#	ARTICLE	IF	CITATIONS
1	Impact of HIV risk perception on both pre-exposure prophylaxis and condom use. <i>Journal of Health Psychology</i> , 2021, 26, 1575-1586.	1.3	11
2	What are the situational and behavioral factors associated with condomless anal sex without pre-exposure prophylaxis in MSM?. <i>Aids</i> , 2020, 34, 1367-1375.	1.0	9
3	Who are the persons living with HIV who might refuse to participate in HIV cure-related clinical trials with treatment interruption?. <i>Aids</i> , 2020, 34, 1095-1099.	1.0	4
4	Characterization of Physicians That Might Be Reluctant to Propose HIV Cure-Related Clinical Trials with Treatment Interruption to Their Patients? The ANRS-APSEC Study. <i>Vaccines</i> , 2020, 8, 334.	2.1	4
5	Differences in HIV cure clinical trial preferences of French people living with HIV and physicians in the ANRS-APSEC study: a discrete choice experiment. <i>Journal of the International AIDS Society</i> , 2020, 23, e25443.	1.2	14
6	Changes in Sexual Behaviors in Men Who Have Sex with Men: A Comparison Between the Double-Blind and Open-Label Extension Phases of the ANRS-IPERGAY Trial. <i>AIDS and Behavior</i> , 2020, 24, 3093-3106.	1.4	7
7	What is the effect of self-identified HIV activism in willingness to participate in HIV cure-related clinical trials? Results from the ANRS-APSEC study. <i>Journal of Virus Eradication</i> , 2019, 5, 152-162.	0.3	13
8	What is the effect of self-identified HIV activism in willingness to participate in HIV cure-related clinical trials? Results from the ANRS-APSEC study. <i>Journal of Virus Eradication</i> , 2019, 5, 152-162.	0.3	6
9	Acceptability of HIV cure-related trials: the challenges for physicians and people living with HIV (ANRS-APSEC). <i>AIDS Care - Psychological and Socio-Medical Aspects of AIDS/HIV</i> , 2018, 30, 914-920.	0.6	19
10	Importance of the patient-physician interaction in assessing acceptability of HIV cure trials. <i>HIV Medicine</i> , 2018, 19, e56-e57.	1.0	7
11	The ANRS-Ipergay trial, an opportunity to use qualitative research to understand the perception of the "participant-physician relationship". <i>AIDS Care - Psychological and Socio-Medical Aspects of AIDS/HIV</i> , 2018, 30, 41-47.	0.6	5
12	Marketing Authorization Procedures for Advanced Cancer Drugs: Exploring the Views of Patients, Oncologists, Healthcare Decision Makers, and Citizens in France. <i>Medical Decision Making</i> , 2017, 37, 555-566.	1.2	5
13	Will CURE trials introduce an uncomfortable revolution in the field of HIV research?. <i>HIV Clinical Trials</i> , 2017, 18, 174-175.	2.0	6
14	How Can Contingent Valuation Inform the "Bioethics Debate? Evidence from a Survey on Hereditary Cancers in France. <i>Revue Economique</i> , 2017, Vol. 68, 379-404.	0.1	2
15	Patterns of patient and healthcare provider viewpoints regarding participation in HIV cure-related clinical trials. Findings from a multicentre French survey using Q methodology (ANRS-APSEC). <i>PLoS ONE</i> , 2017, 12, e0187489.	1.1	24
16	Take the Money and Run? Hypothetical Fee Variations and French GPs' Labour Supply. <i>Revue Economique</i> , 2017, Vol. 68, 357-377.	0.1	2
17	HIV patients and caregivers viewpoints towards participation to future HIV cure-related clinical trials " results from the second part of the French ANRS-APSEC survey. <i>Journal of Virus Eradication</i> , 2016, 2, 27.	0.3	1
18	From representing views to representativeness of views: Illustrating a new (Q2S) approach in the context of health care priority setting in nine European countries. <i>Social Science and Medicine</i> , 2016, 166, 205-213.	1.8	19

#	ARTICLE	IF	CITATIONS
19	Transitions in the labor market after cancer: a comparison of self-employed workers and salaried staff. <i>Supportive Care in Cancer</i> , 2016, 24, 4879-4886.	1.0	10
20	The labour market, psychosocial outcomes and health conditions in cancer survivors: protocol for a nationwide longitudinal survey 2 and 5 years after cancer diagnosis (the VICAN survey). <i>BMJ Open</i> , 2015, 5, e005971-e005971.	0.8	61
21	Comparing WTP Values of Different Types of QALY Gain Elicited from the General Public. <i>Health Economics (United Kingdom)</i> , 2015, 24, 280-293.	0.8	64
22	Heterogeneity of Cancer Patient Information-Seeking Behaviors. <i>Medical Decision Making</i> , 2012, 32, 362-375.	1.2	38
23	BRCA1/2 carriers: their childbearing plans and theoretical intentions about having preimplantation genetic diagnosis and prenatal diagnosis. <i>Genetics in Medicine</i> , 2012, 14, 527-534.	1.1	34
24	Full access to medical records does not modify anxiety in cancer patients. <i>Cancer</i> , 2011, 117, 4796-4804.	2.0	28
25	Prescribers' attitudes toward elderly breast cancer patients. Discrimination or empathy?. <i>Critical Reviews in Oncology/Hematology</i> , 2010, 75, 138-150.	2.0	50
26	Cost-effectiveness of adjuvant docetaxel for node-positive breast cancer patients: results of the PACS 01 economic study. <i>Annals of Oncology</i> , 2010, 21, 1448-1454.	0.6	15
27	Patients' self-assessment of tolerance and quality of life during docetaxel-based chemotherapy: Results from a phase III trial in hormone-naïve metastatic prostate cancer patients (GETUG-AFU 15/0403). <i>Journal of Clinical Oncology</i> , 2010, 28, 6155-6155.	0.8	0
28	Toxicity symptom reporting by patients and clinicians during phase III trial comparing androgen deprivation therapy (ADT) plus docetaxel versus ADT alone in hormone-naïve metastatic prostate cancer (GETUG-AFU 15/0403). <i>Journal of Clinical Oncology</i> , 2010, 28, 6155-6155.	0.8	0
29	Systematic versus on-request patients' access to medical files: Randomized trial's influence on anxiety, quality of life and treatment satisfaction in cancer patients. <i>Journal of Clinical Oncology</i> , 2008, 26, 6524-6524.	0.8	0
30	Lung cancer in elderly patients: A retrospective analysis of practice in a single institution. <i>Critical Reviews in Oncology/Hematology</i> , 2007, 64, 43-48.	2.0	7
31	Willingness to be informed during treatment among cancer patients?. <i>Journal of Clinical Oncology</i> , 2006, 24, 18522-18522.	0.8	0
32	The impact of information on non-health attributes on willingness to pay for multiple health care programmes. <i>Social Science and Medicine</i> , 2004, 58, 1257-1269.	1.8	41
33	Determinants of Patients' Choice of Reconstruction with Mastectomy for Primary Breast Cancer. <i>Annals of Surgical Oncology</i> , 2004, 11, 762-771.	0.7	105
34	Les consentements à payer pour des programmes de prévention sanitaire incluent-ils de l'altruisme?: Enseignements d'une enquête sur la fièvre Q. <i>Revue Economique</i> , 2004, 55, 923.	0.1	1
35	Les consentements à payer pour des programmes de prévention sanitaire incluent-ils de l'altruisme?. <i>Revue Economique</i> , 2004, Vol. 55, 923-945.	0.1	5
36	Eliciting several willingness to pay in a single contingent valuation survey: application to health care. <i>Health Economics (United Kingdom)</i> , 2003, 12, 51-64.	0.8	70

#	ARTICLE	IF	CITATIONS
37	Modulations of dose intensity of doxorubicin and cyclophosphamide in association with G-CSF and peripheral blood stem cells in adjuvant chemotherapy for breast cancer: comparative evaluation of completion and safety of three intensive regimens. <i>Bone Marrow Transplantation</i> , 2002, 29, 881-886.	1.3	4
38	Quality of life of breast cancer patients receiving high-dose-intensity chemotherapy: impact of length of cycles. <i>Supportive Care in Cancer</i> , 2002, 10, 222-230.	1.0	12
39	Efficacy and tolerance of a scalp-cooling system for prevention of hair loss and the experience of breast cancer patients treated by adjuvant chemotherapy. <i>Supportive Care in Cancer</i> , 2002, 10, 529-537.	1.0	53
40	Patient participation in medical decision-making: A French study in adjuvant radio-chemotherapy for early breast cancer. <i>Annals of Oncology</i> , 2000, 11, 39-46.	0.6	46
