

Kathryn L Humphreys

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/5131729/kathryn-l-humphreys-publications-by-year.pdf>

Version: 2024-04-23

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
114	Caregiver-child proximity as a dimension of early experience.. <i>Development and Psychopathology</i> , 2022 , 1-19	4.3	0
113	Hair cortisol concentration across the peripartum period: Documenting changes and associations with depressive symptoms and recent adversity. <i>Comprehensive Psychoneuroendocrinology</i> , 2022 , 9, 100102	11.1	1
112	The long arm of adversity: Children's kindergarten math skills are associated with maternal childhood adversity.. <i>Child Abuse and Neglect</i> , 2022 , 105561	4.3	1
111	Validation of the Assessment of Parent and Child Adversity (APCA) in Mothers and Young Children.. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2022 , 1-16	5.4	0
110	Statutory Threshold Wording is Associated with Child Maltreatment Reporting.. <i>Child Maltreatment</i> , 2022 , 10775595221092961	2.8	
109	Heightened sensitivity to the caregiving environment during adolescence: implications for recovery following early-life adversity. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2021 , 62,	7.9	6
108	Attachment Security in Pregnancy Mediates the Association Between Maternal Childhood Maltreatment and Emotional and Behavioral Problems in Offspring. <i>Child Psychiatry and Human Development</i> , 2021 , 52, 966-977	3.3	1
107	Parents' Perspectives on Using Artificial Intelligence to Reduce Technology Interference During Early Childhood: Cross-sectional Online Survey. <i>Journal of Medical Internet Research</i> , 2021 , 23, e19461	7.6	1
106	Pregnancy during the pandemic: the impact of COVID-19-related stress on risk for prenatal depression. <i>Psychological Medicine</i> , 2021 , 1-11	6.9	6
105	Prenatal and postnatal depressive symptoms, infant white matter, and toddler behavioral problems. <i>Journal of Affective Disorders</i> , 2021 , 282, 465-471	6.6	2
104	Longitudinal changes in amygdala, hippocampus and cortisol development following early caregiving adversity. <i>Developmental Cognitive Neuroscience</i> , 2021 , 48, 100916	5.5	17
103	Dimensions of the language environment in infancy and symptoms of psychopathology in toddlerhood. <i>Developmental Science</i> , 2021 , 24, e13082	4.5	7
102	Neurophysiological contributors to advantageous risk-taking: an experimental psychopharmacological investigation. <i>Social Cognitive and Affective Neuroscience</i> , 2021 , 16, 926-936	4	1
101	Multi-Site Infant Brain Segmentation Algorithms: The iSeg-2019 Challenge. <i>IEEE Transactions on Medical Imaging</i> , 2021 , 40, 1363-1376	11.7	15
100	Population-Based Estimates of Associations Between Child Maltreatment Types: A Meta-Analysis. <i>Trauma, Violence, and Abuse</i> , 2021 , 15248380211030502	6.6	2
99	The emotional tone of child descriptions during pregnancy is associated with later parenting. <i>Infant Mental Health Journal</i> , 2021 , 42, 731-739	2.3	2
98	A randomized control trial of a child abuse mandated reporter training: Knowledge and attitudes. <i>Child Abuse and Neglect</i> , 2021 , 117, 105033	4.3	0

97	Adverse caregiving in early life: The trauma and deprivation distinction in young children. <i>Infant Mental Health Journal</i> , 2021 , 42, 87-95	2.3	5
96	Naturalistic Language Input is Associated with Resting-State Functional Connectivity in Infancy. <i>Journal of Neuroscience</i> , 2021 , 41, 424-434	6.6	12
95	Early caregiving quality predicts consistency of competent functioning from middle childhood to adolescence following early psychosocial deprivation. <i>Development and Psychopathology</i> , 2021 , 33, 18-28	4.3	1
94	Breastfeeding Difficulties Predict Mothers' Bonding with Their Infants from Birth to Age Six Months. <i>Maternal and Child Health Journal</i> , 2021 , 25, 777-785	2.4	3
93	Advancing the RDoC initiative through the assessment of caregiver social processes. <i>Development and Psychopathology</i> , 2021 , 1-17	4.3	3
92	Measuring naturalistic proximity as a window into caregiver-child interaction patterns. <i>Behavior Research Methods</i> , 2021 , 1	6.1	5
91	The Value of Dimensional Models of Early Experience: Thinking Clearly About Concepts and Categories. <i>Perspectives on Psychological Science</i> , 2021 , 16, 1463-1472	9.8	34
90	Prenatal stress exposure and multimodal assessment of amygdala-medial prefrontal cortex connectivity in infants. <i>Developmental Cognitive Neuroscience</i> , 2020 , 46, 100877	5.5	13
89	Expectable Environments in Early Life. <i>Current Opinion in Behavioral Sciences</i> , 2020 , 36, 115-119	4	11
88	Distinctions between sex and time in patterns of DNA methylation across puberty. <i>BMC Genomics</i> , 2020 , 21, 389	4.5	3
87	Depressive symptoms in parents are associated with reduced empathy toward their young children. <i>PLoS ONE</i> , 2020 , 15, e0230636	3.7	6
86	Early Life Stress, Frontoamygdala Connectivity, and Biological Aging in Adolescence: A Longitudinal Investigation. <i>Cerebral Cortex</i> , 2020 , 30, 4269-4280	5.1	22
85	Global prevalence of institutional care for children: a call for change. <i>The Lancet Child and Adolescent Health</i> , 2020 , 4, 343-344	14.5	0
84	Cross-sectional and longitudinal associations of family income-to-needs ratio with cortical and subcortical brain volume in adolescent boys and girls. <i>Developmental Cognitive Neuroscience</i> , 2020 , 44, 100796	5.5	10
83	Studying the Intergenerational Transmission of Risk for Depression: Current Status and Future Directions. <i>Current Directions in Psychological Science</i> , 2020 , 29, 174-179	6.5	23
82	Child maltreatment and depression: A meta-analysis of studies using the Childhood Trauma Questionnaire. <i>Child Abuse and Neglect</i> , 2020 , 102, 104361	4.3	76
81	Epigenetic signatures of attachment insecurity and childhood adversity provide evidence for role transition in the pathogenesis of perinatal depression. <i>Translational Psychiatry</i> , 2020 , 10, 48	8.6	11
80	Increased Risk for Family Violence During the COVID-19 Pandemic. <i>Pediatrics</i> , 2020 , 146,	7.4	114

79	Psychosocial deprivation and receptive language ability: a two-sample study. <i>Journal of Neurodevelopmental Disorders</i> , 2020 , 12, 36	4.6	1
78	Psychiatric outcomes following severe deprivation in early childhood: Follow-up of a randomized controlled trial at age 16. <i>Journal of Consulting and Clinical Psychology</i> , 2020 , 88, 1079-1090	6.5	4
77	Meta-analysis: Exposure to Early Life Stress and Risk for Depression in Childhood and Adolescence. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2020 , 59, 842-855	7.2	84
76	Cerebral blood flow in 5- to 8-month-olds: Regional tissue maturity is associated with infant affect. <i>Developmental Science</i> , 2020 , 23, e12928	4.5	9
75	Neurobiological changes during the peripartum period: implications for health and behavior. <i>Social Cognitive and Affective Neuroscience</i> , 2020 , 15, 1097-1110	4	14
74	Child Maltreatment Recurrence Points to Urgent Need to Improve Systems for Identification and Prevention. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2020 , 59, 1102-1104	7.2	3
73	Socioeconomic status and inflammation: a meta-analysis. <i>Molecular Psychiatry</i> , 2020 , 25, 2189-2199	15.1	52
72	Mind and gut: Associations between mood and gastrointestinal distress in children exposed to adversity. <i>Development and Psychopathology</i> , 2020 , 32, 309-328	4.3	27
71	Depressive Symptoms Predict Change in Telomere Length and Mitochondrial DNA Copy Number Across Adolescence. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2020 , 59, 1364-1370.e2	7.3	8
70	Associations Between Maternal Depression and Infant Fronto-Limbic Connectivity 2019 ,		1
69	DNA methylation of HPA-axis genes and the onset of major depressive disorder in adolescent girls: a prospective analysis. <i>Translational Psychiatry</i> , 2019 , 9, 245	8.6	25
68	Future Directions in the Study and Treatment of Parent-Child Separation. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2019 , 48, 166-178	5.4	19
67	Early Caregiving Intervention Holds Promise for Long-term Improvements in Neural Function Following Adversity. <i>Biological Psychiatry</i> , 2019 , 85, e15-e16	7.9	1
66	Disinhibited Social Engagement Disorder in Early Childhood Predicts Reduced Competence in Early Adolescence. <i>Journal of Abnormal Child Psychology</i> , 2019 , 47, 1735-1745	4	1
65	Early life stress, cortisol, frontolimbic connectivity, and depressive symptoms during puberty. <i>Development and Psychopathology</i> , 2019 , 31, 1011-1022	4.3	17
64	Decreased Amygdala Reactivity to Parent Cues Protects Against Anxiety Following Early Adversity: An Examination Across 3 Years. <i>Biological Psychiatry: Cognitive Neuroscience and Neuroimaging</i> , 2019 , 4, 664-671	3.4	34
63	The Neglect-Enrichment Continuum: Characterizing Variation in Early Caregiving Environments. <i>Developmental Review</i> , 2019 , 51, 109-122	7.4	26
62	A prospective longitudinal study of Reactive Attachment Disorder following early institutional care: considering variable- and person-centered approaches. <i>Attachment and Human Development</i> , 2019 , 21, 95-110	2.8	17

61	Stressful Life Events, ADHD Symptoms, and Brain Structure in Early Adolescence. <i>Journal of Abnormal Child Psychology</i> , 2019 , 47, 421-432	4	17
60	Irritability and brain volume in adolescents: cross-sectional and longitudinal associations. <i>Social Cognitive and Affective Neuroscience</i> , 2019 , 14, 687-698	4	11
59	Friendship and social functioning following early institutional rearing: The role of ADHD symptoms. <i>Development and Psychopathology</i> , 2019 , 31, 1477-1487	4.3	5
58	Signs of attachment disorders and social functioning among early adolescents with a history of institutional care. <i>Child Abuse and Neglect</i> , 2019 , 88, 96-106	4.3	19
57	Evidence for a sensitive period in the effects of early life stress on hippocampal volume. <i>Developmental Science</i> , 2019 , 22, e12775	4.5	36
56	Irritability, Externalizing, and Internalizing Psychopathology in Adolescence: Cross-Sectional and Longitudinal Associations and Moderation by Sex. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2019 , 48, 781-789	5.4	19
55	A person-centered approach to the assessment of early life stress: Associations with the volume of stress-sensitive brain regions in early adolescence. <i>Development and Psychopathology</i> , 2019 , 31, 643-655	4.3	17
54	Foster care promotes adaptive functioning in early adolescence among children who experienced severe, early deprivation. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2018 , 59, 811-821	7.9	21
53	Time-varying effects of income on hippocampal volume trajectories in adolescent girls. <i>Developmental Cognitive Neuroscience</i> , 2018 , 30, 41-50	5.5	24
52	Course of Disinhibited Social Engagement Disorder From Early Childhood to Early Adolescence. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2018 , 57, 329-335.e2	7.2	21
51	Self-reported neglect, amygdala volume, and symptoms of anxiety in adolescent boys. <i>Child Abuse and Neglect</i> , 2018 , 80, 80-89	4.3	25
50	Risky decision-making in children with and without ADHD: A prospective study. <i>Child Neuropsychology</i> , 2018 , 24, 261-276	2.7	5
49	Maternal depressive symptoms, self-focus, and caregiving behavior. <i>Journal of Affective Disorders</i> , 2018 , 238, 465-471	6.6	22
48	Child Abuse and Neglect. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2018 , 57, 637-644	7.2	43
47	The Role of Anxiety Control and Treatment Implications of Informant Agreement on Child PTSD Symptoms. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2017 , 46, 903-914	5.4	17
46	Effects of sensitivity to life stress on uncinate fasciculus segments in early adolescence. <i>Social Cognitive and Affective Neuroscience</i> , 2017 , 12, 1460-1469	4	30
45	Diurnal cortisol after early institutional care-Age matters. <i>Developmental Cognitive Neuroscience</i> , 2017 , 25, 160-166	5.5	20
44	The impact of the severity of early life stress on diurnal cortisol: The role of puberty. <i>Psychoneuroendocrinology</i> , 2017 , 77, 68-74	5	60

43	Alternatives for abandoned children: insights from the Bucharest Early Intervention Project. <i>Current Opinion in Psychology</i> , 2017 , 15, 182-188	6.2	42
42	Psychopathology Following Severe Deprivation: History, Research, and Implications of the Bucharest Early Intervention Project 2017 , 129-148		6
41	Positive valence bias and parent-child relationship security moderate the association between early institutional caregiving and internalizing symptoms. <i>Development and Psychopathology</i> , 2017 , 29, 519-533	4.3	41
40	Signs of reactive attachment disorder and disinhibited social engagement disorder at age 12 years: Effects of institutional care history and high-quality foster care. <i>Development and Psychopathology</i> , 2017 , 29, 675-684	4.3	41
39	The association between early life stress and prefrontal cortex activation during implicit emotion regulation is moderated by sex in early adolescence. <i>Development and Psychopathology</i> , 2017 , 29, 1851-1864	4.3	37
38	Attentional avoidance of fearful facial expressions following early life stress is associated with impaired social functioning. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2016 , 57, 1174-82	7.9	27
37	Impaired Social Decision-Making Mediates the Association Between ADHD and Social Problems. <i>Journal of Abnormal Child Psychology</i> , 2016 , 44, 1023-32	4	32
36	Previous Institutionalization Is Followed by Broader Amygdala-Hippocampal-PFC Network Connectivity during Aversive Learning in Human Development. <i>Journal of Neuroscience</i> , 2016 , 36, 6420-30	6.6	74
35	Risky decision making from childhood through adulthood: Contributions of learning and sensitivity to negative feedback. <i>Emotion</i> , 2016 , 16, 101-9	4.1	15
34	Discrimination of amygdala response predicts future separation anxiety in youth with early deprivation. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2016 , 57, 1135-44	7.9	14
33	DNA methylation at stress-related genes is associated with exposure to early life institutionalization. <i>American Journal of Physical Anthropology</i> , 2016 , 161, 84-93	2.5	67
32	Stimulus-Elicited Connectivity Influences Resting-State Connectivity Years Later in Human Development: A Prospective Study. <i>Journal of Neuroscience</i> , 2016 , 36, 4771-84	6.6	39
31	Accelerated telomere shortening: Tracking the lasting impact of early institutional care at the cellular level. <i>Psychiatry Research</i> , 2016 , 246, 95-100	9.9	34
30	Serotonin transporter linked polymorphic region (5-HTTLPR) genotype moderates the longitudinal impact of early caregiving on externalizing behavior. <i>Development and Psychopathology</i> , 2015 , 27, 7-18	4.3	34
29	Effects of institutional rearing and foster care on psychopathology at age 12 years in Romania: follow-up of an open, randomised controlled trial. <i>Lancet Psychiatry</i> , 2015 , 2, 625-34	23.3	116
28	"The Cooties Effect": Amygdala Reactivity to Opposite- versus Same-sex Faces Declines from Childhood to Adolescence. <i>Journal of Cognitive Neuroscience</i> , 2015 , 27, 1685-96	3.1	13
27	High-Quality Foster Care Mitigates Callous-Unemotional Traits Following Early Deprivation in Boys: A Randomized Controlled Trial. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2015 , 54, 977-83	7.2	28
26	Deviations from the expectable environment in early childhood and emerging psychopathology. <i>Neuropsychopharmacology</i> , 2015 , 40, 154-70	8.7	131

25	Infant Development: The First 3 Years of Life 2015 , 134-158		6
24	Exploration-exploitation strategy is dependent on early experience. <i>Developmental Psychobiology</i> , 2015 , 57, 313-21	3	37
23	Serotonin Transporter Genotype (5HTTLPR) Moderates the Longitudinal Impact of Atypical Attachment on Externalizing Behavior. <i>Journal of Developmental and Behavioral Pediatrics</i> , 2015 , 36, 409-16	2.4	16
22	Using cross-species comparisons and a neurobiological framework to understand early social deprivation effects on behavioral development. <i>Development and Psychopathology</i> , 2015 , 27, 347-67	4.3	28
21	The development of human amygdala functional connectivity at rest from 4 to 23 years: a cross-sectional study. <i>NeuroImage</i> , 2014 , 95, 193-207	7.9	255
20	Interactive association of dopamine receptor (DRD4) genotype and ADHD on alcohol expectancies in children. <i>Experimental and Clinical Psychopharmacology</i> , 2014 , 22, 100-9	3.2	11
19	Race moderates the association of Catechol-O-methyltransferase genotype and posttraumatic stress disorder in preschool children. <i>Journal of Child and Adolescent Psychopharmacology</i> , 2014 , 24, 454-7 ⁹	2.9	13
18	Psychopathology in young children in two types of foster care following institutional rearing. <i>Infant Mental Health Journal</i> , 2014 , 35, 123-31	2.3	18
17	Differential association of child abuse with self-reported versus laboratory-based impulsivity and risk-taking in young adulthood. <i>Child Maltreatment</i> , 2014 , 19, 145-55	2.8	26
16	Not all risk taking behavior is bad: Associative sensitivity predicts learning during risk taking among high sensation seekers. <i>Personality and Individual Differences</i> , 2013 , 54, 709-715	3.3	21
15	A developmental shift from positive to negative connectivity in human amygdala-prefrontal circuitry. <i>Journal of Neuroscience</i> , 2013 , 33, 4584-93	6.6	449
14	Amygdala sensitivity to race is not present in childhood but emerges over adolescence. <i>Journal of Cognitive Neuroscience</i> , 2013 , 25, 234-44	3.1	45
13	The association of ADHD and depression: mediation by peer problems and parent-child difficulties in two complementary samples. <i>Journal of Abnormal Psychology</i> , 2013 , 122, 854-867	7	75
12	Stimulant medication and substance use outcomes: a meta-analysis. <i>JAMA Psychiatry</i> , 2013 , 70, 740-9	14.5	138
11	Early developmental emergence of human amygdala-prefrontal connectivity after maternal deprivation. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2013 , 110, 15638-43	11.5	535
10	Association of anxiety and ODD/CD in children with and without ADHD. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2012 , 41, 370-7	5.4	19
9	Prospective association of childhood attention-deficit/hyperactivity disorder (ADHD) and substance use and abuse/dependence: a meta-analytic review. <i>Clinical Psychology Review</i> , 2011 , 31, 328-41 ⁸	10.8	549
8	Risk Taking and Sensitivity to Punishment in Children with ADHD, ODD, ADHD+ODD, and Controls. <i>Journal of Psychopathology and Behavioral Assessment</i> , 2011 , 33, 299-307	2	61

7	Dimensions of the language environment in infancy and symptoms of psychopathology in toddlerhood	2
6	Population-based estimates of associations between child maltreatment type: A meta-analysis	2
5	The Value of Dimensional Models of Early Experience: Thinking Clearly about Concepts and Categories	5
4	Pregnancy during the pandemic: The impact of COVID-19-related stress on risk for prenatal depression	2
3	Measuring naturalistic proximity as a window into caregiver-child interaction patterns	4
2	Age-related change in task-evoked amygdala-prefrontal circuitry: a multiverse approach with an accelerated longitudinal cohort aged 4-22 years	1
1	Shared worlds and shared consequences: Initial validation of the Assessment of Parent and Child Adversity (APCA)	3
