

List of Publications by Citations

Source: <https://exaly.com/author-pdf/5074601/cecile-vors-publications-by-citations.pdf>

Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

37 papers	1,121 citations	16 h-index	33 g-index
40 ext. papers	1,358 ext. citations	4.8 avg, IF	4.51 L-index

#	Paper	IF	Citations
37	Emulsified lipids increase endotoxemia: possible role in early postprandial low-grade inflammation. <i>Journal of Nutritional Biochemistry</i> , 2011 , 22, 53-9	6.3	195
36	Complex links between dietary lipids, endogenous endotoxins and metabolic inflammation. <i>Biochimie</i> , 2011 , 93, 39-45	4.6	108
35	Postprandial Endotoxemia Linked With Chylomicrons and Lipopolysaccharides Handling in Obese Versus Lean Men: A Lipid Dose-Effect Trial. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2015 , 100, 3427-35	5.6	87
34	Modulating absorption and postprandial handling of dietary fatty acids by structuring fat in the meal: a randomized crossover clinical trial. <i>American Journal of Clinical Nutrition</i> , 2013 , 97, 23-36	7	85
33	Dietary Proteins Relevant to Human Consumption Impact the Development of Obesity and Type 2 Diabetes in Association with Major Changes in the Gut Microbiota in a Mouse Model (OR27-03-19). <i>Current Developments in Nutrition</i> , 2019 , 3,	0.4	78
32	Do Docosahexaenoic and Eicosapentaenoic Acids Have Similar Effects on Inflammation Markers? Pairwise and Network Meta-Analyses of Randomized Controlled Trials. <i>Current Developments in Nutrition</i> , 2020 , 4, 485-485	0.4	78
31	Milk Polar Lipids Reduce Cholesterolemia by Decreasing Cholesterol Absorption in Humans (P06-041-19). <i>Current Developments in Nutrition</i> , 2019 , 3,	0.4	78
30	Impact of a Supplementation with Polyphenol Extract and L-citrulline on Ambulatory Blood Pressure in Pre-Hypertensive Individuals. <i>Current Developments in Nutrition</i> , 2020 , 4, 1151-1151	0.4	78
29	Coupling in vitro gastrointestinal lipolysis and Caco-2 cell cultures for testing the absorption of different food emulsions. <i>Food and Function</i> , 2012 , 3, 537-46	6.1	53
28	Milk polar lipids reduce lipid cardiovascular risk factors in overweight postmenopausal women: towards a gut sphingomyelin-cholesterol interplay. <i>Gut</i> , 2020 , 69, 487-501	19.2	36
27	¹³ C tracer recovery in human stools after digestion of a fat-rich meal labelled with [1,1,1- ¹³ C ₃]tripalmitin and [1,1,1- ¹³ C ₃]triolein. <i>Rapid Communications in Mass Spectrometry</i> , 2011 , 25, 2697-703	2.2	35
26	Supplementation with high-dose docosahexaenoic acid increases the Omega-3 Index more than high-dose eicosapentaenoic acid. <i>Prostaglandins Leukotrienes and Essential Fatty Acids</i> , 2017 , 120, 8-14	2.8	33
25	Inflammatory gene expression in whole blood cells after EPA vs. DHA supplementation: Results from the ComparED study. <i>Atherosclerosis</i> , 2017 , 257, 116-122	3.1	24
24	Supplementation with Resveratrol and Curcumin Does Not Affect the Inflammatory Response to a High-Fat Meal in Older Adults with Abdominal Obesity: A Randomized, Placebo-Controlled Crossover Trial. <i>Journal of Nutrition</i> , 2018 , 148, 379-388	4.1	23
23	High-Dose DHA Has More Profound Effects on LDL-Related Features Than High-Dose EPA: The ComparED Study. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2018 , 103, 2909-2917	5.6	20
22	Advancing food, nutrition, and health research in Europe by connecting and building research infrastructures in a DISH-RI: Results of the EuroDISH project. <i>Trends in Food Science and Technology</i> , 2018 , 73, 58-66	15.3	17
21	LDL particle number and size and cardiovascular risk: anything new under the sun?. <i>Current Opinion in Lipidology</i> , 2017 , 28, 261-266	4.4	15

20	Emulsifying dietary fat modulates postprandial endotoxemia associated with chylomicronemia in obese men: a pilot randomized crossover study. <i>Lipids in Health and Disease</i> , 2017 , 16, 97	4.4	12
19	Comparing the Effects of Docosahexaenoic and Eicosapentaenoic Acids on Inflammation Markers Using Pairwise and Network Meta-Analyses of Randomized Controlled Trials. <i>Advances in Nutrition</i> , 2021 , 12, 128-140	10	11
18	Concepts and procedures for mapping food and health research infrastructure: New insights from the EuroDISH project. <i>Trends in Food Science and Technology</i> , 2017 , 63, 113-131	15.3	8
17	Comparing the serum TAG response to high-dose supplementation of either DHA or EPA among individuals with increased cardiovascular risk: the ComparED study. <i>British Journal of Nutrition</i> , 2019 , 121, 1223-1234	3.6	8
16	Produits laitiers et inflammation métabolique : quels liens en phase postprandiale et long terme ?. <i>Cahiers De Nutrition Et De Dietetique</i> , 2015 , 50, 25-38	0.2	7
15	Feeding diversified protein sources exacerbates hepatic insulin resistance via increased gut microbial branched-chain fatty acids and mTORC1 signaling in obese mice. <i>Nature Communications</i> , 2021 , 12, 3377	17.4	7
14	Milk polar lipids favorably alter circulating and intestinal ceramide and sphingomyelin species in postmenopausal women. <i>JCI Insight</i> , 2021 , 6,	9.9	5
13	Impact de la structure émulsionnée des lipides sur le devenir métabolique des acides gras alimentaires. <i>Cahiers De Nutrition Et De Dietetique</i> , 2016 , 51, 238-247	0.2	4
12	Impacts métaboliques et inflammatoires des matières grasses émulsionnées. <i>OCL - Oilseeds and Fats, Crops and Lipids</i> , 2017 , 24, D203	1.5	3
11	Intérêt de la phase postprandiale pour la santé de l'homme. <i>Bulletin De L'Académie Nationale De Médecine</i> , 2013 , 197, 65-78	0.1	3
10	Dietary lipid emulsions and endotoxemia. <i>OCL - Oilseeds and Fats, Crops and Lipids</i> , 2016 , 23, D306	1.5	3
9	Homogeneous triacylglycerol tracers have an impact on the thermal and structural properties of dietary fat and its lipolysis rate under simulated physiological conditions. <i>Chemistry and Physics of Lipids</i> , 2019 , 225, 104815	3.7	2
8	Dietary lipids and cardiometabolic health: a new vision of structure-activity relationship. <i>Current Opinion in Clinical Nutrition and Metabolic Care</i> , 2020 , 23, 451-459	3.8	2
7	Postprandial Endotoxin Transporters LBP and sCD14 Differ in Obese vs. Overweight and Normal Weight Men during Fat-Rich Meal Digestion. <i>Nutrients</i> , 2020 , 12,	6.7	1
6	Bioavailability and metabolism of dietary lipids 2020 , 45-92		1
5	Omega-3 fatty acids: new insights into the impact of eicosapentaenoic and docosahexaenoic acids on lipid and lipoprotein metabolism. <i>Current Opinion in Lipidology</i> , 2020 , 31, 38-39	4.4	1
4	Impacts métaboliques et inflammatoires des matières grasses émulsionnées. <i>Cahiers De Nutrition Et De Dietetique</i> , 2017 , 52, 244-256	0.2	
3	Postprandial Endotoxemia Increases with Fat Amount in Obese Men: Inflammatory Impact of LPS Handling. <i>FASEB Journal</i> , 2015 , 29, 393.5	0.9	

- 2 Reply to J Morze and L Schwingshackl. *Advances in Nutrition*, **2021**, 12, 278-279 10
- 1 Metabolic impact of dietary lipids: towards a role of unabsorbed lipid residues?. *OCL - Oilseeds and Fats, Crops and Lipids*, **2021**, 28, 9 1,5
