

Heather Bird Jackson

List of Publications by Citations

Source: <https://exaly.com/author-pdf/5116197/heather-bird-jackson-publications-by-citations.pdf>

Version: 2024-04-29

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
13	Are ecologists conducting research at the optimal scale?. <i>Global Ecology and Biogeography</i> , 2015 , 24, 52-63	6.1	284
12	What size is a biologically relevant landscape?. <i>Landscape Ecology</i> , 2012 , 27, 929-941	4.3	216
11	What determines the spatial extent of landscape effects on species?. <i>Landscape Ecology</i> , 2016 , 31, 1177-1194	4.394	134
10	Landscape context outweighs local habitat quality in its effects on herbivore dispersal and distribution. <i>Oecologia</i> , 2007 , 151, 431-41	2.9	47
9	Habitat-specific movement and edge-mediated behavior of the saproxylic insect <i>Odontotaenius disjunctus</i> (Coleoptera: Passalidae). <i>Environmental Entomology</i> , 2009 , 38, 1411-22	2.1	18
8	Factoring economic costs into conservation planning may not improve agreement over priorities for protection. <i>Nature Communications</i> , 2017 , 8, 2253	17.4	15
7	Size is not a reliable measure of sexual fecundity in two species of lichenized fungi. <i>Bryologist</i> , 2006 , 109, 157-165	0.7	14
6	Is conservation right to go big? Protected area size and conservation return-on-investment. <i>Biological Conservation</i> , 2018 , 225, 229-236	6.2	12
5	From logs to landscapes: determining the scale of ecological processes affecting the incidence of a saproxylic beetle. <i>Ecological Entomology</i> , 2012 , 37, 233-243	2.1	11
4	Habitat Loss and Fragmentation 2013 , 50-58		9
3	Allocating resources for land protection using continuous optimization: biodiversity conservation in the United States. <i>Ecological Applications</i> , 2020 , 30, e02118	4.9	8
2	Mechanisms driving the density-area relationship in a saproxylic beetle. <i>Oecologia</i> , 2013 , 173, 1237-47	2.9	7
1	Protected area, easement, and rental contract data reveal five communities of land protection in the United States. <i>Ecological Applications</i> , 2021 , 31, e02322	4.9	0
