

Eugenio Santoro

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/5133754/eugenio-santoro-publications-by-year.pdf>

Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

51 papers	2,819 citations	24 h-index	53 g-index
62 ext. papers	3,152 ext. citations	8.9 avg, IF	4.2 L-index

#	Paper	IF	Citations
51	Prevalence and Correlates of Overweight, Obesity and Physical Activity in Italian Children and Adolescents from Lombardy, Italy. <i>Nutrients</i> , 2022 , 14, 2258	6.7	0
50	A Proposal For COVID-19 Applications Enabling Extensive Epidemiological Studies. <i>Procedia Computer Science</i> , 2021 , 181, 589-596	1.6	0
49	The Role of Technology and Social Media Use in Sleep-Onset Difficulties Among Italian Adolescents: Cross-sectional Study. <i>Journal of Medical Internet Research</i> , 2021 , 23, e20319	7.6	5
48	Use of Health Apps and Wearable Devices: Survey Among Italian Associations for Patient Advocacy. <i>JMIR MHealth and UHealth</i> , 2019 , 7, e10242	5.5	13
47	An overview on the emerging area of identification, characterization, and assessment of health apps. <i>Journal of Biomedical Informatics</i> , 2018 , 83, 97-102	10.2	36
46	DIABESITY: A Study for mHealth Integrated Solutions. <i>Lecture Notes of the Institute for Computer Sciences, Social-Informatics and Telecommunications Engineering</i> , 2017 , 195-199	0.2	
45	Prevalence and Determinants of Tinnitus in the Italian Adult Population. <i>Neuroepidemiology</i> , 2015 , 45, 12-9	5.4	78
44	Social media and mobile applications in chronic disease prevention and management. <i>Frontiers in Psychology</i> , 2015 , 6, 567	3.4	33
43	Managing chronic pathologies with a stepped mHealth-based approach in clinical psychology and medicine. <i>Frontiers in Psychology</i> , 2015 , 6, 407	3.4	24
42	Causes of death in patients with acute myocardial infarction treated with angiotensin-converting enzyme inhibitors: findings from the Gruppo Italiano per lo Studio della Sopravvivenza nell'Infarto (GISSI)-3 trial. <i>American Heart Journal</i> , 2008 , 155, 388-94	4.9	21
41	The DEC-net European register of paediatric drug therapy trials: contents and context. <i>European Journal of Clinical Pharmacology</i> , 2008 , 64, 611-7	2.8	6
40	The contribution of information technology: towards a better clinical data management. <i>Drug Development Research</i> , 2006 , 67, 245-250	5.1	10
39	DEC-net: the development of the European register of clinical trials on medicines for children. <i>Clinical Trials</i> , 2006 , 3, 366-75	2.2	4
38	Launch of a European paediatric clinical trials register. <i>Paediatric and Perinatal Drug Therapy</i> , 2004 , 6, 38-39		5
37	Internet and information on breast cancer: an overview. <i>Breast</i> , 2003 , 12, 424-31	3.6	1
36	Ergometric score systems after myocardial infarction: prognostic performance of the Duke Treadmill Score, Veterans Administration Medical Center Score, and of a novel score system, GISSI-2 Index, in a cohort of survivors of acute myocardial infarction. <i>American Heart Journal</i> , 2003 , 145, 475-83	4.9	15
35	Internet and cardiovascular research: the present and its future potentials and limits. <i>Minimally Invasive Therapy and Allied Technologies</i> , 2002 , 11, 73-5	2.1	2

34	Clinical value of 12-lead electrocardiography to predict the long-term prognosis of GISSI-1 patients. <i>Journal of the American College of Cardiology</i> , 2002 , 39, 1594-600	15.1	22
33	Risks and benefits of early treatment of acute myocardial infarction with an angiotensin-converting enzyme inhibitor in patients with a history of arterial hypertension: analysis of the GISSI-3 database. <i>American Heart Journal</i> , 2002 , 144, 1018-25	4.9	21
32	Incidence and short-term prognosis of late sustained ventricular tachycardia after myocardial infarction: results of the Gruppo Italiano per lo Studio della Sopravvivenza nell'Infarto Miocardico (GISSI-3) Data Base. <i>American Heart Journal</i> , 2001 , 142, 87-92	4.9	38
31	Absence of slowest oscillations in short term heart rate variability of post-myocardial infarction patients. GISSI-3 arrhythmias substudy. GISSI-3 Arrhythmias Substudy Investigators. <i>Autonomic Neuroscience: Basic and Clinical</i> , 2001 , 90, 127-31	2.4	3
30	Spectral and bidirectional filters give different results for signal-averaged ECG analysis in patients with postmyocardial infarction. GISSI-3 Arrhythmias Substudy Investigators. <i>Journal of Electrocardiology</i> , 2000 , 33, 233-40	1.4	2
29	Clinical effects of early angiotensin-converting enzyme inhibitor treatment for acute myocardial infarction are similar in the presence and absence of aspirin: systematic overview of individual data from 96,712 randomized patients. Angiotensin-converting Enzyme Inhibitor Myocardial Infarction Collaborative Group. <i>British Medical Journal</i> , 2000 , 321, 1891-7	15.1	129
28	Telecommunication technology for the management of large scale clinical trials: the Gissi experience. <i>Computer Methods and Programs in Biomedicine</i> , 1999 , 60, 215-23	6.9	9
27	Internet for clinical trials: past, present, and future. <i>Contemporary Clinical Trials</i> , 1999 , 20, 194-201		34
26	Very early assessment of risk for in-hospital death among 11,483 patients with acute myocardial infarction. GISSI investigators. <i>American Heart Journal</i> , 1999 , 138, 1058-64	4.9	34
25	Predischarge two-dimensional echocardiographic evaluation of left ventricular thrombosis after acute myocardial infarction in the GISSI-3 study. <i>American Journal of Cardiology</i> , 1998 , 81, 822-7	3	112
24	Cost-effectiveness analysis of early lisinopril use in patients with acute myocardial infarction. Results from GISSI-3 trial. <i>Pharmacoeconomics</i> , 1998 , 13, 337-46	4.4	11
23	Ten-year follow-up of the first megatrial testing thrombolytic therapy in patients with acute myocardial infarction: results of the Gruppo Italiano per lo Studio della Sopravvivenza nell'Infarto-1 study. The GISSI Investigators. <i>Circulation</i> , 1998 , 98, 2659-65	16.7	133
22	Epidemiology of post-infarction risk stratification strategies in a country with a low volume of revascularization procedures. GISSI-Prognosis Investigators. <i>European Heart Journal</i> , 1998 , 19, 1784-94	9.5	9
21	Smoking is not a protective factor for patients with acute myocardial infarction: the viewpoint of the GISSI-2 Study. <i>Giornale Italiano Di Cardiologia</i> , 1998 , 28, 970-8		14
20	Role of interactions between psychological and clinical factors in determining 6-month mortality among patients with acute myocardial infarction. Application of recursive partitioning techniques to the GISSI-2 database. Gruppo Italiano per lo Studio della Sopravvivenza nell'Infarto Miocardico. <i>European Heart Journal</i> , 1997 , 18, 835-45	9.5	45
19	Use of beta-blocking agents in secondary prevention after myocardial infarction: a case for evidence-based medicine? GISSI experience, 1984-1993. The Gruppo Italiano di Studio sulla Sopravvivenza nell'Infarto Miocardico (GISSI) Investigators. <i>European Heart Journal</i> , 1997 , 18, 1447-56	9.5	19
18	Pericardial involvement in acute myocardial infarction in the post-thrombolytic era: clinical meaning and value. <i>Clinical Cardiology</i> , 1997 , 20, 327-31	3.3	12
17	Prognostic significance of heart rate variability in post-myocardial infarction patients in the fibrinolytic era. The GISSI-2 results. Gruppo Italiano per lo Studio della Sopravvivenza nell'Infarto Miocardico. <i>Circulation</i> , 1996 , 94, 432-6	16.7	167

16	Antiarrhythmic Drug Prescription in Patients After Myocardial Infarction in the Last Decade. <i>Archives of Internal Medicine</i> , 1995 , 155, 1041		4
15	Prognostic significance of maximal exercise testing after myocardial infarction treated with thrombolytic agents: the GISSI-2 data-base. Gruppo Italiano per lo Studio della Sopravvivenza nell'Infarto. <i>Lancet, The</i> , 1995 , 346, 523-9	40	97
14	Predictors of nonfatal reinfarction in survivors of myocardial infarction after thrombolysis. Results of the Gruppo Italiano per lo Studio della Sopravvivenza nell'Infarto Miocardico (GISSI-2) Data Base. <i>Journal of the American College of Cardiology</i> , 1994 , 24, 608-15	15.1	38
13	Frequency of predischARGE ventricular arrhythmias in postmyocardial infarction patients depends on residual left ventricular pump performance and is independent of the occurrence of acute reperfusion. The GISSI-2 Investigators. <i>Journal of the American College of Cardiology</i> , 1994 , 23, 290-5	15.1	5
12	Age-related increase in mortality among patients with first myocardial infarctions treated with thrombolysis. The Investigators of the Gruppo Italiano per lo Studio della Sopravvivenza nell'Infarto Miocardico (GISSI-2). <i>New England Journal of Medicine</i> , 1993 , 329, 1442-8	59.2	317
11	Determinants of 6-month mortality in survivors of myocardial infarction after thrombolysis. Results of the GISSI-2 data base. The Ad hoc Working Group of the Gruppo Italiano per lo Studio della Sopravvivenza nell'Infarto Miocardico (GISSI)-2 Data Base. <i>Circulation</i> , 1993 , 88, 416-29	16.7	322
10	Prevalence and prognostic significance of ventricular arrhythmias after acute myocardial infarction in the fibrinolytic era. GISSI-2 results. <i>Circulation</i> , 1993 , 87, 312-22	16.7	256
9	P10 A computerized network system for the management of a large scale multicentre clinical trial: The GISSI-3 trial. <i>Contemporary Clinical Trials</i> , 1993 , 14, 430		2
8	Comparison of frequency, diagnostic and prognostic significance of pericardial involvement in acute myocardial infarction treated with and without thrombolytics. Gruppo Italiano per lo Studio della Sopravvivenza nell'Infarto Miocardico (GISSI). <i>American Journal of Cardiology</i> , 1993 , 71, 1377-81	3	50
7	The risk of stroke in patients with acute myocardial infarction after thrombolytic and antithrombotic treatment. Gruppo Italiano per lo Studio della Sopravvivenza nell'Infarto Miocardico II (GISSI-2), and The International Study Group. <i>New England Journal of Medicine</i> , 1992 , 327, 1-6	59.2	274
6	Incidence and prognosis of secondary ventricular fibrillation in acute myocardial infarction. Evidence for a protective effect of thrombolytic therapy. GISSI Investigators. <i>Circulation</i> , 1990 , 82, 1279-88	16.7	63
5	MEDICAL SCIENCE GISSI-2: A factorial randomised trial of alteplase versus streptokinase and heparin versus no heparin among 12 490 patients with acute myocardial infarction. <i>Lancet, The</i> , 1990 , 336,	40	47
4	One-year prognosis of primary ventricular fibrillation complicating acute myocardial infarction. The GISSI (Gruppo Italiano per lo Studio della Streptochinasi nell'Infarto miocardico) investigators. <i>American Journal of Cardiology</i> , 1989 , 63, 1174-8	3	73
3	Prognostic significance of the extent of myocardial injury in acute myocardial infarction treated by streptokinase (the GISSI trial). <i>American Journal of Cardiology</i> , 1989 , 63, 1291-5	3	93
2	RES3/417: The Development of a Clinical Trial Web Site: a proposal for a model. <i>Journal of Medical Internet Research</i> , 1 , e79	7.6	78
1	Clinical Trials Data Management1
