability in Chronic Low Back Pain Patients Treated Using Instrumented Fusion. <i>Journal of Musculoskeletal Pain</i> , 2009, 17, 358-368.	0.3	0
