#	ARTICLE	IF	CITATIONS
1	Functional, communicative and critical health literacy of chronic disease patients and their importance for self-management. Patient Education and Counseling, 2015, 98, 41-48.	2.2	241
2	Comorbidity of chronic diseases. Quality of Life Research, 2005, 14, 45-55.	3.1	206
3	Multimorbidity care model: Recommendations from the consensus meeting of the Joint Action on Chronic Diseases and Promoting Healthy Ageing across the Life Cycle (JA-CHRODIS). Health Policy, 2018, 122, 4-11.	3.0	176
4	Measuring patient activation in the Netherlands: translation and validation of the American short form Patient Activation Measure (PAM13). BMC Public Health, 2012, 12, 577.	2.9	167
5	Effectiveness of comprehensive care programs for patients with multiple chronic conditions or frailty: A systematic literature review. Health Policy, 2016, 120, 818-832.	3.0	149
6	Illness perceptions of cancer patients: relationships with illness characteristics and coping. Psycho-Oncology, 2015, 24, 11-18.	2.3	108
7	Perceived genetic knowledge, attitudes towards genetic testing, and the relationship between these among patients with a chronic disease. Patient Education and Counseling, 2007, 65, 197-204.	2.2	104
8	Chronic disease and mental disorder. Social Science and Medicine, 2005, 60, 789-797.	3.8	101
9	Illness perceptions in dialysis patients and their association with quality of life. Psychology and Health, 2008, 23, 679-690.	2.2	95
10	Communication of biobanks' research results: What do (potential) participants want?. American Journal of Medical Genetics, Part A, 2010, 152A, 2482-2492.	1.2	86
11	Participation in daytime activities among people with mild or moderate intellectual disability. Journal of Intellectual Disability Research, 2011, 55, 4-18.	2.0	86
12	Managing multimorbidity: Profiles of integrated care approaches targeting people with multiple chronic conditions in Europe. Health Policy, 2018, 122, 44-52.	3.0	82
13	Available Support and Received Support: Different Effects Under Stressful Circumstances. Journal of Social and Personal Relationships, 1997, 14, 59-77.	2.3	75
14	eHealth in integrated care programs for people with multimorbidity in Europe: Insights from the ICARE4EU project. Health Policy, 2018, 122, 53-63.	3.0	71
15	Knowledge and Attitudes Towards Genetic Testing: A Two Year Follow-Up Study in Patients with Asthma, Diabetes Mellitus and Cardiovascular Disease. Journal of Genetic Counseling, 2007, 16, 493-504.	1.6	66
16	Determinants of Increased Primary Health Care Use in Cancer Survivors. Journal of Clinical Oncology, 2012, 30, 4155-4160.	1.6	65
17	For which health problems do cancer survivors visit their General Practitioner?. European Journal of Cancer, 2013, 49, 211-218.	2.8	62
18	Patient-centeredness of integrated care programs for people with multimorbidity. Results from the European ICARE4EU project. Health Policy, 2018, 122, 36-43.	3.0	60

#	ARTICLE	IF	CITATIONS
19	Social position of adolescents with chronic digestive disorders. European Journal of Gastroenterology and Hepatology, 2002, 14, 543-549.	1.6	59
20	Health care utilization of patients with multiple chronic diseases in the Netherlands: Differences and underlying factors. European Journal of Internal Medicine, 2016, 35, 44-50.	2.2	56
21	Chronic Disease Management Programmes: an adequate response to patients'™ needs?. Health Expectations, 2014, 17, 608-621.	2.6	55
22	The information-seeking behavior of cancer outpatients: a description of the situation. Patient Education and Counseling, 1993, 22, 35-46.	2.2	54
23	Labour participation of the chronically ill: A profile sketch. European Journal of Public Health, 2002, 12, 124-130.	0.3	54
24	Bringing Internet connectivity to rural Zambia using a collaborative approach. , 2007, , .		54
25	Health care utilization of patients with multiple chronic diseases in The Netherlands: Differences and underlying factors. European Journal of Internal Medicine, 2015, 26, 190-196.	2.2	53
26	Ageing with an intellectual disability: the impact of personal resources on well-being. Journal of Intellectual Disability Research, 2013, 57, 1068-1078.	2.0	52
27	Predictive genetic testing for cardiovascular diseases: Impact on carrier children. American Journal of Medical Genetics, Part A, 2008, 146A, 3136-3146.	1.2	50
28	Illness perceptions and self-care behaviours in the first years of living with type 2 diabetes; does the presence of complications matter?. Psychology and Health, 2015, 30, 1274-1287.	2.2	49
29	Illness perceptions and treatment perceptions of patients with chronic kidney disease: Different phases, different perceptions?. British Journal of Health Psychology, 2013, 18, 244-262.	3.5	48
30	Quality of care assessment for people with multimorbidity. Journal of Internal Medicine, 2019, 285, 289-300.	6.0	48
31	Self-management support needs of patients with chronic illness: Do needs for support differ according to the course of illness?. Patient Education and Counseling, 2013, 93, 626-632.	2.2	47
32	Clinical experience of rehabilitation therapists with chronic diseases: a quantitative approach. Clinical Rehabilitation, 1998, 12, 143-150.	2.2	44
33	Health-related quality of life of children with a positive carrier status for inherited cardiovascular diseases. American Journal of Medical Genetics, Part A, 2008, 146A, 700-707.	1.2	44
34	Does trust in health care influence the use of complementary and alternative medicine by chronically ill people?. BMC Public Health, 2006, 6, 188.	2.9	43
35	Diabetes-related distress over the course of illness: results from the Diacourse study. Diabetic Medicine, 2015, 32, 1617-1624.	2.3	43
36	Do everyday problems of people with chronic illness interfere with their disease management?. BMC Public Health, 2015, 15, 1000.	2.9	42

#	ARTICLE	IF	CITATIONS
37	School and leisure activities in adolescents and young adults with chronic digestive disorders: Impact of burden of disease. <i>International Journal of Behavioral Medicine</i> , 2006, 13, 121-130.	1.7	40
38	About Cats and Dogs â€” Reconsidering the Relationship Between Pet Ownership and Health Related Outcomes in Community-Dwelling Elderly. <i>Social Indicators Research</i> , 2011, 102, 373-388.	2.7	40
39	People with mild to moderate intellectual disability talking about their diabetes and how they manage. <i>Journal of Intellectual Disability Research</i> , 2012, 56, 351-360.	2.0	37
40	The Stress of Being Chronically Ill: From Disease-Specific to Task-Specific Aspects. <i>Journal of Behavioral Medicine</i> , 2004, 27, 255-271.	2.1	36
41	Money does not bring wellâ€being, but it does help! The relationship between financial resources and life satisfaction of the chronically ill mediated by social deprivation and loneliness. <i>Journal of Community and Applied Social Psychology</i> , 2008, 18, 39-53.	2.4	36
42	Work adjustments among the chronically ill. <i>International Journal of Rehabilitation Research</i> , 2001, 24, 7-14.	1.3	35
43	What are essential elements of high-quality palliative care at home? An interview study among patients and relatives faced with advanced cancer. <i>BMC Palliative Care</i> , 2019, 18, 96.	1.8	35
44	Pre-dialysis patients' perceived autonomy, self-esteem and labor participation: associations with illness perceptions and treatment perceptions. A cross-sectional study. <i>BMC Nephrology</i> , 2010, 11, 35.	1.8	34
45	Patient-Perceived Self-Management Tasks and Support Needs of People with Chronic Illness: Generic or Disease Specific?. <i>Annals of Behavioral Medicine</i> , 2015, 49, 221-229.	2.9	34
46	Health-related needs of people with multiple chronic diseases: differences and underlying factors. <i>Quality of Life Research</i> , 2016, 25, 651-660.	3.1	34
47	Attitudes and dilemmas of caregivers supporting people with intellectual disabilities who have diabetes. <i>Patient Education and Counseling</i> , 2012, 87, 383-388.	2.2	32
48	The importance of illness duration, age at diagnosis and the year of diagnosis for labour participation chances of people with chronic illness: results of a nationwide panel-study in the Netherlands. <i>BMC Public Health</i> , 2013, 13, 803.	2.9	32
49	The role of illness perceptions in labor participation of the chronically ill. <i>International Archives of Occupational and Environmental Health</i> , 2008, 82, 13-20.	2.3	30
50	The Development of and First Experiences with a Behavioural Self-regulation Intervention for End-stage Renal Disease Patients and Their Partners. <i>Journal of Health Psychology</i> , 2011, 16, 274-283.	2.3	29
51	Stress in chronic disease: Do the perceptions of patients and their general practitioners match?. <i>British Journal of Health Psychology</i> , 2001, 6, 229-242.	3.5	28
52	Subjective well-being of elderly women: Conceptual differences between cancer patients, women suffering from chronic ailments and healthy women. <i>British Journal of Clinical Psychology</i> , 1995, 34, 289-300.	3.5	26
53	Disease characteristics as determinants of the labour market position of adolescents and young adults with chronic digestive disorders. <i>European Journal of Gastroenterology and Hepatology</i> , 2006, 18, 203-209.	1.6	26
54	Healthâ€related quality of life and health care use in cancer survivors compared with patients with chronic diseases. <i>Cancer</i> , 2016, 122, 962-970.	4.1	26

#	ARTICLE	IF	CITATIONS
55	Developments in patient activation of people with chronic illness and the impact of changes in self-reported health: results of a nationwide longitudinal study in The Netherlands. Patient Education and Counseling, 2014, 97, 383-390.	2.2	25
56	A prospective analysis of the effect of neighbourhood and individual social capital on changes in self-rated health of people with chronic illness. BMC Public Health, 2014, 14, 675.	2.9	25
57	Biobank Research: Reporting Results to Individual Participants. European Journal of Health Law, 2009, 16, 229-247.	0.2	24
58	Peer support to decrease diabetes-related distress in patients with type 2 diabetes mellitus: design of a randomised controlled trial. BMC Endocrine Disorders, 2014, 14, 21.	2.2	24
59	Perceived autonomy and self-esteem in Dutch dialysis patients: The importance of illness and treatment perceptions. Psychology and Health, 2010, 25, 733-749.	2.2	23
60	Researchers'™ opinions towards the communication of results of biobank research: a survey study. European Journal of Human Genetics, 2012, 20, 258-262.	2.8	22
61	A Methodological Approach for Implementing an Integrated Multimorbidity Care Model: Results from the Pre-Implementation Stage of Joint Action CHRODIS-PLUS. International Journal of Environmental Research and Public Health, 2019, 16, 5044.	2.6	22
62	Clinical and functional correlates of foot pain in diabetic patients. Disability and Rehabilitation, 1998, 20, 330-336.	1.8	21
63	Identifying subgroups of persons with multimorbidity based on their needs for care and support. BMC Family Practice, 2019, 20, 179.	2.9	20
64	Depressive symptomatology of post-menopausal breast cancer patients: a comparison of women recently treated by mastectomy or by breast-conserving therapy. European Journal of Surgical Oncology, 1995, 21, 498-503.	1.0	18
65	Partners of cancer patients consult their GPs significantly more often with both somatic and psychosocial problems. Scandinavian Journal of Primary Health Care, 2013, 31, 203-208.	1.5	18
66	The European multistakeholder PanCareFollowUp project: novel, person-centred survivorship care to improve care quality, effectiveness, cost-effectiveness and accessibility for cancer survivors and caregivers. European Journal of Cancer, 2021, 153, 74-85.	2.8	18
67	Assigning a Prominent Role to 'The Patient Experience' in Assessing the Quality of Integrated Care for Populations with Multiple Chronic Conditions. International Journal of Integrated Care, 2019, 19, 19.	0.2	18
68	Regulated competition in health care: Switching and barriers to switching in the Dutch health insurance system. BMC Health Services Research, 2011, 11, 95.	2.2	17
69	Coping in adolescents and young adults with chronic digestive disorders: Impact on school and leisure activities. Psychology and Health, 2006, 21, 447-462.	2.2	16
70	Labor Participation Among Patients with Inflammatory Bowel Disease. Inflammatory Bowel Diseases, 2013, 19, 81-91.	1.9	16
71	Participation of People With Physical Disabilities: Three-Year Trend and Potential for Improvement. Archives of Physical Medicine and Rehabilitation, 2013, 94, 944-950.	0.9	16
72	Tackling the challenge of multi-morbidity: Actions for health policy and research. Health Policy, 2018, 122, 1-3.	3.0	16

#	ARTICLE	IF	CITATIONS
73	Patient involvement in diabetes care: experiences in nine diabetes care groups. International Journal of Integrated Care, 2015, 15, e044.	0.2	16
74	Health care use by diabetic patients in the Netherlands: patterns and predicting factors. Diabetes Research and Clinical Practice, 2003, 61, 199-209.	2.8	15
75	Palliative care for patients with cancer: do patients receive the care they consider important? A survey study. BMC Palliative Care, 2018, 17, 61.	1.8	15
76	Individual care plans for chronically ill patients within primary care in the Netherlands: Dissemination and associations with patient characteristics and patient-perceived quality of care. Scandinavian Journal of Primary Health Care, 2015, 33, 100-106.	1.5	14
77	Who is responsible for providing care? Investigating the role of care tasks and past experiences in a cross-sectional survey in the Netherlands. BMC Health Services Research, 2017, 17, 477.	2.2	14
78	Living with diabetes: a group-based self-management support programme for T2DM patients in the early phases of illness and their partners, study protocol of a randomised controlled trial. BMC Health Services Research, 2014, 14, 144.	2.2	13
79	The role of social support in dialysis patients' feelings of autonomy and self-esteem: Is support more beneficial for patients with specific illness perceptions?. Families, Systems and Health, 2014, 32, 313-327.	0.6	13
80	Preferences and experiences of chronically ill and disabled patients regarding shared decision-making: Does the type of care to be decided upon matter?. Patient Education and Counseling, 2011, 84, 111-117.	2.2	12
81	Effectiveness of a self-management support program for type 2 diabetes patients in the first years of illness: Results from a randomized controlled trial. PLoS ONE, 2019, 14, e0218242.	2.5	12
82	Disentangling the effect of illness perceptions on health status in people with type 2 diabetes after an acute coronary event. BMC Family Practice, 2018, 19, 35.	2.9	11
83	Comparison of perceptions of obesity among adults with central obesity with and without additional cardiometabolic risk factors and among those who were formally obese, 3 years after screening for central obesity. BMC Public Health, 2015, 15, 1214.	2.9	10
84	Self-care of patients with type 2 diabetes mellitus over the course of illness: implications for tailoring support. Journal of Diabetes and Metabolic Disorders, 2020, 19, 81-89.	1.9	10
85	Identifying multimorbid patients with high care needs - A study based on electronic medical record data. European Journal of General Practice, 2020, 26, 189-195.	2.0	10
86	Podiatric care for diabetic patients with foot problems. International Journal of Rehabilitation Research, 1999, 22, 181-188.	1.3	9
87	Tailored support for type 2 diabetes patients with an acute coronary event after discharge from hospital - design and development of a randomised controlled trial. Diabetology and Metabolic Syndrome, 2014, 6, 5.	2.7	9
88	Effectiveness of tailored support for people with Type 2 diabetes after a first acute coronary event: a multicentre randomized controlled trial (the Diacourse-ACE study). Diabetic Medicine, 2016, 33, 125-133.	2.3	9
89	Identifying high-need patients with multimorbidity from their illness perceptions and personal resources to manage their health and care: a longitudinal study. BMC Family Practice, 2020, 21, 75.	2.9	9
90	The possession of technical aids among persons with a somatic chronic disease. Disability and Rehabilitation, 2003, 25, 393-398.	1.8	8

#	ARTICLE	IF	CITATIONS
91	The combined effect of cancer and chronic diseases on general practitioner consultation rates. Cancer Epidemiology, 2015, 39, 109-114.	1.9	8
92	What part of the total care consumed by type 2 diabetes patients is directly related to diabetes? Implications for disease management programs. International Journal of Integrated Care, 2011, 11, e140.	0.2	8
93	People with multimorbidity: forgotten outsiders or dynamic self-managers?. Journal of Health Organization and Management, 2014, 28, 696-712.	1.3	7
94	Green space and changes in self-rated health among people with chronic illness. European Journal of Public Health, 2014, 24, 640-642.	0.3	7
95	Perceived quality of chronic illness care is associated with self-management: Results of a nationwide study in the Netherlands. Health Policy, 2016, 120, 431-439.	3.0	7
96	Cancer survivors' activation to self-management and its relationship with participation in paid work and work-related problems. Psycho-Oncology, 2017, 26, 1881-1887.	2.3	7
97	People with activity limitations™ perceptions of their health condition and their relationships with social participation and experienced autonomy. BMC Public Health, 2019, 19, 1536.	2.9	7
98	Assessing the experience of person-centred coordinated care of people with chronic conditions in the Netherlands: Validation of the Dutch P3CEQ. Health Expectations, 2022, 25, 1069-1080.	2.6	7
99	From protocolized to person-centered chronic care in general practice: study protocol of an action-based research project (COPILOT). Primary Health Care Research and Development, 2019, 20, e134.	1.2	6
100	Application of the JA-CHRODIS Integrated Multimorbidity Care Model (IMCM) to a Case Study of Diabetes and Mental Health. International Journal of Environmental Research and Public Health, 2019, 16, 5151.	2.6	6
101	Priorities and preferences for care of people with multiple chronic conditions. Health Expectations, 2021, 24, 1300-1311.	2.6	6
102	Measuring Older Peoples™ Experiences of Person-Centred Coordinated Care: Experience and Methodological Reflections from Applying a Patient Reported Experience Measure in SUSTAIN. International Journal of Integrated Care, 2021, 21, 3.	0.2	5
103	Collaborating on Early Detection of Frailty; a Multifaceted Challenge. International Journal of Integrated Care, 2019, 19, 6.	0.2	5
104	Individual care plans in chronic illness care: aims, use and outcomes. International Journal of Integrated Care, 2016, 16, 209.	0.2	4
105	Chronic conditions and multimorbidity: skill-mix innovations for enhanced quality and coordination of care. , 2022, , 152-220.		3
106	Separate and joint effects of physical and mental health on participation of people with somatic chronic illness. Journal of Nursing and Healthcare of Chronic Illness, 2011, 3, 61-72.	0.5	2
107	Effect of the partner's health and support on cancer patients' use of general practitioner care. Psycho-Oncology, 2016, 25, 559-566.	2.3	2
108	Psychological and Social Aspects of Living with Chronic Kidney Disease. , 2012, , .		1
